INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of GSK 401(k) Plan

Opinion

We have audited the financial statements of GSK 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Report on the 2020 Financial Statements

We have audited the statement of net assets available for benefits of GSK 401(k) Plan as of December 31, 2020, and in our report dated June 8, 2021, we expressed an unmodified opinion on those financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute

assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

1. Description of the Plan

The following description of the GSK 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document or the Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan sponsored by GlaxoSmithKline LLC (“GSK” or the “Company”). The Plan was established to encourage and assist Company employees to save regularly for retirement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the terms of the Plan, eligible employees with one hour of credited service may voluntarily elect to contribute pre-tax and/or Roth 401(k) contributions, which combined can range from 1% to 50% of their eligible compensation. Participants who have attained age 50 before the end of the Plan’s year are also eligible to make catch-up contributions. Participants may also contribute amounts, representing distributions from other qualified retirement plans or individual retirement accounts, subject to the terms of the Plan. Participants may direct the investment of their contributions into various investment options offered by the Plan and may change those options at any time during the year.

Effective January 1, 2021, the Company makes contributions to the accounts of employees with one hour of credited service. The Company makes contributions to the accounts of employees in two ways. GSK will match up to 100% of the first 4% of the employee’s combined pre-tax and/or Roth 401(k) contributions not in excess of 4% of the employee’s eligible compensation as defined by the Plan. Additionally, the Company provides for GSK core contributions of 7% of eligible employee compensation, regardless of whether the employee voluntarily contributes to the Plan. Participants decide how to invest the Company contributions into the various investment options offered by the Plan and may change those options at any time during the year.

During 2021 the total amount of the employee and employer contributions was \$482,140,348, which includes rollover contributions of \$23,563,558.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, Company matching contributions, GSK core contributions and investment earnings or losses as applicable and charged with fees as applicable. The earnings on investments are allocated daily to the individual accounts of participants. These allocations are based on each participant’s relative interest in the fair value of the assets held in each fund, except for dividends and unrealized appreciation and depreciation on the GSK American Depository Receipts (ADRs), as held in the GlaxoSmithKline Stock Fund (the “GSK Stock Fund”), which are allocated based upon the number of units held in the individual accounts of participants. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant’s vested account. The Plan’s investments include the GSK Stock Fund. The GSK Stock Fund is comprised of GSK American Depository Shares (ADRs). Each ADR represents two ordinary shares of GlaxoSmithKline plc. In addition, the GSK Stock Fund holds a small percentage invested in the State Street Institutional Treasury Money Market Fund, managed by State Street Global Advisors (SSGA) for liquidity.

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

Nonparticipant -Directed Investments

If a participant does not designate an investment direction, their future contributions and earnings will be invested in the age-appropriate Vanguard Target Retirement Trust Plus fund closest to the year that the participant turns age 65. The participant can change this future investment direction as well as transfer any accumulated holdings to any other fund in the Plan at any time.

Vesting

Participants are immediately and fully vested in their participant contributions, GSK matching contributions and GSK core contributions plus actual earnings thereon.

Payment of Benefits

Participants become entitled to payment of the total value of their accounts at the time of termination, retirement, disability, or death. If the participant account balance is less than \$5,000, payment is in the form of an immediate lump sum distribution of cash or if invested in the GSK Stock Fund those distributions may be made in GSK ADRs. The GSK Stock Fund invests in GSK ADRs listed on the New York Stock Exchange representing two ordinary shares of GlaxoSmithKline plc. Participants with balances greater than \$1,000 but less than \$5,000 may have the value of their account rolled over to an Individual Retirement Account (IRA) or Roth IRA in their name with Merrill Lynch Wealth Management, and invested in an interest-bearing cash account.

If the account balance is greater than \$5,000, participants have the option of electing (1) up to four partial distributions each year from their account balance; (2) a total distribution of their account balance as annual installments over a period not exceeding 20 years, or as a lump sum distribution of cash or if invested in the GSK Stock Fund those distributions may be made in GSK ADRs. Required minimum distributions begin at age 72.

During employment, participants may withdraw participant rollover contributions, Roth rollover contributions, after-tax contributions, after-tax earnings and prior employer contributions at any age. After the age of 59-1/2, participants may also withdraw their pre-tax and Roth 401(k) contributions at any time.

Prior to age 59-1/2, participant pre-tax and Roth 401(k) contributions may only be withdrawn in the event of financial hardship and then only after the withdrawal of the value of all participant after-tax contributions, prior employer contributions and rollover contributions. Prior to June 21, 2019 withdrawals of participant pre-tax or Roth 401(k) contributions during employment caused the participant to become ineligible to participate in the Plan for a period of 6 months following the withdrawal.

Participant Loans Receivable

Participants may borrow from their vested fund accounts a minimum loan amount of \$1,000 up to a maximum loan amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers from the applicable investment option to the participant loans receivable. Loan terms range from 1-5 years, or up to 15 years for the purchase of a primary residence.

The loans are collateralized by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 1% as of the initial date of the loan, as determined by the Plan's administrator. Principal and interest are paid ratably through semi-monthly payroll deductions. Participants must pay a one-time loan processing fee of \$50.

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

Loans outstanding at December 31, 2021 have interest rates ranging from 4.25% to 9.25% with maturity dates from 2022 to 2045. Loans outstanding at December 31, 2020 had interest rates ranging from 4.25% to 9.25% with maturity dates from 2021 to 2048. Loan maturities beyond 15 years are due to loans transferred in as a result of the Human Genome Sciences Plan merger in 2013, Novartis Corporation Investment Savings Plan in 2016 and the Tesaro Plan in 2020

Participant loans receivable are valued at unpaid principal plus accrued interest, but not paid interest, which approximates fair value. Participant loans are also considered party-in-interest transactions.

Administrative Expenses

Investment management fees are borne by Plan participants. Investment management fees for certain funds are recorded as Administrative Expenses and Investment Management Fees in the Statement of Changes in Net Assets Available for Benefits. Other investment management fees are deducted from the respective fund investment returns. Those participants who elect to use Alight Financial Advisors (AFA) Professional Management to manage their 401(k) investments pay a monthly fee in arrears to AFA for this service. These fees are deducted from participant accounts monthly and are also included in administrative expenses and investment management fees. Certain administrative functions are performed by officers or employees of the Company and its affiliates. No such officer or employee receives compensation from the Plan. Other administrative expenses of the Plan are paid by the Company.

In addition to the Administrative Expenses and Investment Management Fees borne by Plan participants, during the year ended December 31, 2021 the Company paid administrative expenses of \$2,498,120 on behalf of the Plan. This includes the amount of \$401,425 for custody fees and benefits processing paid to State Street Bank and Trust Company, the Trustee and custodian for GSK 401(k) Plan.

2. Summary of Significant Accounting Policies and Recent Accounting Pronouncements

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and differences could be material.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as defined by FASB Accounting Standards Codification (ASC) 820, except for synthetic guaranteed investment contracts that are stated at contract value. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and contract issuers.

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in methodologies used on December 31, 2021 and 2020.

- Common stock: valued at the closing price reported on the active market on which the individual security is traded.

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

- Common collective trust and common investment trust funds: valued at the net asset value of units of a bank collective trust. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.
- Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. These funds are registered with the Securities and Exchange Commission and are required to publish their daily net asset value and to transact at that price. These funds held by the Plan are deemed to be actively traded.

The measurement methods as described above may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan provides participants various investment options, some of which are separately managed accounts. Separately managed accounts represent a portfolio of individual securities that are managed by professional investment managers appointed by Plan management. Unlike a mutual fund or common collective trust fund, the Plan directly owns the individual underlying securities instead of pooling the assets with other investors. The individual assets of separately managed accounts are held in the name of the Plan and are generally considered separately as individual investments for accounting, auditing and financial statement reporting purposes.

Included in the investment options are the following separately managed accounts for which the underlying investments are listed individually on Form 5500, Schedule H, line 4i:

- GSK Stock Fund
- Dodge & Cox Large Cap US Equity Fund

The underlying represents common stock, common collective trust funds, mutual funds, money market funds as described above and disclosed in Note 4.

