Independent Auditor's Report

Audit Committee
Trudeau Institute, Inc.
Saranac Lake, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of the Trudeau Institute Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 6 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statements of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Other Matters - Continued

Auditor's Report on the 2020 Financial Statements - Continued

The Plan has excluded from the 2020 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded from the 2020 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. U.S. GAAP require that these accounts and the related income and distributions be included in the 2020 financial statements.

In our report dated September 9, 2022, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Description of the Plan

The following brief description of the Trudeau Institute Retirement Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution 403(b) plan covering all eligible employees of the Trudeau Institute, Inc. (Institute). The Plan is sponsored by the Institute and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan assets are held by Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF), the Custodian of the Plan. Participant elective deferrals, employer contributions, and participant accounts are held and managed by the Custodian, who invests cash received and income from investments based on written instructions from the participants and makes distributions to participants. The Board of Trustees is responsible for the oversight of the Plan and the appropriateness of the Plan's investment offerings and monitoring investment performance.

b. Plan Eligibility

Employees are immediately eligible to participate in the Plan with respect to salary reduction elections. Employees are eligible to participate in the Plan with respect to employer contributions after attaining twenty-one years of age, and completing twelve consecutive months of service in which the employee has worked 83 1/3 hours of service each month.

c. Contributions

Each year, participants may contribute a percentage or fixed dollar amount of their pre-tax annual compensation to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was \$19,500 for both the Plan years ended December 31, 2021 and 2020. In addition, participants who have attained age fifty before the end of the Plan year are also eligible to make additional "catch-up" contributions. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Institute may make discretionary employer contributions to eligible participants, as determined by the Institute's Board of Trustees. Contributions are based on a percentage of a participant's eligible compensation, subject to certain limitations. The Institute contributed 6% of participants' eligible compensation for both years ended December 31, 2021 and 2020.

Participants direct their elective deferral amounts and employer contributions, if any, into various investment options offered by the Plan.

d. Participant Accounts

Each participant's account is credited with the participant's contributions, as well as allocations of (a) the Institute's discretionary contribution, if any, and (b) Plan investment earnings (losses), net of investment expenses. Allocations are based on participant earnings, account balances, or specific participant transactions as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Description of the Plan - Continued

e. Vesting

Participants are 100% vested in all contributions plus actual earnings thereon.

f. Plan Loans and Participant Notes Receivable

Plan Loans

Prior to July 5, 2019, loans were issued directly from TIAA-CREF, and not directly from a participant's account (Plan Loans). As such, Plan Loans are not part of Plan assets. Plan Loans are secured by a portion of the participant's account which is held as collateral to cover 110% of the outstanding loan in case of default. Participants were able to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50% of their nonforfeitable account balance. Participants could have only one loan outstanding. The interest rate for these Plan Loans may be fixed or variable, and the initial rate was determined by the terms of the controlling contract. In general, principal and interest are paid ratably over a period not to exceed five years directly to TIAA-CREF. Outstanding Plan Loans totaled \$30,521 and \$35,211 at December 31, 2021 and 2020, respectively. Investments underlying defaulted loan balances, if any, are reflected in the statements of net assets available for benefits until a distribution event occurs.

Participant Notes Receivable

Effective July 5, 2019, loans are issued directly from participants' accounts (participant notes receivable) and are reflected in the accompanying statements of net assets available for benefits. Participants may borrow from their retirement account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding participant loan balance during the 12-month period ending on the date of the loan over the participant's current outstanding participant loan balance on the date of the loan, or 50% of their nonforfeitable account balance. Participants may have three loans outstanding. Participant loans are secured by the balance in the participant's account. Principal and interest are paid ratably through regular payroll deductions and interest rates may be fixed or variable. In general, loans must be repaid within five years.

In March 2020, the Coronavirus Aid Relief, and Economic Security Act (CARES Act) was enacted to provide emergency assistance and health care response for individuals, families and businesses affected. The CARES Act provided various forms of optional relief to the Institute and participants of retirement plans. Under the relief provisions of the CARES Act, plan sponsors could allow qualified individuals (as defined in the CARES Act) to take loans up to the lesser of \$100,000 or 100% of their vested account balance between March 27, 2020 and September 22, 2020. In addition, for loans outstanding as of March 27, 2020, plan sponsors could allow qualified individuals to delay loan repayments due between March 27, 2020 and December 31, 2020 for up to one year.

g. Payment of Benefits

On termination of service due to death, disability, or retirement, a participant (or their beneficiary upon death) may elect to receive an amount equal to the value of the participant's account in a lump sum amount, installments, or annuity contract, as defined by the Plan. Normal retirement under the Plan is 65 years of age. A participant satisfies the Plan's early retirement age conditions by attaining age 55 and completing one year of service.

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Description of the Plan - Continued

g. Payment of Benefits - Continued

Participants may also receive in-service distributions at age 59½ or on account of financial hardship, as defined in the Plan document.

A participant may withdraw amounts rolled over into the Plan from other qualified plans at any time.

If a participant's account balance is \$5,000 or less, their account will be paid as a lump sum distribution as soon as possible following termination, retirement, disability, or to the beneficiary following death.

Under the relief provisions of the CARES Act, Plan sponsors could allow participants to take up to a \$100,000 distribution from a qualified retirement plan through December 31, 2020, if the participant met certain requirements as defined in the CARES Act.

h. TIAA Traditional Annuity

The Plan entered into an investment contract with TIAA. The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Supplemental Retirement Annuities (SRA), Retirement Choice Plus Annuities (RC), Group Supplemental Retirement Annuities (GSRA), and Retirement Annuities (RA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid.

