REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees and Participants
Masco Corporation Pension Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit for the 2021 financial statements

We have performed an audit of the financial statements of Masco Corporation Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets in liquidation as of December 31, 2021, and the related statement of changes in net assets in liquidation for the year then ended, and the related notes to the financial statements ("2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note I to the financial statements, is complete and accurate.

Opinion on the 2021 financial statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion on the 2021 financial statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the 2021 financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the 2021 financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the

purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matters

Auditor's report on the 2020 financial statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 28, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of the Masco Corporation (the "Company") Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at various divisions and subsidiaries of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is administered by the Company's Benefits Department, which has overall responsibility for the operation and administration of the Plan. The Company's Pension Trust Investment Committee ("Committee"), which is a committee of members of management of the Company, is responsible for the management of the Masco Corporation Retirement Master Trust ("Master Trust"). The Committee sets the investment objectives, goals, and guidelines and monitors investment performance.

2. *Plan Termination.* In December 2019, the Board of Directors of the Company adopted a resolution for authorized officers of the Company to approve or postpone the termination of the Plan. On February 6, 2020, Plan management executed an amendment to terminate the Plan, at which time it was determined that liquidation was imminent. The liquidation basis of accounting was applied as of and for the year ended December 31, 2020 and thereafter, as described in Note B and C.

The Plan was settled through a combination of lump sums to eligible Plan participants who elected such payments, and the purchase of a group annuity contract from Athene Holding Ltd. ("Athene"), for all remaining liabilities. The transaction with Athene was completed in June 2021. Athene irrevocably assumed the obligation to pay the remaining retirement benefits from the Plan, as described in the applicable group annuity contract. The accrued benefits of participants, beneficiaries and annuitants were not affected by the termination of the Plan.

3. *Pension Benefits.* Effective January 1, 2010 no employee was eligible to commence participation into the Plan, the accrued benefit for each employee participating within the Plan at that time was frozen and no credited service or compensation earned subsequent to that date was taken into account in the calculation of the accrued benefit. Generally, employees with five or more years of credited service at the time the Plan was frozen or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, this benefit is equal to the participant's years of credited service multiplied by the benefit level at termination for the various participating locations. The Plan permits early retirement after completion of five years of service and attainment of age 55. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity. If employees terminate before becoming vested, they forfeit their right to receive their accumulated plan benefits.

4. *Death and Disability Benefits.* If a vested participant (who is married) dies before retirement, a pre-retirement survivor annuity is paid to the participant's spouse. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Active employees with ten or more years of service who become totally and permanently disabled and eligible for disability retirement benefits shall receive annual disability benefits that are equal to their normal retirement benefit accumulated as of the date they become disabled. Disability retirement benefits are subject to offsets as described in the Plan agreement.

5. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code ("IRC"). The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2021 and 2020 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

B. ACCOUNTING POLICIES

The following is a summary of significant accounting policies in accordance with accounting principles generally accepted in the United States of America ("GAAP") followed in the preparation of these financial statements.

Basis of Accounting. As a result of the Plan termination, the liquidation basis of accounting was used for the years ended December 31, 2021 and 2020, as the termination was considered imminent on February 6, 2020. In comparison to the accrual basis of accounting, the liquidation basis of accounting requires that assets be revalued to the value expected to be received upon liquidation. Assumptions used in the determination of liabilities are reevaluated under the terms of the liquidation, and income and expense expected to be earned and incurred through the date of liquidation are estimated and accrued as of the end of the reporting period. The effects of these changes are presented as a net adjustment to the liquidation basis of accounting in the statements of changes in net assets in liquidation.

Use of Estimates. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; and disclosure of contingent assets and liabilities. Significant estimates include the valuation of investments, determination of the actuarial present value of accumulated plan benefits and the expenses incurred through liquidation.

Risks and Uncertainties. The Plan's invested assets ultimately consist of common and preferred stocks, private equity and hedge funds, corporate debt securities, government and other debt securities, a common collective trust fund, a securities lending collateral pool and short-term and other investment securities. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities in the near term could materially affect the amounts reported in the statements of net assets in liquidation and the statements of changes in net assets in liquidation.

Investment Valuation and Income Recognition. Investments represent the Plan's pro rata interest in the fair value of the net assets of the Master Trust, as determined by The Northern Trust Company ("Trustee"). The Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and Trustee. See Note E for a discussion of fair value measurement.

