Notes to Financial Statements

1. Description of Plan

The following description of the Strunk HR, LLC 401(k) Plan (GB Auto Service, Inc.) (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was a defined contribution plan covering substantially all employees of GB Auto Service, Inc. fka Brakemax Corporate, LLC and participating employers (collectively, the “Company”) who had obtained the age of 21 and who had completed at least 3 months of service. The Trustee controlled and managed the operation and administration of the Plan. Effective May 1, 2018, Mid Atlantic Trust Company became the new custodian of the Plan (the “Custodian”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan merger

The Trustee terminated the Plan effective March 9, 2020 and all assets were merged into a new plan, GB Auto Service, Inc 401(k) Plan.

Contributions

Each year, participants could have contributed compensation, as defined in the plan document, subject to certain Internal Revenue Code (“IRC”) limitations. Participant salary deferrals could have been traditional 401(k) (pretax) or Roth 401(k) (after-tax). Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants could have also contributed amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate. Automatically enrolled participants had their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company contributed 50 percent of the first 4 percent of eligible compensation that a participant contributed to the Plan. Additional profit-sharing amounts could have been contributed at the discretion of the Company. There were no additional profit-sharing contributions for the period ended March 9, 2020.

Investment options

Participants directed the investment of their accounts into various investment options offered by the Plan. The Plan offered mutual funds as investment options for participants.

Participant accounts

Each participant’s account was credited with the participant’s contributions and allocations of the Company’s contributions and plan earnings (losses) and charged with benefit payments and allocations of administrative expenses as well as transaction fees related to notes receivable from participants and distributions. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s vested account.

Vesting

Participants were immediately vested in their contributions and the Company's safe harbor contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon was based on years of service. A participant was 100 percent vested after six years of credited service.

Notes receivable from participants

Participants could have borrowed from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at rates the prime rate plus 2 percent. Principal and interest was paid ratably through payroll deductions.

Payment of benefits

Upon termination of service, death, disability or retirement, a participant could have elected to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Amounts contributed on a before-tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

Forfeitures

At March 9, 2020 and December 31, 2019, forfeited non-vested accounts totaled \$0 and \$2,778, respectively. Forfeited accounts could have been used to reduce future employer contributions to the Plan or to pay Plan expenses. During 2021, no forfeitures were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan were prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits were recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable and distributions) are charged directly to the participant's account.

Subsequent events

The Plan has evaluated subsequent events through July 7, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at March 9, 2020 and December 31, 2019. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3
Mutual funds	\$ 4,999,790	\$ -	\$ -
			Total
			\$ 4,999,790

Strunk HR, LLC 401(k) Plan (GB Auto Service, Inc.)
Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of March 9, 2020 and December 31, 2019 and for the period January 1, 2020 through March 9, 2020 that was obtained from data prepared and certified to be complete and accurate by the Plan's Custodian.

	<u>2020</u>	<u>2019</u>
Investments	<u>\$ -</u>	<u>\$ 4,999,790</u>
Notes receivable from participants	<u>\$ -</u>	<u>\$ 160,411</u>
Net appreciation in fair value of investments	<u>\$ 131,360</u>	

5. Exempt Party-In-Interest Transactions

Certain Plan investments were funds managed by the Custodian. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. Fees paid by the Plan for administrative services were \$25,581 for the period ended March 9, 2020.

6. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts. See Note 1.

7. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the prototype plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of March 9, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
