INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
Mountain West Farm Bureau Voluntary Employee Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Mountain West Farm Bureau Voluntary Employee Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section—

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Mountain West Farm Bureau Voluntary Employee Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mountain West Farm Bureau Voluntary Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mountain West Farm Bureau Voluntary Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mountain West Farm Bureau Voluntary Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

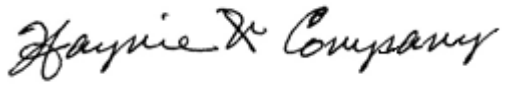

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Mountain West Farm Bureau Voluntary Employee Savings Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 8, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2021 and 2020

1. Summary of Significant Accounting Policies

General Description of the Plan

The following comments provide a brief description of the Plan. Participants (or members) should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a multiple-employer defined contribution plan which is participant-directed, and the benefit to which a participant is entitled is the benefit that can be provided only from his account. Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions (if any) and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account (participants are fully vested under current plan provisions).

The Plan is administered jointly by an Executive Committee, a plan administrator (currently the Executive Committee) and a Company plan manager. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Executive Committee.

Generally, any employee except persons paid solely on a commission basis, persons whose principal duties consist of selling insurance, or persons who are agency trainees, may become a member on the first day of the month following his commencement of employment. Membership generally continues until:

- Termination of the Plan;
- Termination of participation in the Plan by the participant's employer;
- Death or total disability of the participant, or;
- Termination of employment and distribution of the participant's entire account.

Rollovers from other qualified plans are permitted.

A member may agree to reduce his annual compensation by contributing a discretionary amount (elective deferral) for each year he participates in the Plan. The maximum reduction by law for 2021 and 2020 was $19,500 per year, with certain "catch-up" provisions allowed for participants who have attained age 50 before the end of the plan year.

A member may make nondeductible contributions by means of payroll deductions, but this type of contribution has been minimal.

The Company makes matching contributions to the Plan based upon a resolution by the Board of Directors, and additional discretionary contributions may also be made at the option of the Company's Board of Directors (none in 2021 or 2020).

1. Summary of Significant Accounting Policies (continued)

The safe-harbor matching contribution presently is 100% for the first 4% in deferrals.

In addition to these limitations, under Code Section 415, the annual additions to the account of any member attributable to all defined contribution plans of the employer cannot exceed the lesser of $58,000 and $57,000 in 2021 and 2020 (as indexed), respectively, or 100% of compensation. Annual additions to this plan currently include employer contributions and participant contributions (deferrals).

The Company intends to continue the Plan indefinitely, but its continuance is not a contractual obligation, and the Company may terminate the plan at any time, subject to the provisions of ERISA.

There were no material Plan amendments during 2021 or 2020.

The Company has paid for certain direct Plan administrative and other expenses (except for individually assessed charges such as loan fees), but this is discretionary, and such expenses are excluded from these financial statements. Additionally, Company employees provide certain administrative duties at no charge to the Plan. Certain fees are also paid through revenue sharing from plan investments to Transamerica Retirement Solutions (Transamerica), which are included in investment appreciation. Transamerica fees of 0.36% of investments and an additional 0.08% to fund the advanced expenses account have been charged directly to all participants on a monthly basis. Fees of 0.08% of investments are paid to the investment advisor per year and are billed quarterly. In the past, these fees have often been paid by the plan sponsor, but this is discretionary and in 2021 were charged to the plan.

Plan distributions
The following optional benefit forms are payable under this Plan:

[1] single lump sum payment;

[2] qualified joint and survivor annuity;

[3] an annuity for the life of the Member;

[4] an annuity for the life of the Member with a 10-year period certain guaranteed.

[5] monthly, quarterly, or annual installments, provided that each installment payment is at least $500.

A member who terminates employment for any reason other than retirement, total disability or death, shall elect whether distribution is to commence at normal retirement age or early retirement age.

1. Summary of Significant Accounting Policies (continued)

Upon serious financial hardship, a member may request withdrawal of all or any part of his account attributable to salary reductions, and the earnings thereon. If a participant becomes totally disabled prior to reaching retirement age, he may take a distribution of his account. Distributions to beneficiaries in the event of a participant's death are also permitted.

Investment of Contributions and Party In Interest Transactions

Each participant designates how his contributions to the Plan and employer matching contributions shall be invested, allocating them between various investment alternatives.

Certain Plan investments are managed by Transamerica Retirement Solutions (Transamerica) and State Street Bank and Trust (SSBT). Transamerica is the Plan recordkeeper and SSBT is the Trustee. Therefore, these transactions qualify as party in interest transactions.

SSBT serves as the passive or directed trustee for selected Transamerica clients. In this capacity, SSBT serves as the legal trustee of the client's retirement plan; however, as is permitted under the terms of the trust between SSBT and the client's plan, SSBT has contracted with Transamerica for Transamerica to provide certain necessary duties and responsibilities for the operation of the trust. Transamerica and SSBT have entered into a Servicing Agent Agreement for these Trustee Services ("Agreement"). SSBT is not affiliated with Transamerica.

