Independent Auditors' Report

To the Participants and Plan Administrator of
DallasNews Corporation Pension Plan I

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of DallasNews Corporation Pension Plan I (formerly A.H. Belo Pension Plan I) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2021, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for 2021 the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 23, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

General

The DallasNews Corporation Pension Plan I (formerly A. H. Belo Pension Plan I) (the Plan) is a noncontributory defined benefit pension plan, sponsored by DallasNews Corporation (the Company), subject to the provisions of the Employment Retirement Income Security Act of 1974, as amended (ERISA). The Company established the Plan and DallasNews Corporation Pension Plan II on January 1, 2011, upon the Company's withdrawal of its participants from The G. B. Dealey Retirement Pension Plan (the GBD Pension Plan), a noncontributory defined benefit plan sponsored by Belo Corp., the former parent of the Company. The Benefits Administrative Committee, as approved by the Company, serves as the Plan Administrator of the Plan. The Plan provides retirement benefits to current and former employees of The Dallas Morning News and employees of the Company's corporate headquarters who were withdrawn from the GBD Pension Plan. Accrual of new benefits to participants was frozen prior to plan inception. The following description provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Investments of the Plan and the DallasNews Corporation Pension Plan II (formerly A. H. Belo Pension Plan II) (the Participating Plans) are held in the DallasNews Corporation Pension Plan Master Trust (formerly A. H. Belo Pension Plan Master Trust) (the Master Trust).

Effective June 29, 2021, the Plan was amended to change the Company name to DallasNews Corporation and the name of the Plan to DallasNews Corporation Pension Plan I.

Plan Administration

The Plan uses Fidelity Institutional Asset Management to manage plan investments in the Master Trust. The Company's Pension Investment Committee (the Investment Committee) monitors the allocation of investments to ensure consistency with the Company's risk objectives. The Investment Committee also monitors the return on assets for each of the investment funds to evaluate the fund manager's performance. The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee or The Bank of New York Mellon) executes investment transactions and invests cash received and investment income as directed by the Investment Committee.

Benefits and Vesting

Monthly retirement benefit payments are computed based on several factors including, but not limited to, retirement date, age at date of retirement, years of credited service, and final monthly compensation eligible for benefits as defined in the plan document.

Retirement is available to participants generally as early as age 55 and normal retirement starts at age 65. Participants can elect various payment options for their monthly retirement benefit. Payment options for participants consist of (i) a ten year certain and continuous annuity paid each month to the participant and the designated beneficiary in the event of death, or (ii) a reduced amount, which is the actuarial equivalent of a ten year certain and continuous annuity paid (a) in equal monthly installments over the life of the participant, or (b) in equal monthly installments over the life of the participant and in further reduced installments to the beneficiary in the event of death.

Participants have a 100% vested and nonforfeitable interest in their account balance.

Notes to Financial Statements

December 31, 2021 and 2020

Termination Provisions

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts, and plan assets will be distributed in accordance with Section 4044 of ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the accumulated plan benefits at the date of the financial statements and the changes in the net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 4 - Fair Value Measurements). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

The Master Trust pays all administrative expenses of the Participating Plans. All administrative expenses are then allocated by the Master Trust to the Participating Plans in accordance with the plan document. The Company may elect to pay any such expenses, at their discretion.

Funding Policy

It is the Investment Committee's objective to have the Plan funded for pension costs to the extent that such costs are tax deductible by the Company. Annual contributions are based on the recommendations of the Plan's consulting actuary using actuarial assumptions. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code (IRC). The minimum funding requirement was met for the year ended December 31, 2021, as determined by the Plan's actuary.

Notes to Financial Statements

December 31, 2021 and 2020

3. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated benefits, determined by Fidelity Workplace Investing LLC (Fidelity), represents the amount resulting from applying actuarial assumptions to the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected payment date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee services rendered to the valuation date.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. The assumed interest rate used to discount the accumulated plan benefit obligation as of December 31, 2021 and 2020, was 2.5% and 5.5%, respectively. Mortality rates for active participants and disabled pensioners was based on the Pri-2012 Total Dataset Amount-Weighted Mortality Table projected forward with fully generational mortality improvements using the MP-2021 projections scale for December 31, 2021 and the Pri-2012 Total Dataset Amount-Weighted Mortality Table projected forward with fully generational mortality improvements using the MP-2020 projections scale for December 31, 2020. Disability, termination and retirement rates are based on published statistical data. As of December 31, 2021 and 2020, benefit commencement age for current and future terminated vested participants that are assumed to work past the age of 65 have been actuarially increased to reflect their current benefits under the pension plan. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

DallasNews Corporation Pension Plan I (Formerly A.H. Belo Pension Plan I)

Notes to Financial Statements

December 31, 2021 and 2020

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020:

Common collective trusts is valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the Trustee, is based on the fair value of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment manager reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Interest-bearing cash is valued at cost of \$1 per unit, which represents the NAV at year-end.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2021 and 2020:

	2021			
	Level 1	Level 2	Level 3	Total
Common collective trusts	\$ -	\$ 205,088,831	\$ -	\$ 205,088,831
Total investments at fair value	\$ -	\$ 205,088,831	\$ -	\$ 205,088,831
	2020			
	Level 1	Level 2	Level 3	Total
Common collective trusts	\$ -	\$ 214,320,166	\$ -	\$ 214,320,166
Interest-bearing cash	800,000	-	-	800,000
Total investments at fair value	\$ 800,000	\$ 214,320,166	\$ -	\$ 215,120,166

5. Information Certified by Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the Trustee and party in interest as defined by ERISA, as of December 31, 2021 and 2020, and for the year ended December 31, 2021, except for comparing such information certified by the Trustee to the information included in the Plan's financial statements. Information in the accompanying financial statements as to Plan interest in the Master Trust, Plan interest in Master Trust income and investment information reported in the notes to the financial statements is presented solely upon reliance of those certifications.

6. Undivided Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2021 and 2020, the Plan's undivided interest in the net assets of the Master Trust was approximately 50%. Total investment income (including net appreciation (depreciation) in fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's undivided interest as of December 31, 2021 and 2020:

		2021	
		Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value:			
Common collective trusts		\$ 205,088,831	\$ 101,864,175

Net assets		<u>\$ 215,120,166</u>	<u>\$ 106,500,066</u>

The following are net appreciation in the fair value of investments and investment income for the Master Trust for the year ended December 31, 2021:

Net appreciation in fair value of investments	\$ 3,571,509
Investment income	18
Total	<u>\$ 3,571,527</u>

DallasNews Corporation Pension Plan I (Formerly A.H. Belo Pension Plan I)

Notes to Financial Statements

December 31, 2021 and 2020

7. Related-Party and Party In Interest Transactions

Certain of the Plan's investments held by the Master Trust are shares of common collective trusts managed by The Bank of New York Mellon and Fidelity Investments. The Bank of New York Mellon is the Trustee, and Fidelity Investments is the investment advisor of the Master Trust. Therefore, these transactions qualify as party in interest transactions for which a statutory exemption exists.

Certain administrative functions of the Plan are performed by an officer or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Tax Status

The Internal Revenue Service has issued a favorable determination letter dated August 7, 2014, stating that the Plan is a qualified plan under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if an uncertain position is taken for which it is more likely than not that it would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The investment allocation of the Plan's interest in the Master Trust is directed by the Company or the Investment Committee. Such investments are exposed to various risks, such as interest rate risk, market risk and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the Statements of Net Assets Available for Benefits and the funding status of the Plan.

Some of the Plan's investments held by the Master Trust may be illiquid, and the Plan may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if the Plan is required to liquidate all or a portion of its portfolio quickly, the Plan may realize significantly less than the value at which it previously recorded those investments.

As of December 31, 2021 and 2020, the Master Trust had an investment of \$202,339,375 and \$213,555,954, respectively, which is concentrated in one fund.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

10. Reconciliation of Financial Statements to Form 5500

There are no reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the years ended December 31, 2021 and 2020.

11. Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated events or transactions occurring after December 31, 2021, the Statements of Net Assets Available for Benefits date, through August 31, 2022, the date the financial statements were ready to be issued, and determined there were no events or transactions that would impact our financial statements as of and for the year ended December 31, 2021.

Effective August 31, 2022, the Company made a voluntary contribution to the Plan in an amount of \$2,500,000.

There has been no pattern of significant consistent gains or consistent losses related to this decrement.

Maximum Benefit: \$230,000 for 2021. No future increases in the IRC Section 415 limit have been reflected.

Form of Payment: It has been assumed benefits will be paid in the following forms:

Percentage	Payment Form
25%	10-Year Certain and Continuous Annuity
25%	Joint and 50% Survivor Annuity
25%	Joint and 100% Survivor Annuity
25%	Single Life Annuity

Future disabilities are assumed to retire with the 10-Year Certain and Continuous Annuity.

Actuarial Assumptions and Methods (continued)

Actuarial assumption changes since prior valuation:

The PPA funding discount rate for funding target and target normal cost changed from the previous year. See the Interest Rate details of this section for more information.

The mortality assumption for funding purposes changed from the IRS 2019 Static Mortality Table to the IRS 2021 Static Table as prescribed by IRC section 430.

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 66.67% of the prior year, and
 - ii) 33.33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.50%, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year and reflecting fresh start amortizations for the 2020 Plan Year, in accordance with funding relief provided by the American Rescue Plan Act of 2021 (ARPA).

Actuarial Assumptions and Methods (continued)

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) and FASB ASC 715 accumulated benefit obligation (ABO) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount and FASB ASC 715 projected benefit obligation (PBO) purposes. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Actuarial method changes since prior valuation: None.

Excluding Guild Union participants choosing the STAR Plan, credited service ends June 30, 2000.

For Guild Union participants choosing the STAR Plan, credited service ends July 31, 2004.

For all remaining participants service accrual ceases as of March 31, 2007.

Plan Provisions (continued)

Each of the participants from the following groups (the “eligible groups”) is given credit for an additional five years of credited service in determining his or her accrued benefit: (A) each participant who was accruing a retirement benefit and/or a disability benefit under the plan on March 31, 2007; (B) each participant who terminated employment on or before March 31, 2007, as a result of the company’s information technology outsourcing; (C) each participant who terminated employment on or after September 29, 2006, and before March 31, 2007, by reason of death, retirement at or after age 55 or because of an involuntary reduction in force; (D) each participant who terminated employment on or before September 14, 2006, in connection with the Dallas Morning News voluntary severance program for newsroom employees; (E) each participant who was in qualified military service on March 31, 2007.

All participants are 100% vested on March 31, 2007.

Pensionable pay: Base pay, overtime pay, shift differential pay, premium pay, bonuses (included termination bonuses paid in a lump sum at termination of employment), and commissions paid to an employee by the participating employers for services performed for the participating employer, excluding any awards other than annual incentive compensation and excluding any other form of remuneration. Compensation includes any contributions made by the employer on behalf of an employee pursuant to a deferral election under an employee benefit plan containing a cash or deferred arrangement under Code Section 401(k) or any amounts that would have been received as cash but for an election to receive benefits under a cafeteria plan meeting the requirements of Code Section 125.

Final Monthly Compensation: The average monthly compensation of the highest five consecutive calendar years of pensionable pay during the last 10 years of employment, or during his full calendar years of employment if the participant has less than five calendar years of employment.

Calendar year earnings during and after the freeze date will not be considered eligible.

Plan Provisions (continued)

Social Security Retirement Age: Determined in accordance with the chart below:

Year of Birth	Age
Prior to 1938	65
1938 to 1954	66
1955 or after	67

Normal retirement date (NRD): The first day of the month coinciding with or next following the attainment of age 65.

