INDEPENDENT AUDITORS' REPORT

The Plan Administrator
Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant
Bronson, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 1, 2021 (in liquidation), and the related statement of changes in net assets available for benefits (in liquidation) for the eleven months then ended, and the statement of accumulated plan benefits (in liquidation) and statement of changes in accumulated plan benefits (in liquidation) as of and for the year ended December 31, 2020, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the eleven months ended December 1, 2021 (in liquidation), stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of assets held at end of year and reportable transactions as of and for the period ended December 1, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplement schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 and 2019 Financial Statements

The 2020 and 2019 financial statements of Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated October 7, 2021, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and supplemental schedules, and (b) the form and content of the information included in the financial statements and supplemental schedules other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Emphasis of Matter

As described in Note 7 to the financial statements, the governing body of Douglas Autotech Corporation for Hourly Employees of its Bronson, Michigan Plant approved a plan of liquidation on June 21, 2021, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the normal GAAP basis of accounting used in presenting the 2020 financial statements to the liquidation basis used in presenting the 2021 financial statements. Our opinion is not modified with respect to that matter.

NOTE 1 - Description of Plan

The following description of Douglas Autotech Corporation Pension Plan for Hourly Employees of its Bronson, Michigan Plant (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was terminated during 2021 (see Note 7) accordingly the descriptions below are provisions of the Plan prior to termination.

General - The Plan, which became effective on January 1, 1991, is a noncontributory defined benefit plan for employees of Douglas Autotech Corporation (the "Company") covered by collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2008, the employees covered by this Plan were involved in a labor action and are not currently employed at the Company. Therefore, there were no benefits earned after June 2008. The employees covered by this Plan and the plan sponsor reached a settlement during the 2014 plan year, and there was no impact on the Plan.

Eligibility and Eligibility Service - An employee became a participant in the Plan after one year of eligible service, as defined by the Plan, provided the employee had attained the age of 21. Eligibility service consisted of a plan year in which the employee covered by the Plan had no fewer than 1,000 hours of service.

Funding policy - Contributions to the Plan are made at the discretion of the Company, except that such contributions cannot be less than the minimum required contribution, determined in accordance with the applicable section of the Internal Revenue Code and any other applicable Federal statutes regarding satisfaction of actuarially determined minimum funding standards. Contributions to the Plan met the minimum funding standards for 2021 and 2020.

Vesting - Vesting service consisted of service given to an employee covered by the Plan for determining the eligibility for benefits: 1,000 hours of service constituted a full year, and fewer than 1,000 hours of service yielded partial credit. All participants are now 100 percent vested.

Benefit Service - Benefit service consisted of service given to an employee covered by the Plan for determining a benefit amount: 1,700 hours of service constituted a full year, and fewer than 1,700 but more than 1,000 hours of service yielded partial year credit.

Pension Benefits - Participants employed by the Company at the normal retirement age (age 65) or who entered into the Plan after age 60 and participated for five years are entitled to monthly retirement benefits payable in the form of \$16.50 multiplied by the number of participant benefit service years, as defined in the plan provisions.

HOURLY EMPLOYEES OF ITS BRONSON, MICHIGAN PLANT**

**NOTES TO LIQUIDATION BASIS FINANCIAL STATEMENTS
DECEMBER 1, 2021 (IN LIQUIDATION) AND DECEMBER 31, 2020 AND 2019 (ONGOING)**

NOTE 1 - Description of Plan - (Continued)

Pension Benefits (continued) - Participants employed by the Company can elect early retirement and obtain a normal retirement benefit reduced by an age-based plan schedule if they meet either of the following requirements:

- a. Attainment of age 60 and completion of 10 years of vesting service, as defined by the plan provisions
- b. Attainment of age 55 and completion of vesting service such that the participant's age plus vesting service equals at least 85

A participant having 5 or more years of vesting service whose employment is terminated before the normal retirement age is eligible for a deferred vested pension benefit. Disability benefits require that the participant have 10 years of vesting service and be less than 65 years old. A participant who retires under early retirement or under disability will receive a supplemental allowance defined in the Plan. Supplemental benefits, as defined, are available for normal retirees, early retirees, and late retirees who have attained age 65.

The Plan permits later retirement with years of service after age 65, credited for determination of the number of participant benefit service years.

Unless otherwise elected by the participant, an unmarried participant receives benefits in the form of a life annuity, and a married participant receives benefits in the form of a reduced joint and 55 percent survivor annuity. The reduction factor applied to the married participant's benefit is 95 percent, adjusted as provided in the Plan.

