Report of Independent Auditors

The Plan Administrator of
Numerica Credit Union Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Numerica Credit Union Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Numerica Credit Union Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Numerica Credit Union Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for purpose of expressing an opinion on the effectiveness of Numerica Credit Union Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Numerica Credit Union Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Numerica Credit Union Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Numerica Credit Union Retirement Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Numerica Credit Union Retirement Plan (the Plan) provides only general information. Participants should refer to the official Plan document for important details not included in these notes.

General – The Plan is a participant-directed, defined contribution plan qualifying as a salary reduction plan covering substantially all employees of Numerica Credit Union (the Credit Union). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company is the Plan's sponsor and serves as Plan administrator.

The Plan has been amended to credit service with certain predecessor employers. North Central Credit Union and School Employees Federal Credit Union received service credits for eligibility requirements and vesting purposes for deferral and match sources only; Monad Federal Credit Union employees were credited for all money/contribution types.

The Plan was restated effective April 7, 2021.

Eligibility – Prior to April 7, 2021, employees became eligible to participate in the Plan, make salary deferrals, and receive matching contributions upon attainment of age 20 1/2 and completion of 30 continuous days of employment during which the employee was credited with at least one hour of service. Additionally, to be eligible to receive discretionary employer contributions, an employee must have completed six months of continuous employment during which the employee was credited with at least one hour of service. If one hour of service was not completed in the first six months of employment, the employee would become eligible for discretionary employer contributions upon completion of one year of service. Effective April 7, 2021, there is no age or service requirement to be eligible to participate in the plan, make salary deferrals, and receive matching contributions.

Contributions

Participant contributions – The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Participants may make voluntary pre-tax or tax-deferred contributions to the Plan through payroll deductions subject to Internal Revenue Service (IRS) maximum limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund, until elected otherwise by the participant.

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Employer match and profit-sharing contributions – The Credit Union may make matching contributions of up to a max of 3% for participants making voluntary pre-tax or tax-deferred contributions. Such matching contributions are at the discretion of the managing body of the Credit Union. The employer-matching contribution for the year ended December 31, 2021, was \$746,249. The Credit Union will also make employer profit-sharing contributions of 8% to the Plan participants for each Plan year, regardless of employee deferral amounts. The profit-sharing contribution for the year ended December 31, 2021, was \$2,755,930.

Contributions are subject to regulatory limitations.

Participant accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Credit Union's matching and profit-sharing contributions, allocations of investment gains or losses, withdrawals, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Credit Union's matching and profit-sharing contribution portions of their accounts plus actual earnings thereon is based on years of continuous service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants – Participants may borrow from their account up to the lesser of 50% of their vested account balance or \$50,000, with a minimum loan withdrawal of \$1,000. Loan terms cannot exceed five years except for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest, as determined by the Plan administrator. Principal and interest are paid ratably through periodic payroll deductions. No more than two loans can be outstanding at any one time. As of December 31, 2021, the rates of interest on outstanding loans ranged from 4.25% to 6.50% with various maturities through November 2026.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum distribution or installments. The Plan allows for in-service distributions if a participant reaches age 59 ½ and hardship distributions are subject to Plan provisions.

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Forfeitures – Benefit payments to terminated employees partially vested in the Plan include their vested portion of employer contributions. Forfeitures may be first used to pay any administrative expenses, to the extent not paid by the Credit Union, and then to reduce the Credit Union's contributions. As of December 31, 2021 and 2020, forfeited nonvested accounts totaled \$1,124 and \$52,407, respectively. For the year ended December 31, 2021, Company matching contributions were reduced by \$468,127 from forfeited nonvested accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accounting records of the Plan are maintained on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are stated at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of shares are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Payment of benefits – Benefits are recorded when paid.

Expenses – Administration expenses of the Plan are paid by the Plan or by the Credit Union as provided in the Plan document. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment-related expenses are included in the net change in fair value of investments.

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

Subsequent events have been evaluated through September 15, 2022, which is the date the financial statements were available to be issued. Volatility in the financial markets has had an impact on the global economy and investment values. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such securities, it is reasonably possible that investment values have declined in subsequent periods.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 or 2020.

Numerica Credit Union Retirement Plan

Notes to Financial Statements

Note 3 – Fair Value Measurements

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund – A stable value fund is composed primarily of fully benefit-responsive investment contracts that are valued using the net asset value practical expedient an estimate of fair value. This NAV practical expedient would not be used if it were determined to be probable the Plan would sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

At December 31, 2020, the Plan held investments in Voya's pooled separate accounts (PSAs). Units held in PSAs are valued using the net asset value practical expedient (NAVPE) of the PSA as reported by the account managers. The NAVPE is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

The Plan had material investments in the following PSAs:

JPMorgan Large Cap Growth Fund R2 – The investment seeks long-term capital appreciation. Under normal circumstances, at least 80% of the fund's assets will be invested in the equity securities of large, well-established companies. Large, well-established companies are companies with market capitalizations equal to those within the universe of the Russell 1000 Growth Index at the time of purchase.

