Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Otis Elevator Company Puerto Rico Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of the Otis Elevator Company Puerto Rico Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of September 30, 2021 and 2020, the related statements of changes in net assets available for benefits for the years ended September 30, 2021 and 2020, the statement of accumulated plan benefits as of September 30, 2020, the related statement of changes in accumulated plan benefits for the year ended September 30, 2020, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 4, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of September 30, 2021 and 2020, and for the years ended September 30, 2021 and 2020, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of assets (held at end of year) as of September 30, 2021 and the schedule of reportable transactions for the year ended September 30, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 4, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

September 30, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN

General

The following brief description of the Plan is provided for general information purposes only. More complete information is provided by the plan document, which is available from the Plan Administrator.

The Otis Elevator Company Puerto Rico Pension Plan (the "Plan") is a noncontributory defined benefit pension plan that was established to provide retirement benefits and death benefits to eligible participants and beneficiaries. The Plan covers certain salaried and hourly employees of the Otis Elevator Company in Puerto Rico or certain of its affiliates that have adopted the Plan (collectively referred to as the "Company"), including certain union employees. Employees who are residents of Puerto Rico for tax purposes, 21 years of age and who have completed one year of eligible service upon hire are eligible to participate in the Plan. The Plan is administered by the Otis Elevator Company through the Employee Benefit Plan Committee and its delegates (the "Plan Administrator") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is maintained subject to a collective bargaining agreement between Otis Elevator Company and the Los Gladiadores union for certain employees.

Effective April 3, 2020, the Company was spun off from United Technologies Corporation (the "Former Parent Company" or "UTC") and sponsorship of the Plan was transferred from the Former Parent Company to Otis Worldwide Corporation, the newly-formed parent company of Otis Elevator Company.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2021 and 2020, the Company made contributions of \$68,491 and \$132,721, respectively. The Company's contribution for 2021 and 2020 exceeded the minimum funding requirements of ERISA.

Pension Benefits

Participants become fully vested in the Plan upon completion of five years of vesting service. Upon termination of service or retirement, a participant receives his or her vested accrued benefit. Normal retirement benefits are based on credited service and salaried or hourly status. A salaried employee's annual retirement benefit equals \$360 per year of credited service. An hourly employee's annual benefit equals the sum of \$33 multiplied by credited service prior to October 1, 1977, plus \$39 multiplied by credited service from October 1, 1977 to September 30, 1989, plus \$126 multiplied by credited service accrued on or after October 1, 1989.

An employee can retire earlier than on the normal retirement date (age 65) if he or she has attained age 55 with 20 years of vesting service. The early retirement benefit will be the accrued benefit reduced by 6% for each year prior to age 65.

Employees may elect to receive their benefits on a straight-life basis, an actuarially equivalent 50%, 66%, 75% or 100% joint and spouse annuity option, an actuarially equivalent 10 year certain and continuous annuity option, or an actuarially equivalent Social Security level benefit option. Unless otherwise elected, any benefit payable under the Plan shall be paid (i) on a 50% joint and spouse basis, if the employee is married on the date their benefit commences, or (ii) on a straight-life basis otherwise. The normal form of payment is converted to an annuity form using an interest rate of 7.00% and 1971 GAM Mortality (Male) with three-year setback.

Death and Disability Benefits

Upon the death of an employee or former employee prior to commencement of his or her vested pension benefits who has been married to their spouse for at least one year prior to death, the surviving spouse will receive the benefit which would have been paid if the employee had terminated on the day prior to their death and had elected a 50% joint and spouse annuity option as of the spouse's date of commencement. The spouse's benefit will commence on the first day of the month following the later of (i) the month of the employee's death or (ii) the month of the earliest retirement date.

Participants who (i) become totally and permanently disabled while actively employed by the Company, with a total disability of at least six months, (ii) are eligible to receive Social Security disability benefits and (iii) have completed at least 10 years of service before becoming disabled, are eligible to receive a monthly disability benefit equal to 1/12th of their annual early retirement benefit until the earlier of death, retirement or the first day of the month after the participant is no longer considered disabled by the Social Security Administration.

