Audit Committee of the Oral Roberts University Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Oral Roberts University Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution, as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the 2021 financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2021 Supplemental Information Required by ERISA

The supplemental information, schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental information, other than the information in the supplemental information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated July 28, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

ORAL ROBERTS UNIVERSITY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

Note 1 – Description of the Plan

Oral Roberts University (the University or Employer) sponsors the Oral Roberts University Retirement Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and maintained for the benefit of the University's employees, except for employees who are eligible to participate in the 401(k) plan sponsored by the Employer, students, or nonresident aliens. The Plan is intended to satisfy all of the requirements for a 403(b) plan under the appropriate provisions of the Internal Revenue Code (the Code) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Retirement Plan Administrative Committee, which is a committee of individuals appointed by the University. The Plan's investments are managed by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF). TIAA and CREF issue certain investments and serve as agents for TIAA, FSB, the custodian for certain other investment assets held by the Plan. TIAA is an insurance company, CREF is a registered investment company, as well as an insurance company, and TIAA, FSB is a federal saving association. TIAA processes and maintains the records of the participant data.

Eligibility

Nonexcluded employees of the University are eligible to participate in the Plan upon the first day of employment.

Contributions

Participants may contribute up to 100% of their compensation, as defined in the Plan document, as either pretax or Roth deferrals. Participants who have completed at least 15 years of service or attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Plan also provides for Employer matching contributions to participants who have reached 21 years of age and completed one year of service, as defined in the Plan document. The University matches 50% of deferrals up to 6% of a participant's compensation. Employer matching contributions are based on deferrals made each payroll period.

Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations of the Code.

Participant accounts

Each participant's account is credited with participant contributions, Employer matching contributions, and allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in Employer matching contributions and their own contributions plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their vested accounts, except for Roth deferrals, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding participant loan balance during the preceding 12-month period ending on the day before the loan is made over the outstanding balance of loans on the date the loan is made, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.50%, which is based on prime rate plus 1% on the date of origination. Participants may have three loans outstanding at any given time. Terms range from one to five years or up to ten years for the purchase of a primary residence. Principal and interest is paid ratably by the participants directly to TIAA.

Plan loans

TIAA offers loans to participants, which are issued from funds directly owned by TIAA and not from participant accounts. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their balance in the TIAA Traditional Annuity account. To secure Plan loans, participants are required to pledge as collateral their TIAA Traditional Annuity account value equal to 110% of the outstanding loan balance in the event of default. Plan loans bear interest at rates that range from 4.00% to 4.63%. Principal and interest are paid by the participant directly to TIAA.

Loan balances outstanding between TIAA and Plan participants were approximately \$47,000 and \$89,000 as of December 31, 2021 and 2020, respectively. As such, approximately \$52,000 and \$98,000 of TIAA Traditional Annuity account balances as of December 31, 2021 and 2020, respectively, serve as collateral for the related loans.

In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. As of December 31, 2021 and 2020, loans in default amounted to approximately \$24,000 and \$11,000, respectively.

Payment of benefits

Upon retirement, termination, disability or death, a participant, or his or her beneficiary in the event of death, may elect to receive benefits in any of the forms of benefit available from the relevant funding vehicles. Forms of benefit available under the Plan, but not necessarily from all funding vehicles, include: 1) a lump-sum amount, 2) a partial payment, 3) installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy of the participant and their designated beneficiary, or 4) applied to the purchase of an annuity contract or converted to an income option. Participants who have invested in TIAA Traditional Annuity are limited in their ability to elect a lump-sum distribution depending upon the year in which contributions were made; however, they may receive the value of their accumulated benefits over a ten-year period.

Additionally, participants are allowed to take in-service withdrawals upon reaching age 59½; however, if the participant withdraws funds from their Employer contributions account, they are no longer eligible to receive future Employer contributions. Further, in-service distributions are allowed at any time from a participant's rollover account. The Plan allows hardship withdrawals subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are first used to restore participant balances previously forfeited, then may be used to pay Plan administrative expenses, and lastly to reduce Employer contributions. For the year ended December 31, 2021, there were no forfeitures utilized, and the Plan had no unallocated forfeitures as of December 31, 2021 and 2020, respectively.

Administrative expenses

The Plan allows certain administrative expenses to be paid from Plan assets. Investment expenses netted against investment income represent amounts associated with the net expense ratios of the investments in the Plan's fund lineup. The Plan participates in an agreement with TIAA, where fees are credited and allocated to certain participants through a fee leveling credit. During the year ended December 31, 2021, the Plan received approximately \$200 in fee leveling credits. Additionally, the Plan participates in an agreement with TIAA, where excess revenue may be returned and deposited into an unallocated revenue credit account. The amounts in the unallocated revenue credit account may be used to pay reasonable and necessary Plan expenses or may be allocated to participants. There were approximately \$2,300 and \$4,000 in the revenue credit account as of December 31, 2021 and 2020, respectively. For the year ended December 31, 2021, the Plan used approximately \$4,400 from the revenue credit account balance to pay certain Plan expenses.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the valuation policies utilizing information provided by TIAA and CREF. See Note 4 for discussion of fair value measurements and Note 5 for contract value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

Subsequent events

The Plan administrator has evaluated subsequent events through July 18, 2022, the date the financial statements were available to be issued.

