INDEPENDENT AUDITORS' REPORT

To the 401(k) Administrative Committee of

MICROCHIP TECHNOLOGY INCORPORATED SAVINGS PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed the audit of the financial statements of **Microchip Technology Incorporated Savings Plan** ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the 2021 financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets certified by Fidelity Management Trust Company, a qualified institution, agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by the qualified institution. In our report dated July 29, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MICROCHIP TECHNOLOGY INCORPORATED SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Description of the Plan

The following description of the **Microchip Technology Incorporated Savings Plan** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. **General** – The Plan is a defined contribution plan that covers all full time, domestic employees of Microchip Technology Inc. (the "Company") who are not subject to a collective bargaining agreement. Eligible employees of the Company may participate in the Plan after one month of service. The effective date of the Plan is March 31, 1989, as amended and restated on October 20, 2016, and it is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code ("IRC").
- B. **Contributions** – Participants may contribute 1% to 60% of their base earnings to the Plan up to the maximum allowed by the IRC Section 401(k) limits. Participant contributions under the IRC Section 401(k) were subject to a maximum of \$19,500 for the year ended December 31, 2021. Using a Roth 401(k) contribution option, participants may make after-tax contributions from 1% to 60% of their base earnings to the Plan up to the maximum allowed by the IRC as noted above. In addition, the Plan allows participants who have attained age 50 before the end of the Plan year to make additional catch-up contributions up to a maximum of \$6,500 for the year ended December 31, 2021. Participants may also contribute amounts representing distributions from other qualified plans as rollover contributions.

The Plan uses the Automatic Enrollment and Increase Program offered by Fidelity Management Trust Company. Under the program, all participants who become eligible to participate are automatically enrolled in the Plan with a 6% deferral rate, unless another rate is elected by the participant. Additionally, the deferral rate increases 1% each year until 13% is reached or until the participant makes a change to their elected deferral rate. Deferral contributions made under the Automatic Enrollment and Increase Program are deposited into one of the Fidelity Freedom funds based upon the projected retirement age of the participant, unless another fund allocation is elected by the participant.

The Company may contribute a discretionary match amount of a percentage of the participants' pre-tax contributions limited to a percentage of the participants' annual compensation, as determined each quarter by the Company's Board of Directors, and is allocated to each participant's account based on the deferral contribution made by the participant during the quarter. During 2021, the Board approved discretionary match amounts of 50%, 65% and 75% for quarters one, two, and three, respectively, of participant contributions up to 4% of the participant's annual compensation. An amendment was signed on November 11, 2021 to implement a non-discretionary match of 25% to be combined with any discretionary quarterly employer matching contributions approved by the Board. The change was applied retroactively for the fourth quarter of 2021. The Board approved a discretionary match amount of 50% for quarter four of participant contributions up to 6% of the participants' annual compensation, for a combined match of 75%. Plan participants determine how participant and employer contributions are invested within certain investment guidelines maintained by the Plan.

- C. **Participant accounts** – Each participant's account is credited with the participant's contributions, the Company's discretionary and non-discretionary match contribution, and an allocation of Plan earnings. Allocations of Plan earnings are determined by the percentage that a participant's account balance bears to the total of all participant account balances in such funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

MICROCHIP TECHNOLOGY INCORPORATED

SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Description of the Plan (continued)

- D. **Vesting** – Participants are immediately vested in their contributions plus actual earnings thereon, and such amounts are not forfeitable. At the earliest of the following dates, participants are fully vested as to the Company's discretionary and non-discretionary match contributions and earnings thereon:

- Date participant reaches age 65
- Date participant incurs a total disability as defined by the Plan
- Date of plan termination or elimination of Company matching contributions
- Date of participant's death

Otherwise, participants are 20% vested after the first year of service and vest an additional 20% each year until fully vested after 5 years of service.

- E. **Forfeitures** – Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company discretionary and non-discretionary match contributions or pay the Plan's administrative expenses. Forfeited non-vested accounts totaled \$59,569 and \$76,252 at December 31, 2021 and 2020, respectively. In 2021, \$447,000 of the forfeited non-vested accounts was used to reduce Company match contributions.
- F. **Notes receivable from participants** – Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance and may only have one outstanding loan at a time. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Loans are secured by the vested balance in the participant's account and bear interest at a fixed rate commensurate with prevailing market rates at the time the loan is made, as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.
- G. **Distribution of benefits** – On termination of service, hardship, retirement, death, election at age 59½ or termination of the Plan, a participant may elect to receive a lump sum payment not to exceed the value of their vested account balance. Subject to Plan provisions, a participant may also elect to receive installment distributions.
- H. **Plan termination** – Although the Company has not expressed any intention to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event the Plan is terminated, participants' accounts shall become 100% vested.

(2) Significant accounting policies

The significant accounting policies followed by the Plan are as follows:

Basis of accounting – The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Management's use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Actual results may differ from those estimates.

MICROCHIP TECHNOLOGY INCORPORATED

SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(2) **Significant accounting policies(continued)**

Investment valuation and income recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits – Benefit payments to participants are recorded when paid.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Administrative expenses – The Company pays certain administrative fees and expenses for the Plan. Participants are charged for loan set-up fees, loan maintenance fees, investment advisor fees, short-term trading fees, and other administrative fees.

Risks and uncertainties – The Plan provides for various investment fund options, which in turn invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events – The Plan's management has evaluated subsequent events through September 21 2022, which is the date the financial statements of the Plan were available to be issued.

(3) **Information certified by the Plan's trustee**

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Notes receivable from participants
- Interest and dividends
- Interest income on notes receivable from participants
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

MICROCHIP TECHNOLOGY INCORPORATED

NOTES TO FINANCIAL STATEMENTS

(4) Income tax status

The Plan is operating under a prototype plan sponsored by Fidelity. The Plan has received an opinion letter for the Internal Revenue Service dated February 16, 2017, stating that the Plan, as designed, is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt as of the financial statement dates. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

(5) Party-in-interest transactions

Certain Plan investments are a money market fund, shares of mutual funds, self-directed brokerage account, and a common/collective trust managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions represent party-in-interest transactions. During 2021, Fidelity paid an \$11,198 revenue credit to the Plan in accordance with the Trust Agreement. The revenue credit is included in the statement of changes in net assets available for benefits as a reduction of administrative expenses. Administrative fees paid to the trustee by the Plan amounted to \$619,508 for the year ended December 31, 2021.

The Company is the Plan sponsor and provides all discretionary and non-discretionary match contributions to the Plan; consequently, these transactions qualify as party-in-interest transactions.

(6) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the financial statements to the Form 5500 as of December 31:

(7) Fair value measurement

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or collaborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2021 and 2020.

Mutual funds and money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

Common/collective trust: Valued at the stated unit value, or the equivalent of NAV, which is based on the current fair values of the underlying assets of the fund and is a practical expedient for estimating the fair values of the investment. The common/collective trust has no unfunded commitments and can be redeemed daily with no redemption notice period or other redemption restrictions.

Self-directed brokerage account: The self-directed brokerage account consists of common stocks, mutual funds, and cash. Common stocks are stated at fair value, which is based on the closing price reported on the active market which the common stock is traded. Mutual funds are valued at the NAV of shares held by the Plan at year end, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

INDEPENDENT AUDITORS' REPORT

To the 401(k) Administrative Committee of

MICROCHIP TECHNOLOGY INCORPORATED SAVINGS PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed the audit of the financial statements of **Microchip Technology Incorporated Savings Plan** ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the 2021 financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets certified by Fidelity Management Trust Company, a qualified institution, agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by the qualified institution. In our report dated July 29, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MICROCHIP TECHNOLOGY INCORPORATED SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Description of the Plan

The following description of the **Microchip Technology Incorporated Savings Plan** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. **General** – The Plan is a defined contribution plan that covers all full time, domestic employees of Microchip Technology Inc. (the "Company") who are not subject to a collective bargaining agreement. Eligible employees of the Company may participate in the Plan after one month of service. The effective date of the Plan is March 31, 1989, as amended and restated on October 20, 2016, and it is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code ("IRC").
- B. **Contributions** – Participants may contribute 1% to 60% of their base earnings to the Plan up to the maximum allowed by the IRC Section 401(k) limits. Participant contributions under the IRC Section 401(k) were subject to a maximum of \$19,500 for the year ended December 31, 2021. Using a Roth 401(k) contribution option, participants may make after-tax contributions from 1% to 60% of their base earnings to the Plan up to the maximum allowed by the IRC as noted above. In addition, the Plan allows participants who have attained age 50 before the end of the Plan year to make additional catch-up contributions up to a maximum of \$6,500 for the year ended December 31, 2021. Participants may also contribute amounts representing distributions from other qualified plans as rollover contributions.

The Plan uses the Automatic Enrollment and Increase Program offered by Fidelity Management Trust Company. Under the program, all participants who become eligible to participate are automatically enrolled in the Plan with a 6% deferral rate, unless another rate is elected by the participant. Additionally, the deferral rate increases 1% each year until 13% is reached or until the participant makes a change to their elected deferral rate. Deferral contributions made under the Automatic Enrollment and Increase Program are deposited into one of the Fidelity Freedom funds based upon the projected retirement age of the participant, unless another fund allocation is elected by the participant.

