INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Plumbers and Steamfitters
Local No. 131 Pension Fund

We have audited the accompanying financial statements of the Plumbers and Steamfitters Local No. 131 Pension Fund (the Plan), which comprise the statements of net assets available for benefits as of October 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of October 31, 2020, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plumbers and Steamfitters Local No. 131 Pension Fund's net assets available for benefits as of October 31, 2021, and the changes therein for the year then ended and its financial status as of October 31, 2020, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedules of Administrative Expenses, Schedule of Employer Contributions, Schedule of Assets Held at End of Year and Schedule of Reportable Transactions, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements. The Schedule of Assets Held at End of Year and Schedule of Reportable Transactions are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. Such supplemental information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

PENSION FUND**

NOTES TO FINANCIAL STATEMENTS

OCTOBER 31, 2021 AND 2020

NOTE 1. DESCRIPTION OF PLAN

General - The Plumbers and Steamfitters Local No. 131 Pension Fund (the Plan) was established on January 21, 1971 under a trust agreement, with amendments since that time, and is maintained pursuant to collective bargaining agreements which provide for the rate of employer contributions, the type of work and areas of work for which contributions are payable and certain other terms governing contributions. The Plan's purpose is to provide for retirement, disability and death benefits to eligible participants. The Plan is administered by a Board of Trustees ("Trustees") consisting of representatives of both the employers and the Union.

The Plan is a non-contributory, defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Trustees have engaged an actuary to determine the benefit level that can be provided by the hourly contribution rates specified in the collective bargaining agreements. This rate, as actuarially computed, provides for funding of the current service cost and amortization of the unfunded accrued liability.

Employers' Contributions - Contributions to the Plan are made by contributing employers at rates established by collective bargaining agreements. The collective bargaining agreement provides for employer contributions at an hourly rate of \$7.93 ST/\$11.90 OT/ \$15.86 DT through May 31, 2020; \$8.18 ST/\$12.27 OT/\$16.36 DT through June 6, 2021; and \$8.45 ST/\$12.68 OT/\$16.90 DT effective June 7, 2021. Contributing employers primarily conduct business in the state of New Hampshire. Contributions from three employers comprise 53% of total contributions for 2021.

A Supplemental Pension Fund was established, effective June 1, 2014, as part of the Pension Fund. Regular hours worked on or after June 1, 2014 are credited to members and if applicable, reciprocated out. Any overtime and double time hours worked on or after June 1, 2014 are credited to the Supplemental Pension Fund.

Pension Benefits and Vesting - The following brief description of the Plan's pension benefits is provided for general information purposes only. Participants should refer to the plan document for more complete information.

Vested participants are eligible for normal retirement upon reaching the age of 65. Participants may also be eligible for vested deferred benefits, early retirement benefits, or disability retirement benefits if certain conditions are met as outlined in the Plan.

NOTE 1. DESCRIPTION OF PLAN (continued)

Subject to certain conditions outlined in the Plan, participants presently working in covered employment who have attained normal retirement age receive a monthly pension benefit equal to \$10 for each year of credited past service; \$70 for each year of credited future service up to February 1, 1996; \$90 for each year of credited future service earned between February 1, 1996 and October 31, 2006; and \$45 for each year of future service earned after November 1, 2006. Employees receive one year of vesting service for each plan year in which they complete at least 1,000 hours of service in covered employment.

In the event a vested participant dies and has met certain requirements outlined in the Plan, the spouse will be eligible to receive the participant's benefit as if the participant had retired and elected the day of the participant's death to commence benefit payments. In the event a retired member dies, the beneficiary also receives a lump sum benefit of \$2,500.

On November 19, 2019, the Board of Trustees approved a discretionary service agreement with Segal Marco Advisors making them the investment fiduciary under ERISA Section 3 (38). As a result of this, the Plan was amended on March 3, 2020 to allow for the assets to be held in the different group trusts. Furthermore, the Trustees voted to hire Comerica to be investment custodian for the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Valuation of Investments - The Trustees have appointed investment managers and an investment custodian. Subject to an investment policy adopted by the Trustees, the investment managers have discretionary authority concerning purchases and sales of investments, which consist of common collective trust funds, 103-12 investment entities, and cash equivalents.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as help during the year.

See Note 13 for discussion of fair value measurements.

Derivative Financial Instruments - The Plan, at times, has only a limited, indirect involvement with derivative financial instruments through certain investments. These investments utilize both derivative contracts and securities in accordance with the permissible uses of these financial instruments as defined in the Plan's "Investment Objectives and Guidelines." The Plan is unable to quantify any potential losses due to credit and market risks inherent in these investments; however, the Investment Managers believe the risk of incurring loss is remote and any loss would not be material.

Use of Estimates - The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

NOTE 3. PLAN TERMINATION

Although they have not expressed intent to do so, the Trustees have the right to terminate the Plan subject to the provisions of ERISA.

In the event of Plan termination, each participant's rights will be non-forfeitable to the extent funded, after providing for any administrative expenses. Assets remaining in the Plan will be allocated among the pensioners, beneficiaries, spouses and participants in the following order:

Pension benefits payable to all participants receiving benefits or eligible to receive benefits prior to the three year period ending on the termination date.

To all other benefits of the individuals under the Plan guaranteed under Title IV of ERISA.

To all other vested benefits under the Plan.

To all other benefits under the Plan.

NOTE 4. TAX STATUS

The Plan is qualified under Section 401(a) of the Internal Revenue Code and the related trust is exempt from federal income tax under Section 501(a).

The Plan obtained its latest determination letter on October 20, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's legal counsel believes that the Plan is currently designed, and the Plan's administrator believes that the trust is currently being operated, in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5. ACTUARIAL INFORMATION

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries, and (c) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from the firm of The Segal Company and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the date of payment.

Significant assumptions underlying the actuarial computations are as follows:

Actuarial Cost Method:	Funding Standard Account: Unit Credit Actuarial Cost Method with Shortfall. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service. Scheduled Cost: Entry Age Normal Actuarial Cost Method. Entry Age is defined as attained age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current benefit accrual rate had always been in effect.
Net Investment Return:	7.00%
Mortality Rates:	Non-Retired Participant: PRI-2012 Blue Collar Employee Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Employee Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale). Healthy Annuitant: PRI-2012 Blue Collar Healthy Annuitant Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale).

NOTE 5. ACTUARIAL INFORMATION (continued)

Disabled Annuitant: PRI-2012 Disable Annuitant Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward 10 years projected generationally from 2006 with the MP-2019 projection scale).

Weighted average retirement age:

63.7

Retirement age for inactive vested participants:

65

Administrative Expenses:

\$210,000, payable at the beginning of the year, for the year beginning November 1, 2020.

Current Liability Assumptions:

Interest:

2.53% (previously, 3.00%) within the permissible range prescribed under IRC Section 431 (c)(6)(E)

Mortality:

Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants.

Actuarial Value of Assets:

The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value and is recognized over a five-year period (10-year period for years that relief is elected). The actuarial value is further adjusted, if necessary, to be within 20% of the market value.

Future Benefit Accruals:

Each active participant is assumed to work the same number of hours in each future year as worked in the plan year prior to the valuation date.

Definition of Active Participants:

Those with at least one hour of service in the most recent plan year and who have accumulated at least one tenth pension credit for service after 1996, excluding those who have retired as of the valuation date.

NOTE 5. ACTUARIAL INFORMATION (continued)

Justification for Change in Actuarial Assumptions - For purposes of determining current liability, the current liability interest rate was changed from 3.00% to 2.51% due to a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirements of IRC Section 431(c)(6)(E) and the mortality tables and mortality improvement scales were changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1.

Based on past experience and future exceptions, the following actuarial assumptions were changed as of November 1, 2020:

- The pre-retirement mortality assumption was updated from the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Employee Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale to the Pri-2012 Blue Collar Employee Amount-Weighted Mortality Table set forward two years projected generationally with the MP-2020 projection scale.
- The healthy retiree mortality assumption was updated from the unprojected experience rates (as of 2006) for the RP-2014 blue Collar Healthy Annuitant Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale to the Pri-2012 Blue Collar Healthy Retiree Amount-Weighted Mortality Table set forward two years projected generationally with the MP-2020 projection scale.
- The disable retiree mortality assumption was updated from the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward 10 years projected generationally from 2006 with the MP-2019 projection sale to the Pri-2012 Disable Retiree Amount-Weighted Mortality Table set forward two years projected generationally with the MP-2020 projection scale.
- The administrative expense assumption was decreased from \$230,000 to \$210,000.

These assumption changes are reflected in the October 31, 2020 unfunded vested liability for withdrawal liability purposes.

The Pension Protection Act of 2006 requires that a plan in the red “critical” zone adopt a Rehabilitation Plan that will enable the plan to improve its funded position to meet statutory funding requirements over time. To comply with the Act, the Pension Plan adopted a Rehabilitation Plan on July 22, 2009, most recently revised and adopted August 13, 2012. The Plan is now expected to emerge from critical status in 2039.

On January 29, 2021, the Plan actuary certified that the Plan continued to be in critical status for the plan year beginning November 1, 2019. The Trustees previously adopted an election permitted by the Worker, Retiree and Employer Recovery Act of 2008 to extend the ten-year rehabilitation period by three years.

Subsequent to year end, on January 28, 2022, the Plan’s actuary certified that the Pension Plan remained in critical status (the red zone) for the plan year beginning November 1, 2021.

NOTE 6. FUNDING POLICY

Contributions to the Plan are made by contributing employers at rates established by the collective bargaining agreements. The Plan's actuary has represented that contributions for the years ended October 31, 2021 and 2020 have met the minimum funding requirements of ERISA.

NOTE 7. PENSION BENEFIT GUARANTY CORPORATION

The Plan is a defined benefit plan and certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions.

However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

If Plan benefits have been increased within the five-year period before plan termination, the entire amount of the Plan's vested benefits or the benefit increase may not be guaranteed. In addition, there is a statutory ceiling on the amount of monthly benefit that PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by PBGC.

NOTE 8. EMPLOYER CONTRIBUTIONS RECEIVABLE

Employer contributions receivable represents uncollected contributions for covered employment prior to the Fund's year end and are as follows:

	October 31,	
	2021	2020
Collections subsequent to year end	\$ 278,013	\$ 212,075
Less allowance for doubtful accounts	-	-
	<u>\$ 278,013</u>	<u>\$ 212,075</u>

The allowance for doubtful accounts represents the estimated losses that may be incurred in the collection of specific employer contributions receivable. The allowance account was established based on an assessment of the collectability of contributions receivable. There were no uncollectible accounts written off during the years ended October 31, 2021 and 2020.

NOTE 9. RELATED PARTIES

The Plumbers and Steamfitters Local No. 131 Annuity and Health and Welfare Funds are related to the Plan through common trustees. The Funds equally share the cost of meeting expenses, insurance coverage, and certain legal fees. The Plan's portion of shared expenses totaled \$26,654 and \$28,992 for the years ended October 31, 2021 and 2020, respectively.

NOTE 10. CONTRACT ADMINISTRATION

The Plan has a contract with Zenith American Solutions ("Zenith"), a third party administrator, to administer the Plan. The contract provided for a monthly fee of \$4,904 effective June 1, 2020. The agreement shall be automatically extended for additional 12 month periods without further action of either party, unless terminated.

