REPORT OF INDEPENDENT AUDITORS

PLAN ADMINISTRATOR
LIBERTY STEEL INDUSTRIES, INC. DEFINED BENEFIT PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Liberty Steel Industries, Inc. Defined Benefit Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Liberty Steel Industries, Inc. Defined Benefit Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Liberty Steel Industries, Inc. Defined Benefit Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Liberty Steel Industries, Inc. Defined Benefit Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Liberty Steel Industries, Inc. Defined Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Liberty Steel Industries, Inc. Defined Benefit Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Liberty Steel Industries, Inc. Defined Benefit Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE A – DESCRIPTION OF PLAN

The following description of the Liberty Steel Industries, Inc. (the "Company") Defined Benefit Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. More complete information about the Plan agreement, vesting and benefit provisions, and the PBGC benefit guaranty is contained in the Plan documents available from Liberty Steel Industries, Inc.

General
The Plan is a noncontributory defined benefit pension plan covering substantially all employees of the Company and provides for pension and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility
Employees become eligible for the Plan on January 1st or July 1st after completion of one year of eligibility service. A year of eligibility service is completed if 1,000 hours are worked in the twelve month period following the date in which the employee completes the first hour of service.

Contributions
The Company has agreed to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to the Plan beneficiaries.

The contributions of the Company are made in amounts sufficient to fund the Plan's current year service cost and any additional funding charges, as well as any additional amount deemed appropriate by the Company. The minimum funding requirements of ERISA have been met. The Plan pays all significant administrative expenses.

Vesting
For participants employed on or after January 1, 2002, vesting is achieved when the first of the following occurs: a participant has completed five years of continuous service, a participant reaches normal retirement date, or a participant becomes eligible for disability retirement. Employees hired before January 1, 2002, are automatically 100% vested.

Payment of Benefits
The Plan offers payment options of benefits for normal retirement, early retirement, delayed retirement and disability retirement. The normal retirement option is available when a participant reaches their normal retirement date. Early retirement is available for those participants who are 55-64 years of age and have completed at least 10 years of service. The delayed retirement option is for those employees who continue to work after their normal retirement date. Disability retirement is available for employees who can no longer perform regular duties of their job because of total and permanent physical or mental illness. Benefit payments are made through various annuity payment methods and a lump sum option.

Plan Termination
The Company has the right under the Plan to discontinue such contributions at any time and completely terminate or partially terminate the Plan, subject to the then existing pension agreement.

In the event of a termination of the Plan, the net assets of the Plan are to be set aside first for the payment of vested benefits and second to the remaining participants on a pro-rata basis. However, the Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from these estimates.

Investment Valuation
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits
Benefit payments to participants are recorded upon distribution.

Administrative Expenses
All administrative, recordkeeping, trust fees and actuarial fees are paid by the Plan.

Actuarial Present Value of Accrued Plan Benefits
Accrued plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees. Accrued plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances--retirement, death, disability, and termination of employment--are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020 and net change in investment income and expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee BNY Mellon.

NOTE D – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

Level 2 fair value inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values.

Certain investments are measured at fair value using the net asset value (NAV) per share, or its equivalent, as a practical expedient. These investments include commingled funds which may include money market funds, common collective trusts and pooled separate accounts which are typically valued using the NAV provided by the administrator of the fund. The Plan assets include money market funds. In accordance with accounting guidance, these investments have not been classified in the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at quoted market prices on the last business day of the Plan year.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Money markets: As a practical expedient, valued at the NAV of shares held by the Plan at year end.

Corporate bonds: Valued using pricing models using observable inputs for similar securities. This includes basing value on yields available on comparable securities of issuers with similar credit ratings.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020.

	Assets Measured at Fair Value at December 31, 2021 on a Recurring Basis

NOTE E – ACTUARUAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The accumulated plan benefit information is as follows:

	January 1,	
	2021	2020
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	**$ 199,065**	$ 208,803
Other participants	**4,045,330**	3,506,275
	4,244,395	3,715,078
Nonvested benefits	**299,329**	215,114
Actuarial present value of accumulated plan benefits	**$ 4,543,724**	$ 3,930,192

The changes in accumulated benefits are as follows:

	January 1	
	2021	2020
Actuarial present value of accumulated plan benefits at beginning of year:	**$ 3,930,192**	$ 3,263,843
Increase (decrease) during the year attributable to:		
Benefits paid	**(373,200)**	(235,598)
Other factors	**986,732**	901,947
Net increase	**613,532**	666,349
Actuarial present value of accumulated plan benefits at end of year	**$ 4,543,724**	$ 3,930,192

The significant actuarial assumptions used in the valuation as of January 1, 2021 and 2020 were (a) life expectancy of participants the Pri-2012 mortality tables (with separate rates for contingent survivors) from the Pri-2012 mortality study, projected generationally from 2012 using scale MP-2020 and MP-2019, respectively, (b) retirement age assumptions - a participant becomes eligible to receive normal retirement benefits upon attaining age 67 and has 3 years or more of service. Normal retirement benefits are reduced on a pro-rata basis for those age 55-66 with 3 years or more of service, (c) the assumed salary increase was 3% in 2021 and 2020,(d) the discount rate was 2.39% and 3.49% in 2021 and 2020, respectively, and (e) expected return on assets was 5.30% and 5.80% in 2021 and 2020, respectively. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accrued plan benefits.

NOTE F – TAX STATUS

The Plan obtained its latest determination letter on February 17, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G – PARTY-IN-INTEREST

Certain parties provide services or have fiduciary responsibilities to the Plan, including the Plan Sponsor. These services are parties-in-interest transactions.

NOTE H – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 1, 2022, which is the date the financial statements were available to be issued.

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date:	April 1, 2015
Effective Date of Last Amendment:	N/A
Plan Year:	January 1st to December 31st
Employer Fiscal Year	January 1st to December 31st
Employer ID Number:	47-2870834
Plan Administrator's ID Number:	47-2870834
Plan Number:	001
Plan Administrator:	Liberty Steel Industries, Inc.

Prior Plan

Service and compensation earned prior to April 1, 2015 under the Liberty Steel Products, Inc. Defined Benefit Plan are recognized when determining eligibility and benefits under this plan.

Eligibility

All employees of the Employer are eligible to participate in the Plan as of the January 1 or July 1 next following the completion of one qualifying year of service and attainment of age 21. Those employed prior to January 1, 2002 had prior eligibility requirements.

Service

Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000.

A break in service occurs at the start of any plan year in which the employee works 500 Hours or less for the Employer in such year. Service will not be interrupted by:

(1) A leave of absence granted by the Employer.

(2) A period of service in the Armed Forces of the United States under which employment rights are granted.

(3) Transfer of employment from one participating Employer to another.

(4) Maternity/paternity leave.

An employee will be given credit for his pre-break service if either of the following occurs:

(1) The employee had a vested interest in his accrued benefit at the time of his break in service, or

(2) The employee's period of absence was less than the greater of his pre-break service or 5 years.

Normal Retirement Date

Normal Retirement Date is the later of the first day of the month coincident with or next following of attainment of age 65 and the 5th anniversary of participation.

Normal Retirement Benefit

The amount of annual benefit based on service to Normal Retirement Date is one percent of Average Compensation multiplied by years of service, up to 25 years of service. For employees hired prior to July 1, 1994, the Normal Retirement Benefit is 25% of Average Compensation.

The maximum benefit payable from the Plan is $1,500 per month.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit based on service and compensation as of actual Retirement Date. Suspension of benefits notices are distributed upon the attainment of normal retirement age.

Average Compensation

The average of the highest five consecutive plan years of basic compensation paid during the 10 years preceding actual retirement date. Compensation for each year shall not exceed the IRC Section 401(a)(17) limit.