The Company may contribute a discretionary match amount of a percentage of the participants' pre-tax contributions limited to a percentage of the participants' annual compensation, as determined each quarter by the Company's Board of Directors, and is allocated to each participant's account based on the deferral contribution made by the participant during the quarter. During 2021, the Board approved discretionary match amounts of 50%, 65% and 75% for quarters one, two, and three, respectively, of participant contributions up to 4% of the participant's annual compensation. An amendment was signed on November 11, 2021 to implement a non-discretionary match of 25% to be combined with any discretionary quarterly employer matching contributions approved by the Board. The change was applied retroactively for the fourth quarter of 2021. The Board approved a discretionary match amount of 50% for quarter four of participant contributions up to 6% of the participants' annual compensation, for a combined match of 75%. Plan participants determine how participant and employer contributions are invested within certain investment guidelines maintained by the Plan.

- C. **Participant accounts** – Each participant's account is credited with the participant's contributions, the Company's discretionary and non-discretionary match contribution, and an allocation of Plan earnings. Allocations of Plan earnings are determined by the percentage that a participant's account balance bears to the total of all participant account balances in such funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(1) Description of the Plan (continued)

- D. **Vesting** – Participants are immediately vested in their contributions plus actual earnings thereon, and such amounts are not forfeitable. At the earliest of the following dates, participants are fully vested as to the Company's discretionary and non-discretionary match contributions and earnings thereon:

- Date participant reaches age 65
- Date participant incurs a total disability as defined by the Plan
- Date of plan termination or elimination of Company matching contributions
- Date of participant's death

Otherwise, participants are 20% vested after the first year of service and vest an additional 20% each year until fully vested after 5 years of service.

- E. **Forfeitures** – Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company discretionary and non-discretionary match contributions or pay the Plan's administrative expenses. Forfeited non-vested accounts totaled \$59,569 and \$76,252 at December 31, 2021 and 2020, respectively. In 2021, \$447,000 of the forfeited non-vested accounts was used to reduce Company match contributions.
- F. **Notes receivable from participants** – Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance and may only have one outstanding loan at a time. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Loans are secured by the vested balance in the participant's account and bear interest at a fixed rate commensurate with prevailing market rates at the time the loan is made, as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.
- G. **Distribution of benefits** – On termination of service, hardship, retirement, death, election at age 59½ or termination of the Plan, a participant may elect to receive a lump sum payment not to exceed the value of their vested account balance. Subject to Plan provisions, a participant may also elect to receive installment distributions.
- H. **Plan termination** – Although the Company has not expressed any intention to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event the Plan is terminated, participants' accounts shall become 100% vested.

(2) Significant accounting policies

The significant accounting policies followed by the Plan are as follows:

Basis of accounting – The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Management's use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Actual results may differ from those estimates.

MICROCHIP TECHNOLOGY INCORPORATED

SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(2) Significant accounting policies(continued)

Investment valuation and income recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits – Benefit payments to participants are recorded when paid.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Administrative expenses – The Company pays certain administrative fees and expenses for the Plan. Participants are charged for loan set-up fees, loan maintenance fees, investment advisor fees, short-term trading fees, and other administrative fees.

Risks and uncertainties – The Plan provides for various investment fund options, which in turn invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events – The Plan's management has evaluated subsequent events through September 21, 2022, which is the date the financial statements of the Plan were available to be issued.

(3) Information certified by the Plan's trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Notes receivable from participants
- Interest and dividends
- Interest income on notes receivable from participants
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

MICROCHIP TECHNOLOGY INCORPORATED

SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

(4) Income tax status

The Plan is operating under a prototype plan sponsored by Fidelity. The Plan has received an opinion letter for the Internal Revenue Service dated February 16, 2017, stating that the Plan, as designed, is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt as of the financial statement dates. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

(5) Party-in-interest transactions

Certain Plan investments are a money market fund, shares of mutual funds, self-directed brokerage account, and a common/collective trust managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions represent party-in-interest transactions. During 2021, Fidelity paid an \$11,198 revenue credit to the Plan in accordance with the Trust Agreement. The revenue credit is included in the statement of changes in net assets available for benefits as a reduction of administrative expenses. Administrative fees paid to the trustee by the Plan amounted to \$619,508 for the year ended December 31, 2021.

The Company is the Plan sponsor and provides all discretionary and non-discretionary match contributions to the Plan; consequently, these transactions qualify as party-in-interest transactions.

(6) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the financial statements to the Form 5500 as of December 31:

	<u>2021</u>	<u>2020</u>

(7) Fair value measurement

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or collaborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2021 and 2020.

Mutual funds and money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

Common/collective trust: Valued at the stated unit value, or the equivalent of NAV, which is based on the current fair values of the underlying assets of the fund and is a practical expedient for estimating the fair values of the investment. The common/collective trust has no unfunded commitments and can be redeemed daily with no redemption notice period or other redemption restrictions.

Self-directed brokerage account: The self-directed brokerage account consists of common stocks, mutual funds, and cash. Common stocks are stated at fair value, which is based on the closing price reported on the active market which the common stock is traded. Mutual funds are valued at the NAV of shares held by the Plan at year end, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