Subsequent to year end, on November 16, 2021, the Trustees voted to approve a monthly administration fees structure of \$5,051 effective January 1, 2022; \$5,203 effective January 1, 2023; and \$5,359 effective January 1, 2024

NOTE 11. RECIPROCAL AGREEMENTS

The collective bargaining agreement requires employers to contribute for all employees regardless of whether the employee is a member of Local No. 131 or another affiliated local. The Plan's trustees have signed reciprocity agreements with plan trustees for a number of affiliated local unions. According to these agreements, contributions received on behalf of employees working outside the jurisdiction of their home local union are forwarded to the appropriate plan of the employee's home local union at an agreed upon rate.

NOTE 12. RISK AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as economic, interest rate, market and sector risks. Due to the level of risks associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to investment returns and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE 13. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Basis of Fair Value Measurement:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no changes in the methodologies used at October 31, 2021 and 2020.

Common Collective Trust Funds:

When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded but before the fund calculates its net asset value, the fund values these securities as determined in accordance with procedures approved by the fund's Board of Directors.

Common collective trust funds are valued at the net asset value per unit of the fund as represented by the investment custodian.

NOTE 13. FAIR VALUE MEASUREMENTS (continued)

103-12 investment entities:

Marco Equity Group Trust: Investments in securities listed on a national exchange are valued at the composite close price on the day of valuation. Securities traded in the over-the-counter market and listed securities for which no sale is reported on that date are stated at a mean of the current bid and ask prices. The resulting unrealized gains and losses are reflected in the statement of operations. The Fund values government bonds using quoted prices when traded in active markets. When quoted prices are not available, the Fund uses an independent pricing service to value government bonds based on a discounted cash flow model that uses inputs that include interest rate yield curves; cross-currency basis index spreads; and sovereign credit spreads similar to the bond in terms of issuer, maturity, and seniority.

Investments in Private Investment Funds are valued, as a practical expedient, utilizing the net asset valuations provided by the underlying funds, without adjustment, when the net asset valuations of the investments are calculated (or adjusted by the Fund if necessary) in a manner consistent with U.S. GAAP for investment companies. The Fund applies the practical expedient to its investments in Private Investment Funds on an investment-by investment basis, and consistently with the Fund's entire position in a particular investment, unless it is probable that the Fund will sell a portion of an investment at an amount different from the net asset valuation or in other situations where the practical expedient is not available.

The Fund may use futures contracts for hedging and non-hedging purposes. Upon entering into futures contracts, the Fund is required to deposit with the broker an amount ("initial margin") equal to a certain percentage of the contract value. Pursuant to the contracts, the Fund agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as "variation margin" and are recorded by the Fund as unrealized appreciation (depreciation) on the statement of operations. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of futures transactions includes the risk of imperfect correlation in movements in the price of futures contracts, interest rates, and underlying assets.

The Fund may utilize currency hedging for defensive purposes to protect the Fund's value in U.S. dollars. Currency hedging techniques may include; (i) purchasing and selling currency futures contracts and options thereon, (ii) purchasing and selling currency forward contracts, and (iii) engaging in foreign currency exchange transactions on a spot (i.e., cash) basis at the spot rate prevailing in the foreign currency exchange market. Other strategies that may be used to protect capital or enhance returns include out-of-the-money puts, hedging or EFTs, selling market indices, and holding cash.

NOTE 13. FAIR VALUE MEASUREMENTS (continued)

Marco Fixed Income Group Trust: Investments in securities listed on a national exchange are valued at the composite close price on the day of valuation. Securities traded in the over-the-counter market and listed securities for which no sale is reported on that date are stated at a mean of the current bid and ask prices. The resulting unrealized gains and losses are reflected in the statement of operations. The Fund values government bonds using quoted prices when traded in active markets. When quoted prices are not available, the Fund uses an independent pricing service to value government bonds based on a discounted cash flow model that uses inputs that include interest rate yield curves; cross-currency basis index spreads; and sovereign credit spreads similar to the bond in terms of issuer, maturity, and seniority.

Debt securities, including restricted securities, are valued based on evaluated prices received from independent pricing services or from dealers who make markets in such securities. For corporate bonds, bank notes, floating rate loans, foreign government and government agency obligations, municipal securities, preferred securities, supranational obligations, U.S. government and government agency obligation, sovereign loan participations, pricing services utilize matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices. For asset backed securities, collateralized mortgage obligations, commercial mortgage securities, and U.S. government agency mortgage securities, pricing services utilize matrix pricing which considers prepayment speed assumptions, attributes of the collateral, yield or price of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices and, accordingly, such securities are generally categorized as Level 2 in the hierarchy. Swaps are marked-to-market daily based on valuations from independent pricing services or dealer-supplied valuations and changes in value are recorded as unrealized appreciation (depreciation). Pricing services utilize matrix pricing which considers comparisons to interest rate curves, credit spread curves, default possibilities and recovery rates. When independent prices are unavailable or unreliable, debt securities and swaps may be valued utilizing pricing matrices which consider similar factors that would be used by independent pricing services.

Cash equivalents:

Cash equivalents consist of cash investments in the Comerica Short Term Fund. Cash investments in the Comerica Short Term Fund are valued under the market approach through the use of quoted market prices in an active market, which is the net asset value of the underlying funds and are classified within Level 1 of the valuation hierarchy.

NOTE 13. FAIR VALUE MEASUREMENTS (continued)

The following table presents assets and liabilities measured at fair value on a recurring basis at October 31, 2021:

	Fair Value Measurements at October 31, 2021			
	Total	Level 1	Level 2	Level 3

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers between Levels

For years ended October 31, 2021 and 2020, there were no transfers between Levels 1, 2 or 3.

The following table summarized investments measured at fair value based on NAV per share as of October 31, 2021 and 2020.

