THE WALMAN OPTICAL COMPANY EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
November 30, 2021 and 2020

Note 1 PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of The Walman Optical Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all employees of The Walman Optical Company (the Company) who have attained the age of twenty or older, provided the employee is not covered under a collective bargaining agreement to which the Company is a party, are not leased employees and is not a resident alien. The Plan allows participants to enter into the Plan on the entry date following the participants' satisfaction of the other requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is qualified as an Employee Stock Ownership Plan (ESOP) as defined in Section 4975(e)(7) of the Internal Revenue Code and also qualifies for preferred tax treatment under Section 401(a) of the Internal Revenue Code. The Plan is administered by the Company.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against the shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of November 30, 2021 and 2020, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

CONTRIBUTIONS

The Company has established an Employee Stock Ownership Trust (the Trust) to which discretionary contributions are made as determined by the Company's Board of Directors. Participating employees are not permitted to make contributions to the Trust. Only eligible participants who are actively employed on the last day of the Plan year, provided they are credited with at least 1,000 hours of service during the Plan year, are eligible to share in the contributions for the year. The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

PAYMENT OF BENEFITS

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a certain period of time not exceeding the participant's life expectancy. Distributions shall be paid in cash or stock or both at the discretion of the Company. Vested account balances not exceeding \$5,000 will be distributed in one lump-sum payment without any waiting period. Stock accounts of terminated participants may be liquidated and invested in property other than stock in segregated accounts within the Plan. Assets in the segregated accounts are invested as instructed by the individual account holder. Diversification transfers are allowed for qualified participants and represent participant account transfers to another retirement plan sponsored by the Company.

NOTES TO FINANCIAL STATEMENTS
November 30, 2021 and 2020

ADMINISTRATIVE EXPENSES

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid substantially all of the operating expenses for the Plan.

VOTING RIGHTS

In certain situations, as defined by the Plan, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such voting rights are to be exercised. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interests of the Plan participants and beneficiaries.

PARTICIPANT ACCOUNTS

Each participant's account is credited with allocations of the Company's contribution, Plan earnings, forfeitures, and dividends, and can be charged with an allocation of Plan administrative expenses. Allocations are based on participant's eligible compensation, account balances or number of shares held, as defined. Upon termination of employment, participants are entitled to their vested account balances.

VESTING

Vesting in the Plan begins after two years of service at a rate of 20% per year. All accounts become 100% vested after completion of six years of service, normal retirement, death or disability.

PUT OPTION

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchases with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

DIVERSIFICATION

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value held of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%, less any shares previously diversified.

NOTES TO FINANCIAL STATEMENTS
November 30, 2021 and 2020

FORFEITURES

Forfeitures are created when participants terminate employment before becoming fully vested in the Plan. Forfeitures are first used to restore previously forfeited account balances of returning participants. Remaining forfeitures are allocated to the remaining participants in the same manner as Company contributions are allocated. Forfeitures allocated to the remaining participants approximated \$184,000 and \$197,000 during Plan years 2021 and 2020, respectively.

INVESTMENT OPTION IN SEGREGATED ACCOUNTS

Participants with segregated balances are allowed to direct their own investments. Each participant may elect to direct his or her segregated account into certain mutual funds or one of three portfolios: the Conservative Portfolio, the Moderate Portfolio, and the Growth Portfolio, depending on individual investment needs and risk preferences. Participants may change their investment option at any time.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The financial statements of the Plan are prepared on the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements in accordance with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

ALLOCATIONS

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Dividends from investment funds are recorded on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SUBSEQUENT EVENTS

On February 28, 2022, the Plan Sponsor was acquired by another company. As a result of this acquisition, the Plan Sponsor terminated the ESOP and all Plan Assets will be distributed according to the Plan document.

Note 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability,
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2021 and 2020.

Money market funds - Money market funds are valued at the unit value as reported by the investment manager at year end.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Collective trust fund - Valued at the Net Asset Value (NAV) of units of a bank collective trust. The NAV, as provided by the asset custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transaction may occur daily. If the Plan were to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 8 NOTES PAYABLE

In 2016, the Plan entered into a \$5,743,750 term loan agreement with the Company. The agreement provides for the loan to be repaid over 20 years. The loan bears interest at 1.95%. The balance of the note payable was \$4,508,646 and \$4,765,298 as of November 30, 2021 and 2020, respectively.

In 2017, the Plan entered into a \$11,621,300 term loan agreement with the Company. The agreement provides for the loan to be repaid over 20 years. The loan bears interest at 2.50%. The balance of the note payable was \$9,732,153 and \$10,222,073 as of November 30, 2021 and 2020, respectively.

In 2018, the Plan entered into a \$8,170,240 term loan agreement with the Company. The agreement provides for the loan to be repaid over 20 years. The loan bears interest at 2.99%. The balance of the note payable was \$7,229,554 and \$7,552,398 as of November 30, 2021 and 2020, respectively.

In 2019, the Plan entered into a \$8,582,040 term loan agreement with the Company. The agreement provides for the loan to be repaid over 20 years. The loan bears interest at 1.86%. The balance of the note payable was \$7,884,632 and \$8,223,881 as of November 30, 2021 and 2020, respectively.

The proceeds of the loans were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 174.05 shares being released and allocated for the Plan years ended November 30, 2021 and 2020.

Future maturities of the note payable are as follows:

2022	\$1,467,931

Note 11 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risk, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 12 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Company ESOP Committee directs the Trustees to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. In the event of termination of the Plan, all participants become fully vested.

Note 13 TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 25, 2017, stating that the Plan is qualified, under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress.
