INDEPENDENT AUDITORS' REPORT

To the Investment Committee of
Kaiser Aluminum Warrick, LLC Savings and Investment Plan
Franklin, Tennessee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Kaiser Aluminum Warrick, LLC Savings and Investment Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the initial period then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the period ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

KAISER ALUMINUM WARRICK, LLC SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

1. DESCRIPTION OF PLAN

The following description of the Kaiser Aluminum Warrick, LLC Savings and Investment Plan (the "Plan") is for general information only. Complete information is contained in the Plan document.

General

The Plan is a defined contribution plan which provides for immediate eligibility to participate in the Plan for all non-union employees who are U.S. citizens or resident aliens employed by the Kaiser Aluminum Warrick, LLC (the "Company") or one of its affiliates.

The Plan enables participants, through payroll deductions, to invest in specific assets, specific funds or other investments permitted under the Plan, in addition to receiving contributions from the Company. The Plan, which was effective as of June 1, 2021, is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Investment Committee is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Contributions

The Plan provides for a Company match of 100% of employees' pretax contributions not to exceed 6% of eligible compensation, as defined, plus fixed rate contributions of 3% per payroll period. Under the purchase agreement between Alcoa Corporation and Kaiser Aluminum Corporation, Kaiser made a fixed rate contribution equal to 9% of the Participant's compensation provided that the participant was employed as of October 31, 2021, or attained normal retirement date or late retirement date. The Company's match contributions net of forfeitures for 2021, totaled \$318,894 (\$2,988 of the total was paid subsequent to December 31, 2021). The Company's fixed rate contributions net of forfeitures for 2021 totaled \$2,010,641.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation unless elected otherwise by the participant, deferrals are automatically increased annually by 1%, up to the maximum deferral of 6%.

While participants may contribute up to 75% of pretax and/or after-tax (Roth) eligible compensation, the United States Internal Revenue Service ("IRS") limits the maximum participant contribution of \$19,500 for 2021. In addition, employees age 50 and older are entitled to make catch-up contributions up to a maximum of \$6,500 for 2021. Employees may select one or more of the investment funds available under the Plan in which to invest their contributions.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of Company contributions and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their accounts into various investment options offered by the Plan.

Income and losses of each investment fund are allocated daily among the participants according to the ratio of an individual participant's account to total participant accounts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2021

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are 100% vested in their accounts at all times except for Company fixed rate contributions. Participants employed by the Company on March 31, 2021, are 100% vested in their Company fixed rate contribution, otherwise, Company fixed rate contributions vest after three years of service with the Company.

Notes Receivable from Participants

Participants are entitled to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, subject to certain terms. A participant may have two loans under the Plan at any time: one loan may be a general purpose loan, and one loan may be a principal residence loan. Loan repayments are made through payroll deductions for a period chosen by the participant, not to exceed five years. However, loans used to acquire any dwelling unit as a principal residence may exceed five years. Interest rates on participants' new loans shall bear a reasonable rate of interest.

Rollovers

Effective June 1, 2021, eligible salary employees of the Company at the Warrick, Indiana plant (the "Warrick Plant") were eligible to make rollover contributions during the transition period, June 2021 – July 2021. Included in rollovers on the statement of changes in net assets available for plan benefits are the Warrick Plant participants' accounts. Participants were able to commence deferral effective November 2021.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also has an early retirement option when a participant reaches age 59 ½. In-service withdrawals are permitted under the Plan if participants meet the requirement for such withdrawals, as defined in the Plan agreement.

Hardship withdrawals, which meet a hardship purpose of immediate and heavy financial need, are permitted as provided in the Plan agreement. Such amounts may be drawn from a participant's deferral contributions only, and may be subjected to certain income tax penalties.

Administration of Plan Assets

Contributions made by the Company and participants are held and administered by the Trustee, Fidelity Management Trust Company ("FMTTC"), which invests the cash received, interest, and dividends in accordance with participants' instructions. Distributions to participants are made by FMTTC. FMTTC also administers the payment of principal and interest on participant loans.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities, at the date of the financial statements. Actual results could differ from those estimates.