During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest of 1% for RC and 3% for SRA, GSRA, and RA, and the potential for additional interest, if declared by TIAA's Board of Trustees. All guarantees are subject to TIAA-CREF's claims paying ability. These additional amounts, when declared, remain in effect for the 12-month "declaration year" that begins each March 1 for accumulating annuities, and January 1 for lifetime-payout annuities; they are not guaranteed for future years. Together, the minimum and additional amounts make up the crediting interest rate.

Certain TIAA Traditional Annuity contracts, which are fully benefit-responsive, are reported at contract value in the accompanying statement of net assets available for benefits. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers less any withdrawals.

The TIAA Traditional Annuity, which is reported at contract value, is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases and sales of individual TIAA Traditional contracts are not observable in a public marketplace, contract value approximates fair value.

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Description of the Plan - Continued

h. TIAA Traditional Annuity - Continued

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The impact of such occurrences on the value of a plan's investment in TIAA Traditional Annuities would be minimal. The RA contract does not allow lump sum cash withdrawals. All withdrawals and transfers from RA contracts for balances that exceed \$2,000 must be spread over ten annual installments (five annual installments for withdrawals after termination of employment) to avoid a 2.5% withdrawal fee that is imposed if a participant separates from service and elects to withdraw accumulations within 120 days of separation. When a participant's accumulation in RA contracts is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed fixed annuity contract does not permit TIAA-CREF to terminate the agreement prior to the scheduled maturity date.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution benefit plans.

b. Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - Continued

c. Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers, Trustees, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

e. Expenses

Administrative fees of the Plan are paid by the Institute and the Plan. Administrative expenses paid by the Institute are excluded from these financial statements. Fees related to the administration of participant notes receivable and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

f. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through September 9, 2022, the date the financial statements were available to be issued.

Note 3 - Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest, and dividends for the years ended December 31, 2021 and 2020, was obtained by management and agreed to or derived from information certified as complete and accurate by the Custodian of the Plan.

Note 4 - Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3).

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 4 - Investments and Fair Value Measurements - Continued

The following three levels of inputs may be used to measure fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2021 and 2020. There have been no changes to methodologies used at December 31, 2021 and 2020.

TIAA Traditional Annuity – Non-Benefit Responsive: Valued at contract value (see Note 1h). Liquidity restrictions apply to the contracts that could impact the value realized upon exiting the contract. Contract value approximates fair value.

TIAA Real Estate Fund: Valued at the market value of the underlying real estate holdings or other real estate-related investments, which is published daily on NASDAQ. The fund is not traded on this exchange. Real estate holdings are valued principally using external appraisals. The fund sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources.

CREF Variable Annuity Accounts: Valued based on the daily unit value published on NASDAQ. The fund is not traded on this exchange. Variable annuity accounts are valued at the accumulation unit value by CREF using quoted market values or values obtained from independent pricing services of its underlying investments. If market quotations or values from independent pricing services are not readily available, CREF determines the fair value in good faith using procedures approved by independent pricing services.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4 - Investments and Fair Value Measurements - Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets measured at fair value:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and ranges of values for those inputs:

December 31, 2021				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity - Non-Benefit Responsive	\$ 9,229,178	Discounted cash flow	Risk-adjusted discount rate	RA - 3.00% - 3.80% GRA - 3.00% - 3.80%
December 31, 2020				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity - Non-Benefit Responsive	\$ 9,264,437	Discounted cash flow	Risk-adjusted discount rate	RA - 3.00% - 4.45% GRA - 3.00% - 4.45%

Note 5 - Fully Benefit-Responsive Investment Contract at Contract Value

The Plan has entered into a fixed annuity contract with TIAA (see Note 1h). Contributions to the contract are used to purchase a contractual or guaranteed amount of future benefits for the participant that is fully and unconditionally guaranteed by the general assets of TIAA.

The contract meets the fully-benefit responsive criteria and, therefore, is reported at contract value. Certain types of annuity contracts are not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its financial obligations may be affected by future economic and regulatory developments. The plan has provided no reserves against such contract value for credit risk of the contract issuer.

Note 6 - Orphan Contracts

The Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (as clarified by Field Assistance Bulletin No. 2010-01) allows a plan administrator of a 403(b) plan to exclude certain contracts and accounts (Orphan Contracts) from plan assets for purposes of ERISA's annual reporting and audit requirements under specified conditions. Accordingly, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. The related investment income and distributions have also been excluded

Trudeau Institute Retirement Plan

Notes to Financial Statements December 31, 2021 and 2020

Note 6 - Orphan Contracts - Continued

in the accompanying statements of changes in net assets available for benefits. These amounts relate to vendors other than TIAA-CREF to whom contributions were made prior to January 1, 2009. No contributions were made or allowed to vendors other than TIAA-CREF after January 1, 2009. The amount of these excluded annuity and custodial accounts and the related income and distributions have not been determined, but management estimates that they may be material to the financial statements. U.S. GAAP requires that these excluded annuity and custodial accounts and the related income and distributions be included in the accompanying financial statements.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Institute has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). In recent guidance, the IRS stated that it does not intend to create a determination letter program for 403(b) plans. The Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from Federal income taxes.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain tax position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related Party Transactions

Administrative expenses paid by the Institute on behalf of the Plan were approximately \$7,300 for the year ended December 31, 2020. There were no administrative expenses paid by the Institute on behalf of the Plan for the year ended December 31, 2021.

Certain Plan administrative functions are performed by officers or employees of the Institute. No such officers or employees receive compensation for such functions from the Plan.

In addition, the Plan's investment options are managed by TIAA-CREF, the Custodian of the Plan.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Market risks include global events which could impact the value of the investments, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
