Pacific Lutheran University 403(b) Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Pacific Lutheran University 403(b) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying 2021 financial statements related to benefits provided under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pacific Lutheran University 403(b) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific Lutheran University 403(b) Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for purpose of expressing an opinion on the effectiveness of Pacific Lutheran University 403(b) Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific Lutheran University 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of and for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the accompanying 2021 financial statements related benefits provided under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Pacific Lutheran University 403(b) Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 16, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Excluded Contracts and Accounts

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions. As described in Note 11, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Pacific Lutheran University 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a defined contribution plan established by Pacific Lutheran University (the University) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the requirements of Section 403(b) of the Internal Revenue Code. The University is the sponsor of the Plan and TIAA and CREF and as agent for TIAA, FSB, is the custodian. The custodian manages the investments of the Plan as directed by the participants. In addition, the custodian provides recordkeeping services for the Plan.

Eligibility – All employees are eligible to make salary reduction contributions to the Plan, excluding students and clergy who elect out of University benefits. Employees who have completed at least one (1) year of service with the University and are age 18 or older are eligible to receive University contributions. A year of service is a twelve-month period during which an employee completes 1,000 hours of service. If an employee is otherwise eligible to receive University contributions at the time they first become employed by the University, and they have participated in a qualified plan governed by Code Section 401(a) or a tax-sheltered annuity plan governed by Code Section 403(b) at any time during the twelve consecutive months preceding employment and under that Plan the employee was eligible for and receiving employer contributions, the one year of service requirement is waived. The employee will be eligible to receive University contributions (including employer matching contributions) as of the first day of the month following completion of the eligibility requirements. Upon enrollment in the Plan, a participant may direct contributions to any combination of available investment options.

Contributions – Total University and participant contributions in any year may not exceed the maximum contribution limit allowed by the Internal Revenue Code. For the period of January 1, 2020 through August 31, 2020, the University contributed 7.5% of compensation (base pay) on behalf of eligible participants and also matched 50% of a participant's deferral contributions, up to 6% of the participant's compensation. The maximum University matching contribution was 3% of compensation (base pay). Effective September 1, 2020, the University no longer made matching contributions to the plan and reduced the nonelective contribution from 7.5% to 3% of compensation for eligible employees. Effective September 1, 2021, the University may elect to make discretionary matching and nonelective contributions to the Plan. For the period September 1, 2021 through December 31, 2021, the University elected to match 50% of a participant's deferral contributions, up to 6% of the participant's compensation and contributed 7.5% of compensation on behalf of eligible participants. The maximum University matching contribution was 3% of compensation (base pay). Contributions are subject to regulatory limitations.

Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Participant accounts – Each participant's account is credited with an allocation of the University's contributions and, as applicable, the participant's salary reduction contributions, rollover contributions, and an allocation of Plan earnings (net of administrative expenses), based on the participant's selected investment options. Allocations are based on the participant's earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeiture – Participants' 403(b) accounts are 100% vested at all times. Once the University makes a contribution to the Plan for a participant's benefit, including salary reduction contributions, that contribution belongs to the participant. Participant accounts are non-forfeitable.

Payment of benefits – Benefits may be paid to the participant or beneficiary upon the following events: death, disability, termination of employment, or attaining age 59-1/2 as defined in the Plan. In addition, a participant may qualify for a hardship distribution as defined in the Plan. The payment of benefits under the Plan is governed by IRS Code Section 403(b) and the investment contract distribution restrictions. The Plan permits the recipient to elect distribution of benefits in the form of a lump sum, installments, various annuity forms, or a combination of lump sum and installments. The Plan will make a mandatory distribution following severance from employment if the participant's accumulated benefit does not exceed the mandatory distribution amount of \$5,000.

Notes receivable from participants – The Plan does not make loans to participants or beneficiaries.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value and contract value. Qualified Institutions certify the contract value of the fully benefit-responsive guaranteed investment contract and the fair value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (SRA), Retirement Choice Plus (RCP) and the Group Supplemental Retirement Annuities (GSRA), are considered fully benefit-responsive. Other TIAA Traditional Annuity contract types, including the Group Retirement Annuities (GRA), Retirement Annuities (RA), and Retirement Choice (RC), are considered non-fully benefit-responsive and, therefore, are reported at fair value.

Fully benefit-responsive investment contract – The portion of the guaranteed investment contract that guarantees the contract value even when the fair market value of the underlying assets is more or less than contract value.

