INDEPENDENT AUDITORS' REPORT

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Cumberland, Maryland Teamsters Construction Industry and Miscellaneous Pension Fund (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Cumberland, Maryland Teamsters Construction Industry and Miscellaneous Pension Fund's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cumberland, Maryland Teamsters Construction Industry and Miscellaneous Pension Fund and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis-of-Matter

As discussed in Note 12 of the financial statements, for the year ended December 31, 2021, the Plan was certified by its actuary to be in critical and declining status and for the year ended December 31, 2020, the Plan was certified by its actuary to be in critical status, within the meaning of the Multiemployer Pension Reform Act of 2014. A plan is considered to be in critical and declining status if it has funding or liquidity problems, or both. Our opinion is not modified with respect to this matter.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions as of or for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CUMBERLAND, MARYLAND TEAMSTERS CONSTRUCTION
INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following brief description of the Cumberland, Maryland Teamsters Construction Industry and Miscellaneous Pension Fund (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

A. General

The Plan is a multi-employer defined benefit pension plan covering employees working under a Collective Bargaining Agreement between an employer and a union whose bargaining contracts have provision for payments into the Plan and non-bargaining unit employees of the fund. Established on May 1, 1966, the Plan provides for pension, death, and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is noncontributory on the part of the participants.

B. Vesting Schedule

Participants who have not incurred a permanent break in service and who earn one or more hours of service in covered employment on or after January 1, 1988 are fully vested when they have at least five years of service. Prior to January 1, 1988, participants must have had at least ten years of service to be fully vested. If participants terminate before rendering these minimum years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the employer's contributions.

C. Pension Benefits

Vested participants, as described above, are entitled to pension benefits beginning at normal retirement age (age 60 for benefits earned prior to 2016 and age 65 for benefits earned after 2015) equal to \$1.80 for each year of past credited service, not to exceed \$12.60, plus 3.28% of contributions paid on behalf of covered employment for work performed on or before November 30, 2002, plus 2.00% of contributions paid through April 30, 2010, plus 1.50% of contributions paid through December 31, 2015, plus 1.00% of contributions paid through August 31, 2017 and 0.50% of contributions paid on behalf of covered employment for work performed thereafter.

The Plan permits early retirement at ages 55-64. The pension benefit of early retirement is equal to the Normal Retirement Benefit reduced by one-half percent (1/2%) for each month prior to age 60 (for benefits earned prior to 2016) or age 65 (for benefits earned after 2015). In addition, the Plan allows special early retirement to participants with 30 years of credited service without regard to age. These benefits are equal to the normal retirement benefit with no reduction for work performed before 2016; and for all work performed after January 1, 2016, the benefit is reduced by one-half percent (1/2%) for each month that

CUMBERLAND, MARYLAND TEAMSTERS CONSTRUCTION
INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan – (Continued)

the early retirement date precedes age 65. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity.

Distributions from the Plan are made in accordance with the requirements of the Internal Revenue Code regulations, including the minimum distribution incidental benefit requirements.

D. Death and Disability Benefits

If a participant dies after the completion of 5 years of service but before his early retirement date, then his surviving spouse shall be eligible for a 100% joint & survivor pension. This pension will be payable to the surviving spouse on the first day of the month during which the deceased participant would have reached early retirement age. The monthly amount is the actuarial equivalent of what the pension would have been if the participant had left covered employment on the date of his death and retired on his earliest retirement date. It is adjusted for the age of the beneficiary.

If a participant dies after the completion of 5 years of service and his earliest retirement date, his spouse will receive an immediate lifetime pension on the first day of the calendar month following the participant's date of death. The benefit payable to the spouse will equal 100% of the participant's accrued benefit on the date of his death. If the participant is not married at the date of death no joint & survivor benefit will be payable from the Plan.

The amount of disability benefit from the Plan will be determined by the type of annuity chosen by the participant.

However, the disability option is not available while the Plan is in critical and declining status (2021) and in critical status (2020).

E. Funding Policy

The Plan is financed by the contributions of the participating employers under Collective Bargaining Agreements with Local Union 453 International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America. Plan participants are not permitted to contribute toward the cost of their benefits. Benefit accrual rates are determined pursuant to the actuarial cost method at levels which can be supported by the assets of the Plan and anticipated future employer contributions thereto. In 2021 and 2020, the employer contributions did not exceed the minimum funding requirements of ERISA. The Plan was in critical and declining status for the year ended December 31, 2021 and critical status for the year ended December 31, 2020. See Note 12 for a discussion on critical and declining status.

F. Plan Termination

Although it is intended that the Plan will be continued indefinitely, it may be amended or terminated at any time by action of the Union and participating employers. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) Benefits attributable to beneficiaries whose applications were approved as of the Plan termination date.
- (2) Benefits attributable to beneficiaries whose applications were pending as of the Plan termination date.
- (3) Vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- (4) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (5) All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, but other benefits may not be provided for at all.

Note 2. ***Summary of Significant Accounting Policies***

The following are the significant accounting policies followed by the Plan:

A. Date of Management's Review

The Plan has evaluated, for possible financial statement disclosure, subsequent events through September 9, 2022, the date which the financial statements were available to be issued, and has determined there was a subsequent event that is discussed in Note 14.

INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies – (Continued)

B. Basis of Accounting

These financial statements are prepared on the accrual basis of accounting. Under the accrual basis, revenues and expenses are recognized when earned or incurred regardless when they are received or paid, respectively, except for benefit payments to participants which are recorded when paid.

C. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

D. Investment Valuation and Income Recognition

The Plan's contract with Prudential Retirement Insurance and Annuity Company is valued at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay retirement benefits and pay administration expenses charged by Prudential Retirement Insurance and Annuity Company. In addition, the Plan utilizes an investment manager to invest Plan funds in common stocks, registered investment companies, and business development companies. These investments are reported at fair value. *Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

E. Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

F. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are based on contributions made on behalf of the participants during covered employment.

CUMBERLAND, MARYLAND TEAMSTERS CONSTRUCTION
INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 2. *Summary of Significant Accounting Policies – (Continued)*

The actuarial present value of accumulated plan benefits is determined by an actuary from Bolton Partners and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2021 and 2020 as disclosed in Note 10 were (a) life expectancy of participants (As of January 1, 2021, PRI-2012 Blue Collar Employee and Healthy Retiree Tables with generational projection using Scale MP-2020 was used. For disabled participants, PRI-2012 Disabled Retiree Mortality Table with generational projection using Scale MP-2020 was used. As of January 1, 2020, RP-2000 with Blue Collar Adjustment projected to the valuation date with Scale AA was used), (b) retirement age assumptions (the assumed average retirement age was the later of 65 and the fifth anniversary of service, or completion of 30 years of service, but not earlier than age 60, (c) investment return of 7.0% (d) future service multiplier of 0.50% in 2021 and 2020, respectively, and (e) funding method (Unit Credit Actuarial Cost Method).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

G. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

H. Cash and Cash Equivalents

Cash and cash equivalents consist of deposits in non-interest bearing accounts at financial institutions located in Maryland.

Note 3. *Risks and Uncertainties*

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and

CUMBERLAND, MARYLAND TEAMSTERS CONSTRUCTION
INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 3. *Risks and Uncertainties – (Continued)*

participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that change in these estimates and assumptions in the near term would be material to the financial statements.

The Plan maintains its cash in bank deposit and money market accounts, which at times may exceed federally insured limits. The Plan has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk on cash and cash equivalents. For the years ended December 31, 2021 and 2020, the Plan held \$0 and \$0 respectively, in bank deposit and money market accounts in excess of the insurance coverage provided by the Federal Deposit Insurance Corporation.

The COVID-19 pandemic in the United States has caused business disruption and a reduction in economic activity. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration and the impact it will have on the Plan's operations and financial position. Any financial impact to the Plan cannot be reasonably estimated at this time.

