We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

401k Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2021 and 2020

1. Description of Plan

The following description of the Western News&Info, Inc. (Company) 401k Profit Sharing Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who are not represented by a bargaining unit which has bargained for retirement benefits. Employees become eligible on the January 1 or July 1 following the completion of six months of service in which an employee has reached 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The benefits provided under the Plan are not insured by the Pension Benefit Guaranty Corporation.

Contributions

Participants may elect to make pretax contributions to the plan up to the lesser of 75% of their compensation or the maximum allowed under federal law, not to exceed \$19,500 for both 2021 and 2020, respectively. Participants age 50 and over were allowed to contribute up to \$25,500 for both 2021 and 2020, respectively. Contributions in excess of 5% of compensation are not subject to the employer matching contribution.

The employer may contribute to the Plan, from current or accumulated earnings, a matching contribution equal to not more than 40% of the participant's first 5% of compensation for the Plan year. For 2021 and 2020, the Company elected to contribute 20%. The Company may also contribute an additional discretionary amount as determined by its board of directors up to the maximum amount allowed for income tax purposes. No additional discretionary amounts were contributed for 2021 or 2020.

Notes to Financial Statements (continued)

Years Ended December 31, 2021 and 2020

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Administration

The Plan administrator is Western News&Info, Inc. The administrator has authority, responsibility, and control over the management, administration, and operation of the Plan. The Company has engaged certain professional firms, which specialize in plan administration, to assist with the administrative duties. Expenses pertaining to the administration of the Plan are charged against forfeitures to the extent available and remaining expenses are paid by the Plan.

Vesting

Participants are immediately vested in their elective contributions plus the actual earnings on these accounts. Vesting in the remainder of their accounts is determined under the following schedule based on years of continuous service.

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Participants will be 100% vested if they retire after reaching normal retirement age, become disabled, or die while they are a participant in the Plan, regardless of length of service.

401k Profit Sharing Plan

Notes to Financial Statements (continued)

Years Ended December 31, 2021 and 2020

1. Description of Plan (continued)

If the aggregate of the accounts of key employees exceeds 60% of the assets held under the Plan, the Plan would become a “Top Heavy Plan”. Participants would vest in accordance with the above schedule in the Top Heavy Plan; however, the plan must make a minimum contribution on behalf of each “Non Key” employee, which is equal to the lesser of:

- a) 3% of compensation, or
- b) the percentage allocated (including salary deferrals) to the Key Employees.

Payment of Benefits

On termination of service due to death, disability or retirement, participants may elect to receive their benefits as a single lump-sum payment, or by direct rollover to an eligible retirement plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

A participant's unvested portion of Company contributions, if any, will be forfeited upon termination and will be used to reduce future Company contributions, or reduce administrative expenses, as determined by the Company. Forfeitures of profit sharing contributions that are not used to pay Plan expenses are reallocated as an additional employer contribution. The unallocated forfeiture balance at December 31, 2021 and 2020 was \$27,413 and \$36,216, respectively. During 2021 and 2020, plan participants forfeited \$2,818 and \$3,508, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes to Financial Statements (continued)

Years Ended December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions for the 2021 or 2020 plan year.

Payment of Benefits

Benefits are recorded when requested for payment or transfer to another plan by the participant.

Notes to Financial Statements (continued)

Years Ended December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Operating Expenses

The plan sponsor pays for certain expenses of maintaining the Plan, such as the cost of the annual audit, with the remainder of expenses paid from Plan assets. Expenses that are paid by the plan sponsor are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Date of Management's Review

In accordance with ASC 855, the Company evaluated subsequent events through September 26, 2022, the date these financial statements were available to be issued.

3. Investments

The Plan's investments (including realized gains and losses on investments sold during the year, dividends, and unrealized appreciation and depreciation on investments held during the year) increased in value \$668,704 during 2021 and increased in value \$822,813 during 2020. All of these investments consisted of mutual funds.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated May 12, 1995 that the Plan and related trust have been designed in accordance with applicable sections of the Internal Revenue Code (IRC). Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. No provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Unallocated Assets

There were no unallocated liabilities (accrued receivables less accrued benefits, refunds and expenses) at 2021. There were \$8,618 of unallocated liabilities at December 31, 2020. A reconciliation of assets allocated to participant accounts to net assets available for benefits is as follows:

Fidelity Investments	\$ 6,531,773	\$ 6,665,494

7. Benefits Allocated to Terminated Participants

Net assets available for benefits at December 31, 2021 and 2020 include \$1,520,111 and \$1,193,376 respectively, allocated to the accounts of persons who as of, or prior to, that date had terminated employment with the Company, but had not withdrawn from participating in the earnings of the Plan. These benefits are considered payable when the participants request distributions from the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests in funds which invest in securities of foreign countries, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those securities of comparable U.S. companies.

9. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

9. Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
---------	--

Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: a. Quoted prices for similar assets or liabilities in active markets b. Quoted prices for identical or similar assets or liabilities in inactive markets c. Inputs other than quoted prices that are observable for the asset or liability d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
---------	---

Level 3	Inputs that are unobservable inputs for the asset or liability.
---------	---

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021, and 2020.

1. Mutual funds. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. There have been no changes in the methodologies used at December 31, 2021 and 2020.

9. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021, and 2020.

Pooled separate accounts: Investments in pooled separate accounts held by the Plan Custodian are reported at their fair value. The fair values of these investments are based upon the reported net assets value (NAV) of the underlying mutual funds and non-registered collective investment funds.

In accordance with Subtopic 820-10, the pooled separate accounts have not been classified in the fair value hierarchy since they are measured at net asset value per share (or its equivalent).

10. Related-Party Transactions and Party-in-Interest Transactions

The Plan is administered by the Company. Plan Trustees are Company officials. Certain administrative expenses covered by the Plan have been paid by the Company. Management is not bound to pay such expenses in the future.

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions as defined by ERISA. Any transactions involving these investments are on the open market at fair value as outlined in Note 2. Consequently, such transactions are permitted under provisions of the Plan and are exempt from the prohibition of party in interest transactions under ERISA.