Investment transactions are reflected on a trade-date basis. Net (depreciation) appreciation includes the Master Trust's realized gains and losses on investments that were both purchased and sold during the period as well as unrealized (depreciation) appreciation of the investments held at year-end. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets in liquidation the investment (loss) income from its interest in the Master Trust. The investment (loss) income, net, is comprised of the net (depreciation) appreciation in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized (depreciation) appreciation of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust. Such pro rata allocations are made monthly based on the Plan's weighted average interest in the fair value of the Master Trust net assets.

Payment of Benefits. Benefit payments to participants prior to liquidation basis of accounting were recorded upon distribution.

PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

B. ACCOUNTING POLICIES, Concluded

Administrative Expenses. The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets in liquidation. In addition, certain investment related expenses are included in investment (loss) income, net, presented in the accompanying statements of changes in net assets in liquidation.

C. PLAN LIQUIDATION

A Notice to Interested Parties and a Notice of Intent to Terminate were provided to the Plan's participants on January 14, 2020. Under the plan to terminate, a determination letter request filing was submitted to the Internal Revenue Service ("IRS") on February 7, 2020 and regulatory approval was received on October 21, 2020. Additionally, Form 500 was filed with the Pension Benefit Guaranty Corporation ("PBGC") on September 9, 2020 and notification was received on September 11, 2020 stating the Standard Termination Notice (PBGC Form 500) had been accepted by the PBGC. The Post-Distribution Certification for Standard Termination (Form 501) was filed with the PBGC on December 28, 2021 and notification was received on January 3, 2022 stating it was received by the PBGC. No other governmental filings are required.

Consistent with the Plan's termination, as described in Note A, management has made the following considerations with respect to the liquidation of the Plan's assets and liabilities:

The determination was made that the fair value of the assets held as of December 31, 2020 represents a fair estimate of the value expected to be received upon disposition of the assets in liquidation. This determination was made based on the relative risk and liquidity of the assets held as well as the expected terms of the related dispositions. The disposition of the remaining assets were conducted in an orderly manner under normal market conditions.

Management had estimated the assets to be incurred through the liquidation date of the Plan and recorded a receivable of \$98,550,000 as of December 31, 2020, which represented the employer contribution to the plan in May 2021. An additional contribution of \$1,100,000 was made on August 30, 2021. These contributions were needed to settle the Plan's obligations.

Management had estimated the amount of expense to be incurred through the liquidation date of the Plan and recorded a liability of \$613,149,174 as of December 31, 2020. The estimation as of December 31, 2020 included purchase of an annuity contract with Athene of \$419,720,000, lump sum payments to eligible participants of \$190,816,912 and \$2,612,262 of additional expenses expected to be incurred in liquidation of the Plan. For the year ended December 31, 2021, \$550,451 of additional expenses were incurred in liquidation of the Plan. In connection with the settlement, in December 2021, the Plan received a reversion of cash from Athene of \$5,676,236. Additionally, benefit payments for missing participants were paid to the PBGC and recorded as benefit payments within the statement of changes in net assets in liquidation for the year ended December 31, 2021.

Management settled the remaining liabilities of the Plan with the proceeds from the disposition of Plan assets. Management completed the Plan liquidation as of December 31, 2021.

Securities Lending:

Masco Corporation has an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest-bearing accounts with The Northern Trust Company. There were no securities loaned as of December 31, 2021. The total collateral for the securities loaned as of December 31, 2020 was \$164,430,698, of which \$46,995,784 was non-cash. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are, at a minimum, collateralized at 102% of the market value of the borrowed securities. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

The fair value of securities loaned by the Master Trust as of December 31, 2021 and 2020 is shown below by type of security:

	2021	2020
Corporate Debt Securities	\$ —	\$ 4,904,411
Government Debt Securities	—	156,447,092
	<u>\$ —</u>	<u>\$ 161,351,503</u>

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities for the years ended December 31, 2021 and 2020 was \$163,785 and \$15,266, respectively, net of bank fees of \$70,176 and \$6,536 for the years ended December 31, 2021 and 2020, respectively.

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market and credit risk refer to the possibility that a borrower of securities will be unable to fully collateralize its loan upon a sudden material change in the fair value of the loaned securities or the collateral. In 2021 and 2020, the Master Trust did not incur any liability related to the securities lending activities.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which The Northern Trust Company has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

Since The Northern Trust Company has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables The Northern Trust Company to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to The Northern Trust Company or to a plan to which Equilend is a party-in-interest.

