Independent Auditor's Report

To the 401(k) Committee
Carollo Engineers, Inc. 401(k) Profit Sharing Plan
Phoenix, Arizona

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Carollo Engineers, Inc. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520. 103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520. 103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Profit Sharing Plan**

Notes to the Financial Statements

1. Description of the Plan

The following description of the Carollo Engineers, Inc. 401(k) Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the comprehensive plan document for a more complete description of the Plan’s provisions.

General

The Plan was established effective July 1, 1984, by Carollo Engineers, Inc. (“Carollo”, the “Company” or “Plan Sponsor”) and was amended and restated effective October 25, 2021. The Plan is a contributory defined contribution plan covering all eligible employees of the Company, and certain participating related employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Trustee and Administration of the Plan

The Trustee and recordkeeper of the Plan is Fidelity Management Trust Company (“FMTTC” or “Trustee”). The administrator of the Plan is the Company. The Trustee holds all assets of the Plan in accordance with the service provider contract with the Company. The Plan’s 401(k) Committee is responsible for oversight of the Plan, including determining the appropriateness of the Plan’s investment offerings and monitors investment performance.

Eligibility

Employees must be 18 years of age or older to participate in the Plan. Eligible employees can participate in the Plan immediately upon being hired. All employees are eligible to participate unless they are covered by a collective bargaining agreement, leased employees, and certain nonresident aliens, as defined.

Contributions

Each year, participants may contribute up to 95% of pre-tax annual compensation, as defined. Salary deferral agreements may be made, terminated or changed according to procedures and limitations set up by the Plan administrator and the Plan document. The Plan also allows for after-tax and Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation, with increases of 1% each year thereafter to a maximum of 10%. Participants may elect to not participate in the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

**Carollo Engineers, Inc. 401(k)
Profit Sharing Plan**

Notes to the Financial Statements

The Company has elected to make safe harbor matching contributions of 100% of the first 1% of eligible compensation that a participant contributes to the Plan and 50% of the next 5% of eligible compensation that a participant contributes to the Plan (the "Safe Harbor Matching Contribution"), subject to IRC limitations. The Safe Harbor Matching Contribution for each participant is made to the same investment funds to which the participant's deferred contributions are made. All investments are participant directed.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance, or \$50,000. Loans bear a reasonable rate of interest (prime rate plus 1% at the date of approval) and are secured by the participant's vested account balance. The maximum number of loans outstanding at any one time is two. Loans are repaid through payroll deductions and have a maximum repayment term of five years, unless the loan is for a purchase of a principal residence, in which case the repayment period shall be no more than 15 years. Participant loans with no payments received for 6 months are classified as in default and are treated as a taxable distribution from the Plan. As of December 31, 2021, the loans outstanding had interest rates of 4.25% to 6.5%, maturing on various dates through 2035. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

Participants who terminate their employment prior to the completion of the minimum number of applicable years of service forfeit their unvested employer contributions. As of December 31, 2021 and 2020, forfeitures included in Plan assets totaled \$15,609 and \$10,318, respectively. Forfeited balances are made available first to reinstate previously forfeited account balances and second to reduce the employer matching contributions or to pay administrative expenses. During the year ended December 31, 2021, \$64,123 and \$6,131 of forfeitures were used to reduce employer matching contributions and administrative fees, respectively.

**Carollo Engineers, Inc. 401(k)
Profit Sharing Plan**

Notes to the Financial Statements

Payment of Benefits

Participants are eligible to receive a lump sum distribution of their vested account balance upon termination of employment, retirement, disability or death. A participant or beneficiary may elect to (a) receive the lump sum amount directly, or (b) roll over the value into another qualified plan or Individual Retirement Account ("IRA"). If, upon termination of employment, the value of the vested portion of a participant's account is \$1,000 or less, it will automatically be distributed as soon as administratively feasible. For participants with account balances in excess of \$1,000, no distribution will occur until a withdrawal request is completed. Participants with account balances in excess of \$1,000, in addition to either a lump sum or direct rollover, may choose to receive installments, request a partial withdrawal, or defer receiving payments until age 70 ½.

In-service withdrawals from a participant's vested account balance are permitted on attainment of age 59 ½ or in circumstances of financial hardship, in accordance with provisions specified in the Plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2021, and 2020, no allowance for credit losses has been recorded. If a participant ceases to make loan payments beyond the applicable cure period and the loan is deemed a distribution, based on the terms of the loan document, the participant's loan balance is reduced, and a benefit payment is recorded in the financial statements in the year the determination was made.

**Carollo Engineers, Inc. 401(k)
Profit Sharing Plan**

Notes to the Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to certain participant transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments and are allocated to participants' accounts based on a specified basis point per investment through the investments' earnings. Administrative expenses paid by the Plan totaled \$136,800 for the year ended December 31, 2021.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

3. Investments and Fair Value Measurements

FASB ASC 820, *Fair Value Measurement* ("ASC 820"), provides the framework for measuring fair value, which includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Carollo Engineers, Inc. 401(k)
Profit Sharing Plan**

Notes to the Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Mutual Funds (Registered Investment Companies)

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-Directed Brokerage Account

Self-directed brokerage account investments are valued at the closing price reported on the active market on which the individual securities are traded.

Stable Value Fund

The stable value fund is a commingled pool managed by FMTC that invests in a variety of investment contracts such as traditional guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and other investment products with similar characteristics. Indirect investments in GICs are reported at fair value and qualify for use of the NAV either as readily determinable fair value or as a practical expedient. Accordingly, the stable value fund is valued at NAV per unit held by the Plan at year end as quoted by FMTC and is not deemed to be actively traded. As of December 31, 2021, the Plan had no unfunded commitments related to the stable value fund. The stable value fund has a daily redemption frequency and redemption notice period. There are no other restrictions on the timing of redemption; however, participant redemptions may be subject to certain redemption fees.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2021:

<i>December 31, 2021</i>	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 302,740,834	\$ -	\$ -	\$ 302,740,834

4. Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520. 103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Investment income (loss), net and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investment values disclosed in Note 3.
- Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

5. Related Party and Party in Interest Transactions

Certain Plan investments are investment funds managed by Fidelity Investments or FMTC. FMTC is the trustee of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. Administrative expenses paid by the Plan to the trustee, and its affiliates, also qualify as party-in-interest transactions.

**Carollo Engineers, Inc. 401(k)
Profit Sharing Plan**

Notes to the Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan should be terminated, the amount in each participant's account, as of the date of such termination, becomes fully vested.

7. Tax Status

The Plan has adopted the Volume Submitter Profit Sharing Plan prepared by FMTC, which received a favorable opinion letter from the Internal Revenue Service dated June 30, 2020, which stated that the prototype plan was designed in accordance with applicable Internal Revenue Code ("IRC") requirements as of that date. The Plan has since been amended. The plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

<i>December 31,</i>	2021	2020
Net assets available for benefits per the financial statements	\$ 326,754,553	\$ 280,904,115
Add: Adjustment to fair value for stable value fund	51,760	190,231
Net assets available for benefits per the Form 5500	\$ 326,806,313	\$ 281,094,346

The following is a reconciliation of the net increase in the statement of changes in net assets available for benefits per the financial statements for the year ended December 31, 2021, to the Form 5500:

<i>Year ended December 31,</i>	2021
Net increase in net assets available for benefits per the financial statements	\$ 45,850,438
Add: Change in adjustment to fair value for stable value fund	(138,471)
Net income per the Form 5500	\$ 45,711,967