The Plan also offers a separately managed stable value account investment option which includes fully benefit responsive synthetic guaranteed investment contracts. The underlying synthetic guaranteed investment contracts are presented at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan owns the underlying investments of the synthetic Guaranteed Investment Contracts (GICs). The underlying assets of the synthetic contracts consist of a money market fund, a common collective trust fund holding high-quality bond portfolios, and limited partnership funds owned by the Plan and an investment contract issued by an insurance company, designed to provide a contract value “wrapper” around the fixed income portfolio to guarantee a specific interest rate which is reset quarterly and that cannot be less than zero. The wrapper contract provides that realized and unrealized gains and losses on the underlying fixed income portfolio are not reflected immediately in the net assets of the fund, but rather are amortized over the duration of the underlying assets through adjustments to the future interest crediting rate. Primary variables impacting future crediting rates of

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

the investment contract include the current yield, duration, and existing difference between market and contract value of the underlying assets within the wrap contract.

The underlying investments of the synthetic contracts are listed individually on Form 5500, Schedule H, line 4i. See Note 3 for further information on the synthetic GICs.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recognized as earned. Dividend income is recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in the fair value of its investments, which includes realized gains and losses and unrealized appreciation and depreciation.

Benefits Paid to Participants

Benefits paid to participants from participants' accounts are recorded when paid.

Fair Value Measurement

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820) – Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which amends certain disclosure requirements of ASC 820. The ASU removed the requirement to disclose the amount of and reasons for transfers between level 1 and level 2 of the fair value hierarchy as well as the policy for timing of transfers between levels. The ASU also modified the disclosure for investments in certain entities that calculate NAV to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the Plan or announced the timing publicly. It also clarified the measurement uncertainty disclosure to communicate information about the uncertainty in measurement as of the reporting date. The Plan adopted ASU 2018-13 on January 1, 2020 retrospectively. The adoption of this ASU did not have a material impact on the Plan's financial statements.

3. Synthetic Guaranteed Investment Contracts

The Plan provides participants a self-managed stable value account investment option. The Plan owns 100% of the underlying assets of the stable value account, which includes fully benefit-responsive synthetic guaranteed investment contracts (synthetic GICs), a bank common collective trust and a money market fund. The synthetic GICs are at contract value and the common collective trust fund and money market fund are at fair value as disclosed in the Investment Valuation section of Note 2.

Synthetic GICs are agreements with high quality banks and insurance companies which are designed to help preserve principal and provide a stable crediting rate. The synthetic GICs are fully benefit responsive and provide that all participant initiated withdrawals permitted under the Plan will be paid at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

A synthetic investment contract includes a wrapper contract, which is an agreement from the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances.

Certain events may limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different for each contract. Examples of such events include (1) communication to Plan participants which may induce participants to make a withdrawal from the stable value fund, (2) equity wash provisions are not followed, (3) other Plan sponsor events (for example, a group

GSK 401(k) Plan

Notes to Financial Statements

layoff, an early retirement incentive or spin-offs of the Plan) that cause a significant withdrawal from the Plan, (4) the Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (IRC) or the failure of the Plan to be tax-exempt under Section 501(a) of the IRC or (5) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan).

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include (1) termination or replacement (or "change in control" as defined in the contract) of the investment adviser without the issuer's consent, (2) if a security is sold or subject to a lien other than as permitted under the contract, (3) the contract holder engages in fraud or other bad faith that in some cases must also have materially and adversely affected the risk profile of the contract (4) a material amendment to the agreements without consent of the issuer, (5) failure to be exempt from federal income taxation, or (6) the Plan merges with another plan.

Automatic termination of the wrap contract will occur if the contract value equals zero; the contracts may also be terminated in the event of a default by the issuer. The Plan's ability to receive amounts due in accordance with fully benefit responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Participant initiated withdrawals permitted under the Plan are paid at contract value. Any event that is employer initiated could result in withdrawal at market value (which may be significantly less than contract value). If the assets were transferred to another synthetic contract within the Plan's synthetic guaranteed investment contract portfolio, the market value to contract value loss in existence on the termination date, if any, would be transferred to the new contract and the loss would be amortized through future crediting resets.

