Report of Independent Auditors

The Board of Trustees
St. Mary's University

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of St. Mary's University Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes (collectively referred to as the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 (referred to as the supplemental schedule), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2020. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the investment information certified by a qualified institution. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts issued to current and former employees prior to January 1, 2009. In our report dated August 20, 2021, we indicated that because of the significance of the information that we did not audit, we were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, we did not express an opinion on the 2020 financial statements.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2021

1. Description of Plan

The following description of the St. Mary's University Defined Contribution Retirement Plan (the Plan) provides general information about the Plan's provisions. St. Mary's University (the University) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering substantially all employees of the University, except for students who are enrolled and are regularly attending classes offered by the University. Employees are eligible to make participant contributions to the Plan immediately upon their date of hire and to enter the Plan on the first day of each month. Participants who have at least one year of service and are age 21 or older are eligible for matching contributions under the Plan.

Years of service with an eligible employer will be counted when determining the participant's eligibility for matching contributions. Eligible employer means any educational organization, teaching institution, institution of higher education, or nonprofit (research) institution.

Prior to April 1, 2017, Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF); TIAA Trust Company, FSB (TIAA Trust Company); and Fidelity Management Trust Company (Fidelity) were the custodians of the Plan, and TIAA-CREF was the record-keeper for the Plan's assets held by TIAA Trust Company. Effective April 1, 2017, Transamerica Retirement Solutions (Transamerica) was appointed as a record-keeper for the Plan and State Street Bank and Trust Company of Boston, Massachusetts (State Street) was appointed custodian of the Plan. All contributions made after April 1, 2017, are remitted to Transamerica. Certain participant accounts remain at Fidelity and TIAA-CREF based on the participant's discretion. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Contributions

Each year, participants may contribute up to the maximum amounts of pretax annual compensation, as determined under the Internal Revenue Code (the Code). These contributions are referred to as pretax deferral contributions. Participants also have the choice of treating their pretax deferral contributions as Roth Deferrals, as defined by the Plan. Roth Deferrals are contributed to the Plan from amounts that have already been treated as taxable income. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained the age of 50 before the end of the year are eligible to make catch-up contributions. In addition, participants may also make the special Section 403(b) catch-up contributions if they have 15 years of service. Prior to June 29, 2020, if a participant contributed 5% or more of his or her compensation, as defined by the Plan, the University contributed a matching contribution of 7% of the participant's compensation. On June 29, 2020, the Plan was amended to allow the University to make discretionary matching contributions as it determines with respect to eligible participants. Effective June 29, 2020, the University suspended matching contributions to the Plan. Effective June 1, 2021, the University elected to make discretionary matching contributions equal to 100% on the first 7% of the participant's contributed elective deferral. All contributions are subject to certain limitations of the Code.

Participants direct all contributions into various investment options offered by the Plan. These investment options are limited to annuity contracts and mutual funds purchased through a custodial account.

Participant Accounts

Each participant's account is credited with the participant's contributions and the University's matching contributions and allocations of plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of the net earnings or losses of his or her respective, elected investment options. Allocations of administrative expenses are based on the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions (pretax deferral contributions, Roth Deferrals, rollover contributions, and University matching contributions), plus actual earnings thereon.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Notes Receivable From Participants

Participants can borrow from their accounts (restricted to amounts that were merged in from the TIAA Tax-Deferred Annuity Plan (TDA Plan), and contributions made to the Plan in excess of 5% and designated as tax-deferred annuity contributions) in increments of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. Other restrictions could apply depending upon how the account balance was invested. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. A participant cannot have more than three loans outstanding if the loan is based on amounts invested in the TIAA-CREF mutual funds. The interest rate on participant loans varies depending upon how the account balance is invested. If a participant terminates employment with the University and the loan is not repaid, it is automatically treated as a distribution to the participant and is taxable, as appropriate. In addition to the summary plan description, participants can also refer to their individual agreements regarding loan provisions and applicable procedures.

Payment of Benefits

Upon separation from service with the University due to death, disability, retirement, or termination, a participant whose account balance exceeds \$1,000 may elect to receive a lump-sum payment, partial payments, or installment payments, or use his or her account balance toward the purchase of an annuity contract. A participant whose account balance is \$1,000 or less is entitled to receive a lump-sum distribution equal to his or her account balance.

Participants can also take a hardship distribution (restricted to amounts that merged in from the TDA Plan and contributions made to the Plan in excess of 5% and designated as TDA contributions) under certain qualifying events.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the University, as provided by the Plan's provisions. Expenses that are paid by the University are excluded from these financial statements.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan (except for fully benefit-responsive investment contracts) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

The Plan invests in two fully benefit-responsive guaranteed annuity contracts, the TIAA Traditional Annuity and the Lincoln Financial Group, and presents these investments in the financial statements at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate that correlates closely with the funds' historical crediting rates.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments, the participant loan is deemed to be a distribution. The participant loan balance is reduced and a benefit payment is recorded.

Subsequent Events

Management evaluated subsequent events for the Plan through August 5, 2022, the date the accompanying financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2021 and 2020, and the net appreciation in the fair value of investments and interest and dividends for the year ended December 31, 2021, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by TIAA, TIAA-CREF, Fidelity, and State Street.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs, other than quoted prices, that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data, correlation, or other means

Level 3 – Unobservable inputs (i.e., those that are supported by little or no market activity) for the asset or liability. Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following is a description of the valuation techniques and inputs used for each general type of asset measured at fair value:

Mutual funds – Shares of TIAA-CREF funds, and all mutual funds held by Fidelity and State Street, are generally valued using quoted market prices. All of these mutual funds are traded on an exchange in an active market.