NOTE 2 - SUMMARY OF ACCOUNTING AND REPORTING POLICIES

The significant accounting and reporting policies followed by the Plan are summarized below.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein, and other amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date. Fair value is determined by the trustee by referenced to published market prices. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses (realized and unrealized) on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan, Otis Worldwide Corporation, or the Company, as provided by in the Plan document. Expenses that are paid directly by Otis Worldwide Corporation or the Company

**Otis Elevator Company
Puerto Rico Pension Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2021 and 2020

are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for plan benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for plan benefits.

Risks and Uncertainties

The Plan invests in money market funds, mutual funds, and exchange-traded funds. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In March 2020, the World Health Organization declared the outbreak of novel coronavirus disease (COVID-19) as a global pandemic, triggering volatility in financial markets, and a significant impact on the global economy. The extent of the impact on the Plan's net assets available for benefits, benefit obligations, and contributions will depend on the duration and continued spread of the outbreak, including any other further developments.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the credited service employees earned. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of September 30, 2020 were:

Discount rate	2.90%
Assumed retirement age	65
Mortality	Pri-2012 mortality table using improvement scale MP-2020

**Otis Elevator Company
Puerto Rico Pension Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2021 and 2020

The significant actuarial assumptions used in the valuation as of September 30, 2019 were:

Discount rate	3.30%
Assumed retirement age	65
Mortality	Pri-2012 mortality table using improvement scale MP-2019

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions, and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of October 1, 2020 and 2019. Had the valuations been performed as of September 30, there would be no material modifications.

NOTE 4 - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8, *Limitations on the Scope of Accountant's Examination*, of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Bank of America N.A., the trustee of the Plan, that all information relating to the Plan's investments and related investment income is complete and accurate. Information as to the value of the investments in the fund managed by the trustee, investment income, and all information in the supplemental schedules are presented in reliance solely upon those certifications.

The following is a summary of certified information included in the Plan's financial statements:

	2021	2020
Statements of net assets available for benefits:		
Investments, at fair value	\$ 2,624,001	\$ 2,188,456
Accrued income	2,256	2,219
Statements of changes in net assets available for benefits:		
Net appreciation in fair value of investments	\$ 498,390	\$ 152,183
Interest and dividends	37,227	41,721

Additionally, all information included in the supplemental schedule of assets (held at end of year) and supplemental schedule of reportable transactions was certified by the trustee as complete and accurate.

NOTE 5 - FAIR VALUE MEASUREMENTS

U.S. GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

**Otis Elevator Company
Puerto Rico Pension Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2021 and 2020

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Money market funds - Valued at cost which approximates fair value.

Mutual funds and exchange traded funds - Valued at the net asset value of shares held at year end, which is obtained from an active market.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2021:

	Level 1	Level 2	Level 3	Total
Money market funds	\$ 31,354	\$ -	\$ -	\$ 31,354
Mutual funds	462,965	-	-	462,965
Exchange-traded funds	2,129,682	-	-	2,129,682
	<u>\$ 2,624,001</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,624,001</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2020:

	Level 1	Level 2	Level 3	Total
Money market funds	\$ 51,258	\$ -	\$ -	\$ 51,258
Mutual funds	406,591	-	-	406,591
Exchange-traded funds	1,730,607	-	-	1,730,607
	<u>\$ 2,188,456</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,188,456</u>

There have been no changes in the methodologies used as of September 30, 2021 and 2020, and no transfers between levels for the years ended September 30, 2021 and 2020.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 - PLAN TERMINATION

Although Otis Worldwide Corporation has not expressed any intent to do so, Otis Worldwide Corporation has the right to terminate the Plan at any time. In the event the Plan terminates, the net assets generally will not be available on a pro rata basis to provide for participant's benefits. The maximum amount of Pension Benefit Guaranty Corporation (PBGC) guaranteed benefits for terminations in 2021 at age 65 is \$6,034.09 per month for a straight life annuity (\$5,430.68 for a 50% joint and survivor annuity). Whether all Plan participants receive their full plan benefits, should the Plan terminate at some future time, would depend on the priority of these benefits and the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the existing plan assets and the PBGC guarantee while other benefits may not be provided for at all.

