Independent Auditor's Report

The Plan Administrator
EJ Pension Plan
East Jordan, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of EJ Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 29, 2021 (liquidation basis) and December 31, 2020, and the related statements of changes in net assets available for benefits for the period from January 1, 2021 through December 29, 2021 (liquidation basis) and year ended December 31, 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 29, 2021 and December 31, 2020, and for the period from January 1, 2021 through December 29, 2021 and year ended December 31, 2020, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Use of Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, those charged with governance made a decision to terminate the Plan as of April 30, 2021 and determined liquidation was imminent. As a result, in accordance with U.S. GAAP, the Plan has changed its basis of accounting from the ongoing basis of accounting used in presenting the 2020 financial statements to the liquidation basis of accounting used in presenting the 2021 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Reportable Transactions for the period from January 1, 2021 through December 29, 2021 (liquidation basis) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

EJ Pension Plan

Notes to Financial Statements

1. Plan Description

The following brief description of the EJ Pension Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering certain employees of EJ USA, Inc., EJ Americas, EJ Ardmore, and EJ Group (collectively, the Company) and provides for retirement and death benefits. All employees who have completed one year of service and have attained age 21 generally are eligible to participate in the Plan. On March 2, 2009, the Company froze participation in the Plan whereby an employee whose date of employment is after January 1, 2008, a former participant who is re-employed on or after March 2, 2009, or an employee who subsequently transfers to employment covered by the Plan on or after March 2, 2009, shall not become an active participant in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended and restated effective January 1, 2018. The name of the Plan was changed to EJ Pension Plan.

Plan Termination

On January 27, 2021, the Board of Directors of the Company approved a resolution to commence termination of the Plan effective April 30, 2021. As a result, a timeline was developed in order to ensure that certain requirements of the termination were completed, including any required Plan amendments, notices to participants of pending termination, regulatory filings with the Pension Benefit Guaranty Corporation (PBGC) and termination approval with the Internal Revenue Service (IRS), computation of additional funding, and distribution of assets of the Plan in accordance with ERISA and other regulations (see Note 8).

During the liquidation period from April 30, 2021 through December 29, 2021, the Plan's assets were distributed to participants who elected to receive their payment in the form of lump-sum distributions or annuity payments. For participants who did not elect a distribution, an annuity contract was purchased to continue funding annuity payments in the future. Final distribution of assets occurred on December 29, 2021; final Form 5500 filing will occur for Plan year 2021.

Retirement Benefits

In February 2010, the Plan was amended to freeze future benefit accruals. As a result, each participant's pension benefit was determined as of February 28, 2010, and will be credited with an annual 5% interest credit until the participant elects to receive the value of their accumulated plan benefit.

Future benefit accruals were calculated for each eligible participant as of February 28, 2010 based on a participant's total pension percentage credits earned, as defined by the Plan, multiplied by their average compensation based on the highest five of the last ten years' earnings. The maximum allowable pension percentage credit is 500%. Participants become vested upon reaching normal retirement age 65 while employed or completion of five or more years of service. Participants are eligible to receive a pension benefit upon reaching retirement age, or upon termination of service,

EJ Pension Plan

Notes to Financial Statements

and may elect to receive the value of their accumulated plan benefits as a lump-sum distribution or an annuity form of payment.

Funding Policy

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. Minimum funding requirements of ERISA have been met.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

As discussed in Note 1, the Plan was terminated effective April 30, 2021. As a result, the Plan changed its basis of accounting for the period subsequent to December 31, 2020 from the ongoing basis (accrual basis) to the liquidation basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and the actuarial present value of Plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

EJ Pension Plan

Notes to Financial Statements

Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Fees incurred for legal, accounting, and certain administrative services are paid by the Company. The remaining administrative expenses, such as investment advisor services, are paid by the Plan as allowable. Certain expenses related to Plan termination were paid by the Plan.

3. Investments

In accordance with ASC 820, *Fair Value Measurements and Disclosures*, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and other inputs that are observable or can be corroborated by observable market data.

Level 3 - Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual Funds - These assets are valued at quoted market price in an exchange and active market, which represent the net asset value (NAV) of shares held by the Plan.

Pooled Separate Accounts (PSAs) - These assets are valued based on the underlying investments (i.e., common stock, mutual funds, short-term securities). While the majority of the underlying assets values are based on quoted prices, the NAV of the PSAs are not publicly quoted. The NAV is reported by the fund managers as of the financial statement date based on recent transaction prices. The PSAs held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There were no unfunded commitments.

Notes to Financial Statements

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth the Plan's investments by level within the fair value hierarchy as of December 31, 2020. There have been no significant transfers into or out of Levels 1, 2, or 3.

There were no investments held as of December 29, 2021.

Mutual funds	\$ 29,304,734	\$ -	\$ -	\$ 29,304,734
Total investments at NAV*	-	-	-	23,599,377
Investments, at fair value	\$ 29,304,734	\$ -	\$ -	\$ 52,904,111

* The investments in PSAs are measured at fair value using the NAV per share (or its equivalent) as a practical expedient and have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The following significant actuarial assumptions were used in the most recent actuarial valuation:

Retirement rate	Rate varies depending on retirement age
Interest rate - ASC 960 liabilities	5.75%
Mortality	Principal 2016-10 MI scale (based on MP-2020 study and model issued by SOA)

The foregoing actuarial assumptions are based on the presumption that the Plan would continue.

EJ Pension Plan

Notes to Financial Statements

The actuarial present value of accumulated plan benefits as of the most recent valuation date, beginning of year, and prior to Plan termination, was as follows:

January 1, 2021

Vested benefits:

Participants currently receiving payments	\$ 4,927,575
Inactive participants	8,194,320
Active participants	30,600,942

Total Actuarial Present Value of Accumulated Plan Benefits	\$ 43,722,837
---	----------------------

The change in the actuarial present value of accumulated plan benefits valuation from January 1, 2020 through January 1, 2021 is as follows:

Actuarial Present Value of Accumulated Plan Benefits, January 1, 2020	\$ 44,116,058
Changes during the year due to:	
Increase for interest due to decrease in the discount period	2,468,554
Benefits accumulated and plan experience*	(458,805)
Actual benefits paid	(2,402,970)
Actuarial Present Value of Accumulated Plan Benefits, January 1, 2021	\$ 43,722,837

* The annual update to mortality is included in the Plan experience.

As discussed in Note 1, the Plan was terminated effective April 30, 2021, resulting in the settlement of the Plan's accumulated plan benefit obligation. To settle the Plan's accumulated plan benefit obligation, benefits paid directly to participants were \$33,028,450 and purchase of annuity contracts were \$17,819,000. Remaining over-funded plan assets were transferred to the assets of the EJ USA, Inc. 401(k) Savings Plan in the amount of \$2,124,580 (see Note 8).

5. Related Party Transactions

Certain Plan investments are shares of PSAs managed by Principal Life Insurance Company, a contract-holder as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative and custodial fees in the amounts of \$211,728 and \$206,130 were paid to Principal Life Insurance Company and Principal Trust Company for the period ended December 29, 2021 and the year ended December 31, 2020, respectively.

6. Income Tax Status

The IRS has determined in a letter dated August 16, 2019 that the Plan qualifies under the appropriate section of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would

EJ Pension Plan

Notes to Financial Statements

not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.

7. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of December 29, 2021 and December 31, 2020, and for the period from January 1, 2021 through December 29, 2021 and year ended December 31, 2020. Accordingly, Principal Trust Company, a qualified institution, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the accompanying statements of net assets available for benefits as of December 29, 2021 and December 31, 2020.
- Investment income (loss), net, as shown in the accompanying statements of changes in net assets available for benefits for the period from January 1, 2021 through December 29, 2021 and for the year ended December 31, 2020.
- Investment information included in the schedule of reportable transactions for the period from January 1, 2021 through December 29, 2021, as shown on the ERISA-required supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

8. Plan Termination

As discussed in Note 1, the Company completed a standard termination of the plan commencing on April 30, 2021; therefore, the accrued benefits of each participant became nonforfeitable to the extent then funded, and the net assets of the plan were allocated, as prescribed by the terms and provisions of the plan in accordance with ERISA and its related regulations. In a standard termination, the Plan's net assets were sufficient to provide for accumulated benefit obligations. Upon distribution of plan assets either by the purchase of an irrevocable commitment from an insurer to provide an annuity or by a lump sum payment, the PBGC's guarantee with respect to participant benefits ends.

The remaining over-funded plan assets were utilized by the Company to fund remaining expenses related to the plan, as well as obligations associated with other qualified retirement programs. As such, assets of the Plan were transferred to the assets of the EJ USA, Inc. 401(k) Savings Plan on September 9, 2021, resulting in a transfer to the Plan of \$2,124,580.

9. Subsequent Events

Subsequent events have been evaluated by management through September 19, 2022, the date of these financial statements were available to be issued.

	<u>Before benefit payment period</u>
	IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Asset return	6.25% for the current plan year.									
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.									
Expected expense	The expected expense included in target normal cost is an estimate based on known expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.									
Retirement	Active participants									
	<table><tr><th>Age</th><th>Probability of retirement</th></tr><tr><td>55-59</td><td>5%</td></tr><tr><td>60-61</td><td>10%</td></tr><tr><td>62-64</td><td>20%</td></tr><tr><td>65</td><td>100%</td></tr></table>	Age	Probability of retirement	55-59	5%	60-61	10%	62-64	20%	65
Age	Probability of retirement

60-61	10%									
62-64	20%									
65	100%									
	Inactive participants are assumed to retire at age 65.									
	This assumption is based on the results of recent experience analysis and anticipated future experience.									
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.									
Marriage	60% married; husbands are 0 years older than wives.									
	This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.									

Withdrawal

2003 Society of Actuaries Small Plan Age Table multiplied by 0.50

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	9.75%
40	4.70%
55	2.10%

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries, a leading actuarial organization. A multiplier of 0.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Form of benefit and basis

90% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages equal to their pension plan account balance. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age.

90% of active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid immediately, and 10% will defer to age 65 and receive a monthly annuity.

90% of participants who are already terminated on the valuation date are assumed to elect a benefit paid in a lump sum at the assumed retirement ages equal to their pension plan account balance.

The remaining participants will elect to receive their benefit on the normal form at the assumed age.

This assumption is based on the results of recent experience analysis and anticipated future experience.

The single sum benefit is based on the applicable mortality projected to decrement and the plan's funding target interest rates, as prescribed.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

HCE benefit payment restrictions	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: - any retiree benefit index or floor - amounts for HCEs who were previously restricted - an amount for the retiring HCE The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10). <u>Base rates</u> Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive. <u>Mortality improvement (MI)</u> Principal 2016-10 MI scale: this scale is based on MP-2020 study and model issued by SOA with the exception of the following user-selected assumptions: • 10-year convergence period on age and cohort • Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.
------------------	--

See [Mortality Documentation](#) for rationale and additional information.

Interest rate used to value liabilities

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
EJ PENSION PLAN
EIN 38-1434427 Plan No. 002

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Part V - Summary of Plan Provisions
EJ PENSION PLAN
EIN 38-1434427 Plan No. 002

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan, including the first amendment, signed 04/05/2021.

Plan eligibility

Age Attained age 21.

Service One year of service in which at least 1,000 hours worked.

