INDEPENDENT AUDITORS' REPORT

Audit Committee and Plan Participants
BankFinancial and Subsidiaries Assoc. Investment Plan
Burr Ridge, Illinois

Opinion

We have audited the financial statements of BankFinancial and Subsidiaries Assoc. Investment Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of BankFinancial and Subsidiaries Assoc. Investment Plan as of December 31, 2021, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of BankFinancial and Subsidiaries Assoc. Investment Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BankFinancial and Subsidiaries Assoc. Investment Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BankFinancial and Subsidiaries Assoc. Investment Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BankFinancial and Subsidiaries Assoc. Investment Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Audit Committee and Plan Participants
BankFinancial and Subsidiaries Assoc. Investment Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter

The financial statements of BankFinancial and Subsidiaries Assoc. Investment Plan as of December 31, 2020, were audited by predecessor auditors whose report dated June 2, 2021 , expressed an unmodified opinion on those financial statements.

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN

The following description of the BankFinancial and Subsidiaries Assoc. Investment Plan (“the Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering substantially all employees of BankFinancial, NA (“the Bank”) and its subsidiaries. The plan, as amended, was adopted by the Bank on July 1, 1993, and restated effective November 12, 2021 through the adoption of a prototype plan through Voya Institutional Trust Company (“Voya”). Previously, the Plan had adopted the Principal Life Insurance Company (Principal) Volume Submitter Profit Sharing Plan. The provisions of the Plan remained substantially the same. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility: Employees become eligible to participate in the Plan at age 21, after completing six months of service, and on the first day of any quarter of any plan year coincident with or next following the date that they have met the eligibility requirements. Effective November 12, 2021, the eligibility changed to the first of the month following 90 days and the age remained at 21 following the recordkeeper change from Principal to Voya. The Plan includes an automatic salary deferral (auto-enrollment) feature effective with the transition to Voya. Upon eligibility, a deferral of 1% of eligible compensation will be withheld from each payroll and contributed to the Plan as a salary deferral.

Contributions: The Plan is a contributory 401(k) savings plan funded by employee and employer contributions. Each participant may elect to contribute up to 100% of pretax compensation, subject to the limits established by the Internal Revenue Code (“IRC”). Under the previous plan, the participants could elect to contribute up to 50% of pretax compensation, subject to the limits established by the Internal Revenue Code (“IRC”). The Plan includes a flexible discretionary matching contribution and profit sharing contribution effective with the transition to Voya. Subject to the above-mentioned limitation for the plan year ended December 31, 2021, the Bank provided a match of \$0.50 on each \$1.00 of contribution up to 6% of eligible compensation. During the year ended December 31, 2021 the Bank made matching contributions of \$343,135 to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Administrative Expenses: Any expenses incurred for the administration and audit of the Plan not paid by the Bank may be paid out of the Plan’s assets.

Participant Accounts: Each participant’s account is credited with the participant’s own contributions and an allocation of (a) the Bank’s matching and discretionary profit sharing contributions, (b) the Plan’s allocated earnings/loss, and (c) administrative expenses. Allocations are based on participant earnings, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Investment Elections: Participants direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers numerous funds, including BankFinancial Corporation common stock, as investment options for participants.

Vesting: Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service as follows:

Years	Vested Percent
1	—
2	25
3	50
4	75
5 or more	100

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN (continued)

Forfeitures: Forfeitures attributable to employer matching contributions are used to reduce future employer matching contributions or to pay administrative expenses of the Plan in accordance with the plan document. Forfeitures that have not been used to pay administrative expenses or used to reduce employer contributions shall be added to the employer discretionary profit sharing contributions and are allocated as of the last day of the plan year. During the year ended December 31, 2021, \$11,831 of forfeited matching contributions were used to offset employer matching contributions. As of December 31, 2021 and 2020, there were \$20,133 and \$246, respectively, in forfeited accounts.

Payment of Benefits: Participants are not eligible to receive benefit payments until employment is terminated or they attain the age 59 1/2. When the participant's vested balance is \$5,000 or less, the benefit is distributed in a lump-sum payment. Participants with a balance in excess of this figure may postpone the lump-sum payment of benefits until reaching the age of 72. In addition, hardship distributions out of the participants' voluntary contributions account are permitted if certain criteria are met. The Plan provides that participants can withdraw rollover contributions and earnings thereon and salary deferral contributions, but not the earnings thereon, for reasons of financial hardship, as defined.

Notes Receivable from Participants: The Plan provides that participants can borrow funds against their account balances limited to the lesser of \$50,000 or 50% of their vested account balance, subject to a minimum loan of \$1,000. The notes are secured by the balance in the participant's account and effective November 12, 2021 bear interest at rates at 1% over the prime interest rate. Under Principal adoption agreement, loan interest was at rates that were commensurate with local prevailing rates determined quarterly by Plan administrator. Principal and interest are paid through payroll deductions and the interest rate range is 4.25% to 6.50%. The Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020, which allowed qualified individuals with outstanding loans to delay loan repayments due from March 27, 2020 through December 31, 2020 for a 12-month period. The term of the loan was extended by one year to accommodate the suspension period. Subsequent repayments were adjusted to include accrued interest during the delay period.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for certain investment options including mutual funds, employer stock and a guaranteed investment contract. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances. As of December 31, 2021 and 2020, 23.8% of the Plan's net assets were invested in shares of BankFinancial Corporation Common Stock.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are reported at fair value, as more fully disclosed in Note 7. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participants notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting Fees and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment loss reported by the Plan. All other administrative expenses of the Plan are paid by the Plan or by the Bank.

Subsequent Events: The Plan has evaluated subsequent events through the issuance date of this report. As a result of continued COVID-19 outbreaks, geo-political concerns overseas and high inflation in the United States, economic uncertainties have arisen which have resulted in significant volatility in the investment markets, resulting in a decline in the value of the investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan holds a traditional fully benefit-responsive group annuity investment contract with Principal Life Insurance Company (Issuer) through the Principal Life Insurance Company Fixed Income Option 401(a)/(k). The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semi-annual basis. The accounts are credited with earnings based upon the specified crediting rate and charged for participant withdrawals and administrative expenses. The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract.

Effective November 12, 2021, under the Voya Group Annuity Contract, participants may invest in a Fixed Account. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus interest credited to the Fixed Account, less participant withdrawals, including amounts taken for loans, and administrative expenses. There are no reserves against contract values for credit risk of the contract issuer or otherwise. The Plan's investment contract does not specify certain conditions under which distributions from the contract would be payable at amounts below contract value. The terms and methods under which the contract may transact are defined in Section 3 (Contributions and Plan Accounts), Section 4 (Charges and Fees), Section 5 (Fixed Account), and Section 8 (Distributions) in the contract. The contract indicates that the Issuer may terminate the Fixed Account with 90 days prior notice to the Plan. Under the contract terms, the contract is terminated when no deposit arrangements have been made and there are no deposits with a value greater than zero under the Contract. Upon termination, a Market Value Adjustment (MVA) may be applied as described in the contract schedule. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than 1% percent. Such interest rates are reviewed on a periodic basis; however, no change can be made within 3 months of the last change. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; services provided by the Issuer and the duration of the underlying investments backing the contract.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. As of December 31, 2021 and 2020, certain plan investments are considered party-in-interest investments including the Guaranteed Investment Contract issued by Principal Life Insurance Company and mutual funds issued by Principal Global Investors, the asset management arm of the Principal Financial Group and Voya Institutional Trust Company. Principal Life Insurance Company, the lead operating company of the Principal Financial Group, was the directed trustee of the Plan through November 12, 2021 and therefore, these investments qualify as party-in-interest investments. Effective November 12, 2021, Voya Financial, the asset management arm of Voya Institutional Trust Company, is the directed trustee of the Plan and therefore, these investments qualify as party-in-interest investments. Investment management fees are paid by the Plan to investment managers which are parties-in-interest and these expenses are shown as a reduction of the return on the Plan's investments. Notes Receivable from Participants also reflect party-in-interest transactions.

At December 31, 2021 and 2020, the Plan held 856,733 and 967,266 shares of BankFinancial Corporation common stock in the BankFinancial Corporation Common Stock Fund, respectively. The Plan received \$283,097 in dividends on BankFinancial Corporation common stock in 2021. During the year ended December 31, 2021, Plan purchases of BankFinancial Corp common stock totaled to \$423,947, and Plan sales of BankFinancial Corp common stock totaled \$1,690,477.

Audit services fees were paid by the Plan's participants to its audit firm during the year ended December 31, 2021. In addition, loan and administrative fees were paid by the Plan's participants to Voya and Principal Life Insurance Company during the year ended December 31, 2021. These fees are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed Voya by letter dated June 30, 2020 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 7 - FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant inputs that are unobservable inputs for the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The fair values of mutual fund investments, common collective trusts, and publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

NOTE 7 - FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth financial assets that were accounted for at fair value and are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Investments measured at fair value on a recurring basis are summarized below:

Fair Value Measurements at December 31, 2021 using

INDEPENDENT AUDITORS' REPORT

Audit Committee and Plan Participants
BankFinancial and Subsidiaries Assoc. Investment Plan
Burr Ridge, Illinois

Opinion

We have audited the financial statements of BankFinancial and Subsidiaries Assoc. Investment Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of BankFinancial and Subsidiaries Assoc. Investment Plan as of December 31, 2021, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of BankFinancial and Subsidiaries Assoc. Investment Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BankFinancial and Subsidiaries Assoc. Investment Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BankFinancial and Subsidiaries Assoc. Investment Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BankFinancial and Subsidiaries Assoc. Investment Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Audit Committee and Plan Participants
BankFinancial and Subsidiaries Assoc. Investment Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter

The financial statements of BankFinancial and Subsidiaries Assoc. Investment Plan as of December 31, 2020, were audited by predecessor auditors whose report dated June 2, 2021 , expressed an unmodified opinion on those financial statements.

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN

The following description of the BankFinancial and Subsidiaries Assoc. Investment Plan (“the Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering substantially all employees of BankFinancial, NA (“the Bank”) and its subsidiaries. The plan, as amended, was adopted by the Bank on July 1, 1993, and restated effective November 12, 2021 through the adoption of a prototype plan through Voya Institutional Trust Company (“Voya”). Previously, the Plan had adopted the Principal Life Insurance Company (Principal) Volume Submitter Profit Sharing Plan. The provisions of the Plan remained substantially the same. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility: Employees become eligible to participate in the Plan at age 21, after completing six months of service, and on the first day of any quarter of any plan year coincident with or next following the date that they have met the eligibility requirements. Effective November 12, 2021, the eligibility changed to the first of the month following 90 days and the age remained at 21 following the recordkeeper change from Principal to Voya. The Plan includes an automatic salary deferral (auto-enrollment) feature effective with the transition to Voya. Upon eligibility, a deferral of 1% of eligible compensation will be withheld from each payroll and contributed to the Plan as a salary deferral.

Contributions: The Plan is a contributory 401(k) savings plan funded by employee and employer contributions. Each participant may elect to contribute up to 100% of pretax compensation, subject to the limits established by the Internal Revenue Code (“IRC”). Under the previous plan, the participants could elect to contribute up to 50% of pretax compensation, subject to the limits established by the Internal Revenue Code (“IRC”). The Plan includes a flexible discretionary matching contribution and profit sharing contribution effective with the transition to Voya. Subject to the above-mentioned limitation for the plan year ended December 31, 2021, the Bank provided a match of \$0.50 on each \$1.00 of contribution up to 6% of eligible compensation. During the year ended December 31, 2021 the Bank made matching contributions of \$343,135 to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Administrative Expenses: Any expenses incurred for the administration and audit of the Plan not paid by the Bank may be paid out of the Plan’s assets.

Participant Accounts: Each participant’s account is credited with the participant’s own contributions and an allocation of (a) the Bank’s matching and discretionary profit sharing contributions, (b) the Plan’s allocated earnings/loss, and (c) administrative expenses. Allocations are based on participant earnings, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Investment Elections: Participants direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers numerous funds, including BankFinancial Corporation common stock, as investment options for participants.

Vesting: Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service as follows:

Years	Vested Percent
1	—
2	25
3	50
4	75
5 or more	100

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN (continued)

Forfeitures: Forfeitures attributable to employer matching contributions are used to reduce future employer matching contributions or to pay administrative expenses of the Plan in accordance with the plan document. Forfeitures that have not been used to pay administrative expenses or used to reduce employer contributions shall be added to the employer discretionary profit sharing contributions and are allocated as of the last day of the plan year. During the year ended December 31, 2021, \$11,831 of forfeited matching contributions were used to offset employer matching contributions. As of December 31, 2021 and 2020, there were \$20,133 and \$246, respectively, in forfeited accounts.

Payment of Benefits: Participants are not eligible to receive benefit payments until employment is terminated or they attain the age 59 1/2. When the participant's vested balance is \$5,000 or less, the benefit is distributed in a lump-sum payment. Participants with a balance in excess of this figure may postpone the lump-sum payment of benefits until reaching the age of 72. In addition, hardship distributions out of the participants' voluntary contributions account are permitted if certain criteria are met. The Plan provides that participants can withdraw rollover contributions and earnings thereon and salary deferral contributions, but not the earnings thereon, for reasons of financial hardship, as defined.

Notes Receivable from Participants: The Plan provides that participants can borrow funds against their account balances limited to the lesser of \$50,000 or 50% of their vested account balance, subject to a minimum loan of \$1,000. The notes are secured by the balance in the participant's account and effective November 12, 2021 bear interest at rates at 1% over the prime interest rate. Under Principal adoption agreement, loan interest was at rates that were commensurate with local prevailing rates determined quarterly by Plan administrator. Principal and interest are paid through payroll deductions and the interest rate range is 4.25% to 6.50%. The Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020, which allowed qualified individuals with outstanding loans to delay loan repayments due from March 27, 2020 through December 31, 2020 for a 12-month period. The term of the loan was extended by one year to accommodate the suspension period. Subsequent repayments were adjusted to include accrued interest during the delay period.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for certain investment options including mutual funds, employer stock and a guaranteed investment contract. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances. As of December 31, 2021 and 2020, 23.8% of the Plan's net assets were invested in shares of BankFinancial Corporation Common Stock.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are reported at fair value, as more fully disclosed in Note 7. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participants notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

BANKFINANCIAL AND SUBSIDIARIES ASSOC. INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting Fees and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment loss reported by the Plan. All other administrative expenses of the Plan are paid by the Plan or by the Bank.

Subsequent Events: The Plan has evaluated subsequent events through the issuance date of this report. As a result of continued COVID-19 outbreaks, geo-political concerns overseas and high inflation in the United States, economic uncertainties have arisen which have resulted in significant volatility in the investment markets, resulting in a decline in the value of the investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan holds a traditional fully benefit-responsive group annuity investment contract with Principal Life Insurance Company (Issuer) through the Principal Life Insurance Company Fixed Income Option 401(a)/(k). The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semi-annual basis. The accounts are credited with earnings based upon the specified crediting rate and charged for participant withdrawals and administrative expenses. The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract.

Effective November 12, 2021, under the Voya Group Annuity Contract, participants may invest in a Fixed Account. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus interest credited to the Fixed Account, less participant withdrawals, including amounts taken for loans, and administrative expenses. There are no reserves against contract values for credit risk of the contract issuer or otherwise. The Plan's investment contract does not specify certain conditions under which distributions from the contract would be payable at amounts below contract value. The terms and methods under which the contract may transact are defined in Section 3 (Contributions and Plan Accounts), Section 4 (Charges and Fees), Section 5 (Fixed Account), and Section 8 (Distributions) in the contract. The contract indicates that the Issuer may terminate the Fixed Account with 90 days prior notice to the Plan. Under the contract terms, the contract is terminated when no deposit arrangements have been made and there are no deposits with a value greater than zero under the Contract. Upon termination, a Market Value Adjustment (MVA) may be applied as described in the contract schedule. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than 1% percent. Such interest rates are reviewed on a periodic basis; however, no change can be made within 3 months of the last change. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; services provided by the Issuer and the duration of the underlying investments backing the contract.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. As of December 31, 2021 and 2020, certain plan investments are considered party-in-interest investments including the Guaranteed Investment Contract issued by Principal Life Insurance Company and mutual funds issued by Principal Global Investors, the asset management arm of the Principal Financial Group and Voya Institutional Trust Company. Principal Life Insurance Company, the lead operating company of the Principal Financial Group, was the directed trustee of the Plan through November 12, 2021 and therefore, these investments qualify as party-in-interest investments. Effective November 12, 2021, Voya Financial, the asset management arm of Voya Institutional Trust Company, is the directed trustee of the Plan and therefore, these investments qualify as party-in-interest investments. Investment management fees are paid by the Plan to investment managers which are parties-in-interest and these expenses are shown as a reduction of the return on the Plan's investments. Notes Receivable from Participants also reflect party-in-interest transactions.

At December 31, 2021 and 2020, the Plan held 856,733 and 967,266 shares of BankFinancial Corporation common stock in the BankFinancial Corporation Common Stock Fund, respectively. The Plan received \$283,097 in dividends on BankFinancial Corporation common stock in 2021. During the year ended December 31, 2021, Plan purchases of BankFinancial Corp common stock totaled to \$423,947, and Plan sales of BankFinancial Corp common stock totaled \$1,690,477.

Audit services fees were paid by the Plan's participants to its audit firm during the year ended December 31, 2021. In addition, loan and administrative fees were paid by the Plan's participants to Voya and Principal Life Insurance Company during the year ended December 31, 2021. These fees are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed Voya by letter dated June 30, 2020 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 7 - FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant inputs that are unobservable inputs for the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The fair values of mutual fund investments, common collective trusts, and publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

NOTE 7 - FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth financial assets that were accounted for at fair value and are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Investments measured at fair value on a recurring basis are summarized below:

Fair Value Measurements at December 31, 2021 using