NOTE 14. PARTY IN INTEREST TRANSACTIONS

The Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

NOTE 15. SUBSEQUENT EVENTS

Subsequent events have been evaluated through July 13, 2022, which is the date the financial statements were available to be issued, and they have been evaluated in accordance with relevant accounting standards.

Exhibit K: Summary of Plan Provisions

(Schedule MB, Line 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year	November 1 through October 31
Pension Credit Year	November 1 through October 31
Plan Status	Ongoing plan
Collective Bargaining Agreement Ends	May 31, 2024
Regular Pension	<ul style="list-style-type: none">• <i>Age Requirement:</i> 65• <i>Service Requirement:</i> None• <i>Other Requirement:</i> Be a participant as of the date of retirement.• <i>Amount:</i> \$10 per year of Credited Past Service plus \$70 per year of credited future service up to February 1, 1996, plus \$90 per year of Credited Future Service from February 1, 1996 through November 1, 2006, plus \$45 per year of Credited Future Service after November 1, 2006.
Early Retirement	<ul style="list-style-type: none">• <i>Age Requirement:</i> 55• <i>Service Requirement:</i> 5 years of Credited Future Service• <i>Amount:</i> Regular pension accrued reduced by 6% for each year of age less than 65.
Disability	<ul style="list-style-type: none">• <i>Age Requirement:</i> None• <i>Service Requirement:</i> 5 years of Credited Future Service• <i>Amount:</i> Younger than 55, 40% of Regular pension. Age 55 or older, reduced by 6% for each year of age less than 65.

Section 3: Certificate of Actuarial Valuation

Spouse's Pre-Retirement Death Benefit	<ul style="list-style-type: none"> • <i>Age Requirement:</i> None • <i>Service Requirement:</i> 5 years of Credited Future Service • <i>Amount:</i> The benefit is calculated as if the employee retired at his or her date of death, using his or her age on that date but not less than 55, and elected the 100% Joint and Survivor Annuity form. Monthly payments to the spouse begin immediately and are payable for the spouse's lifetime.
Pre-Retirement Lump-sum Death Benefit (if not eligible for spouse's benefit)	<ul style="list-style-type: none"> • <i>Age Requirement:</i> None • <i>Service Requirement:</i> None • <i>Amount:</i> 100% of contributions
Post-Retirement Death Benefit	<p><i>Lump – sum Benefit for Pensioners:</i> \$2,500</p> <p><i>Husband and Wife:</i> If married, pension benefits are paid in the form of a 50% joint and survivor annuity unless this form is rejected by the employee. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If not rejected, or if not married, benefits are payable for the life of the employee, or in any other available optional form elected by the employee in an actuarially equivalent amount.</p>
Automatic Benefit Forms	<p><i>Not Married:</i> The accrued pension is paid as a Single Life Annuity.</p> <p><i>Married:</i> Lifetime monthly annuity to the retiree with 50% of such annuity continuing to the retiree's spouse following the retiree's death. The accrued benefit is adjusted to be actuarially equivalent to the Single Life Annuity.</p>
Optional Forms of Benefits	<p><i>Single Life Annuity:</i> Retirees may elect the Single Life Annuity.</p> <p><i>Ten-Year Certain and Life:</i> Retirees may elect the Ten-Year Certain and Life Pension. The accrued pension is adjusted to be actuarially equivalent to the Single Life Annuity.</p> <p><i>Joint and Survivor Forms:</i> Retirees may elect a joint and survivor annuity with a 50%, 66 2/3%, 75% or 100% survivor benefit continued to the spouse of the retiree. The benefit under any such election will be adjusted based on actuarial equivalence to the Single Life Annuity.</p>
Participation	Immediately on the first day in which an individual completes an hour of service in covered employment.

To Whom It May Concern:

As required by ERISA Section 305 and the Internal Revenue Code (IRC) Section 432, we have completed the actuarial status certification as of November 1, 2020 for the following plan:

Name of Plan: Plumbers and Steamfitters Local No. 131 Pension Plan
Plan number: EIN 51-6029575 / PN 001
Plan sponsor: Board of Trustees, Plumbers and Steamfitters Local No. 131 Pension Plan
Address: P.O. Box 5817, Wallingford, CT 06492
Phone number: 203.269.7741

As of November 1, 2020, the Plan is in critical status but not declining status.

This certification also notifies the IRS that the Plan is making the scheduled progress in meeting the requirements of its rehabilitation plan, based on information received from the plan sponsor and based on the annual standards in the rehabilitation plan. The Funding Standard Account Credit Balance (Deficiency) as of October 31, 2020 is -\$8.4 million versus the annual standard of -\$19.5 million. In addition, in accordance with the Rehabilitation Plan update for the plan year beginning November 1, 2011, when taking into account the scheduled 3% annual increases in contributions for years beyond the current collective bargaining agreement the Plan is scheduled to emerge on or before the October 31, 2039 emergence date in the Rehabilitation Plan.

If you have any questions on the attached certification, you may contact me at the following:

Illustration Supporting Actuarial Certification of Status (Schedule MB, line 4b)

This is to certify that Segal has prepared an actuarial status certification under Internal Revenue Code Section 432 for the Plumbers and Steamfitters Local No. 131 Pension Plan as of November 1, 2020 in accordance with generally accepted actuarial principles and practices. It has been prepared at the request of the Board of Trustees to assist in administering the Fund and meeting filing and compliance requirements under federal law. This certification may not otherwise be copied or reproduced in any form without the consent of the Board of Trustees and may only be provided to other parties in its entirety.

The measurements shown in this actuarial certification may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); differences in statutory interpretation and changes in plan provisions or applicable law.

This certification is based on the November 1, 2019 actuarial valuation, dated November 16, 2020. This certification reflects the changes in the law made by the Multiemployer Pension Reform Act of 2014 (MPRA). Additional assumptions required for the projections (including those under MPRA), and sources of financial information used are summarized in Exhibit VI.