Note 4. *Fair Value Measurements*

Fair values of assets measured on a recurring basis at December 31, 2021 and 2020 are as follows:

		Fair Value Measurements at Reporting Date Using:

^(a)In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CUMBERLAND, MARYLAND TEAMSTERS CONSTRUCTION
INDUSTRY AND MISCELLANEOUS PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements – (Continued)

The asset's or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- Equities are valued at the closing price reported on the active market on which the individual securities are traded.
- Registered investment companies and money market funds are valued based on net asset value at year end.
- Business development companies are valued on a quarterly basis by a third-party valuation firm, to develop a fair value measurement consistent with U.S. GAAP for each of their investments. As these are private equity investments, there are no comparable public markets for these investments and, as such, are categorized as level 3 investments. There are unfunded commitments for the Plan at December 31, 2021 and 2020 totaling \$73,260 and \$105,870, respectively.
- Plan interests in hedge funds are valued, as a practical expedient, utilizing the net asset valuations provided by the underlying hedge funds, without adjustment, when the net asset valuations of the investments are calculated in a manner consistent with U.S. generally accepted accounting principles for investment companies. The Plan applies the practical expedient to its investments in hedge funds on an investment-by-investment basis, and consistently with the Plan's entire position in a particular investment, unless it is probable the Plan will sell a portion of an investment at an amount different from the net asset valuation. If it is probable that the Plan will sell an investment at an amount different from the net asset valuation or in other situations where the practical expedient is not available, the Plan considers other factors in addition to the net asset valuation, such as features of the investment, including subscription and redemption rights, expected discounted cash flows, transactions in the secondary market, bids received from potential buyers, and overall market conditions in its determination of fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements – (Continued)

The transfers (and subsequent purchases) into Level 3 investments for investment strategy purposes totaled \$43,971 and \$342,920 for the years ended December 31, 2021 and 2020, respectively. There were transfers of \$688,836 and \$64,958 out of Level 3 for the years ended December 31, 2021 and 2020, respectively.

Note 5. Investments Measured Using the Net Asset Value per Share Practical Expedient

The Plan has the following investments in entities that calculate net asset value per share as a practical expedient at December 31, 2021 and 2020:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequencies (if currently eligible)</u>	<u>Redemption Notice Period</u>

Note 5. *Investments Measured Using the Net Asset Value per Share Practical Expedient – (Continued)*

- (a) This category includes a liquid commercial real estate debt hedge fund whose investment objective is to generate long-term total return, with an emphasis on current income, by primarily investing in a broad range of real estate debt instruments. The fair values of these investments in this category have been estimated using the net asset value per unit of the investments, which is determined monthly, with a 35-day delay. The Plan's investment was fully liquidated by August 2021.
- (b) This category includes a stabilized commercial real estate debt hedge fund whose investment objective is to generate long-term total return, with an emphasis on current income, by primarily investing in a broad range of real estate assets. The fair values of these investments in this category have been estimated using the net asset value per unit of the investments. The net asset value of the hedge funds is determined monthly, with a 15-day delay. As of December 31, 2021 and 2020, redemptions may occur monthly, with a 3-day notice period and certain restrictions may apply.
- (c) This category includes a stabilized, income-oriented commercial real estate debt hedge fund whose investment objective is to generate long-term total return, with an emphasis on current income, by primarily investing in a broad range of real estate assets. The fair values of these investments in this category have been estimated using the net asset value per unit of the investments. The net asset value of the hedge fund is determined monthly, with a 15-day delay. As of December 31, 2021, redemptions may occur monthly, on the 2nd to last business day of the applicable month and certain restrictions may apply.
- (d) This category includes an alternative lending securities hedge fund whose investment objective is to generate total return, with an emphasis on current income, by primarily investing in consumer, small business, specialty finance loans and tranches of alternative lending securitizations. The fair values of these investments in this category have been estimated using the net asset value per unit of the investments. The net asset value of the hedge fund is determined monthly. As of December 31, 2021, redemptions may occur quarterly, with a 90-day notice period and certain restrictions may apply.

