Educational Commission for Foreign Medical Graduates 403(b) Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit for the 2021 financial statements

We were engaged to perform an audit of the financial statements of Educational Commission for Foreign Medical Graduates 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Disclaimer of opinion on the 2021 financial statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2021 financial statements.

Basis for disclaimer of opinion on the 2021 financial statements

As described in Note A to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the 2021 financial statements may have been affected by these conditions.

Responsibilities of management for the 2021 financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the 2021 financial statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Other matters*2021 supplemental schedule required by ERISA*

The supplemental schedule of assets (held at year end) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on the 2021 supplemental schedule referred to above.

Auditor's report on the 2020 financial statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 14, 2021, we indicated that because of the significance of the information that we did not audit and because the Plan had not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

NOTE A - PLAN DESCRIPTION

The following description of the Educational Commission for Foreign Medical Graduates 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan that meets the requirements of section 403(b) of the Internal Revenue Code ("IRC" or "Code") covering all eligible employees of the Educational Commission for Foreign Medical Graduates (the "Institution" or "Employer").

Employees are eligible upon hire and may enter the Plan on the first day of the month after completing the enrollment forms. The Plan has an automatic enrollment feature. Employees are automatically enrolled at 3% unless an opt-out form is completed or an election of a percentage other than 3%.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF and The Vanguard Group ("Vanguard") maintained records at a contract, not plan, level. Neither the Plan sponsor, nor TIAA and CREF and Vanguard, have been able to produce sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined. Assets held by Vanguard were transferred to Newport in November 2017.

Contributions

Participants can elect to contribute a portion of their pre-tax annual compensation, subject to IRC limitations, or \$19,500 in 2021, as a salary reduction contribution or as a Roth contribution. The Plan allows participants age 50 years and older to make additional salary reduction contribution deferrals subject to legal limits, or \$6,500 in 2021. Participants may also contribute amounts representing eligible rollover distributions and plan-to-plan transfers from other 403(b) plans.

Effective January 1, 2021, the Institution makes an employer contribution on behalf of each eligible participant in an amount equal to 12% of the participant's compensation for the Plan year. The two-year eligibility requirement for employer non-elective contributions was reduced to one-year with a two-year graded vesting schedule. Also, the plan no longer provides employer service credits for prior service with another "educational organization".

Participant and employer contributions relating to payroll processed in December and received in January are recorded as receivables in the accompanying statements of net assets available for benefits. Contributions receivable at December 31, 2021 and 2020 were \$34,800 and \$302,303, respectively.

The annual additions under the Plan cannot exceed the IRC limitations, established to be \$58,000 for the 2021 year end. Annual additions are defined as salary reduction contributions and Employer contributions.

Investment Options

Teachers Insurance and Annuity Association and College Retirement Equities Fund ("TIAA and CREF"), Newport Trust Company ("Newport"), and MG Trust Company d.b.a. Matrix Trust Company ("MG Trust"), hold the Plan's investment assets and execute investment transactions.

Effective January 1, 2015, all participant and Employer contributions were invested in the investment options offered by MG Trust. Participants may transfer their account balances at TIAA and CREF and Newport to MG Trust at any time.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions and rollovers, the Institution's contributions, plus actual earnings or losses thereon and charged with investment fees, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their salary reduction contributions. The Plan has a two-year graded vesting schedule for the employer non-elective contributions. Participants are 50% vested in employer non elective contributions after completing one year of service and 100% vested after completing two years of service.

Notes Receivable from Participants

Participants may borrow from their MG Trust accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the respective participant's account during the prior 12-month period or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 2% over the prevailing prime rate at the time of the loan. Principal and interest are paid ratably through automatic deductions between a participant and MG Trust. Participants are limited to three outstanding loans.

Payment of Benefits

The payment of benefits can be made upon severance from employment or death, as defined in the Plan Agreement. The Plan does allow in-service withdrawals at the age of 59½. Per IRS regulations, participants are required to take a required minimum distribution by April 1 of the year following the year they reach age 72. Financial hardship withdrawals are permissible as outlined in the Plan Agreement. Payment can be in any form permitted by TIAA and CREF, Newport or MG Trust.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan, with the exception of fully benefit-responsive investment contracts ("FBRIC"), are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies by utilizing information provided by the investment advisers and service providers listed in Note D. In estimating fair value of the investments in Level 3, plan management may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, plan management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings. See Note D for a discussion of fair value measurements.

The Plan's FBRIC with TIAA and CREF (Note E) is valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Administrative Expenses

The Plan's administrative expenses are paid by the Institution or the Plan, as provided by the Plan Agreement. Administrative expenses paid by the Institution for professional services are excluded from these financial statements. For the year ended December 31, 2021, \$188,282, representing investment fees, was withheld from participants' accounts.

Payment of Benefits

Benefits are recorded when paid.

NOTE C - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants within the Plan's financial statements and supplemental schedule; including investments, notes receivable from participants, net appreciation in fair value of investments, and dividend and interest income; was prepared or derived from certified service providers and furnished to the Plan administrator. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained certifications from TIAA and CREF, Newport and MG Trust that such information is complete and accurate.

NOTE D - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities;
- Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020. Other than those matters described in Note E, there are no restrictions or limitations on the withdrawal of other investments in the portfolio.

Fixed Annuity Contract - The non-fully benefit-responsive ("NFBR") fixed annuity contracts, composed entirely of the TIAA Traditional Annuity Contracts, are reported at fair value as approximated by contract value. Fair value is determined using a discounted cash-flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity account is subject to various restrictions. See Note E.

Variable Annuity Contracts - The variable annuity contracts are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the variable annuity contracts are valued at the net asset value ("NAV") based on the fair market value of the underlying investments of the account, less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. Account investments and fund holdings are primarily valued using external appraisals, market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at amortized cost. The objectives of the accounts vary based on the nature of the account, which are described more fully in the accounts' prospectuses.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Funds - Money market funds are valued using the amortized-cost method valuation, which approximates fair value.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

Registered Investment Companies - The registered investment companies held by the Plan invest principally in securities, equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. The fair values of accumulation units held by the Plan in registered investment companies held as variable annuity accounts are based on each account's daily NAV, which is considered by plan management to be the best approximation of fair value. Variable annuity accounts are not exchange traded. Data for NAVs are available daily to plan administrators and client investors on NASDAQ's website, and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.

Pooled Separate Account - The pooled separated account investment held by the Plan invests principally in real estate. The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separated account) is based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the funds with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer, or cash withdrawal requests.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no significant transfers in or out of Level 1, 2 or 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs.

<u>TIAA Traditional Annuity*</u>	<u>Fair Value December 31, 2021</u>	<u>Principal Valuation Technique</u>	<u>Significant Unobservable Inputs</u>
Fair value - December 31, 2021	\$ 7,761,126	Discounted cash flow, theoretical transfer (exit price)	Risk-adjusted discount rate applied
Fair value - December 31, 2020	\$ 7,828,521	Discounted cash flow, theoretical transfer (exit price)	Risk-adjusted discount rate applied

*Please refer to Note E - Fixed Annuity Contracts for detail.

Investments measured at the NAV as a practical expedient are summarized as follows:

<u>December 31, 2021</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Variable annuity contracts ^(a)	\$ 1,504,944	N/A	Daily	Daily

Variable annuity contracts ^(a)	\$ 1,729,017	N/A	Daily	Daily

The investment objectives for the other registered investments measured using the net asset or using the net asset or unit value are as follows:

- ^(a) Variable annuity contracts: To invest in a broad, diversified portfolio of foreign and domestic common stocks to meet a specified, favorable long-term rate of return.

NOTE E - FIXED ANNUITY CONTRACTS

As discussed in Note D, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts ("Annuity"). An annuity contract is established between the participant and TIAA.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

Participants can invest their salary reduction contributions in the Group Supplemental Retirement Annuity ("GSRA"). The GSRA has no liquidity restrictions applicable to the participants' withdrawals and transfers. The GSRA is a benefit-responsive investment contract as defined by FASB Accounting Standards Codification 962-325-35-5 totaling \$2,054,792 and \$2,225,938 at December 31, 2021 and 2020, respectively. GSRA contracts are 3% in 2021 and 2020. The return of contributions plus interest to participants is subject to TIAA's claims-paying ability.

Participants can also invest the Institution's contributions in the Retirement Annuity ("RA"). The RA has liquidity restrictions including no lump-sum withdrawals, and participant-initiated transfers may only be made in 10 annual installments. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, the RA is not considered to be a fully benefit-responsive investment contract and is shown within the hierarchy table in Note D. The crediting interest rate for the RA contracts is 3% in 2021 and 2020.

An annuity contract is credited with a guaranteed minimum rate of return of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent 12-month "declaration year."

Contributions to the annuity contracts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Institution has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would remain fully vested.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus ("COVID-19") as a pandemic that continues to spread causing significant volatility in the U.S. and international markets. Due to this declaration, the clinical skills evaluation ("CSE") centers were closed on March 13, 2020, and the Step 2 Clinical Skills examination ("Step 2 CS") exams ceased to be administered. On May 26, 2020, the United States Medical Licensing Examination® ("USMLE") announced an extended suspension of the Step 2 CS exam for a period of 12 to 18 months. Subsequent to year end, the Step 2 CS exam was permanently discontinued. As a result of the announced suspension, 676 employees were terminated in 2020 after closure of the centers. The closure resulted in a partial plan termination and all participants were 100% vested in employee and employer contributions.

NOTE G - TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Code. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in various investments managed by MG Trust, TIAA and CREF, and Newport. Therefore, these transactions are party-in-interest transactions, as defined by ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

NOTE J - LOANS TO PARTICIPANTS

Participants may request loans directly from TIAA and CREF using a portion of their plan account as security for the loan. Such loans are subject to certain limitations. Applicants receiving such loans are required to pledge as collateral, annuity account value of 110% of the loan amount for the period of time the loan is outstanding. Loan balances outstanding from TIAA and CREF to the Plan's participants were \$489,942 and \$543,058 as of December 31, 2021 and 2020, respectively. As such, approximately \$538,936 and \$597,364 of annuity account values (110% of outstanding loans from TIAA and CREF) as of December 31, 2021 and 2020, respectively, serve as collateral for the related loans. The collateral is included in investments in the accompanying statements of net assets available for benefits. These loans are not recorded as receivable of the Plan as the loans are not made from Plan assets.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 14, 2022, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
Educational Commission for Foreign Medical Graduates 403(b) Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit for the 2021 financial statements

We were engaged to perform an audit of the financial statements of Educational Commission for Foreign Medical Graduates 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Disclaimer of opinion on the 2021 financial statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2021 financial statements.

Basis for disclaimer of opinion on the 2021 financial statements

As described in Note A to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the 2021 financial statements may have been affected by these conditions.

Responsibilities of management for the 2021 financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the 2021 financial statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Other matters*2021 supplemental schedule required by ERISA*

The supplemental schedule of assets (held at year end) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on the 2021 supplemental schedule referred to above.

Auditor's report on the 2020 financial statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 14, 2021, we indicated that because of the significance of the information that we did not audit and because the Plan had not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

NOTE A - PLAN DESCRIPTION

The following description of the Educational Commission for Foreign Medical Graduates 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan that meets the requirements of section 403(b) of the Internal Revenue Code ("IRC" or "Code") covering all eligible employees of the Educational Commission for Foreign Medical Graduates (the "Institution" or "Employer").

Employees are eligible upon hire and may enter the Plan on the first day of the month after completing the enrollment forms. The Plan has an automatic enrollment feature. Employees are automatically enrolled at 3% unless an opt-out form is completed or an election of a percentage other than 3%.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF and The Vanguard Group ("Vanguard") maintained records at a contract, not plan, level. Neither the Plan sponsor, nor TIAA and CREF and Vanguard, have been able to produce sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined. Assets held by Vanguard were transferred to Newport in November 2017.

Contributions

Participants can elect to contribute a portion of their pre-tax annual compensation, subject to IRC limitations, or \$19,500 in 2021, as a salary reduction contribution or as a Roth contribution. The Plan allows participants age 50 years and older to make additional salary reduction contribution deferrals subject to legal limits, or \$6,500 in 2021. Participants may also contribute amounts representing eligible rollover distributions and plan-to-plan transfers from other 403(b) plans.

Effective January 1, 2021, the Institution makes an employer contribution on behalf of each eligible participant in an amount equal to 12% of the participant's compensation for the Plan year. The two-year eligibility requirement for employer non-elective contributions was reduced to one-year with a two-year graded vesting schedule. Also, the plan no longer provides employer service credits for prior service with another "educational organization".

Participant and employer contributions relating to payroll processed in December and received in January are recorded as receivables in the accompanying statements of net assets available for benefits. Contributions receivable at December 31, 2021 and 2020 were \$34,800 and \$302,303, respectively.

The annual additions under the Plan cannot exceed the IRC limitations, established to be \$58,000 for the 2021 year end. Annual additions are defined as salary reduction contributions and Employer contributions.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

Investment Options

Teachers Insurance and Annuity Association and College Retirement Equities Fund ("TIAA and CREF"), Newport Trust Company ("Newport"), and MG Trust Company d.b.a. Matrix Trust Company ("MG Trust"), hold the Plan's investment assets and execute investment transactions.

Effective January 1, 2015, all participant and Employer contributions were invested in the investment options offered by MG Trust. Participants may transfer their account balances at TIAA and CREF and Newport to MG Trust at any time.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions and rollovers, the Institution's contributions, plus actual earnings or losses thereon and charged with investment fees, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their salary reduction contributions. The Plan has a two-year graded vesting schedule for the employer non-elective contributions. Participants are 50% vested in employer non elective contributions after completing one year of service and 100% vested after completing two years of service.

Notes Receivable from Participants

Participants may borrow from their MG Trust accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the respective participant's account during the prior 12-month period or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 2% over the prevailing prime rate at the time of the loan. Principal and interest are paid ratably through automatic deductions between a participant and MG Trust. Participants are limited to three outstanding loans.

Payment of Benefits

The payment of benefits can be made upon severance from employment or death, as defined in the Plan Agreement. The Plan does allow in-service withdrawals at the age of 59½. Per IRS regulations, participants are required to take a required minimum distribution by April 1 of the year following the year they reach age 72. Financial hardship withdrawals are permissible as outlined in the Plan Agreement. Payment can be in any form permitted by TIAA and CREF, Newport or MG Trust.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan, with the exception of fully benefit-responsive investment contracts ("FBRIC"), are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies by utilizing information provided by the investment advisers and service providers listed in Note D. In estimating fair value of the investments in Level 3, plan management may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, plan management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings. See Note D for a discussion of fair value measurements.

The Plan's FBRIC with TIAA and CREF (Note E) is valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Administrative Expenses

The Plan's administrative expenses are paid by the Institution or the Plan, as provided by the Plan Agreement. Administrative expenses paid by the Institution for professional services are excluded from these financial statements. For the year ended December 31, 2021, \$188,282, representing investment fees, was withheld from participants' accounts.

Payment of Benefits

Benefits are recorded when paid.

NOTE C - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants within the Plan's financial statements and supplemental schedule; including investments, notes receivable from participants, net appreciation in fair value of investments, and dividend and interest income; was prepared or derived from certified service providers and furnished to the Plan administrator. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained certifications from TIAA and CREF, Newport and MG Trust that such information is complete and accurate.

NOTE D - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities;
- Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020. Other than those matters described in Note E, there are no restrictions or limitations on the withdrawal of other investments in the portfolio.

Fixed Annuity Contract - The non-fully benefit-responsive ("NFBR") fixed annuity contracts, composed entirely of the TIAA Traditional Annuity Contracts, are reported at fair value as approximated by contract value. Fair value is determined using a discounted cash-flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity account is subject to various restrictions. See Note E.

Variable Annuity Contracts - The variable annuity contracts are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the variable annuity contracts are valued at the net asset value ("NAV") based on the fair market value of the underlying investments of the account, less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. Account investments and fund holdings are primarily valued using external appraisals, market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at amortized cost. The objectives of the accounts vary based on the nature of the account, which are described more fully in the accounts' prospectuses.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Funds - Money market funds are valued using the amortized-cost method valuation, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

Registered Investment Companies - The registered investment companies held by the Plan invest principally in securities, equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. The fair values of accumulation units held by the Plan in registered investment companies held as variable annuity accounts are based on each account's daily NAV, which is considered by plan management to be the best approximation of fair value. Variable annuity accounts are not exchange traded. Data for NAVs are available daily to plan administrators and client investors on NASDAQ's website, and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.