There are three synthetic GICs included in the Plan. These are provided by The Prudential Insurance Company of America, State Street Bank and Trust Company and Transamerica Premier Life Insurance Company.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. To increase consistency and comparability in fair value measurements and related disclosures, the Plan utilizes the fair valuation hierarchy required by FASB ASC 820-10 which prioritizes the inputs to valuation techniques and to measure fair value into the following three broad levels:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date (i.e. common stocks and mutual funds). |
| Level 2 | Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active (i.e. common collective trust funds). |

GSK 401(k) Plan
Notes to Financial Statements
As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. Related Party and Party in Interest Transactions

Certain Plan investments are common collective trust funds and mutual funds managed by SSGA, an investment management division of State Street Bank and Trust Company, which is the Trustee

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

and custodian of the Plan, and therefore related transactions and expenses qualify as party-in-interest transactions.

During the year ended December 31, 2021, the Plan purchased \$88,126,429 and sold \$102,398,228 of the GSK Stock Fund, which included purchases of \$25,019,475 and sales of \$38,921,839 of GSK ADRs and received GSK ADRs dividends of \$19,862,190.

During the year ended December 31, 2021, Dodge & Cox Large Cap US Equity purchased \$177,589,553 and sold \$211,253,519 of various equities on behalf of the Plan, which included purchases of \$4,499,979 and sales of \$496,764 of GSK ADRs and received GSK ADRs dividends of \$812,849. Fees paid by the Plan to Dodge & Cox Large Cap US Equity for investment management services were \$2,209,049 for 2021.

During the year ended December 31, 2021, CRM Small/Mid Cap US Equity purchased \$209,575,687 and sold \$642,893,010 of various equities. This did not include any sales, purchases and dividend receipts of GSK ADRs. Fees paid by the Plan to CRM Small/Mid Cap US Equity for investment management services were \$317,122 for 2021.

The stable value account is a customized separately managed account held by Goldman Sachs, therefore, transactions with Goldman Sachs qualify as party-in-interest transactions. Fees paid by the Plan to Goldman Sachs for investment management services were \$433,864 for 2021.

The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan Document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 16, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

9. Risks and Uncertainties

The Plan invests in various investment options. These investment options are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

GSK 401(k) Plan

Notes to Financial Statements

As of December 31, 2021 and 2020 and for the Year Ended December 31, 2021

Included in investments at December 31, 2021 and 2020, are shares of GSK's common stock of \$402,120,734 and \$343,213,654 respectively. This investment represents 4.4 percent and 4.2 percent of net assets available for benefits at December 31, 2021 and 2020, respectively. A significant decline in the market value of GSK's stock would affect the net assets available for benefits.

As of December 31, 2021 and 2020, the following investments represent 5.0 percent or more of the net assets available for benefits:

2021

There are no other individual investments that represent more than 5.0 percent of the net assets available for benefits at December 31, 2021 and 2020.

Current events

The ongoing novel coronavirus (COVID-19) was declared a pandemic by the World Health Organization on March 11, 2020. The outbreak has negatively impacted the world economy and common stock share prices for many companies, including GSK PLC's common stock share price. The Plan's investment in the common stock of GSK PLC is stated at fair value based on the closing price of \$44.10 per share at December 31, 2021. The impact of COVID-19 on companies continues to evolve rapidly and its future effects on the Plan's net assets available for benefits, and changes in net assets available for benefits are, uncertain.

On March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provided the option for retirement plan sponsors to provide temporary relief for their participants with respect to distributions and participant loans. The provisions of the CARES Act were effective and operationalized immediately, prior to amending the Plan Document.

Plan management has adopted certain relief provisions included in the CARES Act which became effective on June 12, 2020.

GSK core contributions have changed to 7% effective January 1, 2021, for eligible employee compensation, regardless of whether the employee voluntarily contributes to the Plan.

On February 25, 2021 six new investment options were added to the GSK 401(k) Plan menu, and five investment options were removed.

10. Subsequent Events

Subsequent events were evaluated through June 13, 2022, the date the financial statements were issued.

GSK's Consumer Healthcare business will become an independent company through a proposed demerger from GSK in mid-2022. The new business will be called Haleon. A defined contribution plan is being established for Consumer Healthcare US employees and they will join this plan at or before the date of the Demerger. The US defined contribution plan assets related to Consumer Healthcare employees will be transferred to this plan.