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Since June 1, 2021, the Plan's investment assets have been held within the Kaiser Aluminum Savings and Investment Plans Master Trust ("Master Trust"). The Plan's investments are comprised entirely of employee-directed investments maintained on a specific identification basis within the Master Trust. Investment income and gains and losses are allocated to the participants' accounts.

Plan investments in the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians.

Purchases and sales of securities within the Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends earned by the Master Trust are recorded on the ex-dividend date. Net appreciation of the Master Trust includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

In accordance with the Plan documents, the Company, at its option, may pay all or a portion of the Plan administrative expenses. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives additional compensation from the Plan for this function.

Subsequent Events

Plan management has evaluated subsequent events through July 25, 2022, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2021

3. INFORMATION CERTIFIED BY THE TRUSTEE

As of December 31, 2021, investments are held in a Master Trust (Note 9) and represent the Plan's equity in securities held by the Master Trust in investment funds stated at fair value.

The Investment Committee has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, FMTC, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments and notes receivable from participants:

- Plan interest in Kaiser Aluminum Savings and Investment Plans Master Trust, at fair value
- Notes receivable from participants
- Net investment income from interest in Kaiser Aluminum Savings and Investment Plans Master Trust
- Interest income
- Schedule of assets held at end of year

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021.

Mutual Funds. Valued at the daily closing price as reported by the fund. Mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds are deemed to be actively traded.

Common/Collective Trust Funds. A common/collective trust fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it was determined to be probable that the fund would sell the investment for an amount different from the reported net asset value. Participation transactions (purchases and sales) may occur daily. The common/collective trust fund has an immediate redemption frequency and no redemption notice period. When making a direct exchange from this fund to a competing fund, the balance must be first exchanged to a non-competing fund for 90 days. There were no unfunded commitments in 2021.

Master Trust at Fair Value.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets as of December 31, 2021:

		Fair Value Measurements as of December 31, 2021		
Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	\$ 401,598,030	\$ 401,598,030	\$ —	\$ —
Investments measured at net asset value ¹	<u>24,761,788</u>	<u>—</u>	<u>—</u>	<u>—</u>
Total Assets at Fair Value	<u>\$ 426,359,818</u>	<u>\$ 401,598,030</u>	<u>\$ —</u>	<u>\$ —</u>

¹In accordance with *Subtopic 820-10, Fair Value Measurement-Overall*, certain investments that were measured at net asset value per share, using the practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for plan benefits.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Participants may direct their contributions to certain funds under common ownership with the Trustee of the Plan. Transactions between the Plan and the Trustee therefore qualify as party-in-interest transactions for which there is a statutory exemption. Included in plan administrative expenses are amounts paid to FMTC, which totaled \$338 for the initial period ended December 31, 2021.

The Plan also allows for the issuance of participant loans in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the participants become 100% vested in their account balance. The assets would be subsequently distributed to participants in accordance with the balance of each participant's account.

7. TAX STATUS

The Plan has been designed to qualify under Section 401(a) of the Internal Revenue Code (IRC). The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 401(a). The Plan applied for a determination letter from the Internal Revenue Service (IRS) on April 29, 2022 and has not received a determination letter specific to the Plan; however, the plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income tax have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. RISKS AND UNCERTAINTIES

The Plan provides for investments in various securities through the Kaiser Aluminum Savings and Investment Plans Master Trust (the "Master Trust"). Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. INVESTMENTS IN MASTER TRUST

Participant contributions, rollovers, Company's match contributions and Company's fixed rate contributions are held in a trust account with the Trustee and consist of an interest in the Master Trust. Use of a Master Trust permits the commingling of the trust assets of two or more similar employee benefit plans sponsored by the Company for investment and administrative purposes. Currently, the Master Trust holds assets and reports activity for the Plan, the Kaiser Aluminum Fabricated Products, LLC Savings and Investment Plan and the Kaiser Aluminum Investments Company Hourly Savings and Investment Plan. Each plan's interest in the net assets of the Master Trust is based on the individual plan participants' investment balances. Investment income is allocated on a daily basis through a valuation performed by the Trustee. Investment expenses relating to the Master Trust are allocated to the individual funds based upon each participant's pro-rata share, per share calculation or specific transaction.
