Report of Independent Auditors

To the Administrator of The Interpublic Group of Companies, Inc. Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of The Interpublic Group of Companies, Inc. Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant

ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended (not presented herein, other than the statement of net assets available for benefits). As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 28, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material

if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures,

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Interpublic Group of Companies, Inc. Savings Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2021 and 2020

1. Description of Plan

General

The following description of The Interpublic Group of Companies, Inc. Savings Plan (the "Plan") provides general plan information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established to encourage eligible employees, as defined in the Plan document, of The Interpublic Group of Companies, Inc. (the "Company") to participate in a regular and long-term savings program. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation

In general, all United States of America ("U.S.") based employees of the Company are eligible to participate in the Plan on the first day of the month following one month of service. A newly eligible employee enters the Plan by authorizing contributions and investing those contributions in a variety of investment options including stock and bond funds, age-based funds and self-directed funds. Company stock is not an investment option but is held by some participants that transferred into the Plan during an acquisition. Participants may transfer all or a portion of their existing account balance or re-direct their future contributions to any of the investment options at any given time.

Administration

The Plan is administered by the Company's Global Benefits Department, as delegated by the Management Human Resources Committee of the Company on August 16, 2017. The recordkeeper of the Plan is Great-West Financial Retirement Plan Services, LLC (the "Recordkeeper") and the trustee is Great-West Trust Company, LLC (the "Trustee").

Contributions

Participants may contribute to the Plan, through payroll deductions, up to 25% of their eligible wages, as defined in the Plan document. Contributions may be on a pre-tax basis, Roth 401(k) basis, or a combination of both. The Internal Revenue Code ("IRC") limits the maximum amount of a participant's contributions to \$19,500 in 2021. Contributions may be subject to certain other limitations. Participants who are at least age 50 by the last day of the calendar year may be eligible to make catch-up contributions within the IRC limit of \$6,500 in 2021.

Participants with less than 10 years of service receive a Company matching contribution of 50% of the first 6% of their contributions. Participants with 10 or more years of service receive a Company matching contribution of 75% of the first 6% of their contributions. An additional discretionary match was contributed for 2021 based on the Company's domestic business performance. The amount of the 2021 performance based match totaled \$7,937,259 or 8% of each matched dollar contributed to the Plan by the participants.

Participants may make rollover contributions into the Plan representing distributions from other qualified plans. Rollovers from qualified plans were \$34,462,639 for the year ended December 31, 2021.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

On termination of service including death, disability or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or elect to defer payment to a later date but no later than the year they reach Required Minimum Distribution ("RMD") age ((i) age 72 for an employee who attains age 70½ after December 31, 2019, and (ii) age 70½ for an employee who attained age

The Interpublic Group of Companies, Inc. Savings Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2021 and 2020

70½ before January 1, 2020). If the vested account is \$1,000 or less, the record-keeper will automatically distribute the vested balance as a lump sum.

As permitted by the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”), the Plan allowed, qualified individuals to take Coronavirus-Related Distributions of up to \$100,000 during the period January 1 through December 30, 2020. Individuals taking a Coronavirus Related Distribution have the option to recontribute up to the full amount of the distribution to the Plan within three years. In addition, required minimum distributions were waived for the 2020 plan year.

Vesting

Participants are fully vested at all times in their own contributions and related accumulated investment income thereon. Participants become 100% vested in their share of Company contributions and related accumulated investment income after three years of service. Participants who retire at a minimum age of 65, become disabled, die, or cease to be employed as a result of a spin-off, sale, or merger may become vested before completing the requisite three years of service.

Forfeitures

Forfeitures of the non-vested portion of the participants' share of the Company's contributions and related accumulated investment income resulting from termination of service prior to vesting totaled \$8,486,554 and \$5,073,203 for the years ended December 31, 2021 and 2020, respectively. The Plan uses forfeitures on a monthly basis to offset Company contributions. Company contributions reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2021 is net of forfeitures used totaling \$8,466,043. The ending forfeiture balance was \$116,188 and \$95,677 as of December 31, 2021 and 2020, respectively.

Notes Receivable from Participants

Participants may borrow up to one-half of the value of their vested account balance for either a home loan or a general loan. The principal balance must not exceed \$50,000 and must be for a minimum of \$1,000. General loans must be repaid within a five-year period; home loans must be repaid within a ten-year period. Interest is charged at rates as outlined by the Plan, which is prime plus 1%. Principal and interest may be paid ratably through monthly payroll deductions. Repayment of the entire balance is permitted at any time. Terms and maturities of participant loans issued by pre-merger plans may differ. Participants who terminate employment will be required to repay the loan amount, plus accrued interest, to the Plan within 90 days. Participants who default on loans will be taxed on the amount of the outstanding loan balance. Interest rates on outstanding loans at December 31, 2021 and 2020 ranged from 3.50% to 7.00% and 3.25% to 7.00%, respectively.

