INDEPENDENT AUDITORS' REPORT

Audit Committee and Plan Participants
Farmers National Bank 401(k) Retirement Savings Plan
Canfield, Ohio

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Farmers National Bank 401(k) Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Farmers National Bank 401(k) Retirement Savings Plan as of December 31, 2021, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Farmers National Bank 401(k) Retirement Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Farmers National Bank 401(k) Retirement Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Farmers National Bank 401(k) Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Farmers National Bank 401(k) Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

The financial statements of Farmers National Bank 401(k) Retirement Savings Plan as of December 31, 2020, were audited by predecessor auditors whose report dated July 12, 2021, expressed an unmodified opinion on those financial statements.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates

Audit Committee and Plan Participants
Farmers National Bank 401(k) Retirement Savings Plan

directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Farmers National Bank 401(k) Retirement Savings Plan

Notes to the Financial Statements
December 31, 2021 And 2020

1. Plan Description

The following brief description of the Farmers National Bank 401(k) Retirement Savings Plan (the Plan) provides only general information. The Plan covers eligible employees from Farmers National Bank of Canfield, Farmers Trust Company, Farmers National Insurance LLC and effective November 1, 2021, The Cortland Savings & Banking Company (collectively, the Companies). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a multiple employer defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Employees are eligible to participate in the Plan and receive employer matching and discretionary contributions when they are age 21 or older and have completed 60 days of service. Plan entry dates are the first of the month coinciding with or next following the date the employee satisfies eligibility requirements.

Contributions

A participant may contribute, through payroll reductions, from 1% to 100% of their compensation to the Plan on a pre-tax basis and/or Roth contributions, up to the maximum dollar amount allowed by law (plus catch-up contributions as defined by the Plan document). Participants may also make rollover contributions to the Plan from other qualified defined benefit or defined contribution plans.

The Plan permits matching contributions, discretionary contributions, qualified non-elective contributions (QNEC) and qualified matching contributions (QMAC) by the Companies. The Companies match 50% of the first 6% of compensation that the participant contributes to the Plan. The Companies do not match catch-up contributions. Employer matching contributions totaled \$709,996 and \$687,694 for the Plan years ended December 31, 2021, and 2020 respectively. During the years ended December 31, 2021 and 2020, the Companies did not make any discretionary contributions, QNEC, or QMAC.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Companies' allocation of discretionary employer contributions, matching contributions, and any earnings thereon, and charged with an allocation of administrative expenses. Discretionary contributions are allocated as a percentage of compensation of eligible participants for the Plan year. Allocations of the earnings and expenses are based on the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Farmers National Bank 401(k) Retirement Savings Plan

Notes to the Financial Statements
December 31, 2021 And 2020

1. Plan Description (continued)

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Companies' matching and discretionary contributions is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

Forfeited Accounts

Forfeited nonvested accounts totaled \$35,133 and \$55,518 at December 31, 2021 and 2020, respectively. Forfeitures may be used to reduce the Companies' matching contributions to the Plan, restore participants' forfeitures, be added to the Companies' matching contributions or used to offset Plan expenses as defined by the Plan document. During 2021 and 2020, forfeitures of \$53,530 and \$23,836, respectively, were used to reduce the Companies' matching contributions, and no forfeitures were reallocated to participants in the Plan.

Investment Options

Upon enrollment in the Plan, participants may direct contributions to their accounts into various investment options offered by the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement, or separation of service, a participant may elect to receive installment payments or a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to receive periodic payments through a life annuity equal to the value of the participant's vested interest in his or her account. Upon proven financial hardship, participants may elect to receive a distribution equal to the value of their deferral contributions plus rollovers.

Notes to the Financial Statements
December 31, 2021 And 2020

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by EMJAY Corporation, the custodian of the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals, wrapper fees, and administrative expenses.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held during the year.

The Plan's registered investment companies and Farmers National Banc Corp. Common Stock (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by \$4,908,091 and \$4,300,332 during the years ended December 31, 2021 and 2020, respectively.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan allows administrative expenses to be paid either by the Plan or the Companies, at the discretion of the Companies. During the years ended December 31, 2021 and 2020, administrative expenses paid by the Plan were \$63,479 and \$49,233, respectively.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates.

Farmers National Bank 401(k) Retirement Savings Plan

Notes to the Financial Statements
December 31, 2021 And 2020

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan evaluated subsequent events through the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Interest income of \$148 and \$151 for 2021 and 2020, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits. The Plan no longer permits loans against participants account balances.

3. Fair Value Measurement

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already recognized or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements).

