DESCRIPTION OF PLAN

The following description of the HH Global USA (the "Company") Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General - The Plan was a defined contribution plan covering all full-time employees of the Company. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. Merger - A decision was made by the investment committee to merge the Plan with InnerWorkings, Inc. 401(k) Retirement Savings Plan ("InnerWorkings") effective January 29, 2021. No contributions were permitted to be made into the Plan as of January 1, 2021. The Plan transferred all remaining participant balance at their same vesting percentages into InnerWorkings. All Plan assets were transferred by January 29, 2021.
3. Contributions - Participants, over the age of twenty-one, were permitted to defer both before tax and after tax (Roth) contributions to the Plan through payroll deductions. Participants were also permitted to contribute amounts representing distributions from other qualified benefit or contribution plans. The Company made discretionary matching contributions. Additional amounts could have been contributed by the Company to the Plan at its discretion. Contributions were subject to certain maximum limitations imposed by the Internal Revenue Code (IRC).
4. Participants' Accounts - Each participant's account was credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administration expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit provided from the participant's vested account.
5. Vesting - Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contributions plus actual earnings thereon was based on years of continuous service.

7. Payment of Benefits - Upon eligibility for benefits, the participant were able to elect one of several methods to distribute the value of the participant's vested account balance, as defined by the Plan. DESCRIPTION OF PLAN (Continued):

8. Notes Receivable From Participants - Participants were permitted to borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loans provided for periodic repayment over a period of five years or less unless the loan was in connection with the participant's principal residence. The interest rates and types of collateral required were contained in the Plan documents. Principal and interest was paid ratably through payroll deductions. All interest paid with respect to these loans was credited to the participant's individual account. Any loss or expense associated with the loan was borne by the participant. The balances of participants' outstanding loans were transferred to InnerWorkings on January 29, 2021.
9. Forfeited Accounts - At December 31, 2020, forfeited non-vested accounts amounted to \$5,828. On January 29, 2021, these amounts were transferred to InnerWorkings. At the Plan Administrator's discretion, forfeitures may have been used to reduce the employer's contributions to the Plan. No forfeitures were used to reduce the employer's contributions in 2021.
10. Administrative Expenses - Investment management services and expenses related to the administration of the Plan were substantially paid by the Plan. The Company absorbed a portion of these expenses.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements of the Plan have been prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America for the period January 1 to January 29, 2021.

The 2020 financial statements of the Plan were prepared on the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required the Plan Administrator to make estimates and assumptions that affected certain reported amounts and disclosures. Accordingly, actual results may have differed from those estimates and assumptions.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Investment Valuation and Income Recognition:

Shares of mutual funds were valued at their year-end quoted market prices which represented the net asset value of shares held by the Plan at year-end. The Benefit-Responsive Investment Contract invested solely in a Group Annuity Contract. The value of the contract was determined using a discounted cash flow valuation methodology where the interest rate for the contract was reset biannually. The investment was valued at contract value, which approximated fair value.

Purchases and sales of securities were recorded on a trade-date basis. Interest was recorded on an accrual basis and dividends were recorded on the ex-dividend date.

The Plan presents, in the Statements of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized gains or losses of those investments.

Notes Receivable from Participants:

Notes receivable from participants represent participant loans that were recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants was recorded when it was earned. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses had been recorded as of December 31, 2020. If a participant ceased to make loan repayments and the Plan Administrator deemed the participant loan to be a distribution, the participant loan balance was reduced and a benefit payment was recorded.

INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan had entered into a benefit-responsive investment contract with Transamerica Life Insurance Company ("Transamerica"). Transamerica maintained participant contributions in a general account. The general account accumulation value ("contract value") was equal to all contributions allocated to the general account, plus interest, and transfers into the general account, less any applicable contract charge, any applicable state premium taxes, any previous withdrawals from the general account, and any transfers out of the general account. The contract was included in the financial statements at contract value which approximated fair value, as reported to the Plan by Transamerica. Participants directed the withdrawal or transfer all or a portion of their investment at contract value. The investment contract was deemed to be benefit responsive because the contract prevented the immediate and full payout of the contract value for plan-initiated transactions.

FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America have established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See *Summary of Significant Accounting Policies* for description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 29, 2021 and December 31, 2020.

The valuation methods described in the *Summary of Significant Accounting Policies* may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIR VALUE MEASUREMENTS (Continued):

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds	\$ 5,242,547			\$ 5,242,547
Benefit-Responsive Investment Contract		\$ 156,227		156,227
Total	<u>\$ 5,242,547</u>	<u>\$ 156,227</u>	<u>\$</u>	<u>\$ 5,398,774</u>

RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
