1. Description of the Plan:

The following description of PatientPing, Inc. Retirement Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan.

General: The Plan is a defined contribution plan covering all eligible employees of PatientPing, Inc. (the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Retirement Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Amendments: Effective January 1, 2021, the Plan was amended to allow Roth contributions.

Plan Termination: During 2021, the Plan Sponsor was acquired by Appriss, Inc.. As a result of the acquisition, the Plan was terminated effective June 1, 2021. All participants were notified of the Plan termination. Subsequently, the Plan Administrator underwent the process of winding down the Plan and distributed the Plan's assets to the participants. The liquidation of the Plan was completed on November 3, 2021. The description of the Plan that follows describes the Plan prior to termination.

CARES Act: On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law, which included several relief provisions available to tax qualified retirement plans and their participants. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the Plan document. Plan management has evaluated the relief provisions available to plan Participants under the CARES Act and has implemented the following provisions:

- *Withdrawals:* Special coronavirus-related distributions, as defined, could be withdrawn by qualified Participants up to \$100,000 through December 30, 2020.
- *Notes Receivable from Participants:* The available loan amount as described in Note 1 is increased to the lesser of 100% of their eligible balance up to \$100,000. Additionally, qualified Participants, as defined, with an outstanding loan balance, could elect to defer repayments due under the loan for up to one year. This election was available from the date of enactment through December 31, 2020, and any subsequent repayments shall be appropriately adjusted.
- *Required Minimum Distributions:* All required minimum distributions were suspended through December 31, 2020.

Eligibility: All employees of the Plan Sponsor, except for employees covered under a collective bargaining agreement, nonresident aliens, and independent contractors reclassified as employees, become eligible for participation in the Plan on the date of hire. Eligible employees enrolled in the Plan are referred to as "Participants" in the Plan.

Contributions: The Plan provides for Participant pretax contributions. Participants may contribute up to 100% of their pretax compensation, as defined by the Plan, subject to the Internal Revenue Code (IRC) limitations. Rollover contributions from other qualified plans are allowed, with the approval of the Plan Administrator. The Plan includes a qualified Roth contribution program, whereby Participants may irrevocably elect to treat all or a portion of compensation that would otherwise be eligible to defer as pretax contributions as designated Roth contributions as defined in Section 402A(c)(1) of the IRC. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides that Participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution subject to IRC limitations.

The Plan Sponsor may, at its discretion, make nonelective contributions to the Plan in any Plan year in an amount determined by the Board of Directors of the Plan Sponsor. Participants must be employed by the Plan Sponsor on December 31 to be eligible to receive Plan Sponsor discretionary nonelective contributions.

1. Description of the Plan (Continued):

For the period from January 1, 2021 through November 3, 2021, no discretionary nonelective contributions were made to the Plan.

Participant Accounts: Each Participant's account is credited with the Participant's contributions and allocations of (a) the Plan Sponsor's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses, if any. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting: Participants are immediately vested 100% in their contributions and Plan Sponsor nonelective contributions, plus actual earnings thereon.

Upon termination, Participants became 100% vested in the Plan Sponsor contributions.

Notes Receivable from Participants: Notes receivable from Participants are not allowed under the Plan.

Benefits and Withdrawals: The vested benefits are paid to the Participants or their beneficiaries upon the Participants' retirement, death, disability or termination of employment with the Plan Sponsor. In the event of the above, the Participants or their beneficiaries will receive a lump sum distribution if the account balance has a value of less than or equal to \$1,000. Terminated Participants' vested account balances of greater than \$1,000 and up to \$5,000 may be automatically distributed to an Individual Retirement Account (IRA). Participants whose account balances exceed \$5,000 may elect to receive a lump sum distribution or may leave their vested balance in the Plan.

Hardship withdrawals are permitted by the Plan as defined in the IRC. Participants may also withdraw their vested account balance upon attaining age 59 ½.

2. Significant Accounting Policies:

Basis of Accounting: As a result of the Plan's termination and the approval of the plan of liquidation, the Plan adopted the liquidation basis of accounting effective June 1, 2021. This basis of accounting is considered appropriate when liquidation of a plan is imminent. Under the liquidation basis of accounting, assets are valued at the estimated amount of cash or other consideration that the Plan expects to collect in settling or disposing of Plan assets in carrying out its plan for liquidation, and liabilities are stated at their estimated settlement amounts.

The 2020 financial statements of the Plan were prepared on the going concern basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition: Under the liquidation basis of accounting, investments, including fully benefit-responsive investment contracts, are reported at fair value which approximates the liquidation value of the investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for further discussion of fair value measurements.

Under the going concern basis of accounting, investments are required to be reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Significant Accounting Policies (Continued):

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Use of Estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan Administrator has evaluated subsequent events through August 9, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the period from January 1, 2021 through November 3, 2021 and for the year ended December 31, 2020.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. Fair Value Measurements (Continued):

Collective Trusts: Valued using readily determinable fair values. A fair value is considered readily determinable when the fair value per share (unit) is determined and published and is the basis for current transactions. Collective trusts valued using readily determinable fair values are reported in the fair value hierarchy at Level 1.

Pooled Separate Accounts: Valued using readily determinable fair values. A fair value is considered readily determinable when the fair value per share (unit) is determined and published and is the basis for current transactions. Pooled separate accounts valued using readily determinable fair values are reported in the fair value hierarchy at Level 1.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2020:

	Assets at Fair Value as of December 31, 2020			
	Total	Level 1	Level 2	Level 3
Investments:				
Collective Trusts	\$ 2,615,164	\$ 2,615,164	\$ -	\$ -
Mutual Funds	1,212,085	1,212,085	-	-
Pooled Separate Account	26,331	26,331	-	-
Total Investments	\$ 3,853,580	\$ 3,853,580	\$ -	\$ -

4. Fully Benefit-Responsive Investment Contracts:

The Plan holds a traditional investment contract with Principal Life Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. The traditional investment contract held by the Plan is a guaranteed investment contract. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0.5%. The crediting rate is reviewed on an annual basis for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

4. Fully Benefit-Responsive Investment Contracts (Continued):

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following:

- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options

There are no events that allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value.

5. Party-in-Interest Transactions:

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment, in the accompanying statement of changes in net assets available for plan benefits in liquidation for the period from January 1, 2021 through November 3, 2021. During the period from January 1, 2021 through November 3, 2021, the Plan made direct payments to Principal Life Insurance Company, the recordkeeper, in the amount of \$6,800, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

6. Untimely Remittance:

During the years ended December 31, 2018, the Plan Sponsor did not remit certain Participant contributions to the Plan in a timely manner, as defined by ERISA. The contributions are considered non-exempt party-in-interest transactions, which may result in an imposition of a 15% excise tax on the amount of the transactions. The Plan Sponsor has computed the lost earnings on untimely contributions and determined they are immaterial to the Plan's financial statements. These untimely contributions were corrected by the Plan Sponsor during 2021.

7. Tax Status:

The Plan has adopted the nonstandardized prototype plan of Principal Life Insurance Company. The nonstandardized prototype plan sponsor received a favorable opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the form of the nonstandardized prototype plan was in compliance with the applicable requirements of the IRC. The nonstandardized prototype plan has been amended since receiving the opinion letter; however, the Plan Administrator believes that the Plan and the related trust are currently being operated in compliance with the applicable provisions of the IRC, and that the related trust is therefore tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes it has no uncertain tax positions as of November 3, 2021 and December 31, 2020, and for period from January 1, 2021 through November 3, 2021.

8. Information Certified by the Custodians:
