To the Trustees
Gershow Recycling Corporation 401(k) Profit Sharing Plan
Medford, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Gershow Recycling Corporation 401(k) Profit Sharing Plan Deferral Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section —

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Delinquent Participant Contributions for the year ended December 31, 2021 and of Assets (Held at End of Year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, have been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2020 Financial Statements

The 2020 financial statements of the Plan were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the predecessor auditor not to perform and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated September 20, 2021 indicated that *(a)* because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the 2020 financial statements and supplemental schedule**,** and *(b)* the form and content of the information included in the 2020 financial statements and supplemental schedule**,** other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1 - Description of Plan

Effective March 1, 1996, Gershow Recycling Corporation (the "Plan Sponsor") established the Gershow Recycling Corporation 401(k) Profit Sharing Plan (the "Plan") as a defined contribution plan for employees of Gershow Recycling Corporation and its participating employers (collectively, the "Company"). Participating employers include the following companies: Gershow Recycling of Brooklyn, Inc., S & I Industries Corp., Huntington Scrap Corporation, Gershow Recycling of Freeport, Inc., Gershow Recycling of Valley Stream, Inc., Gershow Recycling of Riverhead, Inc., Eastern Long Island Yacht Sales, Inc., and KEP Recycling Corporation.

Effective January 1, 2020, in accordance with the Bipartisan Budget Act of 2018, the Plan was amended to no longer require the Plan Sponsor to suspend elective deferrals for any hardship distributions made on or after January 1, 2020. Effective January 1, 2022, the Plan was restated to incorporate all amendments since the last restatement January 1, 2015.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was signed into law. The CARES Act contains several provisions that temporarily impact 401(k) type plans, such as the waiver of required minimum distributions for 2020. The Plan allows eligible individuals to receive COVID-19 relief available under the CARES Act in the form of coronavirus-related distributions and a delay in the due date for repayments for outstanding plan loans occurring during the period beginning on March 27, 2020, and ending on December 31, 2020, for one year as provided. The Plan has not been formally amended to incorporate these provisions into the Plan. The deadline for adopting these amendments is December 31, 2022.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a 401(k) defined contribution plan. All employees employed by a participating employer are eligible to participate in the Plan on any date following the completion of one year of service, defined as 1,000 hours of credited service, and the attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b. ***Contributions*** - Plan contributions consist of compensation reduction elections of participants (401(k) contributions) of up to 75% of gross compensation, as defined by the Plan, rollovers from other qualified plans, employer matching contributions, and employer discretionary profit-sharing contributions. Under the terms of the Plan, the Company will match 20% of the employee elective deferrals for eligible employees, not to exceed 3% of the participant's compensation, as defined by the Plan. In addition, under the terms of the Plan, the Company may determine to make discretionary profit-sharing contributions. For the year ended December 31, 2021, the Company elected not to make discretionary profit-sharing contributions. Contributions are subject to certain Internal Revenue Service limitations.

   All investments are participant-directed. Participants direct the investment of their contributions into a variety of pooled separate accounts and a collective investment trust as offered through John Hancock Life Insurance Company of New York ("John Hancock").

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contributions, the Company's contributions to the Plan on behalf of the participant, and allocations of Plan earnings or losses. Allocations of Plan earnings or losses are based upon actual performance of each participant's investment

elections or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their elective contributions, the rollover portion of their account balances, and the earnings thereon. Vesting in the Company's matching contribution and discretionary profit-sharing portion of their accounts plus earnings thereon is based on years of continuous credited service, according to a vesting schedule of 20% per year of credited service, beginning after the second full year of credited service, with an additional 20% vesting for each additional year of credited service. A participant is 100% vested in the employer matching and discretionary profit-sharing contributions and earnings thereon after six years of credited service, or upon attaining normal retirement age, or earlier, in the event of termination of employment due to disability or death.

e. ***Notes Receivable from Participants*** - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of: $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made; or 50% of their vested account balances, less current outstanding note balances. All notes, other than those used to purchase a principal residence, must be repaid within five years. Loans for principal residences must be repaid within 30 years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with interest rates being charged by local lenders, at inception, as determined by the plan administrator. Principal and interest are paid ratably through weekly payroll deductions over the term of the note, which generally will not exceed 60 months. At December 31, 2021, the notes bear interest at rates ranging from 5.25% to 7.50% and have scheduled maturities through November 2025.

   In accordance with the CARES Act, the maximum participant loan limit was temporarily increased to the lesser of $100,000 or 100% of the participant's vested account balance for qualified participants and participants were given the option to suspend loan repayments for up to one year. There were no CARES Act participant loans issued during the year ended December 31, 2021.

f. ***Payment of Benefits*** - On termination of service due to death, disability, or retirement, a participant whose vested balance exceeds $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or have the value applied to the purchase of an annuity, other than a life annuity. Participants whose vested benefits do not exceed $5,000 will receive a single lump-sum payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, a direct rollover to another qualified plan, or a direct rollover to an individual retirement account.

   In accordance with the CARES Act, qualified participants were permitted to request penalty-free distributions of up to $100,000 for qualifying coronavirus-related reasons. These reasons include the participant or the participant's spouse or dependent being diagnosed with COVID-19 and adverse financial consequences due to being quarantined, furloughed, laid off, having work hours reduced, or being unable to work due to lack of childcare due to COVID-19. There were no CARES Act distributions during the plan year ended December 31, 2021.

g. ***Plan Expenses*** - The Plan allows for third-party administrator expenses to be paid out of Plan assets and allocated to each participant based on his or her proportionate share of the Plan assets. However, specific direct expenses incurred by an individual participant shall be deducted from that participant's account only. In the event of a lump-sum distribution following termination, the participant's account will be reduced by a $100 processing fee, and if the participant's vested account is less than the processing fee, the balance of the account will be eliminated without a distribution to the participant. The Company has elected to absorb the remaining costs of the Plan.

h. ***Forfeited Accounts*** - The forfeited portion of nonvested accounts will be used either to reduce future employer contributions or to pay plan expenses. At December 31, 2021 and 2020, forfeited nonvested accounts totaled $0 for both years. During the year ended December 31, 2021, approximately $5,426 of

employer contributions were forfeited from participants nonvested accounts. The total amount forfeited during the year was used to reduce the employer match.

2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. ***Basis of Accounting*** - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

b. ***Estimates*** - The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

c. ***Investment Valuation and Income Recognition*** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and John Hancock. See Note 4 for a discussion of fair value measurements.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought or sold, as well as held during the year.

d. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a deemed distribution is recorded. During the year ended December 31, 2021, one participant ceased making loan repayments and, accordingly, loans in the amount of $2,059 were recorded as *deemed distributions* in the accompanying statement of changes in net assets available for benefits.

e. ***Payments of Benefits*** - Benefits are recorded when paid.

f. ***Expenses*** - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment-related expenses are included in *net appreciation in fair value of investments.*

g. ***Excess Contributions Payable*** - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2021 and 2020 excess contributions, amounting to $17,223 and $15,937 prior to March 15, 2022 and 2021, respectively.

3 - Information Certified by John Hancock Life Insurance Company (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, John Hancock Life Insurance Company of New York, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2021 and 2020, the statement of changes in net assets available for benefits for the year ended December 31, 2021 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2021.

4 - Fair Value Measurements

The Financial Accounting Standards Codification ("ASC"), 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Pooled Separate Accounts - Valued at NAV, as a practical expedient, based on the market value of the underlying investments. The NAV is not a publicly-quoted price in an active market. The pooled separate accounts are comprised of a wide variety of underlying investments as described below.

Collective Investment Trust - Valued at the NAV per share of the investment. The NAV, as provided by John Hancock, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions

to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth the Plan's investment assets at fair value as of December 31, 2021 and 2020:

	December 31, 2021	December 31, 2020
Pooled separate accounts	**$ 8,443,639**	$ 7,287,426
Collective investment trust	**315,949**	350,420
Investments Measured at NAV (A)	**$ 8,759,588**	$ 7,637,846

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The redemption notice period for the collective investment trust and pooled separate accounts is 30 days. Once eligible for redemption, these pooled separate accounts can be redeemed on a daily basis. There are no unfunded commitments or other redemption restrictions.

The following describes the investment strategies for investments measured at NAV, held by the Plan for the years ended December 31, 2021 and 2020:

Reliance MetLife Stable Value Fund - Plan's investment in a collective investment trust is entirely invested in Reliance MetLife Stable Value Fund Collective Investment Trust (the "Stable Value Fund"). This fund seeks to preserve principal and accumulated interest. The Trustee has investment authority to invest the fund's assets in varying types of securities to seek to achieve the fund's investment objective. The Investment Contract guarantees principal and accumulated interest to Participating Plans, subject to the terms of the Investment Contract. The Reliant MetLife Stable Value Fund is a pooled separate account that invests primarily in a diversified portfolio of high-quality, fixed income securities with a crediting rate subject to change daily. The value of the assets in the Reliance MetLife Stable Value Fund affects the rate of interest credited to the fund by the Investment Contract.

Hartford MidCap Fund - This fund seeks long-term growth of capital. The fund seeks its investment objective by investing primarily in stocks selected by the sub-adviser, Wellington Management Company LLP, on the basis of potential for capital appreciation. Under normal circumstances, the fund invests at least 80% of its assets in common stocks of mid-capitalization companies. The fund may invest up to 20% of its net assets in securities of foreign issuers and non-dollar securities. Wellington Management favors companies that it believes are high-quality. The key characteristics high-quality companies include a leadership position within an industry, a strong balance sheet, a high return on equity, and/or a strong management team. The Plan is no longer invested in this fund at December 31, 2021.

JH Lifestyle Balanced - Active Strategies - This fund seeks to achieve a balance between a high level of current income and growth of capital, with a greater emphasis on growth of capital. It invests approximately 40% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and approximately 60% of its assets in underlying portfolios that invest primarily in equity securities. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Second, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class. In the third step, an advanced statistical process is used to determine the optimal mix of managers. In the fourth and final step, the economic environment and

investment markets are continually monitored to determine if any changes are needed, and to keep the portfolio up to date and consistent with its investment policies and objectives.

John Hancock Disciplined Value Fund - This fund seeks long-term growth of capital. Robeco invests primarily in large cap companies with an emphasis on attractive valuation, focused internal research, and risk aversion. Robeco believes value opportunities are best identified through fundamental bottom-up research that is aided by quantitative tools. Stock selection is based on three characteristics: attractive valuation, sound business fundamentals, and improving business momentum. Their fundamental work incorporates the full menu of public filings, industry information, and management discussion, which in conjunction with their professional judgment and experience helps them formulate an assessment of each company's intrinsic value and its prospects for achieving it.

MFS Value Fund - This fund seeks capital appreciation. The fund focuses on investing the fund's assets in the stocks of companies that it believes are undervalued compared to their perceived worth (value companies). Value companies tend to have stock prices that are low relative to their earnings, dividends, assets, or other financial measures. The fund may invest the fund's assets in companies of any size. The fund primarily invests in companies with large capitalizations. The fund uses a bottom-up investment approach to buying and selling investments for the fund. Investments are selected primarily based on fundamental analysis of individual issuers and their potential in light of their financial condition, and market, economic, political, and regulatory conditions. Factors considered may include analysis of an issuer's earnings, cash flows, competitive position, and management ability. Quantitative models that systematically evaluate an issuer's valuation, price and earnings momentum, earnings quality, and other factors may also be considered.

Eaton Vance Atlanta Capital SMID-Cap Fund - This fund seeks companies that are in strong financial condition and that management believes are attractively valued relative to earnings and cash flow per share. The fund invests in companies with a demonstrated history of consistent, sustainable earnings growth, strong cash flow and high returns on capital determined by rigorous fundamental analysis of a company's financial trends, products and services, and other factors. By investing in quality small- to midsized stocks management believes to be undervalued, the fund has historically provided competitive long-term returns with less volatility than those typically associated with small- and midcap investing. The Plan is no longer invested in this fund at December 31, 2021.

EuroPacific Growth Fund - This fund seeks long-term growth of capital. The underlying fund's investment professionals seek to provide, in aggregate, a well-diversified and moderately aggressive portfolio through patient stock picking. Management tends to show strong conviction in their holdings and takes a long-term investment approach, often recognizing market contractions as buying opportunities. The fund invests in securities of growing companies based primarily in Europe and the Pacific Basin. Holdings may range from small firms to large corporations. Under normal market conditions, the portfolio will invest almost all its assets in securities of issuers based outside the United States. The portfolio may invest in securities of issuers based in developing countries.

JPMorgan MidCap Value Fund - This fund seeks capital appreciation. In constructing the portfolio, the investment manager uses a bottom-up approach to uncover companies with strong fundamentals. First, the universe is narrowed down to companies with a market cap range of $1 - $20 billion. Then quantitative screens and analyst research are used to identify stocks attractive to the manager. After the initial screening is complete, fundamental analysis is conducted to evaluate a company's business factors, management factors, and financial factors. In the final step, the team executes thorough valuation analysis on each stock. This process will lead to a portfolio that will consist of approximately 80-100 stocks, with the largest position typically at 5%.

JH Lifestyle Growth - Active Strategies - This fund seeks to achieve long-term growth of capital by primarily investing in assets in underlying portfolios that invest approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in equity securities and approximately 20% of its assets in portfolios that invest primarily in fixed-income securities. Current income is also a consideration. This asset allocation portfolio is

managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Second, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class. In the third step, an advanced statistical process is used to determine the optimal mix of managers. In the fourth and final step, the economic environment and investment markets are continually monitored to determine if any changes are needed, and to keep the portfolio up to date and consistent with its investment policies and objectives.

Oppenheimer Global Fund - This fund seeks capital appreciation. In selecting securities, the manager looks primarily for foreign and U.S. companies with high growth potential. He or she uses fundamental analysis of a company's financial statements, management structure, operations and product development, and considers factors affecting the industry of which the company is part. The portfolio manager also considers overall and relative economic conditions in the U.S. and foreign markets and seeks broad portfolio diversification in different countries. The manager is currently focused on companies that stand to benefit from global growth trends, businesses with strong competitive positions and high demand for their products or services, and cyclical opportunities in the business cycle and sectors or industries that may benefit from those opportunities. In applying these criteria, the manager considers the effect of worldwide trends on the growth of various business sectors. The trends, or “themes,” currently considered include the development of new technologies, corporate restructuring, the growth of mass affluence, and demographic changes.

JPMorgan Large Cap Growth Fund - The fund seeks to provide long-term capital appreciation. In managing the fund, the adviser employs a fundamental bottom-up approach that seeks to identify companies with positive price momentum and attractive fundamental dynamics. The adviser seeks structural disconnects which allow businesses to exceed market expectations. These disconnects may result from: demographic/cultural changes, technological advancements and/or regulatory changes. The adviser seeks to identify long-term imbalances in supply and demand. The adviser may sell a security for several reasons. A security may be sold due to a change in the original investment thesis, if market expectations exceed the company’s potential to deliver and/or due to balance sheet deterioration. Investments may also be sold if the adviser identifies a stock that it believes offers a better investment opportunity.

JH Lifestyle Conservative - Active Strategies - This fund seeks to achieve a high level of current income with some consideration given to growth of capital. It invests 80% of the portfolio’s assets in underlying portfolios that invest primarily in fixed-income securities and 20% of its assets in underlying portfolios that invest primarily in equity securities. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Second, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class.