Accrued Benefit

The Accrued Benefit at any time prior to a participant's Normal Retirement Date shall be the Normal Retirement Benefit calculated using Average Compensation as of the accrual date and service as of the Normal Retirement Date. This benefit is then multiplied by a fraction, not to exceed one, the numerator of which is the years of service as of the date of determination and the denominator of which is the years of service at the Normal Retirement Date.

Early Retirement Benefit

Upon the completion of 10 years of Credited Service and the attainment of age 55, a participant may elect to retire. He may receive an immediate benefit equal to the Normal Retirement Benefit based on service at early retirement and actuarially reduced for early retirement.

Disability Retirement Benefit

A participant who ceases to be employed on account of disability before his Normal Retirement Date is eligible to receive a disability benefit equal to the Accrued Benefit reduced actuarially for payment before the Normal Retirement Date.

Death Benefit

In the event of a participant's death, the beneficiary shall receive a benefit based on the participant's vested Accrued Benefit as of the date of death, but payable as if the participant had separated from service on the date of death, survived to his Normal Retirement Date, elected a Joint and 50% Survivor Annuity, and died on that day. An equivalent benefit is payable the month following death.

Severance Benefit

Upon the termination of employment after 5 or more Years of Service a participant shall have a vested interest in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for Early Retirement at the date of termination, he may elect to receive his vested interest at age 55. Such benefit will be reduced as described under Early Retirement Benefit.

Employees hired prior to January 1, 2002 are automatically vested.

Normal Form of Payment

The Normal Form of Payment is an annuity paid in monthly installments for life with 120 payments guaranteed.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment. If a married participant does not elect the Normal Form of Payment or does not elect one of the Optional Methods of Settlement described below, then the participant's Retirement Benefit shall automatically be paid under option [1] below. The options are:

(1) A reduced benefit to be paid during the participant's lifetime with one-half of the reduced benefit to be continued to his spouse for her lifetime after his death.

(2) A reduced benefit to be paid during the participant's lifetime with 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.

(3) A reduced benefit to be paid during the participant's lifetime with the same reduced benefit to be continued to his spouse for her lifetime after his death.

(4) An increased benefit to be paid for the life of the participant.

(5) A one-time lump sum payment.

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment on a unisex basis based on the blended GAM83 mortality table and an interest rate of 8%. Lump sum payments are determined using the applicable mortality table and the applicable interest rate for the October preceding the plan year of payment. A participant is eligible to elect a lump sum payment at any time after termination of employment.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards or is unable to pay benefits when due.

If the Plan is terminated, the Plan assets will be distributed among the Plan participants based upon a priority allocation procedure, and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

Additional Information

The above description is a summary only; for additional details, reference should be made to the formal Plan document.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the expected return on assets from 5.80% to 5.30%.

This change was made to better reflect the anticipated experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date:	April 1, 2015
Effective Date of Last Amendment:	N/A
Plan Year:	January 1st to December 31st
Employer Fiscal Year	January 1st to December 31st
Employer ID Number:	47-2870834
Plan Administrator's ID Number:	47-2870834
Plan Number:	001
Plan Administrator:	Liberty Steel Industries, Inc.

Prior Plan

Service and compensation earned prior to April 1, 2015 under the Liberty Steel Products, Inc. Defined Benefit Plan are recognized when determining eligibility and benefits under this plan.

Eligibility

All employees of the Employer are eligible to participate in the Plan as of the January 1 or July 1 next following the completion of one qualifying year of service and attainment of age 21. Those employed prior to January 1, 2002 had prior eligibility requirements.

Service

Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000.

A break in service occurs at the start of any plan year in which the employee works 500 Hours or less for the Employer in such year. Service will not be interrupted by:

(1) A leave of absence granted by the Employer.

(2) A period of service in the Armed Forces of the United States under which employment rights are granted.