Segal does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretation on which this certification is based reflects Segal's understanding as an actuarial firm.

This certification was based on the assumption that the Plan was qualified as a multiemployer plan for the year.

I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of my knowledge, the information supplied in this actuarial certification is complete and accurate. As required by IRC Section 432(b)(3)(B)(iii), the projected industry activity is based on information provided by the plan sponsor. In addition, as allowed by IRC Section 432(b)(3)(B), in my opinion, the contributions used for Insolvency Projections are reasonable. In my opinion, the projections are based on reasonable actuarial estimates, assumptions and methods that (other than projected industry activity) offer my best estimate of anticipated experience under the Plan.

Actuarial Status Certification under IRC Section 432

Exhibit VI

Actuarial Assumptions and Methodology

The actuarial assumptions and plan of benefits are as used in the November 1, 2019 actuarial valuation certificate, dated November 16, 2020, except as specifically described below. We also assumed that experience would emerge as projected, except as described below. The calculations are based on a current understanding of the requirements of ERISA Section 305 and IRC Section 432.

A. Actuarial Assumptions and Plan Provisions Except as Modified by Section B

Plan of Benefits:	Unchanged from the valuation.
Contribution Rates:	Unchanged from the valuation. The collective bargaining agreement reflects an increase in the contribution rate from \$7.93 to \$8.17 effective June 1, 2020.
Asset Information:	<p>The financial information as of October 31, 2020 was based on a draft financial statement provided by the Fund Auditor.</p> <p>For projections after that date, the assumed administrative expenses of \$236,900 for the 2020 – 2021 plan year were increased by 3% per year and the benefit payments were projected based on the November 1, 2019 actuarial valuation. The projected net interest and dividends were assumed to be 7.00% of the average value of assets for the 2020 - 2039 Plan Years. Any resulting investment gains or losses due to the operation of the asset valuation method are amortized over 15 years in the Funding Standard Account.</p>
Projected Industry Activity:	As required by Internal Revenue Code Section 432, assumptions with respect to projected industry activity are based on information provided by the plan sponsor. Based on this information, the total number of hours worked is assumed to be 330,000 hours each year.
Future Normal Costs:	Based on the assumed industry activity and the unit credit cost method, we have assumed that the Normal Cost will increase by 1.0% per year due to the overall aging of the population. Additionally, the Normal Cost in future years has been adjusted upwards by 0.15% per year to reflect the effects of mortality improvement projected in the generational mortality assumption.

B. Assumptions for Emergence and Insolvency Projections

Assumptions for this purpose are the same as shown in Section A with the following exception:

Contributions for years beyond the length of the current collective bargaining agreement are assumed to increase by 3% each year in accordance with the Rehabilitation Plan.

Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are presented to meet regulatory, legislative and client requirements. Deterministic cost projections are based on a proprietary forecasting model. Our Actuarial Technology and Systems unit, comprised of both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible actuary.

Technical issues

Segal does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretation on which the certification is based reflects Segal's understanding as an actuarial firm. Due to the complexity of the statute and the significance of its ramifications, Segal recommends that the Board of Trustees consult with legal counsel when making any decisions regarding compliance with ERISA and the Internal Revenue Code.

(Schedule MB, Line 6)

Mortality Rates

Non-Retired Participant: PRI-2012 Blue Collar Employee Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Employee Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale).

Healthy Annuitant: PRI-2012 Blue Collar Healthy Annuitant Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward two years projected generationally from 2006 with the MP-2019 projection scale).

Disabled Annuitant: PRI-2012 Disabled Annuitant Amount-Weighted Mortality Table set forward two years projected generationally with MP-2020 projection scale (previously, the unprojected experience rates (as of 2006) for the RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward 10 years projected generationally from 2006 with the MP-2019 projection scale).

The underlying tables with the generational projection to the ages of participants as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date. As part of the analysis, a comparison was made between the actual number of retiree deaths and the projected number based on the prior years' assumption.

These mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

	The retirement rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements and the projected number based on the prior years' assumption over the most recent five years.	
Description of Weighted Average Retirement Age	Age 63.7, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the November 1, 2020 actuarial valuation.	
Retirement Age for Inactive Vested Participants	65 The retirement age for inactive vested participants was based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements and the projected number based on the prior years' assumption over the most recent five years.	
Future Benefit Accruals	Each active participant is assumed to work the same number of hours in each future year as worked in the plan year prior to the valuation date. The future benefit accruals were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual benefit accruals over the most recent five years.	
Unknown Data for Participants	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male	
Definition of Active Participants	Active participants are defined as those with at least one hour in the most recent plan year and who have accumulated at least one tenth pension credit for service after 1996, excluding those who have retired as of the valuation date.	
Percent Married	80%	
Age of Spouse	Females 5 years younger than males.

