Independent Auditor's Report

The Plan Administrator
Great Southwestern Construction, Inc. Hourly Field Employees' Savings Plan
Castle Rock, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Great Southwestern Construction, Inc. Hourly Field Employees' Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended, December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021 and 2020 and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting as described in Note 2.
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting as described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Modified Cash Basis of Accounting

As described in Note 2 to the financial statements, the financial statements have been prepared on the modified cash basis of accounting, which is a basis of accounting other than U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that

agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Company maintains the assets for two qualified savings plans, including the Plan, in the MYR Group Inc. Plan Trust (the Master Trust) administered by Great-West Trust Company, LLC (the Trustee).

Eligibility

Employees of the Company are eligible to participate in the Plan if the employee is a regular full-time, hourly field employee of the Company or if the employee was a prior Plan participant and is rehired. Part-time employees are eligible to participate on the first day of the month following completion of 1,000 hours during the first year of employment, or during any calendar year commencing after the date of hire. An employee may not participate in the Plan if they are a temporary employee, a leased employee, a contract worker, covered under a collective-bargaining agreement that does not provide for participation in the Plan, or covered by a multi-employer pension plan to which the Company makes contributions.

Contributions

Participants may contribute from 1% to 75% (in 1% increments) of their wages to the Plan. Unless a participant is eligible to make catch-up contributions, the employee contributions will automatically stop when they reach the contribution limit for the year based on the current Internal Revenue Code (IRC) requirements. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective January 1, 2021, the Company implemented an automatic escalation of employee contributions by 1% annually, up to a maximum of 6% with a participant opt-out feature.

The Company makes a safe harbor dollar-for-dollar matching contribution up to a maximum of 4% of the participant's eligible wages. The Company also makes a dollar-for-dollar supplemental matching contribution for deferral amounts in excess of 4% up to 6% of a participant's wages. Contributions are calculated for each payroll period, and payment is made within a reasonable time after each payroll period. The Company's contributions are invested into the various investment options as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contribution, the safe harbor matching contributions, the supplemental matching contribution, and allocation of the Plan earnings and expenses. Allocations are based on participant contributions, base wages, or account balances, as defined. Each account maintained for a participant reflects their value for each investment held. All income, gain, or loss attributable to the investment of the balance of any account maintained for a participant is recorded to that account.

Vesting and Forfeitures

Participants are immediately vested in their employee before-tax account, Roth account, safe harbor match account, rollover account, pension plan account, pre-2006 after-tax contribution account, and any other employee contribution account. The amounts held in the Supplemental Match Account vest based on years of service. A year of service is any Plan year in which an employee completes 1,000 hours of service. A participant becomes 20% vested after one year of service, 40% vested after two years of service, 60% vested after three years of service, 80% vested after four years of service, and 100% vested after five years of service. However, if an active participant dies, becomes permanently disabled prior to attaining the normal retirement age, or reaches age 65, the participant's account becomes 100% vested.

The non-vested portion of the employer contributions for all terminated employees may be used to reduce subsequent employer contributions or to pay plan expenses. In 2021, \$42,197 of forfeitures were used to reduce employer contributions. The unallocated forfeitures balance as of December 31, 2021 and 2020 was \$101,562 and \$40,814, respectively.

Payment of Benefits

A terminated employee may elect to receive the value of his or her account in the form of a single-sum payment, a partial payment, a direct rollover, or a distribution in the form of an annuity if such total account balance exceeds \$5,000. Account balances below \$5,000 will be automatically distributed to the participant. If the account balance is between \$1,000 and \$5,000, the balance will be automatically rolled into an Individual Retirement Account (IRA) on behalf of the participant. If the account balance does not exceed \$1,000, the account balance will automatically be distributed to the participant in a lump-sum payment. Active employees may make withdrawals from the Plan under certain circumstances. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants

Loans made to a participant from his or her accounts must be for a minimum of \$1,000. Loan amounts may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance, less outstanding balances of any other loans with the Plan. A loan is secured by the balance in the participant's account and bears interest at the prime rate published in the Wall Street Journal on the first business day of each month, plus 1%. Loans are generally to be repaid within five years unless the loan is for the purchase of a principal residence. Also, each participant may not have more than two loans outstanding at any time.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on a modified cash basis of accounting. Contributions are not recognized until received.

Investment Valuation and Income Recognition

The Master Trust investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly

Great Southwestern Construction, Inc. Hourly Field Employees' Savings Plan

Notes to Financial Statements

transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

The Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from Plan participants represent participant loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Repayments of principal and interest are recognized in the period in which payroll deductions are processed. No allowance for credit losses had been recorded as of December 31, 2021.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses for the administration of the Plan are paid for by the Plan.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 9, 2022, the date the financial statements were available to be issued. Effective January 1, 2022, the Company amended the Plan to change its name to the MYR Group Hourly 401(k) Plan.

3. Interest in the Master Trust

All of the Plan's investments are in the Master Trust, which was established for the investment of plan assets. Each participating plan has a divided interest in the Master Trust. The Master Trust investments are stated at fair value or contract value as reported by the Trustee and management. The ratio of the Plan's assets to the fair value of all assets held in the Master Trust is used to allocate interest income, dividend income, other income, realized gains (losses) and unrealized appreciation (depreciation) in the market value of investments, and certain investment management fees on a

monthly basis. Other changes in net assets available for Plan benefits are directly attributable to the Plan and are, therefore, not subject to allocation.

The amount shown herein as the investment in the Master Trust as of December 31, 2021 and 2020 reflects the fair value of the assets held in such Master Trust, and the Plan's relative interest in the Master Trust.

The statements of net assets available for benefits of the Master Trust and the Plan's interest in the Master Trust are as follows:

4. Fair Value Measurements

In accordance with Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Inputs to the valuation methodology are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable for the asset or liability—including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability—and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's interest in the Master Trust at December 31, 2021 and 2020 is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Great Southwestern Construction, Inc. Hourly Field Employees' Savings Plan

Notes to Financial Statements

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2021 and 2020.

The investments held by the Master Trust are valued as follows:

Mutual Funds - These assets are valued at the closing price reported on the active market on which the individual securities are traded, held by the Master Trust at year-end.

Self-Directed Brokerage Accounts - These accounts are comprised of common stock, mutual funds, and cash and cash equivalents. Common stock is valued at the published market price on an active market. The mutual funds are valued at the net asset value (NAV) that is quoted on an active market and is determined based on the fair value of the underlying assets at the end of each day.

Common Collective Trust Funds (CCT) - The master trust investment in the Wells Fargo Sable Value Fund is valued at the NAV of units held by the Master Trust. The NAV is used as a practical expedient to estimate fair value. The NAV is provided by the trustee of the CCT and is based on the fair value of the underlying investments held by the fund less their liabilities.

Management has concluded the presentation of the CCT using the NAV as a practical expedient is appropriate. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following tables set forth by level, within the fair value hierarchy, the fair value of the investments held in the Master Trust:

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the line items presented in the statements of net assets available for benefits. Redemption from these funds is permitted following a 12-month notice period. There were no unfunded commitments, liquidity or redemption restrictions related to the common/collective trusts.

** Certain items in the 2020 financial statements have been reclassified to conform to the 2021 presentation.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

7. Tax Status

The Plan uses a pre-approved plan from Great-West Trust Company, LLC, which received an opinion letter from the IRS on June 30, 2020, which states that the pre-approved plan, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

Notes to Financial Statements

8. Related Party Transactions

Certain Plan investments are managed by the Trustee or its affiliates. Fees have been paid to the Trustee by the Plan for record-keeping services. Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan.

The Plan has notes receivable from participants subject to specific guidelines, as defined in the Plan document (see Note 1). These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

9. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee, a qualified institution, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Plan's interest in MYR Group Inc. Plan Trust, at fair value and notes receivable from participants, as shown in the statements of net assets available for benefits - modified cash basis as of December 31, 2021 and 2020.
- Change in Plan's interest in MYR Group Inc. Plan Trust and interest income from notes receivable as shown in the statement of changes in net assets available for benefits - modified cash basis for the year ended December 31, 2021.
- Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

10. Transfers

Transfers from the Plan occur due to participant changes in status from hourly to salaried, or vice versa, or transfers between the companies. Total net transfers from the Plan were \$718,092 for the year ended December 31, 2021.
