Notes to Financial Statements  
Year ended December 31, 2021

(1) Description of Plan

The following description of the TANTUS TECHNOLOGIES ("Company") 401(k) PLAN ("Plan") provides only general information. Participants should refer to the Plan Adoption Agreement for a more complete description of the Plan's provisions. The Plan is a defined contribution plan covering all full-time employees over the age of 21 but excludes union employees. Employees can participate on the first day of the month coinciding with or next following the date of full-time employment. It is subject the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

*Participant Accounts.* Each participant's account is credited with the participant's contribution, the Company's match contribution, gains/losses and earnings associated with the investments selected by the Participant, and an allocation of administrative expenses. The benefit to which an employee is entitled is the benefit that can be provided from the participant's vested account.

*Employee Contributions.* Participants may contribute up to annual limit for regular and catch-up contributions.

*Employer Contributions.* The Company will contribute up to 50% in a matching contribution of the Participant's salary deferral up to a deferral of 6%.

*Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A Participant is 100% vested after three years of credit service. Upon death while working for the Company, the account becomes 100% vested. The account also becomes 100% at the Participant's normal retirement date.

*Notes Receivable from Participants.* Participants may borrow from their accounts a minimum of \$500 up to maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the Participant's account and bear interest at rates charged by lenders for similar loans. Payments of principal and interest are due at least quarterly to level amortize the loan so that full payment is received within a term not to exceed five years.

*Payment of Benefits.* On termination of service due to death, disability, or retirement, a Participant may elect to receive either a lump-sum amount equal to the value of the Participant's vested interest in his or her account, or defer until normal retirement age.

*Forfeited Accounts.* Forfeited accounts reduce future employer contributions.

(2) Summary of Significant Accounting Policies

*Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

*Basis of Accounting*

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of changes in Net Assets Available for Benefits is prepared on a contract value basis.

*Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

*Payment of Benefits*

Benefits are recorded when paid.

*Operating Expenses*

All expenses of maintaining the Plan are paid by the Company.

(3) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

*Level 1 Fair Value Measurements*

The fair value of mutual funds is based on quoted net assets values of the shares held by the Plan at year-end.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is a least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefit.