Benefit Election	<p>All participants are assumed to elect the Life Annuity form of payment. All forms of payment are actuarially equivalent.</p> <p>The benefit elections were based on historical and current demographic data, adjusted to reflect the plan design, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual option election patterns over the most recent five years.</p>
Delayed Retirement Factors	<p>Active participants assumed to work enough hours each month to not qualify for delayed retirement adjustment. Inactive vested participants who are assumed to commence receipt of benefits after attaining normal retirement age qualify for delayed retirement increases, with increases up to current age.</p>
Net Investment Return	<p>7.00%</p> <p>The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.</p>
Annual Administrative Expenses	<p>\$210,000 payable at the beginning of the year for the year beginning November 1, 2020. (previously, \$230,000 payable at the beginning of the year for the year beginning November 1, 2019.)</p> <p>The annual administrative expenses were based on the prior year's experience, adjusted for inflation and rounded to the nearest \$5,000.</p>
Actuarial Value of Assets	<p>The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value, and is recognized over a five – year period (10-year period for years that relief is elected). The actuarial value is further adjusted, if necessary, to be within 20% of the market value.</p>
Actuarial Cost Method	<p><i>Funding Standard Account:</i> Unit Credit Actuarial Cost Method with Shortfall. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service.</p> <p><i>Scheduled Cost:</i> Entry Age Normal Actuarial Cost Method. Entry Age is defined as attained age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current benefit accrual rate had always been in effect.</p>
Benefits Valued	<p>Unless otherwise indicated, includes all benefits summarized in Exhibit K.</p>
Current Liability Assumptions	<p><i>Interest:</i> 2.51%, within the permissible range prescribed under IRC Section 431(c)(6)(E) (previously, 3.00%)</p> <p><i>Mortality:</i> Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants</p>
Estimated Rate of Investment Return	<p><i>On actuarial value of assets (Schedule MB, line 6g):</i> 6.0%, for the Plan Year ending October 31, 2020</p> <p><i>On current (market) value of assets (Schedule MB, line 6h):</i> 3.0%, for the Plan Year ending October 31, 2020</p>

Plumbers and Steamfitters Local No. 131 Pension Plan Rehabilitation Plan

Update For Plan Year Beginning November 1, 2011

Introduction

The Pension Protection Act of 2006 (“PPA”), as amended by the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”), requires the Trustees of a multiemployer pension plan that has been certified by the plan’s actuary as being in Critical status (also known as “Red Zone” status) to develop a Rehabilitation Plan (“Rehab Plan”). A Rehab Plan must prescribe actions, including recommended actions to be taken by the bargaining parties that are expected to enable a plan to meet stated annual financial benchmarks as well as the emergence criteria by the end of the rehabilitation period, based on reasonably anticipated experience and on reasonable actuarial assumptions. On January 29, 2009, the Plumbers and Steamfitters Local No. 131 Pension Plan (“Pension Plan”) was certified by its actuary to be in Critical status for the plan year beginning November 1, 2008. It remains in Critical status for the plan year beginning November 1, 2011.

The Trustees and collective bargaining parties have taken a number of steps including benefit reductions and contribution rate increases to improve the financial position of the Pension Plan. This update to the Rehab Plan adopted by the Trustees is the latest step in the process.

This Rehabilitation Plan:

1. Specifies the rehabilitation period and the expected emergence date;
2. Includes a schedule (Default) of contribution changes that will be provided to the bargaining parties, which must be implemented as part of any future collective bargaining agreements entered into or renewed after November 1, 2012;
3. Provides annual standards for meeting the requirements of the Rehabilitation Plan and describes how the Rehabilitation Plan will be updated from time to time; and
4. Describes how the Default Schedule will be automatically implemented if there is no agreement between the bargaining parties in a timely manner.

Rehabilitation Period and Expected Emergence Date

Pursuant to Section 205 of WRERA, the Trustees elected on July 22, 2009 that the rehabilitation period shall be 13 years long. The Trustees also determined, based on information about the expiration of the collective bargaining agreements in effect on January 29, 2009, that the rehabilitation period will begin on November 1, 2009. The Pension Plan was projected to emerge from critical status by October 31, 2022 based on reasonable assumptions.

The Trustees have periodically reviewed the Rehabilitation Plan since then. Due to adverse investment and employment experience since the original adoption of the Rehabilitation Plan, the Pension Plan is no longer projected to meet the requirements to cease to be in Critical Status by the end of the rehabilitation period. The law provides, however, that if the Trustees determine that, based upon the exhaustion of all reasonable measures, the Pension Plan cannot reasonably

be expected to emerge by the end of a statutory 13-year rehabilitation period, then the Rehabilitation Plan should be designed to enable the Pension Plan to cease to be in Critical Status at a later date, or if not reasonable, to forestall possible insolvency. The Rehabilitation Plan must be based on reasonably anticipated experience and on reasonable actuarial assumptions.

Deliberations by Trustees

At a meeting of the Trustees held on September 13, 2011, the Pension Plan's actuary reviewed with the Trustees their obligation to update the Rehabilitation Plan setting forth actions by which the Pension Plan could emerge from the Critical Zone.

The Pension Plan's actuary reviewed at length the actuarial and other assumptions used in the projections. The assumptions used in the development of those projections were those used for, and set forth in the Plan's November 1, 2010 actuarial valuation. The Trustees determined that those assumptions were reasonable and approved their use for the purposes of updating the Rehabilitation Plan for the 2010 – 2011 plan year.

The Pension Plan's actuary reported that in order to emerge from Critical Status within the 13 years allowed by the statute, this Rehabilitation Plan would be required to have an increase each year of \$0.95 per hour in employer contribution rates through November 1, 2022. This would require an hourly contribution rate of over \$17.00 per hour by 2022. The Pension Plan's actuary noted that these projections reflected the Trustees' election of the funding relief options provided under the Pension Relief Act of 2010 that were available to the Plan.

The Trustees determined that contribution increases of that magnitude would be unachievable. For reference, the Trustees noted that the then current collective bargaining agreement covering June 1, 2010 through May 31, 2012 provided for an annual increase in total wages and fringe benefit contributions of \$1.45 per hour per year. The total wage package increases by \$1.45 from June, 2010 to June, 2011 (\$46.85 to \$48.30). Total fringe benefits represented 41% of the total wage package. It was the consensus of the Trustees that the size of the fringe benefits package was a major element in the loss of market share in New Hampshire. The Trustees noted that the percentage of union construction has continued to decline in the territory covered by the Pension Plan. Annual contribution increases in the past were historically in increments of \$0.10 per hour. The hourly contribution rate to the Pension Plan in June 2006 was \$4.15 an hour and as of June 2011 was \$6.60, an increase of \$2.45 or 59% in five years.

