(1) Description of Plan

The following description of the Quantum Design International, Inc. Safe Harbor Match and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document or summary plan description for a more complete description of the Plan's provisions.

General

The Plan, which was adopted on October 1, 1986, is a defined contribution plan covering substantially all employees of Quantum Design International, Inc., Quantum Design, Inc. and Magnabiosciences, LLC (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company's Benefit Plan Committee ("Committee"), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation, administration and oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance of the Plan's investment offerings. Three officers of the Company serve as the Plan's trustees.

Effective July 15, 2019, the Plan was amended to change the name of the Plan from Quantum Design International, Inc. Profit Sharing & 401(k) Plan to the Quantum Design International, Inc. Safe Harbor Match and Retirement Plan.

COVID-19

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO declared the COVID-19 outbreak as a pandemic. Following the WHO's declaration, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. The Company has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000;
- Increased the available loan amount to the lesser of $100,000 or 100% of the participant's vested account balance;
- Extended the period for loan repayments, if applicable, up to one year;
- Required minimum distributions for the calendar year 2020 have been temporarily waived.

Eligibility

Employees, excluding leased employees, who are 21 years of age are eligible to participate in the Plan on the first day of the month coinciding with or next following the date eligibility requirements are satisfied.

Contributions

Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant contributions: Participants may contribute up to 100% of annual compensation as pre-tax or Roth contributions, as defined by the Plan. Additionally, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Such contributions are 100% vested and non-forfeitable.

Participant rollover contributions: Participants are allowed to make rollover contributions into the Plan of amounts representing distributions from other retirement plans and certain individual retirement accounts ("IRAs"). Such contributions are 100% vested and non-forfeitable.

Employer safe harbor matching contributions: A safe harbor 401(k) plan is a plan design where the employer commits to making certain contributions to simplify the administration of the Plan by ensuring that nondiscrimination regulations are met. To maintain "safe harbor" status, the Company has elected to make a safe harbor matching contribution equal to 100% of salary deferrals that do not exceed 5% of the participant's compensation. To be eligible for safe harbor matching contributions, participants must have attained age 21 and completed one year of service, defined as 1,000 hours of service. Such contributions are 100% vested and non-forfeitable.

Employer discretionary matching contributions: The Company may make a discretionary matching contribution equal to a uniform percentage of participant salary deferrals. To be eligible for employer discretionary matching contributions, participants must have attained age 21 and completed one year of service, defined as 1,000 hours of service. For the year ended September 30, 2021, the Company elected not to make a discretionary matching contribution.

Employer discretionary profit sharing contributions: The Company may make a discretionary profit sharing contribution, which will be allocated among participants eligible to share in the contribution for the Plan year. To be eligible for employer discretionary profit sharing contributions, participants must have attained age 21, completed one year of service, defined as 1,000 hours of service, and be employed on the last day of the Plan year. For the year ended September 30, 2021, the Company elected make a discretionary profit sharing contribution equal to 5% of the first $137,700 and 10% of the remaining of the participant's compensation up to $285,000.

Participant accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and the Plan's investment earnings. Allocations are based on participant's compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' contributions, rollover contributions, employer safe harbor matching contributions plus actual earnings thereon are 100% vested immediately. Employer discretionary matching contributions, employer discretionary profit sharing contributions plus actual earnings thereon are subject to the following vesting schedule:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

To earn a year of service, a participant must be credited with at least 1,000 hours of service during a plan year, as defined in the Plan document.

Forfeitures

At September 30, 2021 and 2020, forfeited nonvested accounts held by the Plan totaled $84,807 and $74,136. These accounts may be used to pay administrative expenses of the Plan or to reduce employer contributions. During the year ended September 30, 2021, forfeited nonvested accounts totaling $64,586 were used to reduce employer contributions and $140 were used to reduce administration fees.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The repayment terms provide for notes to be amortized over a reasonable period of time not to exceed five years. The notes are secured by the balance in the participant's account and bear an interest rate equal to 1% above the prime rate, as defined.

Notes receivable from participants, cont'd

Under the CARES Act, qualified individuals' note limitations were increased to the lesser of $100,000 or 100% of their vested account balance. The CARES Act also delayed note payments for a COVID-19 qualified individual for any note outstanding on or after March 27, 2020 through December 31, 2020 and, if applicable, extends the note for up to one year. This increased note limit was allowed to be taken from March 27, 2020 through September 22, 2020.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The distribution shall be made to the participant or beneficiary in accordance with the election of the participant. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds $5,000.

Participants may also elect to withdraw in cash certain vested amounts within his or her contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the IRC. After the withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional contributions.

(2) Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract which is reported at contract.

Investment valuation and income recognition, cont'd

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Principal and interest are paid ratably through payroll deductions. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of September 30, 2021 and 2020.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) Information Prepared and Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

(3) Information Prepared and Certified by the Custodian, Cont'd

- Investments at fair value
- Fully benefit-responsive investment contract at contract value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2021 and 2020.

(4) Fair Value Measurements, Cont'd

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2021 and 2020:

September 30, 2021	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$62,263,811	$ -	$ -	$62,263,811
Total investments in fair value hierarchy	$62,263,811	$ -	$ -	$62,263,811

September 30, 2020	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$48,677,026	$ -	$ -	$48,677,026
Total investments in fair value hierarchy	$48,677,026	$ -	$ -	$48,677,026

(5) Investment Contract with Insurance Company

The Plan has a fully benefit-responsive guaranteed investment contract with Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting interest rate is reviewed and determined by the contract issuer prior to the last day of the previous calendar quarter. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if there were to initiate permitted transactions under the Plan. Contract value, as reported to the Plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meets its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

(5) Investment Contract with Insurance Company, Cont'd

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merge with another plan), (2) changes to the Plan's prohibition on competing investment options or deleting of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestiture or spin- offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants. The guaranteed investment contract requires 30-day written notice to terminate the agreement

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

(7) Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America requires management of the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine income tax examinations by taxing jurisdictions; however, there are currently no income tax examinations for any tax periods in process.

(8) Party-In-Interest Transactions

Certain of the Plan assets are invested in shares of mutual funds and units of a guaranteed investment account managed by Massachusetts Mutual Life Insurance Company, who serves as the recordkeeper for the Plan. Members of the Committee are officers of the Company, current participants in the Plan and serve as the Plan's trustees. These transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. The pandemic has adversely affected global economic activity and greatly contributed to significant instability in financial markets. As a result, there has been a heightened market risk and the Plan's investment portfolio has experienced significant volatility in fair value in response to changing market conditions, which has been reflected within the net appreciation (depreciation) in fair value of investments reported in the statements of net assets available for benefits. Plan Management will continue to monitor the impact COVID-19 has on the Plan and will reflect the results as appropriate in the Plan's financial records.

(10) Subsequent events

The Plan has evaluated subsequent events through July 15, 2022, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