Effective 03/02/2009 any employee whose date of employment is after 01/01/2008, a former participant who is reemployed on or after 03/02/2009, or an employee who transfers to employment covered by this plan on or after 03/02/2009 shall not become an active participant.

Normal retirement benefit

Age The later of attained age 65 or 5 years after plan entry.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

**Amount
(accrued benefit)** The greater of a) and b)

a) The lesser of (1) and (2) below:

(1) Participant's projected pension equity benefit at normal retirement date using participant's final average pay and benefit service projected to the participant's normal retirement date.

(2) Participant's final average pay multiplied by participant's total PEP percents increased by 5% interest until normal retirement date. Maximum 500 PEP percentage points.

The amount determined under (a) is then divided by a factor to convert to a life only benefit payable at normal retirement age.

b) Frozen benefit as of 09/30/2000 earned under the prior plan.

As of 02/28/2010 the pension equity benefit is frozen. The participant's PEP account balance will be credited with 1/12 of 5% interest on the last day of each month.

Early retirement benefit

Eligibility	The later of attained age 55 or 10 years of service, for the guarantee on the frozen benefit.
Form	Same as normal retirement benefit.
Amount	Greater of a) frozen benefit as of 9/30/2000 reduced in accordance with section 5.2 of the plan, or b) the single life annuity that is actuarially equivalent to the PEP account balance, as described in section 7.2 of the plan.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit

Vesting percentage	100% after 3 years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit

Eligibility	Fully or partially vested in an accrued benefit.
Form	Lump sum benefit payable to beneficiary.
Amount	PEP account balance

Definitions

Final average pay The average of total pay received for the 5 years out of the 10 latest years before retirement date which gives the highest average.

PEP percent's The sum of a) and b) below:

- a) The total PEP percents credited to the participant as of 12/31/2007.
- b) The cumulative PEP percents credited to the participant for each plan year beginning on or after 01/01/2008. The PEP percent for a participant for a plan year will be determined from the schedule below:

Benefit service	PEP percent
1-5	5%
6-10	6%
11-15	8%
16-20	10%
21-25	13%
26-30	16%
61>30	22%

Alternative schedule – Minimum transition PEP percentage points

The following schedule will apply to participants who have attained age 40 and have at least 45 points (age plus credited service under the prior plan) as of 7/31/2000 if it provides a greater benefit then would be the case under the regular PEP schedule. There are two schedules, depending upon the participants vested status as of 7/31/2000 under the prior plan.

Age 40+ and points	Fully vested minimum PEP%	Not fully vested minimum PEP%
Under 45	0%	0%
45-49	10%	10%
50-54	12%	11%
55-59	14%	12%
60-64	16%	13%
65-69	18%	14%
70-74	20%	15%
75-79	22%	16%
80-84	24%	17%
85-89	26%	18%
90-94	28%	19%
95-99	30%	20%
100-104	32%	21%
105-109	34%	22%

**PPA account
balance**

The Pension Equity Plan (PEP) account balance at the earlier of termination of employment or 2/28/2010 is equal to the PEP Percents multiplied by the final average pay on that date. This account balance is credited with interest at a fixed annual rate of 5% thereafter.

**Optional forms of
benefit payments**

The optional forms of benefit payments are:

- Monthly annuity payable for life or 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 or 75.
- Single sum payment equal to the pension equity benefit.

The optional form conversion basis for converting the pension equity benefit into a single life annuity is 417(e) interest rate and 417(e) mortality table. The conversion basis for converting from a straight life annuity to an optional form of benefit is 7.00% interest and 1983 Group Annuity Table (unisex).

The conversion basis for converting the frozen benefit as of 9/30/2000 to a lump sum is 417(e) interest rate and 417(e) mortality table.

Changes in Principal Eligibility or Benefit Provisions

The plan was amended to terminate effective 04/30/2021.

Schedule SB, Line 25 – Change in Method
EJ PENSION PLAN
EIN 38-1434427 Plan No. 002

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.