Among the services Transamerica has agreed to perform under the agreement on behalf of the Trustee are:

- Assist in preparation of the various categories of the Form 5500 series and sign certain forms and certifications on behalf of the Trustee.
- Prepare a plan level statement on at least a quarterly basis of all transactions.
- Receive and process contributions under the terms of the plan and invest monies received in investments in accordance with the allocation instructions of the participants of the Plan.
- Process exchanges, redemptions, transfers and withdrawals.

SSBT is a Commonwealth of Massachusetts chartered bank and is federally regulated.

The Plan held investments sponsored by Transamerica at December 31 as follows:

	2021	2020
Transamerica Government Money Market	$244,111	$240,878
Transamerica Retirement Solutions Stable Pooled Fund	$385,909	$346,809

1. Summary of Significant Accounting Policies (continued)

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis. Investment transactions are recorded on the trade date. Benefits are recorded when paid. Dividends are recorded on the ex-dividend date. Interest, if any, is recorded on the accrual basis.

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, are charged directly to the participant, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participants' account balances.

Cash and Equivalents

The plan had no forfeitures account at December 31, 2021 or 2020. The balance in cash generally represents an account which can be used to pay plan expenses. An interest-bearing cash account represents funds which can be used as a corrective measure. Both of these accounts are maintained by SSBT.

1. Summary of Significant Accounting Policies (continued)

Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 13, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended, but the Plan Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the plan had no taxable income, no income tax returns have been filed for 2021 or prior years.

2. Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines fair value based upon input from Transamerica.

Investments in mutual funds (but not the Stable Pooled Fund, which is carried at unit value based on the underlying common collective trust) are recorded in the financial statements at quoted market prices, which represent the net asset value of shares held.

Should the Plan elect to discontinue its contract with Transamerica, plan investments may be frozen for a period of time (possibly 90 days) until the assets can be transferred.

The Plan has an investment in a Stable Pooled Fund (SPF), which invests indirectly in stable value fixed income investments, including primarily security-backed investment contracts, Guaranteed Investment Contracts (GIC's), GIC alternatives such as synthetic GIC's, and Bank Investment Contracts (BIC's) (the SPF is also referred to herein as a common collective trust). The SPF is sponsored by Transamerica. Individual participants may transfer their investment into or out of this fund without charge or delay. Redemptions occur daily at published unit value. Because the investment is in a common collective trust, it is not considered to be fully benefit responsive. The fund, however, may hold Plan invested amounts for up to 12 months should the Plan elect to terminate investing in the fund.

There are no reserves against unit value for credit risk of the contract issuer.

2. Investments (continued)

This information is only a summary of certain key provisions of the SPF, and participants should refer to the SPF for a complete review of its provisions, including the impact of Investing Fiduciary Initiated Events (such as mergers, layoffs, bankruptcy, full or partial Plan termination, and early retirement incentive programs) as defined therein. Plan management does not believe any of those events are probable at the present time.

3. Unaudited Information

The following information, which the Trustee has certified as complete and accurate, has not been subjected to audit procedures:

- Investments (including self-directed brokerage accounts), cash and cash equivalents
- Notes receivable from participants and other receivables
- Net appreciation (depreciation) in investments, and other investment income
- Interest income on notes receivable from participants
- Information presented in the accompanying supplemental schedule

4. Fair Value Measurements

The Plan has adopted Financial Accounting Standards Board Codification Section 820 (ASC Section 820, *Fair Value Measurements,* which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 or 2020.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Pooled Fund: Valued at a daily unit price, which is derived by reference to a common collective trust.

Self-directed brokerage accounts: Comprised of mutual funds, valued at reported daily closing prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Investment Committee evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in 2021 or 2020.

4. Fair Value Measurements (continued)

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2021 and 2020.

	December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,845,321	$ -	$ -	$ 19,845,321
Self-directed brokerage accounts	699,539	-	-	699,539
Stable pooled fund	-	385,909	-	385,909
Interest-bearing cash	771	-	-	771
Total investments at fair value	$ 20,545,631	$ 385,909	$ -	$ 20,931,540

	December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,647,292	$ -	$ -	$ 17,647,292
Self-directed brokerage accounts	799,601	-	-	799,601
Stable pooled fund	-	346,809	-	346,809
Interest-bearing cash	923	-	-	923
Total investments at fair value	$ 18,447,816	$ 346,809	$ -	$ 18,794,625

5. Subsequent Events

Management has considered subsequent event activity for disclosures and/or adjustments through August 31, 2022, the date the financial statements were available to be issued.

In 2022, there was a significant market decline due to various factors. This situation can materially affect participants' account and investment balances.

6. Self-Correction

In 2021, management identified an issue whereby certain temporary employees had been improperly excluded from participation in the Plan since 2013. Management self-corrected and estimated the contributions receivable to be approximately $32,736 at December 31, 2020. The final corrected amount was determined to be $31,014, which was paid by the sponsor to the Plan in 2021.