Note 6. *Investment Contract with Insurance Company*

The Plan has invested in a contract with Prudential Retirement Insurance and Annuity Company. As reported in Note 7, the contract value was \$1,977,841 and \$2,111,235 at December 31, 2021 and 2020, respectively. In the event the Plan would terminate this contract, any discontinuance payment by Prudential Retirement Insurance and Annuity Company would be net of benefit liabilities held by Prudential Retirement Insurance and Annuity Company and would recognize discontinuance expense charges, the investment return of the assets under the contract, and the investment climate at the settlement date.

Union 453 (Local Union), a related party by virtue of common participants and the plan administrator and bookkeeper of the Plan holding officer positions in the Local Union. The Plan paid the Local Union \$4,372 and \$4,061 in rent for the years 2021 and 2020, respectively. The Plan paid the Local Union \$10,200 and \$8,629 in administration fees for the use of staff and equipment for the years 2021 and 2020, respectively.

All of these party-in-interest transactions are exempt from the prohibited transaction rules, of ERISA.

Note 9. Tax Status

The Plan obtained its latest determination letter on March 22, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has reviewed the Plan's tax positions for all open tax years (tax years after December 31, 2018) and has determined that no provision for income taxes is required in the Plan's financial statements, in accordance with financial and accounting disclosure requirements for recognition and measurement of tax positions taken or expected to be taken on a U.S. income tax return.

Note 11. *Changes in Actuarial Assumptions*

On January 1, 2021, the actuarial present value of accumulated plan benefits for healthy retirees was calculated using the PRI-2012 Blue Collar Employee and Healthy Retiree Tables with generational projection using Scale MP-2020 and the PRI-2012 Disabled Retiree Mortality Table with generational projection using Scale MP-2020 was used for disabled retirees. For the January 1, 2020 valuation date, the RP-2000 with the blue collar adjustment was used to determine the actuarial present value of accumulated plan benefits. In addition, the hours assumed to work was changed to each active participant to be 1,200 hours in each year in the future, replacing the 1,500 hours assumed previously.

NOTES TO FINANCIAL STATEMENTS

Note 12. Pension Protection Act Filing of Critical and Declining Status

For the year ended December 31, 2021, the Plan was certified by its actuary to be in critical and declining status, within the meaning of the Multiemployer Pension Reform Act of 2014 (MPRA). A Plan is considered to be in critical and declining status if it has funding or liquidity problems, or both. For the year ended December 31, 2020, the Plan was certified by its actuary to be in critical status, within the meaning of the Pension Protection Act of 2006 (PPA). Prior to the passing of MPRA, if a pension plan enters critical status, the trustees of the Plan are required to adopt a rehabilitation plan and establish steps and benchmarks to improve the Plan's funding status. The trustees adopted a rehabilitation plan, as required by the PPA, on November 26, 2018, which will apply to all collective bargaining agreements renewed or extended on or after November 26, 2018. The rehabilitation plan requires specific pension contribution rate increases while not increasing benefit formulas, eliminates the 60-month guaranteed pension to a single life annuity with no guarantee for retirements effective on February 1, 2019, and restricts future disability benefits not yet in pay status as of February 1, 2019 to be eliminated. The Rehabilitation Plan was updated through a Resolution to Forestall Insolvency on October 20, 2021.

Note 13. Special Financial Assistance Program

Under the American Rescue Plan Act passed on March 11, 2021, troubled multiemployer pension plans may be eligible to apply for government funding under the Special Financial Assistance Program to enable them to pay benefits at plan levels if the Plan meets certain criteria. Management believes the Plan is eligible for the program and intends to apply for funding in 2023 when the application process opens for their priority group, determined by the PBGC.

Note 14. Evaluation of Subsequent Events

Subsequent to December 31, 2021, the financial markets experienced a significant decline in value. As a result of the market declines and normal operations of the Plan, the fair value of the Plan assets have declined approximately \$1,600,000 as of the issuance of these financial statements. The Plan will continue to monitor its investments, but has no immediate plans to change its investment allocations.

Schedule MB Line 1b(1) Current Value of Assets

In accordance with ERISA Section 103(a)(4)(D), we have relied upon the auditor's draft financial statements for the plan year ending December 31, 2020, when entering the Current Value of Assets on line 1b(1) of the Schedule MB. This value is shown as the Net Assets Available for Benefits on the auditor's draft financial statements for the plan year ending December 31, 2020.

In the event that the auditor's final financial statements differ from the draft, the amount shown on this line will differ from that shown on line 2a. Line 2a reflects the auditor's final financial statements.

Documentation Regarding Progress Under Rehabilitation Plan

On November 26, 2018, the Trustees adopted a Rehabilitation Plan that was designed to enable the Fund to emerge from Critical Status at a point beyond the end of the Rehabilitation Period. This decision was made after all reasonable measures had been taken to improve the funded status of the Fund. Those actions included the following for participants not yet in pay status:

- Elimination of the 5-year guarantee for the normal form of benefit payment
- Elimination of the disability benefit

Additionally, the Trustees presented contributing employers with a Preferred Schedule of Contribution Rate Increases calling for annual \$0.50/hour increases through 2027.

On October 20, 2021, the Trustees revised the Rehabilitation Plan to include a Resolution to Forestall Insolvency (RFI). The Plan is in Critical & Declining Status and it projected to become insolvent in the year 2037. Given the Trustees' adoption of the RFI, the Plan is making scheduled progress under the terms of its Rehabilitation Plan.

Summary of Assumptions

Same assumptions used for the January 1 ,2020 Valuation, except for the mortality and the hours worked assumptions. This projection uses PRI-2012 Blue Collar Employee and Retiree Tables for healthy participants, and the PRI-2012 Blue Collar Contingent Survivor Mortality Table for beneficiaries. It uses the PRI-2012 Disabled Retiree Mortality Table for disabled participants. Mortality improvements for all participants are projected generationally using Scale MP-2020. Additionally, this projection assumes each active participant will work 1,200 hours in the 2021 Plan Year, and 1,500 hours in the plan years thereafter.

Schedule MB, Line 11

Justification for Change in Actuarial Assumptions

The mortality tables have been updated to use PRI-2012 Blue Collar Employee and Retiree Tables for healthy participants, and the PRI-2012 Blue Collar Contingent Survivor Mortality Table for beneficiaries. Also, the PRI-2012 Disabled Retiree Mortality Table is used for disabled participants. Mortality improvements for all participants are projected generationally using Scale MP-2020. For the prior year, the RP-2000 with Blue Collar Adjustment Mortality Table projected to the valuation date with Scale AA. The updated assumption has been put in place to utilize the latest industry standard mortality tables.

The assumed future hours worked for active participants was updated from 1,500 to 1,200 hours.

Both changes were made to better reflect plan experience.

Actuarial Methods and Assumptions

Actuarial Funding Method

The Traditional Unit Credit (accrued benefit) cost method has been used to develop the funding requirements presented in this report. Under this method, the normal cost is equal to the actuarial present value of benefits accrued during the plan year. The actuarial liability represents the actuarial present value of benefits which have been accrued in all prior plan years. Actuarial gains or losses resulting from plan experience which differs from the actuarial assumptions, plan amendments or changes in the actuarial assumptions are considered new pieces of actuarial liability and must be funded over no more than fifteen years.

Asset Valuation Method

The actuarial value of assets is a calculated value determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return based on the prior year market value) during each of the last five years at the rate of 20% per year. The actuarial value is subject to a restriction that it cannot be less than 80% nor more than 120% of market value.

Mortality

Funding

Healthy: Pri-2012 Blue Collar Dataset Employee Amount-Weighted Mortality with generational projection using Scale MP-2020 for pre-commencement and Pri-2012 Blue Collar Dataset Retiree Amount-Weighted with generational projection using Scale MP-2020 for post-commencement. For beneficiaries only, Pri-2012 Blue Collar Dataset Contingent Survivor Amount-Weighted with generational projection using Scale MP-2020.

Disabled: Pri-2012 Total Dataset Disabled Amount-Weighted Mortality Table with generational projection using Scale MP-2020.

For the prior year, RP-2000 with Blue Collar Adjustment projected to the valuation date with Scale AA.

Due to the small group of active participants covered by the Plan, we have relied upon the standard mortality tables published by the Society of Actuaries. And based on the Plan demographics, we have relied upon the blue-collar version of these tables. The standard improvement scales were also used to reflect estimated future experience.

Current Liability:

2021 IRS Static Mortality Table.

Schedule MB Line 6

Actuarial Methods and Assumptions

Interest Rate

Valuation:

7.00% annual compound interest in the future, based on expected earnings from portfolio analysis.

Current Liability:

2.43% per year compounded annually. The current liability interest rate is chosen from a specified range that is set by law.

Termination & Disability

Termination

We have assumed that terminations of employment, other than death, disability, or pension will occur in the future at a moderate rate (T-8 in Pension Actuary's Handbook to age 50, zero thereafter).

Disability

None

Age at Pension

Later of age 60 and age participant becomes Vested.

The weighted average retirement age as of the valuation date is age 61.0. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2021 actuarial valuation.

The retirement age assumption used was reviewed and determined to be reasonable taking into account the following factors:

- The Plan's retirement provisions,
- The actuary's experience with other plans of a similar size, demographic composition, and plan design.

Administration Expenses

The prior year's administrative expenses are assumed as a mid-year number for the current year. That mid-year number is increased by 2%, then discounted to the beginning of the year and included in the normal cost. For projections, future expenses are assumed to increase 2% annually.

The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.

Schedule MB Line 6

Actuarial Methods and Assumptions

Other Loads

A 1% load is applied to liabilities to account for reciprocal pensions. This assumption was the same as the prior valuation and has been set based on plan experience.

Assumed Hours Worked

Each active participant will work 1,200 hours in each year in the future. For the prior year, 1,500.

The future hours assumption is based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual hours over the past several years.

Active Participants

For the purpose of projecting future contributions only, we have assumed that the number of active participants will remain constant with replacements being made immediately upon pension, death, or disability. Participants who worked zero hours in the prior plan year are assumed to be separated participants.

Marital Status

80% of all participants are assumed to be married. Wives are assumed to be 3 years younger than husbands.

Forms of Benefit

Participants are assumed to elect a single life annuity at retirement. Because all optional forms of benefit are actuarially equivalent, the net impact on the valuation results is immaterial.

Assumptions reflected in the determination of plan assets and liabilities that are not specifically discussed are not considered significant relative to the measurement.

Average Contribution Rate

Future Benefit Accruals:

\$10.24 (prior year: \$10.24)

Projections:

Amended Rehabilitation Plan of Cumberland, Maryland Teamsters Construction And Miscellaneous Pension Plan

Introduction

The Pension Protection Act of 2006 ("PPA") amended the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code (the "Code") to impose funding rules for multiemployer plans, which are based on the actuarial status of the multiemployer plan. The new funding rules are effective for plan years beginning after 2007 and apply to the Cumberland, Maryland Teamsters Construction and Miscellaneous Pension Plan (the "Plan"). Beginning with the 2008 plan year, the Plan's actuary annually must certify to the Secretary of Treasury and the Board of Trustees ("Trustees") whether or not the Plan is in Endangered Status ("Yellow Zone") or Critical Status ("Red Zone") for that plan year. The term "*Critical Status*" is defined in ERISA Section 305(b)(2) and Code Section 432(b)(2), and it relates to the ability of the Plan to meet ERISA's minimum funding requirements.

On March 28, 2018, the Plan's actuary first certified under ERISA Section 305 and Section 432 of the Internal Revenue Code that the Plan is in Critical Status for the 2018 Plan Year. The Critical Status Certification was mandated because the actuary determined that the Plan was projected to have an accumulated funding deficiency during the 2020 plan year.