Non-fully benefit-responsive investment contract – The portion of the guaranteed investment contract that holds illiquid contracts and is not considered fully benefit-responsive.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through July 20, 2022, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2021 and 2020.

Registered investment companies – These investments are valued at the closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. The funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The Plan may redeem units at NAV on any day the New York Stock Exchange is open for business. Participants cannot redeem units from the CREF portfolios (with the exception of the Money Market Account or Short-Term Bond Fund) for 90 days if a purchase, sale, and/or repurchase is made within that account within a 60-day period.

Pooled separate accounts – The TIAA Real Estate Separate Account (RE Account) is a pooled separate account (PSA). It is a single account that invests primarily in real estate holdings.

Units held in the RE Account are primarily valued using market quotations or prices obtained from independent pricing sources. Accumulation units in the RE Account are available for transactions at the closing accumulation unit value on any day the Nasdaq is open for business. Transfers out of the RE Account are limited to one per calendar quarter. Although the underlying assets of the RE Account cannot be quickly sold and converted to liquid assets, TIAA provides the RE Account with a liquidity guarantee from the TIAA general fund that ensures that the RE Account has funds available to meet participant redemption, transfer, or cash withdrawal requests.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 3 – Fair Value Measurements (continued)

Non-fully benefit responsive investment contracts – TIAA traditional annuity – Certain investments in TIAA Traditional Annuity Contract are non-fully benefit responsive contracts and are reported at fair value. The Plan holds Retirement Annuities that have illiquid contracts; therefore, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The fair value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals, using a discounted cash flow method. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contracts.

The following table discloses the fair value hierarchy of the Plan's assets by level as of December 31, 2021 and 2020:

Fair Value Measurement at December 31, 2021				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 193,465,794	\$ -	\$ -	\$ 193,465,794

Note 3 – Fair Value Measurements (continued)

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

Name	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Input Values
TIAA Traditional Annuity Investment Contracts	\$ 54,792,262	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	Retirement Choice 2.75%-3.90% Group Retirement Annuity 3.00%-3.80% Retirement Annuity 3.00%-3.80%

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Guaranteed Investment Contract with TIAA and CREF

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types; the Plan participates in the RC, RCP, GRA, RA, SRA, and GSRA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

The SRA, RCP and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits. There are no unfunded commitments or reserves against contract value for credit risk of the issuer or otherwise.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 4 – Guaranteed Investment Contract with TIAA and CREF (continued)

The SRA, RCP and GSRA meet the Fully Benefit Responsive Investment Contract (FBRIC) criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA and CREF, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5 – Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the IRS. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for participants under Section 403(b).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that required disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

Note 7 – Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, and as agent for TIAA, FSB, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2021 and 2020.
- Net appreciation in fair value of investments, interest, and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investments reflected on the schedule of assets (held at end of year).

Note 8 – Party-in-Interest Transactions

Plan investments include shares of funds and insurance contracts managed by TIAA and CREF, the custodian of the Plan, and, therefore, transactions with this entity qualify as exempt party-in-interest transactions.

TIAA and CREF receives revenues from mutual fund service providers for service they provide to the funds. This revenue is used to offset certain amounts owed to TIAA and CREF for its administrative services to the Plan. If the revenue received from such mutual fund service providers exceeds the amount due to TIAA and CREF, they remit the excess to the Plan on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2021, there was \$139,292 of excess amounts.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the University has the right to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time.

Note 10 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.

Notes to Financial Statements

Note 11 – Excluded Contracts and Accounts

The Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans allows a plan administrator of a 403(b) plan to exclude certain contracts and accounts (Orphan Contracts) from plan assets for purposes of ERISA's annual reporting and audit requirements under specified conditions. Accordingly, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. These contracts meet the requirements, as provided by the Department of Labor in Field Assistance Bulletin 2009-02, to be excluded from the schedule H of the Form 5500 for the Plan. The related investment income and distributions have also been excluded in the accompanying statement of changes in net assets available for benefits. These amounts relate to vendors other than TIAA and CREF to whom contributions were made prior to January 1, 2009. No contributions were made or allowed to vendors other than TIAA and CREF after January 1, 2009. The amount of these excluded annuity and custodial accounts and the related income and distributions has not been determined, but management estimates that they are not material to the financial statements. Accounting principles generally accepted in the United States of America require that these excluded annuity and custodial accounts and the related income and distributions be included in the accompanying financial statements.