NOTE 2 - Summary of Significant Accounting Policies

Basis of accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**DOUGLAS AUTOTECH CORPORATION PENSION PLAN FOR
HOURLY EMPLOYEES OF ITS BRONSON, MICHIGAN PLANT**

**NOTES TO LIQUIDATION BASIS FINANCIAL STATEMENTS
DECEMBER 1, 2021 (IN LIQUIDATION) AND DECEMBER 31, 2020 AND 2019 (ONGOING)**

NOTE 2 - Summary of Significant Accounting Policies - (Continued)

Investment valuation and income recognition - The Plan's investments are stated at fair value. The common collective trust fund is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. At year end, there were no unfunded commitments or redemption restrictions on this investment.

Payment of benefits - Benefit payments to participants are recorded upon distribution.

Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Subsequent events - The Plan has evaluated subsequent events through September 9, 2022 the date the financial statements were available to be issued.

NOTE 3 - Funding Policy

The Plan is subject to the minimum funding requirements of ERISA and the minimum/maximum funding requirements of the IRC. The Company's contribution for the period and year ended December 1, 2021 and December 31, 2020 complied with the minimum funding requirements of ERISA and the IRC. The Company made contributions in the amount of \$1,782,716, \$152,000 and \$606,806 for the period and years ended December 1, 2021, December 31, 2020 and 2019, respectively.

NOTE 4 - Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 1, 2021, December 31, 2020 and 2019, and net appreciation in fair value of investments and dividends for the period and years ended December 1, 2021, December 31, 2020 and 2019, respectively, was obtained by management and agreed to or derived from information certified as complete and accurate by American Trust (the custodian of the Plan).

NOTE 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 1, 2021, December 31, 2020 and 2019:

Common collective trust fund - Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 6 - Tax Status

The Plan has received a favorable determination letter dated December 3, 2013 from the Internal Revenue Service stating the Plan is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter, including amendments to comply with recent law changes. However, the Plan administrator believes the Plan has continued to operate in compliance with the applicable requirements of the IRC since the date of the determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and state authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company terminated the Plan effective June 21, 2021.

NOTE 7 - Plan Termination - Liquidation Basis

On June 21, 2021, the Company filed a standard termination notice with the PBGC.

During 2021, the Company contributed \$1,782,716 to the Plan to satisfy all remaining obligations of the Plan. The contract was fully paid by the Company on December 1, 2021. All benefit payments were satisfied.

Upon termination of the Plan, including contributions described above and payment of final administrative expenses, there were no remaining Plan assets. Final liquidation of the Plan was completed on December 1, 2021.

NOTE 8 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid or retired or vested terminated participants or their beneficiaries, beneficiaries of participants who have died, and present participants or their beneficiaries.

**NOTES TO LIQUIDATION BASIS FINANCIAL STATEMENTS
DECEMBER 1, 2021 (IN LIQUIDATION) AND DECEMBER 31, 2020 AND 2019 (ONGOING)**

NOTE 8 - Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits was determined by the Plan's actuaries, Midwest Pension Actuaries, LLP, relying on information provided by the Company. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits as defined by the Pension Agreement to reflect the time value of money and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and expected date of payment. The computation of the actuarial present value of accrued plan benefits was made as of December 31, 2020 and 2019.

The following significant actuarial assumptions were used to determine the actuarial present value of accumulated Plan benefits for 2020 and 2019:

Actuarial cost method	Projected unit credit, as defined by PPA 2006
Assumed Rate of return	7% per annum
Mortality	2020: RP 2014 with MP-2021 Improvement 2019: RP 2014 with MP-2020 Improvement

Normal retirement age 65 with five years of service; for employees who meet these qualifications on the valuation date, assume retirement on the date of valuation.

NOTE 9 - Related Party Transactions

Certain Plan investments are managed by American Trust, the Plan's custodian. Transactions involving these investments are considered party-in-interest transactions. Fees paid by the Plan for the investment management services totaled \$17,329 and \$18,570 for the years ended December 1, 2021 and December 31, 2020, respectively. These fees are considered indirect fees and are automatically deducted from the Plan's investment account. The Plan paid certain expenses related to the Plan's operations to various service providers and the Company paid certain expenses related to Plan operations. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

**NOTES TO LIQUIDATION BASIS FINANCIAL STATEMENTS
DECEMBER 1, 2021 (IN LIQUIDATION) AND DECEMBER 31, 2020 AND 2019 (ONGOING)**

NOTE 10 - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 11 - Required Schedule Information

The following information pertains to the 2021 and 2020 financial statements schedules required under ERISA:
