Independent Auditor's Report

To the 401(k) Committee
Idaho Youth Ranch 401(k) Plan
Boise, Idaho

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Idaho Youth Ranch 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

1. Plan Description

The following description of Idaho Youth Ranch (the “Organization” or “Employer”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan originally effective December 1, 2012. The Plan was most recently restated effective January 1, 2015. The Plan excludes independent contractors, leased employees, nonresident aliens and employees covered by a collective bargaining agreement. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Administration of the Plan

The Trustee of the Plan is Reliance Trust Company (“Reliance” or “Trustee”) and certain members of management and board of directors of the Organization are trustees. The Trustee holds all assets of the Plan in accordance with the provisions of the service provider agreements with the Organization. Effective January 4, 2021, Empower Retirement, LLC (“Empower”) acquired Massachusetts Mutual Life Insurance Company (“Mass Mutual”) and became the record-keeper of the Plan. There were no transfers of assets or changes in services in 2021 as a result of this transaction. Pension Pinnacle Services, Inc. is the third-party administrator. The 401(k) Plan Committee is responsible for the oversight of the Plan and determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Eligibility

Previously, employees were eligible to participate in the salary deferral arrangement in the Plan on the first day of the month following 90 days of employment and upon attaining 18 years of age. Effective June 1, 2021, the Plan was amended to eliminate the service period for participant deferral contributions. Employees are eligible to receive employer contributions after a 12-month employment period.

Contributions

The Plan includes a pre-tax and Roth after-tax salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (“IRC”). Eligible participants are permitted to elect to have a percentage of their compensation contributed to the Plan.

The Organization may, at its discretion, elect to make qualified matching contributions to the Plan. Effective June 1, 2021, the employer changed the matching formula to match 100 percent of employee deferrals up to 3 percent. Prior to that, the employer matching contribution was 25 percent of employee deferral contributions up to 12 percent of eligible compensation deferred. Employer matching contributions for the year ended December 31, 2021, were \$276,509. During 2021, the employer contributed \$500 to all participating employees who had met the eligibility requirement to receive employer contributions if employees were participating in the Plan at the time of the contribution.

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

The Organization may, at its discretion, elect to make a discretionary contribution to the Plan. For the year ended December 31, 2021, there was no discretionary contributions made to the Plan by the Organization, other than those listed above.

Participants may also contribute amounts representing distributions from other qualified plans provided that certain conditions are met, including the approval of the Plan administrator.

Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Participants' accounts are credited with participant pre-tax, after-tax Roth, rollover, discretionary employer matching, and discretionary employer contributions, as well as an allocation of plan earnings or losses. Participants are charged with certain administrative fees that are paid by the Plan. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. Participant accounts are also credited or debited with participant initiated transactions. Participants may direct the investment of their account balances into various mutual funds, pooled separate accounts and a fixed-rate group annuity contract offered by the Plan. The benefit to which participants are entitled is the vested portion of their accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2021, interest rates ranged from 4.25 percent to 6.50 percent.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant becomes 100 percent vested after three years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Forfeitures

Forfeited nonvested accounts may be used for payment of administrative expenses and or allocated to participants as additional matching contributions. Forfeited nonvested accounts as of December 31, 2021 and 2020 totaled \$29,936 and \$11,679, respectively. There were \$69 of forfeitures used to reduce administrative expenses for the year ended December 31, 2021. There were \$582 forfeitures reallocated to participants during the year ended December 31, 2021.

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

Benefit Payments

Upon termination of service, death, disability, or retirement, the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution. The Plan allows for in-service distributions if a participant reaches age 59½. If a participant terminates employment and the participant's account balance does not exceed \$5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the terms of the Plan Document to terminate the Plan, subject to the provisions of ERISA. Participants would become fully vested upon termination.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee, and record-keepers. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Accounting for Investment Contracts with Insurance Companies

On December 1, 2012, the Plan entered into a group annuity contract with Mass Mutual. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent nor more than 3 percent. The crediting rate is reviewed on a semi-annual basis for resetting.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Contributions

Participant contributions and discretionary employer matching contributions are recognized in the period during which the Organization makes the respective payroll deduction from the participant's compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2021 and 2020.

Benefit Payments

Benefit payments are recorded when upon distribution.

Expenses of the Plan

The Plan's expenses are paid either by the Plan or the Organization, as provided by the Plan document. Expenses paid directly by the Organization are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan, that are paid by the Plan, are recorded as deductions in the accompanying statements of changes

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investment presented in the accompanying statement of changes in net assets available for benefits.

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, Reliance, a qualified institution, has certified the following information included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments as reported in the statements of net assets available for plan benefits as of December 31, 2021 and 2020;
- Net investment income as reported on the statement of changes in net assets available for plan benefits for the year ended December 31, 2021;
- Investment information included in the notes to financial statements and in the supplemental schedule, schedule H, Line 4i - schedule of assets (held at end of year) - as of December 31, 2021.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedules are in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements and Disclosures

Accounting Standards Codification ("ASC") 820, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Idaho Youth Ranch 401(k) Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Pooled separate accounts: Valued at the net asset value ("NAV") of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

<i>As of December 31, 2021</i>	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 2,332,077	\$ -	\$ 2,332,077
Mutual funds	1,353,255	-	-	1,353,255
Total investments, at fair value	\$ 1,353,255	\$ 2,332,077	\$ -	\$ 3,685,332

<i>As of December 31, 2020</i>	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 1,761,246	\$ -	\$ 1,761,246
Mutual funds	1,243,510	-	-	1,243,510
Total investments, at fair value	\$ 1,243,510	\$ 1,761,246	\$ -	\$ 3,004,756

5. Related Party and Party-in-Interest Transactions

The Plan investments are managed by Mass Mutual and therefore, the investment transactions qualify as party-in-interest transactions. Participant loan and distribution processing fees incurred by the Plan are paid by participants. Fees for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan also issues loans to participants which are secured by the vested balance of the participant's accounts. Certain other fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions which are exempt from the prohibited transaction rules.

6. Income Tax Status

The Plan is placing reliance on an opinion letter dated March 31, 2014, received from the IRS on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress.

7. Concentrations, Risks and Uncertainties

The Plan provides for various investments mutual funds, pooled separate accounts and a collective investment trust. Investments, in general, are exposed to various risks such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The macroeconomic impacts stemming from the conflict in Ukraine, and the potential impact and duration of the COVID-19 pandemic, continuing supply chain issues and rising inflation has continued to cause volatility in the markets. Any future impact on investments or the Plan remains uncertain.

There are two investments that individually represents more than 10 percent of investments held at December 31, 2021 and 2020. See the supplemental schedule H, Line 4i - schedule of assets (held at end of year) for a complete listing of investments held at December 31, 2021.

8. Subsequent Events

The Plan has performed an evaluation of subsequent events through August 15, 2022, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements, other than those listed below.

Effective January 1, 2022, the Plan was amended and restated in its entirety due to regulatory requirements. The Plan adopted a prototype plan document, which received an advisory letter dated June 30, 2020, stating that the form of the volume submitter is qualified under Section 401 of the IRC, and therefore, is tax exempt. As a part of the restatement, the minimum age requirement to participate was removed, participants can enter immediately upon meeting the eligibility requirements, and the definition of compensation was changed to exclude certain earning types. There were no other significant changes to plan provisions as a part of the restatement.