(3) Transfer of employment from one participating Employer to another.

(4) Maternity/paternity leave.

An employee will be given credit for his pre-break service if either of the following occurs:

(1) The employee had a vested interest in his accrued benefit at the time of his break in service, or

(2) The employee's period of absence was less than the greater of his pre-break service or 5 years.

Normal Retirement Date

Normal Retirement Date is the later of the first day of the month coincident with or next following of attainment of age 65 and the 5th anniversary of participation.

Normal Retirement Benefit

The amount of annual benefit based on service to Normal Retirement Date is one percent of Average Compensation multiplied by years of service, up to 25 years of service. For employees hired prior to July 1, 1994, the Normal Retirement Benefit is 25% of Average Compensation.

The maximum benefit payable from the Plan is $1,500 per month.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit based on service and compensation as of actual Retirement Date. Suspension of benefits notices are distributed upon the attainment of normal retirement age.

Average Compensation

The average of the highest five consecutive plan years of basic compensation paid during the 10 years preceding actual retirement date. Compensation for each year shall not exceed the IRC Section 401(a)(17) limit.

Accrued Benefit

The Accrued Benefit at any time prior to a participant's Normal Retirement Date shall be the Normal Retirement Benefit calculated using Average Compensation as of the accrual date and service as of the Normal Retirement Date. This benefit is then multiplied by a fraction, not to exceed one, the numerator of which is the years of service as of the date of determination and the denominator of which is the years of service at the Normal Retirement Date.

Early Retirement Benefit

Upon the completion of 10 years of Credited Service and the attainment of age 55, a participant may elect to retire. He may receive an immediate benefit equal to the Normal Retirement Benefit based on service at early retirement and actuarially reduced for early retirement.

Disability Retirement Benefit

A participant who ceases to be employed on account of disability before his Normal Retirement Date is eligible to receive a disability benefit equal to the Accrued Benefit reduced actuarially for payment before the Normal Retirement Date.

Death Benefit

In the event of a participant's death, the beneficiary shall receive a benefit based on the participant's vested Accrued Benefit as of the date of death, but payable as if the participant had separated from service on the date of death, survived to his Normal Retirement Date, elected a Joint and 50% Survivor Annuity, and died on that day. An equivalent benefit is payable the month following death.

Severance Benefit

Upon the termination of employment after 5 or more Years of Service a participant shall have a vested interest in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for Early Retirement at the date of termination, he may elect to receive his vested interest at age 55. Such benefit will be reduced as described under Early Retirement Benefit.

Employees hired prior to January 1, 2002 are automatically vested.

Normal Form of Payment

The Normal Form of Payment is an annuity paid in monthly installments for life with 120 payments guaranteed.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment. If a married participant does not elect the Normal Form of Payment or does not elect one of the Optional Methods of Settlement described below, then the participant's Retirement Benefit shall automatically be paid under option [1] below. The options are:

(1) A reduced benefit to be paid during the participant's lifetime with one-half of the reduced benefit to be continued to his spouse for her lifetime after his death.

(2) A reduced benefit to be paid during the participant's lifetime with 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.

(3) A reduced benefit to be paid during the participant's lifetime with the same reduced benefit to be continued to his spouse for her lifetime after his death.

(4) An increased benefit to be paid for the life of the participant.

(5) A one-time lump sum payment.

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment on a unisex basis based on the blended GAM83 mortality table and an interest rate of 8%. Lump sum payments are determined using the applicable mortality table and the applicable interest rate for the October preceding the plan year of payment. A participant is eligible to elect a lump sum payment at any time after termination of employment.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards or is unable to pay benefits when due.

If the Plan is terminated, the Plan assets will be distributed among the Plan participants based upon a priority allocation procedure, and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

Additional Information

The above description is a summary only; for additional details, reference should be made to the formal Plan document.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the expected return on assets from 5.80% to 5.30%.

This change was made to better reflect the anticipated experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
