REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Retirement Committee and Plan Participants
The GEO Save 401(k) Plan

Opinion

We have audited the financial statements of The GEO Save 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in

conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedules required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These

additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE GEO SAVE 401(K) PLAN
Notes to Financial Statements
December 31, 2021 and 2020

Note 1 - Plan Description

Plan Description

The GEO Save 401(k) Plan (the “Plan”) is a defined contribution plan, sponsored by GEO Group, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participation

An employee age 18 or older is eligible to participate in the Plan on the first day of the payroll period following the date of employment.

Contributions and Allocations

The Plan permits tax-deferred contributions from 1% to 75% of a participant’s eligible compensation, subject to certain Internal Revenue Code (“IRC”) limitations. Amounts contributed by participants are fully vested when made. The Plan allows for rollovers of vested balances from previous employers’ qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute to the Plan either annual or bi-weekly matching contributions on behalf of participants who made elective deferrals during such period in an amount determined annually by the Company’s management. The Company may, at its discretion, designate a different matching contribution formula for participants at each separate work site, and/or participants with different job classifications. In order to be entitled to an allocation of the Company’s discretionary annual matching contribution, participants, as defined under the Plan, must be employed on the last day of the Plan year. No such contributions were made during the year ended December 31, 2021. Also, the Company, at its discretion, may make a basic voluntary contribution to the Plan each year. There were no such voluntary contributions made during the year ended December 31, 2021.

Participant Accounts

Each participant’s account is adjusted with the participant’s contributions and the participant’s withdrawals, and allocations of the Company’s contributions, Plan earnings, losses and expenses. Allocations are based on participant earnings and losses or account balances as of the date of the allocation.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 and a maximum not to exceed the lesser of \$50,000, or 50% of their vested account balance. Loans are repayable through payroll deductions over a period not to exceed five years, unless used to acquire a principal residence, in which case the repayment period may not exceed ten years. Loans are secured by balances in participants’ vested accounts, and a participant may only have one outstanding loan at a time. The interest rates on loans outstanding are based on the prime rate plus 1% and as of December 31, 2021 and 2020 ranged from 4.25% to 7.25%.

Vesting

Participants fully vest in the Company’s contributions upon completion of three years of vesting service, as defined in the Plan. Additionally, Company contributions become fully vested upon normal retirement age, as defined by the Plan, death, or termination of employment as a result of a total or permanent disability. See vesting schedule below:

Years of Vesting Service	Vested Interest
Less than 2	0%
2, but less than 3	20%
3 or more	100%

Forfeited Accounts

At December 31, 2021 and 2020, forfeited non-vested amounts totaled approximately \$430,000 and \$323,000, respectively. Any non-vested portion of matching contributions credited to the accounts of participants who withdraw prior to becoming fully vested is forfeited and used by the Company to reduce future matching contributions and/or payment of eligible administrative expenses. The Company utilized approximately \$653,000 of forfeitures for the payment of employer matching contributions and administrative expenses during the year ended December 31, 2021.

Payment of Benefits

Eligible participants may elect to receive benefits in a lump-sum payment, a series of payments within one calendar year, a series of annual installments of approximately equal amounts to be paid over a period of five to ten years, or the employee's vested benefit may be used to purchase an immediate or deferred annuity. The amount of benefits paid will be determined by the balance in the participant's Plan account at the date of retirement, termination, death or disability.

Voting Rights

Each participant who has an interest in The GEO Group, Inc. Common Stock is entitled to exercise voting rights attributable to the shares allocated to his or her Stock Fund account and is notified by the Trustee, as defined by the Plan, prior to the time that such rights are to be exercised. If the Trustee does not receive timely instructions, the Trustee itself or by proxy shall vote all such shares in the same ratio as the shares with respect to which instructions were received from participants.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on an accrual basis in accordance with U.S. generally accepted accounting principles (GAAP). Benefits are recorded as reductions to net assets when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value with the exception of fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of *Fair Value Measurements*.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The contract value is the relevant measurement since it represents the amount that the participant would receive if they were to initiate permitted withdrawal transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. There were no credit loss reserves as of December 31, 2021 and 2020.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through July 14, 2022, the date the financial statements were issued.