T Rowe Price Retirement 2020 F – R – The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income. The fund invests in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund is managed based on the specific retirement year (target date 2020) included in its name and assumes a retirement age of 65.

T Rowe Price Retirement 2025 F – R – The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income. The fund invests in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund is managed based on the specific retirement year (target date 2025) included in its name and assumes a retirement age of 65.

T Rowe Price Retirement 2035 F – R – The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income. The fund invests in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund is managed based on the specific retirement year (target date 2035) included in its name and assumes a retirement age of 65.

VY T Rowe Price Cap Appreciation Portfolio Service – The investment seeks over the long-term, a high total investment return, consistent with the preservation of capital and with prudent investment risk. Under normal market conditions, the portfolio pursues an active asset allocation strategy whereby investments are allocated among three asset classes: equity securities, debt instruments, and money market instruments.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAVPE (or its equivalent):

	Fair Value 12/31/21	Fair Value 12/31/20	Unfunded Commitment	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Stable value fund	<u>\$ 3,160,747</u>	<u>\$ -</u>	<u>\$ -</u>	Daily	N/A	None
Pooled Separate Account VOYA Retirement and annuity Co. MAP Contract	<u>\$ -</u>	<u>\$47,512,892</u>	<u>\$ -</u>	Daily	N/A	None

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

Note 3 – Investments (continued)

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2021:

	Fair Value Measurement at December 31, 2021			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 57,061,022	\$ -	\$ -	\$ 57,061,022

Investments measured at NAV practical expedient				3,160,747
Investments at fair value				<u>\$ 60,225,826</u>

Note 4 – Investment Contract with Insurance Company

At December 31, 2020, the Plan had two guaranteed investment contracts (VOYA Fixed Account and VOYA Fixed Account A) with VOYA Retirement Insurance and Annuity Company (VRIAC). VRIAC maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer but could not be less than 1%. The crediting rate was reviewed on an annual basis for resetting. The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity dates.

The contract met the fully benefit-responsive investment contract criteria and, therefore, was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

Contract value, as reported to the Plan by VRIAC, represented contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Numerica Credit Union Retirement Plan

Notes to Financial Statements

Note 4 – Investment Contract with Insurance Company (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, or (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

In addition, certain events allowed the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) a violation of the Plan's investment guidelines that has not been remedied, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Note 5 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on June 30, 2020, which stated the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the trustees believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Trustees have evaluated the Plan's tax positions and do not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan provides for investments in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Note 7 – Information Certified by the Plan Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

VOYA Retirement Insurance and Annuity Company, a trustee of the Plan through April 15, 2021, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2020.
- Net appreciation in fair value of investments totaling \$3,574,577 and interest and dividend income totaling \$228,533 reflected on the accompanying statement of changes in net assets available for benefits for the period January 1, 2021, to April 15, 2021.

Fidelity Management Trust Company, a trustee of the Plan April 7, 2021, through December 31, 2021, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2021.
- Net appreciation in fair value of investments totaling \$403,353, interest and dividend income totaling \$3,968,828, and interest income on notes receivable from participants totaling \$22,226 reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investments reflected on the schedule of assets (held at end of year).

Note 8 – Related Party and Party in Interest Transactions

The Plan administrator is an employee of the Plan sponsor. There are no transactions between the parties other than contributions to the Plan.

Certain Plan investments are held in investment funds managed by Fidelity Management Trust Company and VOYA Retirement Insurance and Annuity Company, which are trustees as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. The Plan also allows for loans to participants that qualify as party-in-interest transactions.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Credit Union has the right to terminate the Plan subject to the provisions of ERISA at any time. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested.

Note 10 – Reconciliation to Form 5500

There were no reconciling items for net assets available for benefits for 2021. The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500 as of December 31, 2020:

Net assets available for benefits, per the financial statements	\$ 53,418,640
Deemed loans	<u>12,586</u>
Net assets per the Form 5500	<u><u>\$ 53,431,226</u></u>

The following is a reconciliation of the change in net assets available for benefits reported in the financial statements and the net income reported on the Form 5500 for the year ended December 31, 2021:

Change in net assets available for benefits per the financial statements	\$ 10,030,887
Deemed distribution	<u>(12,586)</u>
Net income per the Form 5500	<u><u>\$ 10,018,301</u></u>

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
