Independent Auditor's Report

To the Plan Administrator
Kendall Electric, Inc. Employee
Stock Ownership Plan and Trust

We have audited the accompanying financial statements of Kendall Electric, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statement of net assets available for benefits as of October 1, 2021 and October 2, 2020 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of October 1, 2021 and October 2, 2020 and the changes in net assets for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As explained in Note 6, the financial statements include investments valued at approximately $677,244,000 at October 1, 2021 and $450,824,000 at October 2, 2020, whose fair values have been estimated by management in the absence of readily determinable market values based on valuation reports prepared by an independent appraisal firm. Our opinion is not modified with respect to this matter.

As explained in Note 7, Rumsey Electric Company Employee Stock Ownership Plan merged into the Plan effective March 31, 2021. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of October 1, 2021 and reportable transactions for the year ended October 1, 2021 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of Kendall Electric, Inc. Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Kendall Electric, Inc. (the "Company") established Kendall Electric, Inc. Employee Stock Ownership Plan and Trust effective September 30, 1989. The Plan operates as a nonleveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code" or IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended. The Plan is administered by Kendall Electric, Inc. A trustee committee, as appointed by the Company's board of directors, is the Plan's trustee. Kendall Electric, Inc. Employee Stock Ownership Plan and Trust is the sole stockholder of Kendall Electric, Inc.

Employees of the Company are generally eligible to participate in the Plan at age 18, providing they have worked at least 1,000 hours during the plan year. Participants who do not have at least 1,000 hours of service during such a plan year or are not actively employed on the last working day of a plan year are generally not eligible for an allocation of company contributions for such year. Contribution allocations are based upon a participant's proportional share of total eligible compensation.

Contributions

The Company may make annual discretionary contributions to the Plan in the form of cash or stock issuance, as approved by the Company's board of directors. Contributions are allocated to participants on a pro rata basis based on annual compensation, as defined by the plan document.

Vesting

Employee accounts vest with years of service. Employees are fully vested in their accounts after six years of service. Employees are immediately fully vested when termination is due to death, disability, or normal retirement.

Benefit Distributions

No benefit distributions from the Plan will be made until a participant terminates employment with the Company. Benefit distributions are made in cash, paid in lump sum. The benefit distribution process utilizes the put option, as outlined in the following paragraph.

Put Option

The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market.

For participants who terminated during the current and previous fiscal year, the put option was exercised by the Company instead of the employee stock ownership plan (ESOP). For participants who elected to diversify during the fiscal year, their shares were recycled within the ESOP. This resulted in 1,994 shares, at $62.56 per share, exchanged for other participants' cash of $124,745 on a pro rata basis. As a result of the put option, the payments to participants are made in a single payment instead of five annual installments, as was done historically. During fiscal year 2021, the Company concluded to repurchase 1,015,953 shares of common stock from the participants. The purchase price per share was $62.56, which was the fair value per share as of October 2, 2020. During fiscal year 2020, the Company concluded to repurchase 1,521,874 shares of common stock from the participants. The purchase price per share was $61.29, which was the fair value per share as of September 27, 2019. Subsequent to the purchases, the Company retired the shares.

Note 1 - Plan Description (Continued)

Diversification

Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to receive up to 25 percent of the value of the participant's account, less any prior diversification distributions for a 5-year period. At the end of the sixth year after the participant becomes eligible for diversification distributions, participants are eligible to receive up to 50 percent of the value of the participant's account, less any prior diversification distributions.

Voting Company Stock

Each participant is entitled to exercise, in certain matters, voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised.

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon termination of the Plan, the Company shall direct the trustee to pay all liabilities and expenses of the Plan and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Upon any full or partial termination, all amounts credited to the affected participants' accounts will become 100 percent vested, and all remaining unallocated amounts will be allocated to the accounts of all participants.

Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan's terms and the Code.

Year End

The Plan has adopted a 52-/53-week annual accounting period so that the last day of each fiscal year ends on the Friday nearest to September 30.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Plan allocates forfeitures to participants based on compensation, as defined.

Party-in-interest Transactions

Certain plan assets are in investments in the Company's stock. The Company is the sponsor of the Plan; therefore, these transactions qualify as permissible party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value. Fair value is determined by an annual independent appraisal.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See Note 6 for further discussion on fair value measurements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefits are recorded when paid. Amounts allocated to accounts of participants who have elected to withdraw from the Plan or have chosen to diversify but have not yet been paid totaled approximately $95,300,000 and $62,960,000 as of October 1, 2021 and October 2, 2020, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 9, 2022, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 4 - Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid by the Company.

Note 5 - Investments in Common Stock

There are 50,000,000 authorized shares of company common stock as of October 1, 2021 and October 2, 2020. There were 7,647,293 and 7,206,274 shares issued and outstanding as of October 1, 2021 and October 2, 2020, respectively.

The Plan's investments in company stock at October 1, 2021 and October 2, 2020 are presented in the following table:

	2021	2020
Number of shares	7,647,293	7,206,274
Cost	$ 373,248,111	$ 289,213,384
Fair value	$ 677,244,264	$ 450,824,495

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The company stock classified as a Level 3 investment is based on the fair value determined through a third-party appraisal, which utilized the income approach, including the discounted cash flow method. The appraiser took into account historical and projected cash flow; adjusted earnings before interest, taxes, depreciation, and amortization (EBITDA); and appropriate discount rates.

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report, which plan management, along with the ESOP trustees, reviews in detail, discusses, and approves.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Money Market Fund

The money market fund is valued at the outstanding balance, which is the best estimate of fair value.

Common/Collective Trust Fund

The common/collective trust fund is valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets.

Certificates of Deposit

The fair value of these investments is based on their outstanding balances.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at October 1, 2021 and October 2, 2020:

Note 6 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value on a Recurring Basis at October 1, 2021

Investments measured at NAV	-		
Total investments at fair value	$ 451,474,524		

There were no unfunded commitments or redemption restrictions on the investments described above.

During 2021 and 2020, the Plan issued company stock totaling $10,949,470 and $8,276,688, respectively.

Note 7 - Plan Merger

Effective March 31, 2021, the Company acquired 100 percent of the issued and outstanding capital stock of Rumsey Electric Company, which was wholly owned by Rumsey Electric Company Employee Stock Ownership Plan (the "Seller"). As a result, Rumsey Electric Company Employee Stock Ownership Plan (Rumsey ESOP) was merged into the Plan, also effective March 31, 2021. A portion of this purchase was funded by the issuance of 1,333,333 shares of company stock to the Seller. Accordingly, all of Rumsey ESOP's assets, participants, and their related account balances of approximately $146,171,000 were transferred into the Plan in 2021.

As part of the plan merger, the allowable uses for the common/collective trust fund include (a) fund the Rumsey ESOP accounts of any Rumsey ESOP participants who terminated employment with Rumsey Electric Company on or before March 31, 2021, (b) pay any terminated Rumsey ESOP participant who received a distribution in December 2020 the difference between the amount such Rumsey ESOP participant received in December 2020 and the amount such participant would have received if the Rumsey ESOP participant's shares were merged in, and (c) pay an outstanding loan between Rumsey Electric Company and Rumsey ESOP. The loan was repaid in full during 2021. Any remaining funds will be allocated to the remaining Rumsey ESOP participants pro rata based on the stock held in their Rumsey ESOP accounts as of March 31, 2021.