The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or are corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurement (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Registered investment companies and common stock – Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

	<u>Level 1</u>	<u>Total</u>
Registered investment companies	\$ 40,997,000	\$ 40,997,000
Parent Company common stock	<u>1,732,135</u>	<u>1,732,135</u>
Total assets at fair value	<u>\$ 42,729,135</u>	<u>\$ 42,729,135</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	<u>Level 1</u>	<u>Total</u>
Registered investment companies	\$ 35,461,397	\$ 35,461,397
Parent Company common stock	<u>1,249,363</u>	<u>1,249,363</u>
Total assets at fair value	<u>\$ 36,710,760</u>	<u>\$ 36,710,760</u>

The Plan's investment in AB Large Cap Growth Z totaling \$5,333,634 and \$4,942,050 as of December 31, 2021 and 2020, respectively, represents a concentration equal to or greater than 10% of the Plan's net assets available for benefits. The Plan's investment in the Fidelity 500 index totaling \$8,165,353 and \$6,749,112 as of December 31, 2021 and 2020, respectively, represents a concentration equal to or greater than 10% of the Plan's net assets available for benefits.

4. Guaranteed Investment Contract

The Plan is invested in a Guaranteed Interest Fund (the Fund), a fully benefit-responsive investment contract through Great-West Life & Annuity Insurance Company. The Fund invests primarily in stable value products, such as traditional guaranteed investment funds (GIFs), separate account GIFs, and synthetic GIFs.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The contract held by the Plan is considered a traditional investment contract.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The average and actual average yield earned by the Plan were both 1.15% for the year ending December 31, 2021, and 1.28% for the year ending December 31, 2020.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of plan sponsor or other plan sponsor events (for example, divestitures or spinoff of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

**Notes to the Financial Statements
December 31, 2021 And 2020**

4. Guaranteed Investment Contract (continued)

The Plan's management has no knowledge that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Distributions to the Funds' unit holders are declared daily from the net investment income and automatically reinvested in the Funds on a monthly basis, when paid.

5. Tax Status

The Companies adopted a Prototype Non-Standardized Profit-Sharing Plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) on September 30, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter, however the Plan sponsor believes the Plan as currently designed, is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for audits for any tax period in progress. Plan Management believes the Plan is no longer subject to tax examinations for the years prior to 2018.

6. Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Party-In-Interest Transactions

Certain Plan investments are shares of registered investment companies managed by Federated Investors, Inc. (Federated), and a guaranteed interest fund managed by Great-West Life & Annuity Insurance Company. Federated is related to the Record Keeper of the Plan, Great-West Financial, and is related to EMJAY Corporation, the custodian. Since these parties are related, these transactions are considered party-in-interest transactions.

During 2021, the Plan purchased 10,875 shares and sold 11,647 shares of Farmers National Banc Corp. Common Stock. The Plan holds 93,377 shares of Farmers National Banc Corp. Common Stock at December 31, 2021 with a cost basis of \$967,711. During 2020, the Plan purchased 15,788 shares and sold 6,370 shares of Farmers National Banc Corp. Common Stock. The Plan held 94,149 shares of Farmers National Banc Corp. Common Stock at December 31, 2020 with a cost basis of \$979,878. During the years ended December 31, 2021 and 2020, the Plan recorded dividend income on Farmers National Banc Corp. Common Stock of

7. Party-In-Interest Transactions (continued)

\$43,508 and \$38,933, respectively. During the years ended December 31, 2021 and 2020, the Plan recorded appreciation on Farmers National Banc Corp. Common Stock of \$494,939 and depreciation of \$249,442, respectively.

8. Excess Contributions Payable

In order to pass the 2021 Actual Deferral Percentage (ADP) Test, the Plan's management elected to refund excess elective deferrals and earnings thereon to certain highly-compensated employees. The calculated amounts for 2021 and 2020 were \$61,670 and \$25,907, and were distributed on March 15, 2022 and March 8, 2021, respectively. These amounts have been included as excess contributions payable in the accompanying Statements of Net Assets Available for Benefits at December 31, 2021 and 2020, respectively.

9. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Operational Defect

After the end of the period December 31, 2020, the plan administrator discovered that the plan's compensation definition was not applied correctly, resulting the inadvertent exclusion of certain compensation when calculating plan contributions. The plan administrator identified the affected participants and deposited \$84,663 into the plan to correct these missed contributions and interest.

11. COVID-19

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the Company's financial condition, liquidity, and future results of operations. Management is actively monitoring the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce.

The pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and volatility in financial markets across the world. Depending on the severity and length of the outbreak, this pandemic could present material uncertainty and risk with respect to the Farmers National Bank 401(k) Retirement Savings Plan (the Plan), including its performance, the liquidity of its investments, collectability of amounts due from others, and on its overall financial condition. The rapid development and fluidity of this situation precludes management from making a reasonable estimate as to the ultimate adverse
