HANCOCK PHYSICIAN NETWORK 401K RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
NOVEMBER 15, 2021 AND DECEMBER 31, 2020

1. DESCRIPTION OF THE PLAN

The following description of the Hancock Physician Network 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed defined contribution plan established by Hancock Physician Network, LLC (the Network and Plan Sponsor) covering all employees who are eligible upon completing 6 months of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2020, the Plan implemented the requirements of the Setting Every Community Up for Retirement Enhancement Act (SECURE ACT) that, among others, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Optional features within the SECURE ACT were assessed but not implemented in accordance with applicable law and Internal Revenue Service (IRS) guidance.

Plan Termination

During 2020, the Network approved a resolution to terminate the Plan, effective December 31, 2020. Subsequent to December 31, 2020, no contributions, loan payments or new loans were allowed, and participant balances were distributed as directed by the participants. Final payments of benefits were determined based on all participants being 100% vested and were made as soon as possible after the termination date. As of November 15, 2021, all participant balances were paid out and Plan assets were \$-0-. The Network terminated the Plan in order to establish a 403(b) retirement plan, effective January 1, 2021.

Contributions and Funding Policy

Prior to the Plan being terminated, participants could contribute up to the legal maximum of pretax annual compensation, as defined by the Plan. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various mutual funds as investment options for participants. Prior to the Plan being terminated, the Network matched the participant contribution at 100% up to 4% of the participant contribution. Additionally, the Network may have elected to make a discretionary contribution to the Plan on behalf of eligible participants. Employer discretionary contributions were calculated at 2% of the participants' base pay and contributed each pay period.

HANCOCK PHYSICIAN NETWORK 401K RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS NOVEMBER 15, 2021 AND DECEMBER 31, 2020

Compensation

Participant compensation was defined by the Plan as wages, tips and other compensation on Form W-2 with certain exclusions.

Participant Accounts

Prior to the Plan being terminated, each participant's account was credited with the allocation of participant contributions, allocation of (a) the Network's contribution, (b) the Plan's earnings, and (c) charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account. Investment account options available included various funds. Each participant had the option of directing their contributions into any of the separate investment accounts and could change the allocation daily.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Prior to the Plan being terminated, employer matching contributions were fully vested after two eligible years while employer discretionary contributions were fully vested after three eligible years. An eligible year was earned for each year an employee completes 1,000 hours worked in a calendar year.

Upon termination of employment, the non-vested portion of the participant's account was called a forfeiture. Forfeitures were used to pay certain Plan administrative expenses related to the forfeitures. Any remaining forfeiture was reallocated to reduce future employer contributions. During the period from January 1, 2021 through November 15, 2021, forfeitures of approximately \$34,000 were used in accordance with the plan document. Forfeited non-vested accounts approximated \$-0- and \$34,000 as of November 15, 2021 and December 31, 2020, respectively.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. No more than one loan can be outstanding for any participant at any one time and was secured by the balance in the participant's account. All loans were to be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five-year period unless it was for the purchase of a principal residence in which case the loan repayment period may not extend beyond ten years from the date of the loan. The trustee considered a loan in default if any scheduled repayment remained unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. A loan in default was deemed a distribution. In conjunction with the Plan's termination, subsequent to December 31, 2020, the outstanding balance of notes receivable from participants was settled as payments of benefits, paid in full by participants or rolled over into the new retirement plan established by the Network, as soon as possible after the termination date. As of November 15, 2021, the outstanding balance of notes receivable from participants was paid out and plan assets were \$-0-.

HANCOCK PHYSICIAN NETWORK 401K RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS NOVEMBER 15, 2021 AND DECEMBER 31, 2020

Payment of Benefits

In general, on termination of service due to death, disability or retirement, a participant could elect to receive either a lump-sum amount equal to the vested value of the account or equal installments. For termination of service due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution or a direct rollover into another qualified plan.

In accordance with the Coronavirus Aid, Relief and economic Security Act (CARES Act), between March and December 31, 2020, eligible participants could request a Coronavirus-related Distribution (CRD) of up to \$100,000 from their participant account, without being subject to the IRS 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Network approved a plan of liquidation during 2020, and management determined liquidation was imminent. The effective date of termination was December 31, 2020. Distribution of benefits were determined based on all participants being 100% vested and will be made as soon as possible after the termination date. As a result, the Plan prepared its financial statements on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets in liquidation and changes in net assets in liquidation available for benefits. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan valued its investments at fair value for financial reporting purposes. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Changes in fair value of investments were reflected in the statement of changes in net assets in liquidation available for benefits in the period in which such changes occur. Changes in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the period. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Each individual investment offered to the participants had varying investment objectives. Participants should refer to the custodian for a more complete description of the investment objectives.

HANCOCK PHYSICIAN NETWORK 401K RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS NOVEMBER 15, 2021 AND DECEMBER 31, 2020

Concentration of Credit Risk

Financial instruments that potentially subjected the Plan to concentrations of credit risk were part of the holdings in Plan's investments. Management believed that the trustee maintained the Plan's investments with high quality institutions and attempted to limit the credit exposure to any particular investment.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses was recorded as of November 15, 2021 and December 31, 2020. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits were recorded when paid.

Expenses

The Network provided certain administrative and accounting services to the Plan at no cost. Most administrative expenses were paid directly by the Network and generally included audit fees and legal fees. As such, these expenses were excluded from these financial statements. Administrative expenses incurred by the Plan included record keeping fees. Advisory fees and certain other fees were also charged to the Plan.

Subsequent Events

The Plan has evaluated subsequent events through July 5, 2022, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statement of net assets in liquidation available for benefits as of November 15, 2021 and December 31, 2020, and investment related activity reflected in the statement of changes in net assets in liquidation available for benefits for the period from January 1, 2021 through November 15, 2021.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2020.

- *Money market mutual funds:* Generally transact subscription and redemption activity at a \$1 stable net asset value (NAV) however, on a daily basis the funds are valued at their daily NAV calculated using the amortized cost of the securities held in the fund.
- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

5. PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Transactions with parties-in-interest included fees for the Plan's trustee, State Street Bank and Trust Company and the recordkeeper, Transamerica Retirement Solutions. Additionally, the Plan held party-in-interest investments with the trustee as of December 31, 2020. Notes receivable from participants as of December 31, 2020 were payable to the trustee and qualified as party-in-interest transactions.

Certain expenses, such as audit fees and legal fees, of the Plan were paid by the Network. Blue & Co., LLC is the independent auditor for the Plan and receives payment for those services. The Network provided certain administrative and accounting services to the Plan at no cost. These expenses qualified as party-in-interest transactions.

6. INCOME TAX STATUS

The Plan operated under a standardized prototype adoption agreement in connection with a volume submitter defined contribution plan. The Plan has not submitted to the Internal Revenue Service (IRS) for an individual determination letter because the standardized prototype document has received a favorable opinion letter from the IRS. However, the Network believes that the Plan was designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate uncertain tax positions taken by the Plan. The financial statement effect of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of November 15, 2021 and December 31, 2020, there were no uncertain tax positions taken or expected to be taken. The Plan recognized no interest or penalties related to uncertain tax positions.

The Plan has filed its tax returns for years through December 31, 2020. These tax returns are generally open to examination by the relevant taxing authorities for a period of three years from the later of the date the return was filed or its due date (including approved extensions).