The Trustees then considered whether the increased contribution could reasonably be funded by a redirection of contributions currently allocated to other benefits. It was noted that the U A National Plan had a mandatory hourly contribution of \$2.64, and the Health Fund of \$8.70 with the expectation that the Health Fund will need increases with the cost of medical inflation to maintain a reasonable level of benefits. The Trustees agreed that the interests served by the other fringe benefit Funds would make it unreceptive to the general membership of Local No. 131 to reallocate contributions from another fund to the Pension Plan.

The current contribution level to the Pension Plan was raised \$0.65 per hour in 2011 by the collective bargaining parties. The Trustees concluded that further reduction in the benefit package or the likelihood of no wage increases for a 13-year period would hinder efforts by the employers to attract and retain a qualified workforce, which would result in a decline in the contribution base of the Pension Plan. They noted that significant reductions in pension benefits

had already been made, with the accrual rate being cut in half in 2006 for future accruals earned after November 1, 2006 and increasing the early retirement factors from 1% to 6% per year for all years of service.

On the basis of the foregoing, it was the conclusion of the Trustees that no reasonable measures would enable the Pension Plan to emerge from Critical Status by the end of the statutory 13-year rehabilitation period. The Trustees determined that it would be reasonable to increase Employer Contributions as a consistent percentage of the total wage package. It was noted that the current total wage package was \$48.30 per hour and the current contribution rate to the Pension Plan was \$6.60 per hour (an increase of 59% over the past four years), resulting in a contribution rate that was 13.66% of the total wage package. The Trustees determined that for the Rehabilitation Plan it was not realistic to have the contribution rate increase faster than the total wage package. In other words, beginning with the June 2012 collective bargaining agreement, the hourly contribution rate would remain at 13.66% of the total wage package negotiated.

Based on the Trustees' assumption of a cumulative 3% per year wage package increase the Pension Plan is not expected to emerge from Critical Status until 2039.

If the actuary certifies before the end of this period that the Pension Plan is no longer in Critical status for a plan year, the rehabilitation period will end as of the close of the preceding plan year.

Rehabilitation Plan Remedies and Schedules

Default Schedule

Attached to this document as Exhibit A is the Default Schedule under the Rehabilitation Plan, which describe supplemental contributions that will be made if it is adopted. Recent updates to the Rehabilitation Plan have not included any additional benefit reductions beyond those made in the original Rehab Plan or previously. The following is a summary of the applicable benefit reduction rules in the original Rehab Plan.

Implementation of Remedies and Schedules

The benefits of participants whose annuity starting date is on or before November 1, 2006 are not subject to reduction under this Rehabilitation Plan. Benefits for other participants are determined as follows:

- A Participant who earns at least 190 hours under a collective bargaining agreement that adopts terms consistent with one of the Schedules of the original Rehabilitation Plan (including previous updates) shall have his or her benefits determined based on that Schedule.
- Except as provided below, under Special Rules for Application of Benefit Reductions, all other participants who terminated or will terminate covered employment (including those in pay status who retired after November 1, 2006) shall have their benefits determined based on the benefit changes described in the Default Schedule of the original Rehabilitation Plan. These provisions shall take effect on the date specified in the notice of benefit reduction provided by the Pension Plan.

- Benefit reductions for all active participants become effective when they earn 190 Hours of Service under a new collective bargaining agreement that is consistent with one of the Schedules of the original Rehabilitation Plan, but in no event later than 180 days following the expiration date of the collective bargaining agreement in effect on November 1, 2008.
- For a non-collectively bargained active participant on November 1, 2008 who has contributions made to the Pension Plan under the terms of a participation agreement, the effective date for compliance will be November 1, 2009.
- Participants who work outside the jurisdiction of the Pension Plan and have monies sent to this Pension Plan on their behalf under a “Money follows the man” reciprocity agreement shall, for such time period, be treated as subject to the benefit provisions of the Preferred Schedule of the original Rehabilitation Plan. For benefit accrual purposes, their hours will be converted to equivalent hours determined by dividing the total contributions sent to this Pension Plan by the applicable contribution rate in the Preferred Schedule. For vesting service purposes, their hours will not be adjusted.

Special Rules for Application of Benefit Reductions

A Participant who has become covered by a Schedule of the original Rehabilitation Plan as described above shall cease to be covered by that Schedule on the earliest of the date when:

- The Participant becomes covered under a different Schedule by earning at least 190 Hours of Service under a collective bargaining agreement that corresponds to that different Schedule;
- The Participant incurs a one-year Break in Service under the Plan, whether or not he was vested prior to the Break, or
- The collective bargaining agreement is modified or expires and a different Schedule is agreed to or imposed with respect to persons covered by the successor agreement.

A retiree who became covered by a Schedule as described above shall cease to be covered by that Schedule on the earlier of the date when:

- He returns to covered employment and becomes covered under a different Schedule by earning at least 190 Hours of Service under a collective bargaining agreement that corresponds to that different Schedule, or
- The collective bargaining agreement under which he worked when he became subject to the Schedule is modified or expires and a different Schedule is agreed to or imposed with respect to persons covered by the successor agreement.

Benefits of a beneficiary or alternate payee with respect to a Participant or Retiree shall be determined on the same basis as benefits of the Participant or Retiree to whom they relate.

Automatic Implementation of Default Schedule

If a collective bargaining agreement providing for contributions under the Pension Plan that was in effect on November 1, 2008 expires, and after receiving the Default and Preferred Schedules the bargaining parties fail to adopt an agreement with terms consistent with either of those schedules, the Default Schedule will be imposed by the Trustees, and the benefits adjusted accordingly, 180 days after the date on which the collective bargaining agreement expires.

Employer Contribution Surcharges

A surcharge of 5% of contributions was assessed on all contributions payable for work performed after March 28, 2009 through October 31, 2009. The surcharge increased to 10% as of November 1, 2009. Surcharges continued until a new collective bargaining agreement or other labor-management agreement, was adopted consistent with either the Default Schedule or the Preferred Schedule of the original Rehab Plan.

Annual Standards for Meeting the Rehabilitation Requirements

On an annual basis, in conjunction with the actuarial valuation, the Pension Plan's actuary will perform a projection to certify (a) whether or not the Pension Plan is still expected to emerge from critical status by the end of the rehabilitation period (that is, the Pension Plan will be certified as no longer being in critical status no later than the end of the 2038 - 2039 Plan Year), and (b) whether or not the following annual standards as set forth in this Rehab Plan are being achieved. The Trustees will annually update the Rehab Plan and will update the schedules to reflect the experience of the Pension Plan

The Trustees recognize that actual experience will differ from the reasonable assumptions used to develop this Rehabilitation Plan and the following annual standards reflect the fact that it is impossible to predict the future with any certainty.

Annual Updating of Rehab Plan

Each year the plan's actuary will review and certify the status of the Pension Plan under the PPA funding rules and whether, starting with the beginning of the rehabilitation period, the Pension Plan is making the scheduled progress toward the requirements of the Rehab Plan. If the Trustees determine that it is necessary in light of updated information, they will revise the Rehab Plan and present updated schedules to the bargaining parties, which may prescribe additional benefit reductions or higher contribution rates.

Notwithstanding subsequent changes in benefit and contribution schedules, a schedule of contribution rates provided by the Trustees and relied upon by the bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement. However, a collective bargaining agreement that is renewed or extended will need to include terms consistent with one of the schedules in effect at the time of the renewal or extension.

Other Issues

Since contracts are typically negotiated for less than the length of the rehabilitation period, it is expected that future contract renewals will be consistent with the Default Schedule as applicable. The Board of Trustees may adjust this schedule at any time during the rehabilitation period.

In the event that a schedule has been implemented for an employer, and then another schedule is bargained as part of a subsequent negotiation, the Trustees may develop a revised contribution schedule for that particular situation.

If a participant changes employers and, as a result, becomes covered under a different schedule, benefits shall be determined as follows:

- If a participant who was covered by a particular Schedule subsequently becomes covered by another Schedule, benefits accrued up to the date of change will be determined under the first Schedule and benefits accruing after that date will be determined under the second Schedule. Other plan features (*e.g.*, disability benefits) will depend entirely on the Schedule applicable to the participant at the time of separation, death or retirement.

Benefit changes will become effective pursuant to the terms of this Rehabilitation Plan as soon as legally permissible after the Rehabilitation Plan is adopted and are expected to be permanent.

As noted, these schedules are subject to revision in future years if the Trustees determine that is necessary in light of the Pension Plan's future financial condition and the requirements of the PPA, or as appropriate.

Update For Plan Year Beginning November 1, 2011

DEFAULT SCHEDULE

The default schedule consists of the following:

1. A contribution rate equal to 13.66% of the total wage package for every year that the Pension Plan is in Critical status (or similar increases that have the same effect).
2. The plan of benefits in effect as of the day before the original date of certification of Critical status (January 29, 2009), for all current and future active participants and inactive vested participants and for every year that the Pension Plan is in Critical status, except for
 - a. The increase in the early retirement reduction factors to 6% for each year retiring before Normal Retirement Age for all years of service, effective for retirements after November 1, 2006 effective for payments on or after March 1, 2009 and later, and
 - b. Any benefit changes required for the Pension Plan to continue meeting the requirements to maintain its tax qualification under the Internal Revenue Code and comply with other applicable law, and
 - c. After commencement of the rehabilitation period, specific benefit increases, but only if the Trustees determine that they will be financed out of contributions not contemplated for the Rehab Plan, and will not impede the Pension Plan's progress toward achieving the PPA benchmarks for plans in critical status. Such benefit increases cannot be adopted unless the resulting projected emergence from critical status is within the original 13-year rehabilitation period that began on November 1, 2009.

To Whom It May Concern:

As required by ERISA Section 305 and the Internal Revenue Code (IRC) Section 432, we have completed the actuarial status certification as of November 1, 2021 for the following plan:

Name of Plan: Plumbers and Steamfitters Local No. 131 Pension Plan
Plan number: EIN 51-6029575 / PN 001
Plan sponsor: Board of Trustees, Plumbers and Steamfitters Local No. 131 Pension Plan
Address: P.O. Box 5817, Wallingford, CT 06492
Phone number: 203.269.7741

As of November 1, 2021, the Plan is in critical status but not declining status.

This certification does not reflect the enactment of the American Rescue Plan Act of 2021 (ARPA) on March 11. We anticipate further clarification of ARPA relief provisions based on final regulations to be issued by the IRS and the Pension Benefit Guaranty Corporation. Decisions that the Trustees may make to elect options available to them that might affect the Plan's "zone" status and minimum funding requirements for the current and future years may be reflected in a revised or future actuarial valuation.

This certification also notifies the IRS that the Plan is making the scheduled progress in meeting the requirements of its Rehabilitation Plan, based on information received from the plan sponsor and based on the annual standards in the rehabilitation plan. The Funding Standard Account Credit Balance (Deficiency) as of October 31, 2021 is -\$8.9 million versus the annual standard of -\$21.0 million. In

addition, in accordance with the Rehabilitation Plan update for the plan year beginning November 1, 2011, when taking into account the scheduled 3% annual increases in contributions for years beyond the current collective bargaining agreement, the Plan is scheduled to emerge on or before the October 31, 2039 emergence date in the Rehabilitation Plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
