To the Trustees
Cornerstone Controls, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Cornerstone Controls, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CORNERSTONE CONTROLS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

1. Plan description

The following description of the Cornerstone Controls, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Cornerstone Controls, Inc. (the Company) established the Plan effective January 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Internal Revenue Code (IRC) Section 4975(e)(7) and the regulations thereunder, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company. Horizon Trust & Investment Management (Horizon) was the Plan's trustee through September 30, 2021 when GreatBanc Trust Company became the Plan's trustee.

In December 2015, the Plan purchased 100% (500,000 shares) of the Company's common stock for an aggregate purchase price of $46,805,000. The purchase of the shares was funded by a combination of proceeds from a bank note and a subordinated note to the Company's former owner. As the Company assumed the obligation to repay both the bank note and subordinated note, the Plan issued a note payable to the Company (Note 7). As the Plan makes payments on the loan, an appropriate percentage of stock will be allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The note payable to the Company is collateralized by the unallocated shares of common stock. Once the common shares are allocated to participants in accordance with the terms of the ESOP, the Company has no rights against the allocated shares. Accordingly, the financial statements of the Plan as of December 31, 2021 and 2020 and for the year ended December 31, 2021, present separately the assets and liabilities and changes therein pertaining to:

- the accounts of employees with vested rights in allocated common stock (allocated), and
- common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, provided that they have worked at least 1,000 hours during such plan year and are at least 18 years of age. Participants who do not have at least 1,000 hours of service during such plan year, or are not employed on the last working day of a plan year, are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company has elected to make contributions in cash to the Plan which, when aggregated with the Plan's dividends, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Participants are fully vested in their account after six years of credited service, vesting 20% per year, beginning in year two. A participant is fully vested upon reaching normal retirement age at or prior to termination, or upon death or disability.

Forfeited accounts

Plan forfeitures are allocated to each participant's account based upon the relationship of the participant's eligible compensation to total eligible compensation. Forfeitures allocated to participants during the plan year ending December 31, 2021 totaled $15,412. There were no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2021 and 2020.

Administrative expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or the Company. The Company paid these expenses for the year ended December 31, 2021.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of service in the Plan may elect to diversify a portion of their account by transferring the diversified amount to their account balance maintained in the Cornerstone Controls, Inc. 401(k) Plan. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify 25% of the total number of shares of employer securities as of the end of the current plan year. In the sixth year, the percentage changes to 50%. The election to diversify is made within 90 days of year end.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to plan provisions. Upon termination of the Plan, the Trust will continue to be administered until complete distribution has been made to the participants and other trustees, as soon as administratively feasible.

Payment of benefits

On termination of service due to death, disability or retirement, a participant's balance will be distributed in substantially equal installments over a 5-year period (unless the participant elects a longer period) starting within a year of the close of the plan year in which the event occurred. On termination due to reasons other than death, disability or retirement, distribution will be made to the terminated participant in substantially equal installments over a 5-year period, starting within an administratively reasonable time after the earlier of: (a) the close of the fifth plan year following the plan year after termination or (b) the close of the plan year following the plan year in which the participant attains age 65 (unless a longer period is elected by the participant). If a participant's account balance exceeds $1,165,000, the 5-year period will be extended by an additional year for each $230,000 that the participant's account balance exceeds $1,165,000. If the vested amount does not exceed $5,000, the administrator will cash-out the participant without their consent. If a terminated participant is reemployed by the Company as of the last day of the fifth plan year following the plan year the participant was terminated, distribution will be postponed until the participant is otherwise entitled to a distribution under the Plan.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the independent valuation firm. See Note 6 for discussion of fair value measurements.

The common stock of the Company is valued annually by an independent appraiser. The fair value at December 31, 2021 and 2020 was $104.80 and $85.00 per share, respectively. For purposes of determining basis for realized and unrealized gains and losses, fair value at the beginning of the period is used.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Risks and uncertainties

The plan investments consist primarily of the sponsor company common stock, which is exposed to various risks such as interest rate, credit and overall market volatility risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets (Deficit) Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan invests in Company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, to date, all administrative expenses of the Plan have been paid for by the Company.

4. Tax status

The Plan has a determination letter from the IRS dated July 26, 2017, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended and restated since being submitted to the IRS, however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Investments

The Plan's investment in sponsor company common stock, at December 31, is presented in the following table:

	2021		2020	
	Allocated	Unallocated	Allocated	Unallocated
Cornerstone Controls, Inc. Company common stock:				
Number of shares	$ 206,573	293,427	194,347	305,653
Cost	$ 19,337,325	$ 27,467,675	$ 18,192,839	$ 28,612,161
Estimated fair value	$ 21,648,880	$ 30,751,120	$ 16,519,509	$ 25,980,491

6. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Sponsor company common stock is valued at the fair value based upon the independent appraisal. This appraisal was based upon the discounted cash flow method, consistent with prior years. In addition, the appraiser used the guideline public company method as a reasonableness check. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and fair value of the Company's assets and liabilities. Unobservable inputs include EBITDA, net income, weighted average cost of capital, discount rate and lack of marketability discount. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process of the sponsor company common stock involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management reviews in detail, discusses, and approves.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020.

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	$ -	$ -	$ 52,400,000	$ 52,400,000
Investments at fair value	$ -	$ -	$ 52,400,000	$ 52,400,000

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	$ -	$ -	$ 42,500,000	$ 42,500,000
Investments at fair value	$ -	$ -	$ 42,500,000	$ 42,500,000

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2021:

	Investment in sponsor company common stock
Balance, beginning of year	$ 42,500,000
Unrealized appreciation in estimated fair value	9,900,000
Balance, end of year	$ 52,400,000
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 9,900,000

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets (Deficit) Available for Benefits.

7. Loan payable

As stated in Note 1, the Plan entered into a $46,805,000 term loan agreement with the Company. The proceeds of this loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments plus all future years' principal and interest payments. This resulted in 12,226 shares being released and allocated for the year ended December 31, 2021.

The agreement provides for the loan to be repaid over 30 years. The loan bears interest at 2.61%. The loan payable as of December 31, 2021 and 2020 was $26,212,337 and $26,991,338, respectively.

Annual maturities of the loan payable for the next five years are as follows:

Year ending December 31	
2022	$ 799,333
2023	820,196
2024	841,603
2025	863,568
2026	886,108
Thereafter	22,001,529
	$ 26,212,337

8. Reportable transactions

No reportable transactions were noted in 2021 or 2020.

9. Fidelity bonding requirements

The Plan was covered by a $1,000,000 fidelity bond during 2021 and 2020.

10. Reconciliation of financial statements to Form 5500

The following is a reconciliation of additions and deductions per the financial statements to the Form 5500:

	2021
Additions per financial statements	$ 12,763,459