ERISA and the Code, as amended by the PPA, required the Trustees, as the Plan's plan sponsor, to adopt the original Rehabilitation Plan, which was designed to reasonably enable the Plan to emerge from critical status at some point after the 10-year Rehabilitation Period. The Trustees of the Plan adopted such a Rehabilitation Plan to comply with the requirements of the PPA, which changed the terms of the Plan. The original Rehabilitation Plan is shown as Appendix A of this amended Rehabilitation Plan.

On March 31, 2021, the Plan's actuary certified under ERISA Section 305 and Section 432 of the Internal Revenue Code that the Plan's funded status deteriorated to Critical and Declining Status. This means that in addition to being in Critical Status, the Plan is projected to go insolvent within the next 20 years. As a result, the Plan's actuary recommended that the Trustees replace the annual standards contained in the original Rehabilitation Plan with a Resolution to Forestall Insolvency under Section 432(e)(3)(A)(ii) of the Internal Revenue Code. On October 20, 2021, the Trustees adopted a Resolution to Forestall Insolvency.

Amended Rehabilitation Plan (Resolution to Forestall Insolvency)

WHEREAS, according to the Plan's actuary, increased contribution rates sufficient to bring the Plan out of critical status would likely result in the withdrawal of most or all of its participating employers and/or prompt an increase in employer bankruptcy filings and the number of employers going out of business, thus hastening the insolvency of the Plan;

WHEREAS, the Trustees have determined that adopting any of these alternatives would be unreasonable and would involve considerable risk to the Plan and its participants;

WHEREAS, the Plan's actuary has proposed that the Trustees adopt this Resolution to Forestall Insolvency ("RFI") and utilize IRC Section 432(e)(3)(A)(ii) to maximize the health of the Plan and encourage more union construction activity; and

WHEREAS, according to the Plan's actuary, the RFI would result in the following:

- 1) Avoid an excise tax on contractors that might occur subsequent to the 2022 zone certification.
- 2) Maintain employer ability to remain competitive by controlling contribution rates.
- 3) Maintain union membership by keeping wage levels at a competitive level.

NOW THEREFORE, be it:

RESOLVED: The Trustees have determined that adopting the discussed alternatives would be unreasonable and would involve considerable risk to the Plan and its participants;

RESOLVED: That such a determination was made based on expected returns in the markets and their impact on the Plan's assets, and the state of the construction industry;

RESOLVED: The Trustees have determined that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period;

RESOLVED: Therefore, the Trustees have determined to replace the prior Rehabilitation Plan with an updated Rehabilitation Plan that is a plan to forestall insolvency;

RESOLVED: The Trustees have determined that pursuant to the PPA the Trustees shall update the Rehabilitation Plan from time to time and consider further reasonable measures to forestall the Plan's insolvency date;

RESOLVED: That, as a result of this Resolution to Forestall Insolvency, the annual standards and schedules of progress that are a part of the prior Rehabilitation Plan are no longer operative and are removed from the Rehabilitation Plan;

Amended Rehabilitation Plan (Resolution to Forestall Insolvency)

RESOLVED: That, in place of the prior annual standards and schedules of progress, the Trustees shall substitute this plan to forestall possible insolvency; and

FURTHER RESOLVED: To effectuate this RFI, the Plan actuary shall update the Rehabilitation Plan, including (1) set forth the alternatives for the Trustees to consider, and (2) specify when, if ever, the Plan is expected to emerge from critical status in accordance with the updated Rehabilitation Plan.

Appendix A – Original Rehabilitation Plan

BACKGROUND

On March 28, 2018 the Fund actuary certified to the U.S. Department of the Treasury, and also to the Board of Trustees (“Trustees”), that the Cumberland, Maryland Teamsters Construction and Miscellaneous Pension Plan (“Pension Fund”) is in Critical Status as defined by the Pension Protection Act of 2006 (“PPA”) for the plan year beginning January 1, 2018. PPA requires that the Trustees adopt, within 240 days of the required date for the certification, a Rehabilitation Plan designed such that the Fund can be reasonably expected to emerge from Critical Status by the end of the Rehabilitation Period. The Rehabilitation Period is the 10-year period from January 1, 2021 to December 31, 2030. If the plan sponsor determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Pension Fund cannot reasonably be expected to emerge from Critical Status by the end of the Rehabilitation Period, then the plan sponsor must take reasonable measures for the Pension Fund to emerge from Critical Status at a later time or to forestall possible insolvency.