Vanguard Short-Term Federal Fund - This fund seeks to provide current income while maintaining limited price volatility. This portfolio invests primarily in U.S. government agency securities, which are debt obligations issued or guaranteed by agencies or instrumentalities of the U.S. government. Such agency securities may not be backed by the full faith and credit of the U.S. government. The portfolio may also invest in U.S. Treasury securities, as well as repurchase agreements collateralized by U.S. Treasury or U.S. government agency securities. In an effort to minimize fluctuations in market value, this fund is expected to maintain a dollar-weighted average maturity between one and three years.

Fidelity Advisor Total Bond Fund - This fund seeks a high level of current income. The underlying fund normally invests 80% of assets in debt securities of all types and repurchase agreements for those securities. Uses the Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment-grade, high yield, and emerging market asset classes. Invests up to 20% of assets in lower-quality debt securities. Invests in domestic and foreign issuers across different asset classes, market sectors, and maturities.

T. Rowe Price Retirement 2015, 2020, 2025, 2030, 2035, and 2040 - Each fund seeks the highest total return over time consistent with an emphasis on both capital growth and income. The underlying fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund's allocation between T. Rowe Price stock and bond funds will change over time in relation to its target retirement date. The fund is managed based on the specific retirement year (target date) included in its name and assumes a retirement age of 65. The target date refers to the approximate year an investor in the fund would plan to retire and likely stop making new investments in the fund. The fund is designed for an investor who anticipates retiring at or about the target date and who plans to withdraw the value of the account in the fund gradually after retirement. This fund may not be appropriate for an investor who plans to retire on or near the target date, but at an age well before or after age 65. At the target date, the fund's allocation to stocks is anticipated to be approximately 55% of its assets. The fund's exposure to stocks will continue to decline until approximately 30 years after its target date, when its allocation to stocks will remain fixed at approximately 20% of its assets. The remainder will be invested in fixed income securities. The T.Rowe Price Retirement 2015 investment option became available during 2021.

JH Lifestyle Aggressive - Active Strategies - This fund seeks to achieve long-term growth of capital by investing its assets in underlying portfolios that invest primarily in equity securities. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Second, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class. In the third step, an advanced statistical process is used to determine the optimal mix of managers. In the fourth and final step, the economic environment and investment markets are continually monitored to determine if any changes are needed, and to keep the portfolio up to date and consistent with its investment policies and objectives.

TIAA-CREF Small-Cap Blend Index Fund - This fund seeks to provide long-term total return, mainly through capital appreciation. Under normal circumstances the fund invests at least 80% of its assets in equity securities included in its benchmark index. A small-cap equity security within the capitalization range of the companies included in the Russell 2000 Index at the time of purchase. The Russell 2000 Index measures the performance of the small-cap segment of the U.S. equity universe. The fund buys most, but not necessarily all, of the stocks in its benchmark index, and will attempt to closely match the overall investment characteristics of its benchmark index. For the purposes of the 80% investment policy, the term "assets" means net assets, plus the amount of any borrowings for investment purposes.

AB High Income Fund - This fund seeks to maximize total returns from price appreciation and income. The fund pursues income opportunities from government, corporate, emerging market and high-yield sources. It has the flexibility to invest in a broad range of fixed-income securities in both developed and emerging market countries. The fund's investments may include U.S. and non-U.S. corporate debt securities and sovereign debt securities. The fund may invest, without limitation, in either U.S. Dollar-denominated or non-U.S. Dollar-denominated fixed-income securities. The adviser selects securities for purchase or sale, based on its assessment of the securities' risk and return characteristics as well as the securities' impact on the overall risk and return characteristics of the fund. In making this assessment, the adviser takes into account various factors, including the credit quality and sensitivity to interest rates of the securities under consideration and of the fund's other holdings. The Plan is no longer invested in this fund at December 31, 2021.

JH Lifestyle Moderate - Active Strategies - This fund seeks to achieve a balance between a high level of current income and growth of capital, with a greater emphasis on income, by investing approximately 60% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 40% of its assets in portfolios that invest primarily in equity securities. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Second, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class. In the third step, an advanced statistical process is used to determine the optimal mix of managers. In the fourth and final step, the economic environment and investment markets are continually

monitored to determine if any changes are needed, and to keep the portfolio up to date and consistent with its investment policies and objectives.

U.S. Government Securities Fund - This fund seeks to provide a high level of current income and preservation of capital. The portfolio managers focus on securities that are guaranteed or sponsored by the U.S. government, including debt securities and mortgage-backed securities issued by federal agencies that are not backed by the full faith and credit of the U.S. government. Examples include mortgage-backed securities issued by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac"). American Funds' multiple portfolio counselor system allows each investment professional to implement his or her best investment ideas and helps to provide diversification to the overall portfolio.

T. Rowe Price Overseas Stock Fund - This fund seeks long-term growth of capital through investments in the common stocks of non-U.S. companies. The fund expects to invest substantially all of its assets outside the U.S and to diversify broadly among developed and, to a lesser extent, emerging countries throughout the world. The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in non-U.S. stock sand at least 65% of its net assets in stocks of large-cap companies.

DFA US Targeted Value Fund - This fund seeks long-term capital appreciation. The primary objective of the U.S. Targeted Value Portfolio is to capture long-term capital appreciation by attempting to capture the returns and diversification benefits of a broad cross-section of U.S. small value companies, on a market cap-weighted basis. The Portfolio generally invests in securities of U.S. companies whose markets capitalizations are smaller than the 500th larger company in the market universe. The market universe is comprised of companies listed on the New York Stock Exchange, American Stock Exchange, and NASDAQ National Market System. After identifying the aggregate market capitalization break, a value screen is applied to the universe. Securities are considered value stocks primarily because a company's shares have a high book value in relation to their market value (BtM). This BtM sort excludes firms with negative or zero book values. In assessing value, additional factors such as price to cash flow or price to earnings ratios may be considered, as well as economic conditions and developments in the issuer's industry. The criteria for assessing value are subject to change from time to time.

Fidelity Mid Cap Index Fund - This fund seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies. Normally investing at least 80% of assets in securities included in the Russel MidCap Index. Lending securities to earn income for the fund.

MFS Massachusetts Investors Fund - The fund seeks capital appreciation. MFS uses a bottom-up investment approach in buying and selling investments for the fund. Investments are selected primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, and market, economic, political, and regulatory conditions. Factors considered may include analysis of earnings, cash flows, competitive position, and management ability. Quantitative analysis of these and other factors may also be considered. The investment philosophy and process have remained the same since the MFS Massachusetts Investors Trust's inception in 1924.

Vanguard Total Bond Market Index Fund - This fund seeks to track the performance of a broad, market-weighted bond index. The fund employs an indexing investment approach designed to track the performance of the Barclays U.S. Aggregate Float Adjusted Index. This Index represents a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States – including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities – all with maturities of more than 1 year.

JPMorgan U.S. Equity Fund - This fund seeks to provide high total return from a portfolio of selected equity securities. In managing the fund, the adviser employs a three-step process that combines research, valuation and stock selection. The adviser takes an in-depth look at company prospects over a period as long as five years, which is designed to provide insight into a company's real growth potential. The research findings allow

the adviser to rank the companies in each sector group according to their relative value. On behalf of the fund, the adviser then buys and sells equity securities, using the research and valuation rankings as a basis. In general, the adviser buys equity securities that are identified as undervalued and considers selling them when they appear to be overvalued. Along with attractive valuation, the adviser often considers a number of other criteria: Catalysts that could trigger a rise in a stock's price, high potential reward compared to potential risk and temporary mispricings.