Pooled Separate Account - The pooled separated account investment held by the Plan invests principally in real estate. The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separated account) is based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the funds with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer, or cash withdrawal requests.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no significant transfers in or out of Level 1, 2 or 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs.

<u>TIAA Traditional Annuity*</u>	<u>Fair Value December 31, 2021</u>	<u>Principal Valuation Technique</u>	<u>Significant Unobservable Inputs</u>
Fair value - December 31, 2021	\$ 7,761,126	Discounted cash flow, theoretical transfer (exit price)	Risk-adjusted discount rate applied
Fair value - December 31, 2020	\$ 7,828,521	Discounted cash flow, theoretical transfer (exit price)	Risk-adjusted discount rate applied

*Please refer to Note E - Fixed Annuity Contracts for detail.

Investments measured at the NAV as a practical expedient are summarized as follows:

<u>December 31, 2021</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Variable annuity contracts ^(a)	\$ 1,504,944	N/A	Daily	Daily

Variable annuity contracts ^(a)	\$ 1,729,017	N/A	Daily	Daily

The investment objectives for the other registered investments measured using the net asset or using the net asset or unit value are as follows:

- ^(a) Variable annuity contracts: To invest in a broad, diversified portfolio of foreign and domestic common stocks to meet a specified, favorable long-term rate of return.

NOTE E - FIXED ANNUITY CONTRACTS

As discussed in Note D, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts ("Annuity"). An annuity contract is established between the participant and TIAA.

Educational Commission for Foreign Medical Graduates 403(b) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2021 and 2020

Participants can invest their salary reduction contributions in the Group Supplemental Retirement Annuity ("GSRA"). The GSRA has no liquidity restrictions applicable to the participants' withdrawals and transfers. The GSRA is a benefit-responsive investment contract as defined by FASB Accounting Standards Codification 962-325-35-5 totaling \$2,054,792 and \$2,225,938 at December 31, 2021 and 2020, respectively. GSRA contracts are 3% in 2021 and 2020. The return of contributions plus interest to participants is subject to TIAA's claims-paying ability.

Participants can also invest the Institution's contributions in the Retirement Annuity ("RA"). The RA has liquidity restrictions including no lump-sum withdrawals, and participant-initiated transfers may only be made in 10 annual installments. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, the RA is not considered to be a fully benefit-responsive investment contract and is shown within the hierarchy table in Note D. The crediting interest rate for the RA contracts is 3% in 2021 and 2020.

An annuity contract is credited with a guaranteed minimum rate of return of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent 12-month "declaration year."

Contributions to the annuity contracts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Institution has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would remain fully vested.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus ("COVID-19") as a pandemic that continues to spread causing significant volatility in the U.S. and international markets. Due to this declaration, the clinical skills evaluation ("CSE") centers were closed on March 13, 2020, and the Step 2 Clinical Skills examination ("Step 2 CS") exams ceased to be administered. On May 26, 2020, the United States Medical Licensing Examination® ("USMLE") announced an extended suspension of the Step 2 CS exam for a period of 12 to 18 months. Subsequent to year end, the Step 2 CS exam was permanently discontinued. As a result of the announced suspension, 676 employees were terminated in 2020 after closure of the centers. The closure resulted in a partial plan termination and all participants were 100% vested in employee and employer contributions.

NOTE G - TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Code. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

December 31, 2021 and 2020

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in various investments managed by MG Trust, TIAA and CREF, and Newport. Therefore, these transactions are party-in-interest transactions, as defined by ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

NOTE J - LOANS TO PARTICIPANTS

Participants may request loans directly from TIAA and CREF using a portion of their plan account as security for the loan. Such loans are subject to certain limitations. Applicants receiving such loans are required to pledge as collateral, annuity account value of 110% of the loan amount for the period of time the loan is outstanding. Loan balances outstanding from TIAA and CREF to the Plan's participants were \$489,942 and \$543,058 as of December 31, 2021 and 2020, respectively. As such, approximately \$538,936 and \$597,364 of annuity account values (110% of outstanding loans from TIAA and CREF) as of December 31, 2021 and 2020, respectively, serve as collateral for the related loans. The collateral is included in investments in the accompanying statements of net assets available for benefits. These loans are not recorded as receivable of the Plan as the loans are not made from Plan assets.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 14, 2022, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
