Independent Auditor's Report

To the Plan Administrator of the
Sekisui Specialty Chemicals 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Sekisui Specialty Chemicals 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter –Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain

additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Sekisui Specialty Chemicals 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Sekisui Specialty Chemicals 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan designed to offer eligible employees with systematic regular savings and tax advantaged, long-term savings for retirement. The Plan is subject to the provisions of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and the Internal Revenue Code (“IRC”), as amended.

The Plan’s investments are participant directed and participation in the Plan by employees is voluntary. Participants may allocate their accounts to any of the investment options provided by the Plan in whole percentage increments. Investment options have varying degrees of risk and rates of return. Participants may refer to the individual prospectus of the investment funds offered by the Plan for more information.

The Plan is designed to be a “Safe Harbor” 401(k) plan. The Plan contains an automatic contribution arrangement.

Plan Administration and Custodians

Sekisui Specialty Chemicals America (the “Company”) is responsible for the administration and operation of the Plan. Empower Retirement, LLC and Reliance Trust Company (the “Custodians”), are responsible for the custody and management of the Plan’s assets and provide record keeping and administrative services to the Plan.

Eligibility

Participants become eligible to make elective salary deferrals immediately upon date of employment. Employees are eligible to make before-tax and after-tax contributions and receive matching contributions as of the first entry date following the employment date. Eligible employees exclude leased employees and independent contractors or an employee of an independent contractor.

Contributions

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless the participant affirmatively elects otherwise. Automatically enrolled participants have their deferral rate set as a before-tax contribution of 3% of that participant’s eligible annual compensation. The percentage will increase by 1% annually each year thereafter until this percentage amount is equal to 6%. The participant may elect a different amount equal to a whole percentage amount from 2% to 80% not to exceed the annual limitation under IRC section 402(g) (\$19,500 for 2021). The Plan also permits participants to make after-tax contributions equal to a whole percentage amount of the participant’s eligible annual compensation from 2% to 80%. The combined total of the before-tax and after-tax contributions cannot exceed the 80% maximum. Participants who have attained the age of 50 before the close of the Plan year may make an additional before-tax catch-up contribution of up to \$6,500 for 2021.

Sekisui Specialty Chemicals 401(k) Plan

Notes to Financial Statements

Employer Contributions

The Company's matching contributions are in amounts equal to 100% of the participant's before-tax and voluntary after-tax contributions up to 5% of the participant's eligible compensation. An additional discretionary contribution of 5% of the participant's eligible annual compensation was also made by the employer for the year ended December 31, 2021. Discretionary employer contributions totaled \$1,004,928 for the year ended December 31, 2021.

Participant Accounts

A separate account is maintained for each of the Plan's participants to reflect the participant's contributions and related matching and discretionary contributions from the employer, as well as the participant's investment income or loss and any related administrative expenses. Allocations of income or loss, where applicable, are based on the proportion that each participant's selected investment balances bear to the respective fund balances in the investment account of the Plan. Allocations of administrative expenses, if any, are based upon the proportion that each participant's account balance bears to the total of all participants. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting

Participant contributions and actual earnings thereon are fully vested at all times. Vesting of employer contributions and actual earnings thereon are fully vested at all times. The Company's additional discretionary 5% contribution becomes vested based upon the participant's years of service with the Company as listed below:

Years of Service	Vesting Percentage
less than 3	0%
3 or more	100%

The Company's additional discretionary 5% contributions become 100% vested after three years of service in which 1,000 hours or more of service have been rendered by the participant annually. Upon a participant's full and permanent disability, death or attainment of age 65 while an employee of the Company, the participant becomes fully vested in his or her additional 5% discretionary employer contributions.

Forfeitures

Participants who terminate employment prior to being fully vested in the Company's additional non-elective 5% contributions forfeit non-vested amounts. At the Company's discretion, amounts forfeited may first be used to pay for the Plan's administrative expenses and then to fund future Company contributions to the Plan. During the Plan year ended December 31, 2021, the Company had forfeitures of \$22,857, which was applied to reduce administrative expenses. As of December 31, 2021, there were no unallocated forfeitures.

Sekisui Specialty Chemicals 401(k) Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance, reduced by any outstanding loan balance, or \$50,000. Each participant is limited to two outstanding loans at a time. The loans are collateralized by the respective participant's account balance.

Repayments of the loan balance, plus interest, are made bi-weekly through regular payroll deductions, not to exceed five years, unless the loan was obtained to purchase a participant's principal residence, in which case, repayment may be up to 15 years. As of December 31, 2021, interest rates on outstanding loans ranged from 4.25% to 6.50% with various dates of maturity through 2035.

Benefit Payments to Participants

Withdrawals from the Plan are governed by applicable IRC regulations and the provisions of ERISA. Penalties for withdrawals may apply in certain instances. Plan participants who terminate their participation in the Plan for any reason are generally entitled to receive their vested portion of their account in the form of a lump sum payment which the participant may elect to rollover to another qualified retirement plan (a "Direct Rollover"). Upon attaining the age of 59½ the participant may, while still employed by the Company, request a withdrawal of all or any of the part of the participant's vested account balance.

Hardship Withdrawals

Upon demonstration of immediate and heavy financial need, as defined by the Plan, hardship withdrawals are allowed from the participant's vested account balance.

Administrative Expenses

The Plan directly pays for substantially all expenses of maintaining the Plan, unless paid by the Company.

Termination of the Plan

While the Company has not expressed any intent to discontinue the Plan, it may, by action of the Board of Directors of the Company, terminate the Plan. In the event the Plan is terminated, the participants become 100% vested in their account balances.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Sekisui Specialty Chemicals 401(k) Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. The statement of changes in net assets available for benefits include net appreciation which represents the unrealized appreciation/depreciation for the year on investments held at year-end and realized appreciation/depreciation on investments sold during the year. Dividend income is recorded on the ex-dividend date. Interest income from other investments is recorded as earned on the accrual basis.

Fully Benefit-Responsive Investment Contracts

Investments in fully benefit-responsive guaranteed investment contracts are stated at contract value. The fund invests primarily in investment contracts such as guaranteed investment contracts ("GICs") and enters into wrapper contracts with underlying securities to create synthetic GICs. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting interest rate established under the contract, less any adjustments for withdrawals and any applicable administrative expenses. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document. There was no allowance at December 31, 2021 or 2020 as the loans are fully collateralized by the participants' accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Contributions and Contribution Receivables

Contributions are recorded under the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the Plan from the participants and the Company that have not been included in the Plan's investments at year end. Contribution receivables are recorded at cost, which approximates their fair value. Contribution receivables were \$1,004,928 and \$904,329 at December 31, 2021 and 2020, respectively.

Benefit Payments to Participants

Benefits paid to participants are recorded when paid.

3. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company as of December 31, 2021 and 2020. The net asset value (“NAV”) of the fund is based on the market value of its underlying investments. The fund is fully benefit-responsive; therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. There are no reserves against the fund value for credit risk of the fund issuer or otherwise. The objective of the fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology. The fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The fund can be redeemed daily with a 30-day notice period and as of December 31, 2021 and 2020, there were no unfunded commitments.

4. Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan’s independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

5. Fair Value Measurements

Accounting Standards Codification (“ASC”) 820, “Fair Value Measurements and Disclosures”, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value measurement

Level 1 - unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - quoted market prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means;

Level 3 - unobservable inputs.

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

Mutual Funds

Mutual funds are investments registered under the Investment Company Act of 1940. The fair market value of the fund is based on its calculated NAV at the close of business of the appropriate exchange, considering the value of the fund assets at that time. The values of the assets are generally based on market quotations or official closing prices. The fair market value of the funds as of December 31, 2021 is based on the fund's NAV, which is the price to sell one share of the fund. The NAV is readily available on the appropriate exchange. Mutual funds are classified as Level 1.

Common Collective Trusts

Investments in common collective trusts are valued at the net asset values of units held by the Plan as reported by the investment manager of the fund. The net asset values are based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is not quoted on any market but is used as a practical expedient to estimate fair value. The underlying assets are based on the fair value of the listed securities or upon pricing from observable market information in a non-active market as determined by the investment account manager.

Notes to Financial Statements

Guaranteed Interest Contracts

The guaranteed interest contract is valued using a discounted cash flow model that uses assumptions and market data as inputs. The fund is stated at contract value as of December 31, 2021 and 2020.

The fixed account meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. If the contract is fully or partially terminated, amounts invested in the fixed account may be subject to a market value adjustment based upon a formula contained in the contract. The Plan administrator has not expressed any intention to fully or partially terminate the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021.

Investments at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,475,396	\$ -	\$ -	\$ 14,475,396

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

6. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 23, 2012 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the date of the opinion letter, the Company believes that the Plan is currently designed and being operated in accordance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

7. Related-Party Transactions

Certain Plan investments are managed by the Custodian. Also, the Plan Sponsor pays certain fees on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

8. Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general are exposed to volatility and various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts recorded in the statements of net assets available for benefits and changes therein.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the accompanying statements of net assets available for benefits to the Form 5500:

<i>December 31,</i>	2021	2020
Net assets available for benefits per the financial statements	\$ 47,674,191	\$ 41,691,242
Current year employer contribution receivable	(1,004,928)	(904,329)
Net assets available for benefits per Form 5500	\$ 46,669,263	\$ 40,786,913

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the net income per the Form 5500:

<i>December 31,</i>	2021
Net increase in net assets available for benefits per the financial statements	\$ 5,982,949
Less: Current year employer contribution receivable	(1,004,928)
Add: Prior year employer contribution receivable	904,329
Net income per Form 5500	\$ 5,882,350

10. Subsequent Events

The Plan has evaluated subsequent transactions and events through September 15, 2022, the date the financial statements were available to be issued.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation (“EIC”) Statement

Mutual fund investments with a retirement plan (whether held directly or indirectly through a separate investment account) can have soft dollar arrangements pursuant to which the investment advisor or sub-advisor of the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services. The Securities and Exchange Act of 1934 contains guidance regarding the use of soft dollar arrangements.

For plans that invest directly or indirectly in the MassMutual Funds, soft dollar compensation is disclosed on the Schedule C and the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, a Schedule C Soft Dollar Compensation Disclosure Attachment is provided and should be filed along with the Form 5500.

For additional information regarding soft dollar compensation, refer to the respective mutual fund’s Statement of Additional Information (“SAI”) for details regarding brokerage allocation and other practices.