As permitted by the CARES Act, the participant loan limit was temporarily increased to the lesser of \$100,000 or 100% of the vested account balance. This increase was permitted for loans granted from March 27, 2020 through September 22, 2020. In addition, for qualified individuals, repayments of loans due between March 27, 2020 and December 31, 2020 were allowed to be deferred until 2021, subject to reamortization of payments due after December 31, 2020.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Investments held by a defined contribution plan are required to be reported at fair value, except for insurance contracts and fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion

The Interpublic Group of Companies, Inc. Savings Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2021 and 2020

of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities, if any, at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the accrual basis. Net appreciation/(depreciation) in the fair value of investments consists of realized gains and losses and the change in unrealized appreciation and depreciation on investments for the year.

Administrative Expenses

Plan participants pay investment management and trustee fees and may share certain other administrative costs of the Plan with the Company. Substantially all administrative and trustee fees are reflected in the calculation of each investment's net asset value ("NAV"). Additional expenses are paid and recorded by the Company and include salaries and overhead related to Plan administration.

Benefit Payments

Benefit payments are recorded when paid.

Contributions Receivable

Company contributions receivable represent amounts due to the Plan by the Company, as a result of timing.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

3. Fair Value Measurements

Authoritative guidance for fair value measurements establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan primarily applies the market approach for recurring fair value measurements. There are three levels of inputs that may be used to measure fair value.

- | | |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. |
| Level 2 | Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. |

The Interpublic Group of Companies, Inc. Savings Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2021 and 2020

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the Plan's valuation methodologies for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020. The methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Cash and cash equivalents are highly liquid investments with original maturities of 90 days or less at the date of purchase and these assets are classified within Level 1 of the fair value hierarchy.

Self-directed brokerage accounts primarily consist of interest-based cash, mutual funds, common stocks and registered investment companies that are valued daily based upon readily determined market prices and are classified within Level 1 of the fair value hierarchy.

Common stocks and American depository receipts are valued daily based upon the closing price of the active market on which the individual securities are traded and are classified within Level 1 of the fair value hierarchy.

Registered investment companies are valued daily based on quoted market prices in active markets and are classified within Level 1 of the fair value hierarchy.

Common/collective trust funds ("CCTs") are valued using the NAV provided by the investment manager of the fund. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, then divided by the number of shares outstanding.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value at December 31, 2021 and 2020.

4. Fully Benefit-Responsive Investment Contracts

The Plan offers a Stable Value Fund investment option that is composed of fully benefit-responsive synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and are therefore reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

A synthetic investment contract ("SIC") is a wrapper contract paired with an underlying investment or investments, usually a portfolio, of high-quality CCTs owned by the Plan. The Plan purchases a wrapper contract from a financial services institution with the intent of maintaining a stable contract value. A SIC provides for a variable crediting rate, which typically resets at least quarterly. The issuer of the wrapper contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus the amortization of the difference between the fair value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most impacted by the change in the annual effective yield-to-maturity of the underlying securities, but is also affected by the differential between the contract value and the fair value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change between reset periods, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The difference between the fair value of the underlying assets and the contract value of the SIC is the adjustment to contract value. The contract value of the

The Interpublic Group of Companies, Inc. Savings Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2021 and 2020

SIC represents accumulated contributions made plus earnings, less Plan withdrawals and administrative expenses. The fair value of the wrapper is the difference between the present value of the replacement cost and the present value of the actual cost.

The wrapper contracts can be terminated at a value other than contract value only under a limited number of specific circumstances including, termination of the Plan or loss of the Plan's qualified status, material misrepresentations by the Plan sponsor or investment manager, failure by these same parties to meet material obligations under the contract, or similar type events.

The wrapper contracts permit all participant initiated transactions as allowed by the Plan to occur at contract value. There are no known events such as bankruptcy, layoffs, mergers, divestitures, corporate actions or significant Plan changes which are probable of occurring that would limit the ability of the Plan to transact at contract value with the issuers or the participants.

There is no guarantee as to the future financial condition of the wrap issuer. The wrap issuer's ability to meet its contractual obligations under the respective wrap contracts may be affected by future economic and regulatory developments in the insurance industries.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market values of investments may decline for a number of reasons including changes in prevailing market and interest rates and increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Financial instruments that could potentially subject the Plan to significant concentrations of credit risk consist principally of SICs. The Plan, through its investment in a SIC, has credit exposure with the financial institution that is the holder of the wrap contract. The contract holders are rated A+ and AA- at December 31, 2021 and December 31, 2020 and for the years then ended. The Plan has not experienced any material credit losses on its investments.

6. Tax Status

The Internal Revenue Service (the "IRS") determined and informed the Company, by a letter dated April 19, 2017, that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since the receipt of the determination letter. The Plan administrator, management of the Company and legal counsel believe that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

7. Information Certified by the Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all of the investments, notes receivable from participants and investment income information in the accompanying financial statements, related notes and supplemental schedule were obtained or derived from information certified