Effective January 1, 2022, upon termination, automatic distributions are required for balances less than \$5,000. Automatic distributions made without the participant's consent are rolled into an individual retirement account designated by the TIAA.

Note 3 – Information Certified by TIAA and CREF

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2021 and 2020;
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021;
- Investment information included in the footnotes and on the supplemental schedule of assets (held at end of year) as of December 31, 2021.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.

Note 4 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used as of December 31, 2021 and 2020. During the year ended December 31, 2021, there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

Fixed annuity contracts - nonfully benefit responsive – This account is valued at contract value, which equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals. The TIAA Traditional Annuity is reported at contract value and segregated between nonfully benefit responsive and fully benefit responsive contracts based on the terms of the individual contracts. Fair value approximates contract value.

The Plan administrator has selected TIAA as a vendor to provide funding vehicles under the Plan and has selected the TIAA Traditional Annuity as an investment account to be offered under the TIAA funding vehicles. TIAA has provided specific information to the Plan administrator regarding TIAA's assumptions and analysis on which TIAA has based the valuation of the TIAA Traditional Annuity. This information includes, but is not limited to: (1) TIAA's analysis of how, in the absence of a principal market, participant investment allocation decisions support the conclusion that contract value approximates fair value; and (2) TIAA's application of a discounted cash flows model to conclude that the present value of future accumulations would reasonably approximate current contract values. The Plan administrator has utilized and relied on the information provided by TIAA to determine the Plan's valuation policy for the TIAA Traditional Annuity.

Mutual funds and variable annuities in mutual funds – Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. These funds have no unfunded commitments, no defined remaining life, offer daily liquidity (pending market conditions) and are not subject to any redemption restrictions at the measurement date, except as described below. With the exception of the CREF Money Market Account, mutual funds and variable annuities in mutual funds are subject to certain restrictions. The units in the CREF variable annuities in mutual funds are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange is open for business. In an effort to reduce market timing and excessive trading, shareholders will be locked out of an account for 90 days if a purchase, sale and repurchase within that account is made within a 60-day period.

Variable annuity in pooled separate account – Valued at quoted market prices, which represent the NAV of units held by the Plan at year-end, based on the underlying real estate holdings which are valued principally using external appraisals. Unit value is calculated daily. Transfers and distributions are allowed once per calendar quarter unless set up as part of a systematic distribution or transfer. There were no unfunded commitments as of December 31, 2021.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

	Fair value measurements as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Fixed annuity contracts - nonfully benefit responsive	\$ -	\$ -	\$ 20,037,538	\$ 20,037,538

The following table represents the Plan's Level 3 asset, the valuation technique used to measure the fair value of that asset as of December 31, 2021 and 2020, and the significant unobservable inputs and the ranges of values for those inputs:

Quantitative information as of December 31, 2021				
Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Fixed annuity contracts (nonfully benefit responsive)	\$ 20,037,538	Discounted cash flow/theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA – 3.00% - 3.80% RC – 2.75% - 3.90%

Quantitative information as of December 31, 2020				
Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Fixed annuity contracts (nonfully benefit responsive)	\$ 21,154,058	Discounted cash flow/theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA – 3.00% - 4.45% RC – 2.50% - 4.40%

Note 5 – Fully Benefit Responsive Investment Contracts with TIAA

The Plan has traditional fully benefit responsive investment contracts (FBRIC) with TIAA. TIAA maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. TIAA is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan.

The contracts meet the FBRIC criteria, and therefore, are reported at contract value. Contract value, as reported to the Plan by TIAA, represents contributions under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The participant owns the TIAA Traditional Annuity through either the Retirement Choice Plus (RCP), Group Supplemental Retirement Unit-Annuities (GSRA), or the Supplemental Retirement Annuities (SRA) contracts. The type of contract through which a participant owns the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid, the degree of liquidity of the participant's account and the options for receiving income upon retirement. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under SRA contracts. For the RCP contracts, the guaranteed rate is between 1% and 3%. For GSRA contracts, the guaranteed rate is 2%. Plan withdrawals from the RCP are allowed over a 60-month period with a 190-day advance notice. The crediting interest rate is calculated on a daily basis.

Note 6 – Related Party and Party-in-Interest Transactions

Certain administrative functions are performed by officers and employees of the University. No officer or employee receives compensation from the Plan for these services.

Investments are managed by TIAA, CREF and TIAA-CREF. The Plan also holds notes receivable from participants. These transactions qualify as party-in-interest transactions. Certain fees incurred by the Plan are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to service providers which were not covered by revenue sharing.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 – Tax Status

The Plan has been designed to qualify under Section 403(b) of the Code. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. In addition, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported on the statements of net assets available for benefits.

TIAA and TIAA-CREF issue various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of the contract accumulations, which could impact the value realized upon exiting the contract.

The Plan is exposed to concentration risk in that the TIAA Traditional Annuity represents 29% of the Plan's net assets available for benefits as of December 31, 2021.