Monthly pension benefit: As of any date, 1.1% of average monthly earnings multiplied by years of pension service at NRD, plus .35% of average monthly earnings in excess of covered compensation multiplied by years of pension service at NRD up to 35 such years, multiplied by the fraction of actual pension service over pension service at NRD not to exceed 1. For prior Guild Non-Union Providence Journal participants, the benefit is the greater of benefit under A. H. Belo Pension Plan I or the accrued benefit as of December 31, 1997, under the Providence Journal Plan plus a benefit under A. H. Belo Pension Plan I post December 31, 1997. For prior Guild Union Employees, the benefit is the greater of the benefit under A. H. Belo Pension Plan I or the accrued benefit under Appendix D of the Plan as of July 31, 2004.

Excluding Guild Union, participants transferring to the STAR Plan have a vested accrued benefit at July 1, 2000.

Guild Union participants transferring to the STAR Plan have a vested accrued benefit at August 1, 2004.

For all remaining participants, accrued benefits were frozen on March 31, 2007.

Eligibility for Benefits:

Normal retirement: Retirement on NRD.

Early retirement: Retirement before NRD and on or after attaining age 55.

Postponed retirement: Retirement after NRD.

Deferred vested: Terminations for reasons other than death, disability, or retirement.

Plan Provisions (continued)

Pre-retirement spouse benefit: Death while eligible for Normal, Early, Postponed, or Deferred Vested Retirement benefits, with a surviving spouse.

REA ACT Death Benefit: 50% of the monthly accrued benefit as of the date of death reduced for the joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Monthly pre-retirement spouse death benefit: Spouses of active or deferred vested participants who were eligible for early retirement as of December 31, 1994, are entitled to the greater of:

1. The monthly preretirement spouse benefit frozen as of December 31, 1994, or
2. The REA ACT death benefit.

Spouses of participants not eligible for early retirement as of December 31, 1994, are entitled to the REA ACT death benefit.

Disability: Permanently and totally disabled prior to age 65.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Monthly Pension Benefit determined as of NRD.

Early retirement: The Monthly Pension Benefit payable at age 65 reduced 1/180th for each month prior to age 65 until five years prior to the participant's Social Security normal retirement age. It is further reduced by 1/360th for each additional month benefits commence prior to Normal Retirement Date up to a total of 120 months.

Postponed retirement: Monthly pension benefit determined as of actual retirement date.

Termination with deferred vested benefit: The Monthly Pension Benefit determined as of termination date, reduced similarly to early retirement benefits for benefit commencement prior to NRD.

Death with pre-retirement spouse benefit: The Monthly pre-retirement spouse benefit is payable. If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement.

Plan Provisions (continued)

Disability: The Monthly Pension Benefit payable at normal retirement assuming: (1) that the employee's rate of compensation at disability would have continued and (2) years of service would have continued uninterrupted to the benefit freeze date.

Forms of Payment:

Normal form (single participants): Ten year certain and continuous annuity.

Normal form (married participants): Joint and 50% survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect actuarially equivalent optional forms including a ten year certain and continuous annuity, life annuity, joint and survivor annuity, or, if the present value of their benefit is \$5,000 or less, a lump sum distribution.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Cost of Living Adjustment: Participants receiving monthly retirement benefits prior to January 1, 1995, excluding those participants who were included in The Providence Journal Company Retirement Plan on December 31, 1997, were eligible for the cost of living adjustment. This includes any beneficiary whose spouse was receiving monthly retirement benefits prior to January 1, 1995. The adjustment made to eligible monthly benefits was a one-time cost of living increase of 5%. If an eligible, retired participant dies on or after January 1, 1998, the survivor benefit, if applicable, shall be calculated with respect to the participant's benefit as increased by the cost of living adjustment.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Plan Changes Since Prior Valuation: None.