TIAA Traditional Annuity – The TIAA Traditional Annuity is a fixed rate annuity contract that is fully and unconditionally guaranteed and backed by the claims-paying ability by TIAA. The TIAA Traditional Annuity is reported at contract value and segregated into non-benefit and fully benefit responsive categories. Contract value is the relevant measurement attribute for that portion of net assets that are considered to be fully benefit responsive because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

The non-fully benefit-responsive contracts are valued at fair value, which approximates contract value. The contract value of the fund equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals. Since the investment is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claims-paying ability, the TIAA Traditional Annuity guarantees principal and a guaranteed minimum rate of interest, plus the opportunity for additional amounts in excess of the guaranteed rate. The guaranteed minimum interest rate during the accumulation phase is generally 3%. These guarantees of principal and minimum interest rates ensure that each participant's accumulation is protected from loss and will always increase in value. These additional amounts, when declared by TIAA, are determined on a year-by-year basis and remain in effect for the "declaration year." The declaration year begins each March 1 for accumulating annuities and each January 1 for lifetime payout annuities.

Lincoln Stable Account – The Lincoln Stable Account is a group fixed annuity that is guaranteed by The Lincoln National Life Insurance Company. The contract value of the fund equals the accumulated cash contributions, interest credited to the account, and transfers, if any, less any withdrawals. The Lincoln Stable Account guarantees principal and has a guaranteed minimum interest rate of 1%. The guaranteed interest rate is announced in advance and is guaranteed for a six-month period. These guarantees of principal and minimum interest rates ensure that each participant's accumulation is protected from loss and will always increase in value.

St. Mary's University Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Together, the guaranteed minimum and additional amounts make up the “crediting rate” in the accumulation phase of the account. TIAA uses a “vintage” method of crediting interest for funds in the TIAA Traditional Annuity. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time periods into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA’s investments during each period. When the accumulation in the TIAA Traditional Annuity is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation.

In determining the reasonableness of the valuation technique, the plan sponsor’s Retirement Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data.

CREF accounts – CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company. It consists of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market Accounts (individually referred to as the Account or collectively referred to as the Accounts). These are variable annuities. Account investments are primarily valued based on the net asset value per share as determined by the issuer. The Accounts are not traded on an exchange in an active market.

Pooled separate accounts (PSAs) – The TIAA Real Estate Account is a PSA valued at the net asset value per share as determined by the issuer. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional’s opinion. Sometimes, securities are held as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day. The PSAs are not traded on an exchange in an active market.

Total assets at fair value				<u>\$ 177,292,759</u>

^(a)Pooled separate account – This TIAA Real Estate Fund is intended to have between 75% and 85% of its net assets invested directly in real estate or real-estate-related investments, with the goal of producing favorable, long-term returns primarily through rental income and appreciation owned by the fund. The fund also invests in publicly traded securities and short-term, higher-quality liquid investments that are easily converted to cash to enable the fund to meet participant redemption requests and purchases, and to improve properties or cover other expense needs. The fair value of the investment is estimated using the net asset value per share of the fund at December 31, 2021 and 2020.

CREF accounts:

- ^(b)U.S. equities – included within this amount are primarily the CREF Stock Fund, CREF Growth Fund, and CREF Equity Index Fund. Other smaller CREF stock funds are also included in this amount. These funds are invested for a favorable, long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of U.S. common stocks. Varieties of investments are considered, such as growth potential and equity index. The fair values of the investments are estimated using the net asset value per share of the funds at December 31, 2021 and 2020.
- ^(c)U.S. money market fund – included within this amount is the CREF Money Market Fund. The objective of this fund is to maintain liquidity and preserve capital. Investments are in securities or other instruments maturing in 397 days or less. The fund maintains a dollar-weighted average maturity of 60 days or less and dollar-weighted average life to maturity of 120 days or less. The fair value of the investment is estimated using the net asset value per share of the fund at December 31, 2021 and 2020.
- ^(d)Social choice – included within this amount is the CREF Social Choice Fund. This fund is invested in a diversified set of domestic and foreign stocks and other equity securities, bonds, and other fixed-income securities, and is intended to provide a favorable, long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The fair value of the investment is estimated using the net asset value per share of the fund at December 31, 2021 and 2020.
- ^(e)U.S. fixed income – included within this amount are the CREF Bond Market Fund and the CREF Inflation-Linked Bond Fund. These funds are invested in a favorable, long-term rate of return primarily through high-current income, consistent with preserving capital, and in inflation-indexed bonds whose returns are designed to track a specified inflation index over the life of the bond. The fair values of the investments are estimated using the net asset value per share of the funds at December 31, 2021 and 2020.
- ^(f)Global equities – included within this amount is the CREF Global Equities Fund. This fund is normally invested at least 80% in equity securities of foreign and domestic companies. The fair value of the investment is estimated using the net asset value per share of the fund at December 31, 2021 and 2020.

* Interplan transfers represent transfers between custodians.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds various investments managed by TIAA-CREF, TIAA Trust Company, Fidelity, and State Street, the custodians of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Tax Status

The underlying volume submitter specimen plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2017, stating that the written form of the underlying specimen plan is qualified under Section 403(b) of the Code. Any employer adopting this form of the plan will be considered to have a plan qualified under Section 403(b) of the Code and, therefore, the related custodial accounts and tax-deferred annuities are tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. U.S. GAAP requires the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