To comply with the above mandate, the Trustees adopted this Rehabilitation Plan effective November 26, 2018. The Trustees are required to annually update this Rehabilitation Plan based on the Pension Fund’s actual progress, and the annual updates are to be filed with the Pension Fund’s annual report.

STANDARDS FOR A REHABILITATION PLAN

Under PPA, the Trustees are required to present to the bargaining parties one or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the Fund to emerge from Critical Status in accordance with the Rehabilitation Plan.

One schedule is to be referred to as the “Default Schedule.” This schedule shall assume that there are no increases in contributions under the plan other than any increases necessary to emerge from Critical Status after future benefit accruals and other benefits have been reduced to the maximum extent permitted by law.

Adjustable benefits offered by the Pension Fund that may be reduced/eliminated as a result of being in Critical Status are the following:

- 60-month guarantee pension may be reduced to a single life annuity with no guarantee
- Disability benefits not yet in pay status may be eliminated
- Early retirement benefits or subsidies may be eliminated

The Trustees have determined that, after reviewing the possible alternatives, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Pension Fund cannot reasonably be expected to emerge from Critical Status by the end of the Rehabilitation Period. Therefore, the Trustees adopt this Rehabilitation Plan as the best option for emerging from Critical Status at a date beyond the end of the Rehabilitation Period. This Rehabilitation Plan applies to all collective bargaining agreements renewed or extended on or after November 26, 2018.

Appendix A – Original Rehabilitation Plan

SCHEDULES

Default Schedule

Employer Contributions – The Default Schedule requires \$0.75/hour contribution rate increases per year until the contribution rate hits \$17.35/hour in May of 2027 (assuming that increases occur in May of each year). Contribution rate increases after November 26, 2018 will not go toward benefit accruals.

Reductions in Adjustable Benefits – The Default Schedule requires the following benefit reductions:

- The 60-month guarantee pension is reduced to a single life annuity with no guarantee for retirements effective on/after February 1, 2019
- Disability benefits not yet in pay status as of February 1, 2019 are eliminated
- Subsidies provided by the Fund's early reduction factors are eliminated and replaced by early reduction factors based on the Fund's definition of actuarial equivalence for retirements on/after February 1, 2019

Upon consideration of the contribution rate increases and benefit reductions required under the Default Schedule to enable the Fund to emerge from Critical Status, the Trustees concluded that the Default Schedule is not reasonable. It would likely lead to employer withdrawals from the Fund, possibly a mass withdrawal, or bankruptcy filings by contributing employers. Additionally, it would likely result in participants ceasing to work for contributing employers, further jeopardizing the funded status of the Fund.

As a result of the above considerations, the Trustees have established the following Preferred Schedule designed to emerge from Critical Status in the year 2037.

Preferred Schedule

Employer Contributions – The Preferred Schedule requires \$0.50/hour contribution rate increases per year until the contribution rate hits \$15.10/hour in May of 2027 (assuming that increases occur in May of each year). Contribution rate increases after November 26, 2018 will not go toward benefit accruals.

Reductions in Adjustable Benefits – The Preferred Schedule makes the following reductions to adjustable benefits:

- The 60-month guarantee pension is reduced to a single life annuity with no guarantee for retirements effective on/after February 1, 2019
- Disability benefits not yet in pay status as of February 1, 2019 are eliminated

Appendix A – Original Rehabilitation Plan

IN WITNESS WHEREOF, the Board of Trustees of the Cumberland, Maryland Teamsters Construction and Miscellaneous Pension Plan have executed this Rehabilitation Plan and have evidenced their ratification and consent of the terms herein included, effective as of DATE.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