Note 3 - Fair Value of Investments

Accounting standards provide a framework for measuring investments at fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The GEO Group, Inc. Common Stock - The GEO Group, Inc. common stock account is based on the ending quoted closing price of the common stock of the Company that is held by the account on the last day of the Plan year plus any cash held in the account, including stock dividends received from the Company, and is classified within level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Below are the Plan's investments carried at fair value on a recurring basis at December 31, 2021 and 2020 by the fair value hierarchy levels described in Note 2:

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2021				
Investments at fair value:				
The GEO Group, Inc. common stock	\$ 2,686,901	\$ 2,686,901	\$ —	\$ —
Mutual funds	195,078,000	195,078,000	—	—
Total investments, at fair value	<u>\$197,764,901</u>	<u>\$197,764,901</u>	<u>\$ —</u>	<u>\$ —</u>
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2020				
Investments at fair value:				
The GEO Group, Inc. common stock	\$ 3,648,816	\$ 3,648,816	\$ —	\$ —
Mutual funds	186,567,032	186,567,032	—	—
Total investments, at fair value	<u>\$190,215,848</u>	<u>\$190,215,848</u>	<u>\$ —</u>	<u>\$ —</u>

Note 4 - Separate Account Guaranteed Interest Contract

The Plan has entered into a traditional fully benefit-responsive investment contract with Mass Mutual Retirement Services. The Separate Account Guaranteed Interest Contract ("SAGIC") maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the SAGIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the separate account guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reviewed on a quarterly basis for resetting. The separate account guaranteed interest contract does not allow the crediting interest rate below zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The separate account guaranteed investment contract does not permit the insurance company to terminate the agreement unless the Plan is not in compliance with the investment agreement.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 6 - Income Tax Status

The Plan is a volume submitter plan and received an opinion letter dated March 31, 2014, stating that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plans' policy is to recognize interest and penalties as a component of administrative expenses and there were no interest and penalties recognized during the year ended December 31, 2021. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Administrative Expenses

The Plan pays for all costs of Plan administration, which includes third-party administrator fees. The costs of administration are passed on to the participants ratably based on participant balances.

Note 8 - Related Party and Party-In-Interest Transactions

Certain Plan investments held during 2021 and 2020 were issued by MML Investors Services Inc., a subsidiary of Mass Mutual Life Insurance Company ("Mass Mutual"), the Plan's former third-party administrator. As such, these transactions qualify as party-in-interest transactions. In January 2021, Empower Retirement acquired Mass Mutual. The Plan also invests in The GEO Group, Inc. common stock and receives dividends and therefore, these transactions qualify as related party and party-in-interest transactions.

Note 9 - Risks and Uncertainties

Investment Risk

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term which could materially affect the amounts reported in the statement of net assets available for benefits.

COVID-19 Pandemic

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of GEO's common stock and other Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, the widespread pandemic could result in continued significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information (“SAI”).

For additional information on soft dollar compensation, refer to the section of the mutual fund’s SAI that discusses brokerage allocation and other practices.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Retirement Committee and Plan Participants
The GEO Save 401(k) Plan

Opinion

We have audited the financial statements of The GEO Save 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in

conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedules required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These

additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE GEO SAVE 401(K) PLAN
Notes to Financial Statements
December 31, 2021 and 2020

Note 1 - Plan Description

Plan Description

The GEO Save 401(k) Plan (the “Plan”) is a defined contribution plan, sponsored by GEO Group, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participation

An employee age 18 or older is eligible to participate in the Plan on the first day of the payroll period following the date of employment.

Contributions and Allocations

The Plan permits tax-deferred contributions from 1% to 75% of a participant’s eligible compensation, subject to certain Internal Revenue Code (“IRC”) limitations. Amounts contributed by participants are fully vested when made. The Plan allows for rollovers of vested balances from previous employers’ qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute to the Plan either annual or bi-weekly matching contributions on behalf of participants who made elective deferrals during such period in an amount determined annually by the Company’s management. The Company may, at its discretion, designate a different matching contribution formula for participants at each separate work site, and/or participants with different job classifications. In order to be entitled to an allocation of the Company’s discretionary annual matching contribution, participants, as defined under the Plan, must be employed on the last day of the Plan year. No such contributions were made during the year ended December 31, 2021. Also, the Company, at its discretion, may make a basic voluntary contribution to the Plan each year. There were no such voluntary contributions made during the year ended December 31, 2021.

Participant Accounts

Each participant’s account is adjusted with the participant’s contributions and the participant’s withdrawals, and allocations of the Company’s contributions, Plan earnings, losses and expenses. Allocations are based on participant earnings and losses or account balances as of the date of the allocation.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 and a maximum not to exceed the lesser of \$50,000, or 50% of their vested account balance. Loans are repayable through payroll deductions over a period not to exceed five years, unless used to acquire a principal residence, in which case the repayment period may not exceed ten years. Loans are secured by balances in participants’ vested accounts, and a participant may only have one outstanding loan at a time. The interest rates on loans outstanding are based on the prime rate plus 1% and as of December 31, 2021 and 2020 ranged from 4.25% to 7.25%.

Vesting

Participants fully vest in the Company’s contributions upon completion of three years of vesting service, as defined in the Plan. Additionally, Company contributions become fully vested upon normal retirement age, as defined by the Plan, death, or termination of employment as a result of a total or permanent disability. See vesting schedule below:

Years of Vesting Service	Vested Interest
Less than 2	0%
2, but less than 3	20%
3 or more	100%

Forfeited Accounts

At December 31, 2021 and 2020, forfeited non-vested amounts totaled approximately \$430,000 and \$323,000, respectively. Any non-vested portion of matching contributions credited to the accounts of participants who withdraw prior to becoming fully vested is forfeited and used by the Company to reduce future matching contributions and/or payment of eligible administrative expenses. The Company utilized approximately \$653,000 of forfeitures for the payment of employer matching contributions and administrative expenses during the year ended December 31, 2021.

Payment of Benefits

Eligible participants may elect to receive benefits in a lump-sum payment, a series of payments within one calendar year, a series of annual installments of approximately equal amounts to be paid over a period of five to ten years, or the employee's vested benefit may be used to purchase an immediate or deferred annuity. The amount of benefits paid will be determined by the balance in the participant's Plan account at the date of retirement, termination, death or disability.

Voting Rights

Each participant who has an interest in The GEO Group, Inc. Common Stock is entitled to exercise voting rights attributable to the shares allocated to his or her Stock Fund account and is notified by the Trustee, as defined by the Plan, prior to the time that such rights are to be exercised. If the Trustee does not receive timely instructions, the Trustee itself or by proxy shall vote all such shares in the same ratio as the shares with respect to which instructions were received from participants.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on an accrual basis in accordance with U.S. generally accepted accounting principles (GAAP). Benefits are recorded as reductions to net assets when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value with the exception of fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of *Fair Value Measurements*.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The contract value is the relevant measurement since it represents the amount that the participant would receive if they were to initiate permitted withdrawal transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. There were no credit loss reserves as of December 31, 2021 and 2020.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through July 14, 2022, the date the financial statements were issued.

Note 3 - Fair Value of Investments

Accounting standards provide a framework for measuring investments at fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The GEO Group, Inc. Common Stock - The GEO Group, Inc. common stock account is based on the ending quoted closing price of the common stock of the Company that is held by the account on the last day of the Plan year plus any cash held in the account, including stock dividends received from the Company, and is classified within level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Below are the Plan's investments carried at fair value on a recurring basis at December 31, 2021 and 2020 by the fair value hierarchy levels described in Note 2:

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2021				
Investments at fair value:				
The GEO Group, Inc. common stock	\$ 2,686,901	\$ 2,686,901	\$ —	\$ —
Mutual funds	195,078,000	195,078,000	—	—

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 4 - Separate Account Guaranteed Interest Contract

The Plan has entered into a traditional fully benefit-responsive investment contract with Mass Mutual Retirement Services. The Separate Account Guaranteed Interest Contract ("SAGIC") maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the SAGIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the separate account guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reviewed on a quarterly basis for resetting. The separate account guaranteed interest contract does not allow the crediting interest rate below zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The separate account guaranteed investment contract does not permit the insurance company to terminate the agreement unless the Plan is not in compliance with the investment agreement.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 6 - Income Tax Status

The Plan is a volume submitter plan and received an opinion letter dated March 31, 2014, stating that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plans' policy is to recognize interest and penalties as a component of administrative expenses and there were no interest and penalties recognized during the year ended December 31, 2021. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Administrative Expenses

The Plan pays for all costs of Plan administration, which includes third-party administrator fees. The costs of administration are passed on to the participants ratably based on participant balances.

Note 8 - Related Party and Party-In-Interest Transactions

Certain Plan investments held during 2021 and 2020 were issued by MML Investors Services Inc., a subsidiary of Mass Mutual Life Insurance Company ("Mass Mutual"), the Plan's former third-party administrator. As such, these transactions qualify as party-in-interest transactions. In January 2021, Empower Retirement acquired Mass Mutual. The Plan also invests in The GEO Group, Inc. common stock and receives dividends and therefore, these transactions qualify as related party and party-in-interest transactions.

Note 9 - Risks and Uncertainties

Investment Risk

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term which could materially affect the amounts reported in the statement of net assets available for benefits.

COVID-19 Pandemic

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of GEO's common stock and other Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, the widespread pandemic could result in continued significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.
