Employees of these entities were eligible to participate, effective October 1, 2003.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The pension benefits under the Plan were frozen effective November 30, 2007. There were no future benefit accruals in the Plan and employees did not earn any additional benefits after November 30, 2007. There were no pension plan benefits available to employees who did not meet the participation requirements of the Plan on or before December 1, 2007.

Plan Termination

The Company elected to terminate the Plan subject to the provisions set forth in ERISA, effective July 31, 2020. The Company applied for and received approval for the termination from the Internal Revenue Service (IRS). During 2021, the Company began the process of distributing or transferring all Plan assets, as elected by each participant. This process was completed during 2021 and all assets have been distributed. All participants had the option to receive a lump sum payment or an annuity for the value of accumulated benefits.

In April 2021, a single premium group annuity contract was purchased from American United Life Insurance Company in order to provide for the accrued benefits of approximately 238 retirees, active and deferred vested members of the Plan, who elected the annuity form of payment. In 2021, the Company made an additional contribution to the Plan, as needed, in order to pay for the premium costs of the annuity contract.

Administration

The Company was designated as the administrator of the Plan. The Board of Directors appointed a Retirement Committee, consisting of three persons, to assist and advise in the administration of the Plan. The Retirement Committee had discretionary and final authority to determine eligibility for benefits, actual coverage, and payment of benefits and final authority to construe all terms of the Plan. The members of the Retirement Committee also served as trustees for the Plan and were responsible for maintaining Plan assets in a trust fund. The assets of the Plan were held by The Bank New York Mellon (BNY), which collected investment income and executed trust asset transactions as directed by the Retirement Committee. Substantially all administrative expenses were paid by the Plan. Certain expenses were paid by the Company.

Pension Benefits

Participants became fully vested after five years of vesting service or reaching age 62, as defined by the Plan. A participant whose employment by the Company terminated prior to his or her normal retirement date and prior to the completion of five years of vesting service was not entitled to any benefits under the Plan. The Plan provided for normal retirement benefits upon reaching age 65 and had provisions for disability, early and postponed benefits for those participants who are eligible to receive such benefits. Normal retirement benefits were based upon average monthly basic salary and years of credited service as defined by Plan provisions and were in the form of an annuity or lump-sum payment. All pension benefits were frozen as of November 30, 2007.

Participants were able to elect a lump sum distribution as an optional form of pension that was distributed following termination of employment. The amount of the lump sum payment was equal to the Actuarial Equivalent of the normal form of pension. Distribution of the participant's benefits commenced on the first day of the month coinciding with or next following the later of the date the Company received properly completed distribution forms or the date 30 days after the date of the distribution notice, although the actual payment may have been delayed for administrative purposes.

Administrative Expenses

Significant professional and administrative fees were paid by the Plan during 2021 and 2020.

Vesting

Due to the termination of the Plan, all participants were fully vested.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

Because the termination of the Plan was imminent, the financial statements of the Plan are prepared under the liquidation basis of accounting in accordance with the accounting guidance in FASB ASC 205-30.

Estimates And Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Valuation Of Investments And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment Of Benefits

Benefit payments to participants are recorded when paid.

Actuarial Present Value Of Accumulated Plan Benefits

Accumulated benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances- retirement, death, disability, and termination of employment- are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The more significant assumptions underlying the actuarial computations as of December 1, 2019 are as follows:

Actuarial Cost Method:	Projected unit credit method
Mortality Basis - Healthy:	Pri-2012 employees and healthy annuitants mortality table. Mortality rates are projected generationally from 2012 using Scale MP-2019.
Mortality Basis - Disability:	Pri-2012 disabled retirement mortality table. Same projection as healthy lives.
Retirement:	Based on assumed retirement rate table beginning at age 55.
Assumed Discount Rate:	3.08%

At December 1, 2020 there was no actuarial present value of accumulated plan benefits as all participants had either been paid or payment was pending.

3. Funding Policy

The Plan was a defined benefit plan to which the Company contributed such amounts as were necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. No contributions were allowed by employees.

Contributions by the Company were designed to fund the Plan's current service costs on a current basis. The yield on investments served to reduce further contributions that would otherwise be required to provide for the defined level of benefits under the Plan.

Contributions to provide benefits under the Plan were made by the Company and its subsidiaries. The Company's funding policy is to make an annual contribution to the Plan based on actuarial valuations and recommendations as to the amounts required to fund benefits under the Plan. The Company met the ERISA minimum funding requirements in 2021 and 2020.

4. Certified Financial Information

Financial information related to the investments and earnings from investments are included in the accompanying financial statements and are based on information provided by BNY. This information, which has not been audited by the Plan's independent auditors, has been certified as complete and accurate by BNY.

5. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Collective Trust Funds, 103-12 Investment Entity And Cash Equivalent

Valued at the NAV, as provided by the Trustee. NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of November 30, 2020, investments in collective trust funds, 103-12 investment entity and cash equivalent are measured at fair value using the net asset value per share (or its equivalent) practical expedient, and therefore, have not been classified in the fair value hierarchy.

Fair Value Of Investments In Entities That Use NAV

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2021 and 2020:

Investment Type	Fair Value 2021	Fair Value 2020	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust funds	$ —	$ 45,824,085	None	Daily	None
Cash equivalent (1)	—	10,767,970	None	Daily	None
	$ —	$ 56,592,055			

(1) The investment objective is to seek as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

6. Present Value Of Accumulated Benefits

The present value of accumulated benefits has been determined by an actuary from Aon Hewitt, and is that amount which results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The present value of accumulated benefits is as follows:

	December 1, 2021	December 1, 2020
Actuarial Present Value Of Accumulated Plan Benefits		
Vested benefits:		
Participants currently receiving payments	**$** —	$ 41,534,663
Other participants	—	14,340,224
	—	55,874,887
Nonvested benefits	—	777,434
Total Actuarial Present Value Of Accumulated Plan Benefits	**$** —	$ 56,652,321

The present value of accumulated benefits changed from beginning of the year to the end of the year as follows:

	For The Years Ended December 1,	
	2021	2020
Actuarial Present Value Of Accumulated Plan Benefits At Beginning Of Year	**$ —**	$ 52,305,390
Increase (Decrease) During The Year Attributable To:		
Interest	—	2,221,847
Change in actuarial assumptions	—	6,708,918
Benefits accumulated	—	672,900
Benefits paid	—	(5,256,734)
Net Increase (Decrease)	—	4,346,931
Actuarial Present Value Of Accumulated Plan Benefits At End Of Year	**$ —**	$ 56,652,321

7. Income Tax Status

The Plan received its latest determination letter dated August 25, 2020 in which the IRS stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt and that the termination of the Plan does not adversely affect its qualification for federal tax purposes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party In Interest Transactions

Plan investments consist of cash equivalents, collective trust funds and a 103-12 investment entity managed by Aon Hewitt Investment Consulting, Inc., the Plan's actuary and investment advisor. These transactions qualify as party in interest transactions allowable under ERISA.

9. Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of November 30:
