Independent Auditors' Report

The Plan Administrator
Watson Electrical 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Watson Electrical 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for plan benefits as of December 31, 2021, and the related statement of changes in net assets available for plan benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Ascensus Trust Company as of December 31, 2021 and for the period from March 1, 2021 to December 31, 2021, and Branch Banking and Trust Company as of December 31, 2020 and for the period from January 1, 2021 to February 28, 2021, stating that the certified investment information, as described in note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Watson Electrical 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 4, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

WATSON ELECTRICAL 401(k) PLAN

Notes to Financial Statements

December 31, 2021 and 2020

(1) Description of Plan

The following description of the Watson Electrical 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is sponsored by Watson Electrical Construction Co., LLC (the "Company").

(a) Organization and Administration

The Plan is a defined contribution plan adopted March 1, 2003 covering substantially all full-time employees of the Company and members of the Company's parent, WECC Holdings, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Plan Administration

Members of management of the Company manage the Plan and among other duties, appoint the Plan trustee. Effective March 1, 2021, Ascensus Trust Company (the "Trustee") holds the assets of the Plan. Branch Banking and Trust Company previously held the assets of the Plan. Certain transaction-based fees, such as participant loan and benefits distribution processing fees, are paid from participants' accounts. Trustees' fees are also deducted from participants' accounts and are included in administrative expenses of the Plan. Certain other administrative costs of the Plan are absorbed by the Company.

(c) Participation

Employees are eligible to participate in the Plan upon attaining eighteen years of age and three months of employment. Employees who had eligible service with a related predecessor company were eligible to participate in the Plan upon its adoption. An employee must join the Plan on the first day of the month following satisfaction of eligibility requirements.

(d) Contributions

Plan participants may make pre-tax contributions up to 90% of their regular compensation as defined in the Plan agreement. As of October 2017, the Company will automatically withhold 4% (previously 2%) of compensation unless the participant elects a different percentage. These are considered regular contributions. Participants who have attained age 50 may also make pre-tax catch-up contributions to the Plan by completing special election forms. All participant contributions are subject to Internal Revenue Code 401(k) limitations. The Company may make discretionary matching and/or profit-sharing contributions. During 2021 and 2020, the Company made discretionary matching contributions equal to 50% of participant contributions. This matching contribution was limited to 3% of each participant's salary.

In addition, participants may make rollover contributions from other qualified plans to their account at any time during the Plan year.

(1) Description of Plan, Continued

(e) Participant Accounts

Participants' accounts are credited with their pre-tax contributions, Company discretionary matching and profit-sharing contributions and allocations of Plan earnings (losses). Income, gains and losses are allocated to participant accounts in the proportion that each account balance bears to the total of all accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

(f) Vesting

Participants are immediately vested in their pre-tax contributions. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of service. A participant is 100 percent vested after one year of credited service.

(g) Investments

The Plan provides that contributions and related earnings will be invested in the Plan's investment options as directed by each participant. As of December 31, 2021 and 2020, the Plan's funds were invested in a stable value fund and a series of varied risk mutual funds.

(h) Notes Receivable from Participants

Typically, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Beginning on March 27, 2020, under provisions of the Coronavirus Aid, Relief, and Economics Securities Act ("CARES Act"), impacted participants were permitted to borrow up to \$100,000 or 100% of their vested balance. These provisions expired on September 22, 2020. Notes receivable from participants are collateralized by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the date of issuance of the note. Generally, the term of the note may not exceed five years, and principal and interest is paid ratably through payroll deductions. Interest income on notes receivable from participants totaled \$6,064 and \$6,943, respectively, during 2021 and 2020.

(i) Distributions

A participant is entitled to distributions under the Plan upon reaching 59½ years of age; in the event of the death of the participant before retirement or other termination of employment; in the event of the participant's total or permanent disability; in the event that a participant's employment is terminated for any reason other than those stated above, or in the event of employee hardship, which must be proved satisfactorily to the Plan Committee. Participants are entitled to the value of their account determined on the valuation date coincident with or following retirement, death, disability, or termination. All distributions from the Plan are made in one lump sum payment, or installments for required minimum distributions only. Beginning on March 27, 2020, under provisions of the CARES Act, participants were permitted coronavirus-related distributions up to \$100,000 with no 10% additional tax penalty. These provisions expired on December 31, 2020.