T. Rowe Price QM US Small-Cap Growth Fund - This fund seeks long-term growth of capital by investing primarily in common stocks of small growth companies. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in equity securities issued by small-cap U.S. growth companies. Small-cap growth companies are defined by the fund as those whose market capitalization, at the time of purchase, falls within the range of companies in the MSCI US Small Cap Growth Index. The addition of "QM" in the fund's name reflects the concept that the fund employs a "quantitative management" strategy relying on quantitative models developed by T. Rowe Price to help identify stocks that could be included in the portfolio. The fund seeks to invest in a broadly diversified portfolio of securities and the top 25 holdings will not, under normal circumstances constitute more than 50% of the fund's total assets. This broad diversification helps to minimize the effects of individual security selection on fund performance. The fund employs quantitative models developed by T. Rowe price to help identify stock that could be included in the portfolio. Based on these models and fundamental research, the portfolio is typically constructed in a "bottom up" manner which takes into consideration various stock characteristics such as projected earnings and sales growth rates, valuation, capital allocation, and earnings quality. We also consider portfolio risk characteristics in the process of portfolio construction. Sector allocations are generally in line with those of the MISC US Small Cap Growth Index, with occasional small overweight or underweights to a particular sector.

Vanguard Mid-Cap Value ETF - This fund seeks to track performance of the CRSP US Mid Cap Value Index that measures the investment return of mid-capitalization value stocks. Mid-Cap Value ETF is an exchange-traded share class of Vanguard Mid-Cap Value Index Fund, which employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Value Index, a broadly diversified index of value stocks of mid-size US companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighing in the index. The Plan is no longer invested in this fund at December 31, 2021.

Invesco Discovery Mid Cap Growth Fund – The fund seeks to provide capital appreciation. The fund mainly invests in common stocks of U.S. companies that the portfolio managers expect to have above-average growth rates. The fund seeks to invest in newer companies or in more established companies that are in the early growth phase of their business cycle, which is typically marked by above average growth rates. Under normal circumstances, the fund will invest at least 80% of its net in equity securities of mid-cap issuers. The fund defines mid-cap issuers as those issuers that are within the range of market capitalizations of the Russel Midcap Growth Index. The fund may invest up to 20%of its net assets in companies in other market capitalizations ranges. The fund invests primarily in U.S. companies but may also purchase securities of issuers in any country, including developed countries and emerging markets. The fund has no limits on the amount of its assets that can be invested in foreign securities. In selecting investments for the fund, the portfolio managers look for companies with high growth potential using a "bottom-up" stock selection process. The "bottom-up" approach focuses on fundamental analysis on individual issuers before considering the impact of overall economic, market, or industry trends. This approach includes analysis of a company's financial statements and management structure and consideration of the company's operations, product development, and its industry position. The portfolio managers currently focus on high growth companies that are characterized by industry leadership, market share growth, high caliber management teams, sustainable competitive advantages, and strong growth themes or innovative products or services. This investment option became available during 2021.

High Yield Fund – This fund seeks to realize an above average total return over a market cycle of three to five years, consistent with reasonable risk. The investment team relies on the ability to integrate superior fundamental credit research with accurate relative value analysis to drive performance in the High Yield strategy. Management utilizes both a top down and bottom up approach within their investment process.

Beginning with a top down approach, Western Asset will consider their economic assessments along with each credit analyst's industry insights. A strategy portfolio is then created by management, which outlines the risk profile versus the benchmark highlighting key over or underweights. Next, a bottom up approach is utilized, which takes into consideration both fundamental credit analysis and a relative value assessment for each security within the strategic portfolio in order to construct the final client portfolio. Sell discipline is primarily based on at least one of three factors: (i) a security meets or exceeds its relative target value, (II) the risk associated with holding the security no longer justifies the expected return, and (iii) there has been a relevant change to management's original premise that affects their fundamental vision. This investment option became available during 2021.

5 - Income Tax Status

The Internal Revenue Service ("IRS") determined and informed the Plan's trustees by an opinion letter dated June 30, 2020 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. This Plan was last amended and restated effective January 1, 2022. Plan management believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the value in their accounts.

7 - Party-in-Interest Transactions

Plan investments consist of a collective investment trust and pooled separate accounts managed by John Hancock, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the recordkeeper and the investment advisor for investment advisory, management and administration services amounted to $41,118 for the year ended December 31, 2021.

8 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are subject to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2021 may not necessarily be

indicative of amounts that could be realized in a current market exchange.

9 - Subsequent Events

The Company's management has evaluated subsequent events through September 22, 2022, the date the financial statements were available to be issued.