Upon termination, Otis Worldwide Corporation shall give notice to the PBGC and shall comply with its procedures and lawful orders. As soon as it may do so, Otis Worldwide Corporation thereupon shall cause all amounts in the hands of the Trustee to be allocated and distributed in the manner and order set forth in Section 4044 of ERISA to the extent of the sufficiency of the Plan's assets.

Additional information concerning the priority order of participants' claims to the assets of the Plan upon termination can be obtained from the Summary Plan Description and Plan documents, which are available from the Plan Administrator.

NOTE 7 - TAX STATUS OF THE PLAN

The Plan is a dual qualified plan in the United States of America and Puerto Rico. The Internal Revenue Service (IRS) issued the Plan a determination letter covering the Plan's most recent restatement dated January 1, 2016, which stated that the Plan qualifies in form under the applicable provisions of the Internal Revenue Code (IRC) and, therefore, is exempt from federal income taxes. The Plan sponsor believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

The Puerto Rico Department of Treasury (Hacienda) issued a qualification letter effective January 1, 2014, which states that the Plan meets the requirements of Section 1081.01 of the Puerto Rico Internal Revenue Code of 2011, as amended and that the trust established thereunder will be entitled to exemption from local income taxes. Section 1022(i)(1) of ERISA provides that a pension trust is exempt from income tax under Section 501(a) of the IRC if all of the Plan's participants are residents of Puerto Rico. The Plan Sponsor believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Puerto Rico Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Certain Plan assets are managed by the trustee of the Plan. These transactions are party-in-interest transactions under ERISA. Included in accrued administrative expense for 2021 and 2020 on the statements of net assets available for plan benefits is a liability owed to the Company.

NOTE 9 - SUBSEQUENT EVENTS

The Plan evaluated its September 30, 2021, financial statements for subsequent events through July 11, 2022, the date the financial statements were available to be issued. The Plan submitted a new qualified letter application on January 28, 2022 with a pending determination by Hacienda as of the date of these financial statements. In April 2022, the Company made a \$45,000 voluntary contribution designated to the Plan year ended September 30, 2021.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year (October 1)
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	<p>The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.</p>
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2019 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of asset.</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 10/1/2020. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust) and are based on historical experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination/Retirement/Disability	The assumptions were selected by the plan sponsor based on prior reviews of participant experience data.
Form of payment	The form of payment was selected by the plan sponsor based on a prior review of actual participant elections.
Percent married	The assumed percentage married was set based on the plan sponsor's observations regarding its employee population.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement and an update from Scale MP-2017 to MP-2018, as required by IRC §430.

For ASC 960 purposes, the discount rate was changed from 3.30% at October 1, 2019 to 2.90% at October 1, 2020 and the mortality was changed from the Pri-2012 mortality table for males and females, and projected with generational improvements using scale MP-2019, adjusted to converge to 0.75% long-term rate of improvement by 2035 to the Pri-2012 mortality table for males and projected with generational improvements using Scale MP-2020.

Change in methods since prior valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year (October 1)
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	<p>The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.</p>
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2019 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of asset.</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 10/1/2020. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust) and are based on historical experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination/Retirement/Disability	The assumptions were selected by the plan sponsor based on prior reviews of participant experience data.
Form of payment	The form of payment was selected by the plan sponsor based on a prior review of actual participant elections.
Percent married	The assumed percentage married was set based on the plan sponsor's observations regarding its employee population.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement and an update from Scale MP-2017 to MP-2018, as required by IRC §430.

For ASC 960 purposes, the discount rate was changed from 3.30% at October 1, 2019 to 2.90% at October 1, 2020 and the mortality was changed from the Pri-2012 mortality table for males and females, and projected with generational improvements using scale MP-2019, adjusted to converge to 0.75% long-term rate of improvement by 2035 to the Pri-2012 mortality table for males and projected with generational improvements using Scale MP-2020.

Change in methods since prior valuation

None.