(j) Forfeitures

Forfeitures relating to the non-vested portion of a terminated participant's employer contributions are retained by the Plan and used to first pay administrative expenses and second to reduce future employer contributions. Forfeitures of \$3,578 and \$13,892 were used to offset administrative fees of the Plan in 2021 and 2020, respectively. Forfeitures available to pay Plan expenses and reduce future employer contributions as of December 31, 2021 and 2020 totaled \$10,544 and \$71, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(c) Fair Value Measurements

For determining fair value measurements, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Management follows an established framework for measuring fair value. That framework provides a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are described below:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: one or more significant inputs or significant value drivers that are unobservable or based on market assumptions.

(d) Cash

The cash balance represents amounts held for those participants that elected to withdraw from the Plan and their investments have been liquidated, but they have not been paid as of December 31. Such amounts totaled \$0 as of December 31, 2021 and 2020.

(2) Summary of Significant Accounting Policies, Continued

(e) Investments

Investments in mutual funds managed by the Plan's trustee are valued on the last business day of the year based on the current market values (quoted prices in active markets) of the funds.

The stable value fund (the "Fund") is primarily invested in conventional and synthetic Guaranteed Investment Contracts ("GICs") and a money market fund. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Based on information provided by the Plan trustee, contract value for the Plan's investment in the Fund materially approximates fair value. The Fund is valued daily based on its net asset value for the Plan's account type, with such net asset value determined based on the value of the underlying investments, as described below.

Conventional GICs are typically issued by insurance companies or banks and are essentially nonmarketable deposits with the issuing entity. The issuer is contractually obligated to repay the principal and stated interest. The repayment of a conventional contract is the sole responsibility of the issuing entity. In the case of a synthetic GIC, the Fund purchases high quality debt obligations and enters into contractual arrangements (wrapper contracts) with third parties related to these debt obligations to provide a guarantee of contract value and specified interest.

The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

Individual assets of the synthetic investment contracts are generally valued as follows: domestic and foreign fixed income securities, futures and options are valued at fair value based on market values obtained from independent pricing services, quotes by dealers who are market makers in these securities, or by a methodology approved by the Fund trustee. Commercial paper and other investment securities with less than 60 days to maturity when purchased are valued at amortized cost, which approximates fair value. Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share/unit on valuation date. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes. The fair value of the wrapper contracts is determined using the market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of year-end.

(2) Summary of Significant Accounting Policies, Continued

(e) Investments, Continued

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest hereunder. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

As of December 31, 2021 and 2020, the contract value of the investment in the Fund was \$3,877,937 and \$4,453,197, respectively, which materially approximates fair value.

The Plan presents in the statements of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains or losses, the unrealized appreciation (depreciation) on investments held at year-end, and investment management fees. Purchases and sales of securities are recorded on a trade-date basis. Investment income is recognized when earned. There are no unfunded commitments as of December 31, 2021 and 2020.

(f) Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest.

(g) Excess Contributions

Amounts payable to participants totaling \$42,859 and \$3,286 as of December 31, 2021 and 2020, respectively, for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to employee contributions. The Plan distributed the 2021 and 2020 excess contributions to the applicable participants subsequent to year end.

(h) Benefit Payments

Benefits are recorded when paid.

(3) Certified Financial Data

The following is a summary of the Plan's financial information and data certified by the trustees as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of and for the years ended December 31, 2021 and 2020:

WATSON ELECTRICAL 401(k) PLAN

Notes to Financial Statements, Continued

December 31, 2021 and 2020

(5) Risks and Uncertainties

Financial instruments which potentially subject the Plan to concentrations of credit risk consist of investments in mutual funds and a stable value fund. The Plan has no formal policy regarding collateral to support the financial instruments subject to credit risk. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(6) Income Tax Status

The Plan trustee received a letter dated June 30, 2020, in which the Internal Revenue Service ("IRS") stated that the form of the prototype plan which the Company has adopted is acceptable under the applicable requirements of the Internal Revenue Code (the "Code") for use by employers for the benefit of their employees. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. No provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

(7) Related Party Transactions

As of December 31, 2021 and 2020, the Plan had contributions receivable from the Company of \$35,981 and \$33,917, respectively. Both amounts were paid to the Plan in January of the following year.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100 percent vested in their employer contributions.

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end, but not yet paid as of that date.

(10) Impact of COVID-19

In March 2020, the World Health Organization declared the global novel coronavirus disease 2019 (COVID-19) outbreak a pandemic. The extent of COVID-19's effect on the Plan's assets and investment performance will depend on future developments, including the duration, spread and intensity of the pandemic, and the impact on U.S. investment markets, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. As a result, it is not currently possible to ascertain the overall impact of COVID-19 on the Plan's investments, net assets available for plan benefits, and changes in net assets available for plan benefits.

(11) Subsequent Events

Economic uncertainties have arisen that have resulted in significant volatility in the U.S. investment markets, resulting in a decline in the value of the Plan's investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.