E. FAIR VALUE MEASUREMENTS

The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and requires certain disclosures about fair value measurements. The guidance defines fair value as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

The Master Trust has a target asset allocation of the investment portfolio that was developed with the objective of achieving an expected rate of return and reducing the volatility of asset returns. The investments seek to minimize the volatility of the value of the Plan assets relative to pension liabilities and ensure Plan assets are sufficient to pay Plan benefits. The portfolio mix of equity investments and fixed-income securities is used to obtain these objectives. Equity securities are invested in individual securities or funds that are expected to mirror broad market returns for equity securities. Over time, these equity investments are expected to earn higher returns with more volatility than fixed-income investments. Risks in these investments are broadly diversified by geography, market capitalization, manager mandate size, investment style and process. To minimize asset volatility relative to liabilities, a portion of Plan assets are allocated to fixed-income investments that are exposed to interest rate risk. Rate increases and decreases generally will result in a corresponding decrease or increase in fixed-income assets, respectively, with an offsetting change to the present value of liabilities. The fixed-income portfolio invests in corporate bonds, bond index funds or U.S. Treasury securities.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2020. The Plan did not hold any investments as of December 31, 2021.

Common and Preferred Stocks and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities. Certain investments are valued based on net asset value (“NAV”), which approximates fair value. Such basis is determined by referencing the respective fund’s underlying assets. There are no unfunded commitments or other restrictions associated with these investments.

Private Equity and Hedge Funds: Valued based on an estimated fair value using either a market approach or an income approach, both of which require a significant degree of judgment. There is no active trading market for these investments and they are generally illiquid. Due to the significant unobservable inputs, the fair value measurements used to estimate fair value are a Level 3 input.

Securities Lending Collateral Pool: Primarily invested in cash equivalents which are valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate, Government and Other Debt Securities: Valued based on either the closing price reported on the active market on which the individual securities are traded or using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Common Collective Trust Fund: Valued based on an amortized cost basis, which approximates fair value. Such basis is determined by reference to the respective fund’s underlying assets, which are primarily cash equivalents. There are no unfunded commitments or other restrictions associated with this fund.

E. FAIR VALUE MEASUREMENTS, Concluded

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets and liabilities at fair value, as well as those valued at fair value using NAV per share as a practical expedient, as of December 31, 2020:

	Net Assets at Fair Value as of December 31, 2020

F. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited years of service. The accumulated benefits for active employees are based on their accumulated credited years of service ending on the date as of which the benefit information is presented. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

As a result of the Plan termination, the liquidation basis of accounting was used for the years ended December 31, 2021 and 2020. There were no significant changes in assumptions due to liquidation basis of accounting other than a change in the discount rate whereby the discount rate decreased to 2.7% from 7.0% in 2019.

The actuarial present value of accumulated plan benefits changes from December 31, 2019 to December 31, 2021 was as follows:

Actuarial present value of accumulated plan benefits at December 31, 2019 (ongoing)	\$ 397,088,179
Increase (decrease) during the period attributable to:	
Increase in interest due to change in discount rate	\$ 239,321,830
Benefits paid in 2020	(26,804,263)
Benefits paid in 2021 (including lump sum payments to participants)	(209,445,968)
Payment to annuity provider	(419,247,143)
Cash received from annuity provider	5,676,236
Other	13,411,129
Net change	\$ (397,088,179)
Actuarial present value of accumulated plan benefits at December 31, 2021 (in liquidation)	\$ —

G. INCOME TAX STATUS

The IRS determined and informed the Company by letter, dated March 30, 2018, that the Plan and the related trust are designed in accordance with applicable sections of the IRC. The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

As disclosed in Note C, under the plan to terminate, a determination letter request filing was submitted to the IRS on February 7, 2020. A response from the IRS was received on October 21, 2020 stating that the termination of the Plan does not affect its qualified tax status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

H. RELATED PARTIES

Certain plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions. Additionally, the Master Trust participates in Securities Lending programs of the Trustee.

I. SUMMARY OF FINANCIAL DATA PROVIDED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by The Northern Trust Company and was not subjected to any auditing procedures performed by the independent auditors.

- a. Plan interest in Master Trust, net, as shown on the accompanying statements of net assets in liquidation as of December 31, 2021 and 2020.
- b. Investment (loss) income, net, as shown in the accompanying statements of changes in net assets in liquidation for the years ended December 31, 2021 and 2020.
- c. Master Trust net assets, net (depreciation) appreciation in fair value of investments, and investment income, as shown in the accompanying Note D as of and for the years ended December 31, 2021 and 2020.

J. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through June 17, 2022, the date the Masco Corporation Pension Plan financial statements were available to be issued.
