Independent Auditor's Report

To the Participants and Plan Administrator of the
BJ Energy Solutions 401(k) Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BJ Energy Solutions 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the year ended December 31, 2021 and for the period from November 15, 2020 (inception) through December 31, 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021 and for the period from November 15, 2020 (inception) through December 31, 2020, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental information listed in the index as of December 31, 2021 and 2020 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental information, other than the information in the supplemental information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Description of Plan

The following description of the BJ Energy Solutions 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that provides retirement savings benefits to eligible employees of the BJ Energy Solutions (the “Employer” or “Company”). The Plan, which commenced effective November 15, 2020, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”).

Plan Custodians and Trustee

Great-West Trust Company, LLC (the “Trustee,” “Custodian,” or “Great- West”) serves as the Plan’s Trustee and is the Custodian maintaining custody of all investments held by the Plan, maintaining the Plan’s participant account balances, and providing record-keeping services to the Plan. Among other duties, the Trustee receives contributions, holds and invests the fund assets in accordance with the direction of participants, and makes distributions as directed by the Plan Administrator.

Eligibility

All employees of the Company over 18 years of age are eligible to participate in the Plan. Employees are permitted to enter the Plan immediately upon meeting the eligibility requirement.

Contributions

Participants may elect to contribute, on a before-tax or Roth basis, not less than 1% and up to 100% of eligible compensation as defined by the Plan. Participant contributions are subject to the deferral limit established annually by the IRC, which was \$19,500 for 2021 and 2020. Participants who have attained age 50 before the end of the Plan year or period are eligible to make additional catch-up contributions up to the maximum amount allowed annually by the IRC, which was \$6,500 for 2021 and 2020.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and will have their deferral contribution rate increased by 1% each year until it reaches maximum of 10% of eligible compensation, unless they elect otherwise. This increase occurs on March 1st of each year.

Participants may contribute amounts representing distributions from other qualified benefit or defined contribution plans (“rollover”).

The Employer may make discretionary matching contributions or discretionary profit-sharing contributions, as determined by the Employer. During the year ended December 31, 2021 and for the period from November 15, 2020 to December 31, 2020, the Employer did not make any contributions to the Plan.

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations of Plan earnings, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their pre-tax deferred, Roth, and rollover contributions, and any income or loss thereon. Participants are credited with prior service with BJ Services Management Holding Corporation for eligibility and vesting purposes. Participants whose employment commencement date is prior to November 15, 2020 will always be 100% vested in any Employer contributions.

For participants whose employment commenced on or after November 15, 2020, Employer contributions to the Plan, plus any income or loss thereon, will be subject to the vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2	0%
2	100%

Participant-Directed Investments

All assets of the Plan are participant-directed investments. Participants have the option of directing their account balances to one or more investment options offered by the Plan. The Plan has selected various investment options, as more fully described in the Plan Document, to which participants may designate the allocation of their account balances. The options vary in types of investments, rates of return, and investment risk.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. A participant may only have one outstanding loan at a time. The loans must be repaid over a period no longer than five years. The loans are secured by the balance in the participant's account and the loan interest rate is set at 1% above the Prime rate, as defined. Principal and interest are paid ratably through payroll deductions at least quarterly. On November 27, 2020, one existing note receivable from a participant was transferred to the Plan in the amount of \$11,260.

Payment of Benefits

Upon separation of service due to death, disability, retirement, or termination of employment, a participant may elect to receive either a lump sum payment equal to the value of the participant's vested balance or a partial withdrawal. Distributions to a terminated employee with an account balance not exceeding \$5,000 are made as a lump sum distribution as soon as administratively possible following the participant's termination of employment. The participant may elect whether to receive the distribution directly or to rollover the distribution into another retirement plan. If a terminated employee has an account balance exceeding \$5,000, the participant may elect to maintain their balances within the Plan. If the vested account balance is \$1,000 or less, the Plan permits involuntary lump sum cash distributions.

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Description of Plan (continued)

Payment of Benefits (continued)

A participant may withdraw all or a portion of their vested account balance in the event of a financial hardship, as defined by the Plan. Additionally, in-service withdrawals are permitted upon attainment of age 59 ½.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Agreement.

Payment of Benefits

Benefits payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses specifically incurred by, or attributable to, a participant will be paid from that participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1), and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs that are unobservable inputs for the assets or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- **Mutual Funds** – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2021 and 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,409,443	\$ -	\$ -	\$ 3,409,443

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 4 – Information Prepared and Certified by the Plan’s Trustee

The Plan Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

December 31,	2021	2020
Investments at fair value	\$ 3,409,443	\$ 2,398,863
Notes receivable from participants	49,015	10,902
Year Ended December 31,		
	2021	
Net depreciation in fair value of investments	\$ (77,536)	
Dividends	464,366	
Interest income on notes receivable from participants	1,374	
From November 15, 2020 (inception) through December 31, 2020		
Net appreciation in fair value of investments	\$ 25,575	
Dividends	49,089	
Interest	212	

The Plan’s independent auditor did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

Note 5 – Related-Party Transactions and Party in Interest Transactions

Plan investments are shares of mutual funds managed by the Trustee, and as such, these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to service providers.

The Plan has notes receivable from participants at December 31, 2021 and 2020. These receivables and all related transactions qualify as party-in-interest transactions, and are exempt from the prohibition of party-in-interest transactions under ERISA.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

BJ Energy Solutions 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 7 – Tax Status

The Plan and related trust operate under an adoption agreement in connection with a defined contribution pre-approved plan and custodial document sponsored by Great-West Trust Company, LLC. This defined contribution pre-approved plan document was filed with the appropriate agency and received a favorable determination letter from the IRS, dated June 30, 2020, stating that the defined contribution pre-approved plan is designed in accordance with applicable sections of the IRC.

Although the Plan has been amended since receiving the determination letter, the Plan Administrator believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been made in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Subsequent Events

The Company has evaluated subsequent events through July 9, 2022, the date the financial statements were available to be issued.

The Plan was amended and restated effective January 1, 2022 to change eligible compensation for deferral purposes to exclude bonus, commission, and overtime pays.

In January 2022, the Plan Sponsor elected to provide a discretionary matching contribution. The discretionary matching contribution is equal to the amount deferred by the employee, up to a maximum of 3% of the employee's eligible compensation for the period. The discretionary matching contributions will be funded on a quarterly basis. In order to receive the quarterly matching contributions, an employee must be actively employed and contribute to the Plan for the entire Plan quarter. In addition, in order to receive the fourth quarter matching contribution, an employee must be actively employed and contribute to the Plan for the entire Plan year.
