INDEPENDENT AUDITOR'S REPORT

To the Trustee and Committee of
World Variety Produce, Inc. Employee Stock Ownership Plan
Glendora, California

Report on the Financial Statements
We have audited the accompanying financial statements of World Variety Produce, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2021 and 2020, the related statement of changes in net assets available for benefits for the year ended September 30, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2021 and 2020, and the changes in net assets available for benefits for the year ended September 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule of Assets (Held at End of Year) - September 30, 2021 and Schedule of Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) DESCRIPTION OF PLAN

The following brief description of the World Variety Produce, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

World Variety Produce, Inc. (Company) established an Employee Stock Ownership Plan (Plan) effective as of October 1, 1987, most recently amended and restated as of October 1, 2015. The Plan operates as an employee stock ownership plan (ESOP), and is a stock bonus plan under Section 401(a) designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is a continuation of World Variety Produce, Inc. Profit Sharing Plan, which was replaced by the Plan. The Plan is administered by an administrative committee (Committee) as appointed by the Company's Board of Directors. Joe V. Hernandez, the Company's president, is the Plan's trustee.

Eligibility

Employees of the Company are eligible to participate in the Plan on October lst after completion of six months of employment and attaining age 21. Participants who do not have at least 1,000 hours of service or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

Each year, the amount of the employer contribution, if any, shall be paid in cash, shares of Company stock or other property as determined by the Board of Directors of the Company. For the year ended September 30, 2021, the Board of Directors approved an employer contribution of $3,000,000 which has been accrued at September 30, 2021. Employee contributions are not permitted.

Participant Accounts

Separate accounts are maintained for each participant for shares of Company stock and other investments. In addition, participants who were in the Company's Profit Sharing Plan have a profit sharing account, reflecting the transfer of such assets to the Plan. Each participant's account is credited as of the last day of each Plan year with an allocation of the employer's contribution, dividend on Company stock, if any, Plan earnings, and forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation of employer's contribution and forfeitures. Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at September 30, 2021 and 2020 totaled $5,181 and $14,678, respectively. Plan earnings and expenses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances, after adjustment for the payment of benefits.

(1) DESCRIPTION OF PLAN (Continued)

Vesting

Participants are fully vested in their accounts if employed by the Company on or after age 65, or become disabled or die while employed by the Company. Otherwise, participants begin vesting at 20 percent after two years of service, increasing 20 percent each year, becoming fully vested after six years of service. Forfeitures are reallocated among the remaining participant's accounts on the first day of the Plan year after the earlier of upon completion of five-year break in service or a complete distribution of the entire vested account balance. If a participant is zero percent vested, they are deemed to have been paid their vested account balance upon their termination of employment.

Payment of Benefits

Distributions from the Plan are available only after a participant retires, dies, becomes disabled, or otherwise terminates employment with the Company. Distributions in a participant's Company stock and other investments account are made in cash or in Company stock, or in any combination thereof, as determined by the Committee. Distributions from a participant's profit sharing account are made in a single lump sum cash payment. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are subject to trading limitations. During the year ended September 30, 2021, the Company repurchased and cancelled 896 shares from participants at the price determined by an independent appraisal.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution in exchange for shares they elect to diversify. As part of diversification, during the year ended September 30, 2021, no company stock was redeemed.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(1) DESCRIPTION OF PLAN (Continued)

Voting Rights

The Trustee, as directed by the Committee, usually decides how shares of Company stock held by the ESOP will be voted. However, in certain important corporate matters presented to Company shareholders for a vote, such as any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets of a trade or business, the participant will have the right to decide how shares of Company stock allocated to his or her Company stock account will be voted.

Administrative Expenses

Costs in administrating the Plan and expenses of the Trust are normally paid by the Company, at its option. Investment expenses (primarily broker fees related to the purchase and sale of stocks) are paid by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumption that effect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Cash and Cash Equivalents

The Plan maintains cash balances at financial institutions that are secured by the Federal Deposit Insurance Corporation up to $250,000 per institution. As of September 30, 2021 and 2020, the Plan had uninsured cash balances of $71,536 and $45,114, respectively.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants

Benefits are recorded when paid or upon distribution of shares.

Non-Participant-Directed Investments

All investments included in these financial statements are considered non-participant-directed investments.

(3) SPONSOR COMPANY COMMON STOCK

The Plan's investment in Company common stock at September 30, 2021 and 2020 are as follows:

	2021	2020
Number of Shares	39,253	40,149
Cost	$ 866,476	$ 886,259
Fair Value	$ 11,685,083	$ 9,790,664

(4) FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

> Level 1 - Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments in Level 1 include listed equities and other securities held in the name of the Company, and exclude listed equities and other securities held indirectly through commingled funds.

(4) FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level 3 - Pricing inputs are unobservable for the investment and include situations where there is little, if any market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include privately held investments and partnership interests.

The investment asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables summarize the fair value measurement information of the Plan's investments by the above categories as of September 30, 2021 and 2020:

September 30, 2021	Level 1	Level 2	Level 3	Total

Investments, at fair value	$ 5,774,113	$ -	$ 9,790,664	$ 15,564,777

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2021 and 2020.

(4) FAIR VALUE MEASUREMENTS (Continued)

Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Mutual and exchange-traded funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual and exchange-traded funds held by the Plan are deemed to be actively traded. Cash - interest bearing is valued at the respective bank balance which reflects its fair value.

The Company common stock held by the Plan is valued at estimated fair value based upon appraisals performed by an independent firm who specializes in such valuations. The appraisals were based upon a combination of the market and income valuation techniques consistent with prior years. For the income valuation technique, the unobservable inputs consist of EBITDA, free cash flow, weighted average cost of capital and discount rates for lack of control and lack of marketability. For the market valuation technique, the unobservable inputs consist of public comparables, revenue multiple and EBITDA multiples and discount rates for lack of control and lack of marketability.

The valuation process involves the Plan trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The appraiser prepares a preliminary report which the Plan trustee, as assisted by plan management, reviews, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes our fair value measurements using significant Level 3 inputs, and changes therein, for the year ended September 30, 2021:

Balance as of September 30, 2020	$ 9,790,664
Sales	(218,544)
Net unrealized gains (losses)	2,112,963
Balance as of September 30, 2021	$ 11,685,083

The unrealized gain above is included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The Plan's policy is to recognize transfers into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2021, there were no significant transfers into or out of Level 3.

(5) TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 28, 2016, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the applicable sections of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the Code, and therefore believes that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan takes an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the Company common stock which is a related party and party in interest transaction. As described in Note 1, the Company pays most of the Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Besides the related party transaction with the Company already reflected above, the Plan has certain investments in exchange-traded funds and bank interest-bearing cash accounts which are affiliated to the investment advisor. These investments qualify as allowable party-in-interest transactions. Fees paid by the Plan for investment advisor services amounted to $7,103 for the year ended September 30, 2021.

(7) RISKS AND UNCERTAINTIES

The Plan has investments in various investment securities, including a significant investment in the Company common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. In addition, the Plan's investment in Company common stock is also exposed to risks around the valuation assumptions based on earnings, cash flows, and/or other such items. Due to the level of risk associated with investment securities, including uncertainties inherent in the estimations and assumptions process related to the Plan's investment in Company common stock, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(8) SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 15, 2022, which is the date the financial statements were available to be issued.
