Independent Auditor's Report

To the Plan Administrator and Participants
Clopay Ames Pension Plan
Camp Hill, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed the audit of the financial statements of Clopay Ames Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - 2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021, and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - 2021 Supplemental Schedules Required by ERISA (continued)

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution, except for comparing this information with the related information included in the financial statements. In our report dated October 5, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, we did not express an opinion on the 2020 financial statements and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Clopay Ames Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 - Description of Plan

The following description of the Clopay Ames Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General

The Plan is a noncontributory defined benefit pension plan, which includes all The Ames Companies, Inc. (Ames) employees with the exception of hourly employees of the Reno, Bernie, and Falls City facilities and employees of Clopay Corporation (Clopay) with a benefit earned under the former Clopay Pension Plan (Clopay Plan). Ames and Clopay will collectively be referred to as the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Information about the plan agreement and the vesting and benefit provisions is contained in the plan document. Copies of the plan document are available from the Company's Plan Administrator.

The Ames Companies, Inc. Pension Plan (Ames Plan)

Effective May 1, 2005, the Ames Plan was amended to cover Lewistown, Pennsylvania hourly employees. Effective May 16, 2006, the Ames Plan was amended to include non-highly compensated salaried employees at the Ames Bernie, Missouri facility retroactive to January 1, 2004. In addition, certain amendments were made to the Ames Plan in 2006 to reflect the terms of collective bargaining agreements covering certain participants.

Effective May 31, 2008, except for the collectively bargained participants of the Jackson and Union City locations, the Ames Plan was frozen. Effective June 30, 2008, the Ames Plan was frozen for the collectively bargained participants at the Union City location. Effective December 31, 2009, the Ames Plan was frozen for the collectively bargained participants at the Jackson location. Employees not meeting the participation requirements by the applicable freeze date will not be eligible to participate in the Ames Plan. Benefit accruals for participants of the Ames Plan ceased as of the applicable freeze date. Beginning after the applicable freeze date through December 31, 2020, Ames provided certain participants in the Ames Plan with enhanced matching contributions under an existing 401(k) defined contribution plan (401(k) Plan). The eligibility for and amount of enhanced matching contributions under the 401(k) Plan was determined by an employee's combined years of benefit service accrued under the Ames Plan and age as of December 31, 2008.

Clopay Pension Plan (Clopay Plan)

Effective January 1, 1968, Clopay originally established the Clopay Corporation Salaried Employee Pension Plan (the Salaried Plan). Effective December 31, 1987, Clopay ceased benefit accruals under the Salaried Plan. Effective February 28, 1988, Clopay terminated the Salaried Plan, used assets thereof to purchase an annuity contract for benefits accrued thereunder and received excess assets therefrom. Clopay reestablished the Salaried Plan effective March 1, 1988.

Note 1 - Description of Plan (continued)

Clopay Pension Plan (Clopay Plan) (continued)

Effective January 1, 1975, Clopay originally established the Clopay Corporation Augusta Plan Pension Plan for Hourly Paid Employees (the Augusta Plan). Effective January 1, 1976, Clopay originally established the Clopay Corporation Hialeah Plant Pension Plan for Hourly Paid Employees (the Hialeah Plan) and the Clopay Corporation Russia Plant Pension Plan for Hourly Paid Employees (the Russia Plan). Effective January 1, 1989, Clopay merged the Hialeah Plan and Russia Plan to form the Clopay Corporation Hialeah and Russia Plants Pension Plan for Hourly Paid Employees (the Hialeah/Russia Plan).

Effective December 31, 2000, Clopay amended the Salaried Plan, Augusta Plan, and Hialeah/Russia Plan to cease benefit accruals thereunder and merge the Augusta Plan and Hialeah/Russia Plan into the Salaried Plan. Effective January 1, 2001, Clopay renamed the Salaried Plan as the Clopay Pension Plan and amended the Clopay Plan to provide a new transition benefit for certain participants of the Salaried Plan.

Pension Benefits

The amount of benefit, as defined in the plan document, depends upon, among other things, the years of service of the participant and/or the participant's compensation during the service periods, in which division of the Company the employee works, whether the employee is covered under collectively bargained employment contracts, and whether the employee is hourly or salaried.

Should the Plan terminate at some future time, its assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Upon termination of service other than by death, disability, or retirement, a participant will generally receive an automatic lump-sum payment if the total of their vested benefit does not exceed \$1,000. If the vested benefit exceeds \$1,000, the assets will remain in the Plan until the participant's early or normal retirement date.

Death and Disability Benefits

If a participant with a vested benefit dies prior to their benefit commencement date, their surviving spouse, if married at least one year, will be eligible for a death benefit based on the participant's vested interest in the Plan. If an active participant who has accrued the required years of vesting or benefit service based on the Plan formula becomes disabled according to the Plan, they will be eligible for a disability benefit.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Common/Collective Trust and Mutual Fund Fees

Net investment returns reflect certain fees paid by the common/collective trust and mutual funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by the participants as of the valuation date based on the Projected Unit Credit Actuarial Cost Method. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based on credited service earned to the applicable freeze date. The accumulated plan benefits for active participants was based on credited service to date of valuation. Benefits payable under all circumstances (death, disability, retirement, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Clopay Ames Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Note 2 - Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2021 and 2020

Note 3 - Fair Value Measurements (continued)

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

The fair values of the money market fund and mutual funds are based on quoted net asset values of the shares held by the Plan at year-end.

The fair values of corporate bonds are based on using yields available for comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, other valuation processes are used that incorporate benchmark yields, broker-dealer quotes, and/or other unobservable inputs such as credit and liquidity risks.

The fair values of the asset-backed securities are valued at pricing models maximizing the use of observable inputs for similar securities.

The common/collective trust funds are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. The underlying investments consist solely of mutual funds with no unfunded commitments or redemption restrictions.

The fair value of the other investments are based on a monthly net asset valuation of the underlying funds, which is valued by an independent, third-party administrator, as well as directly valuing the one separate account the fund controls. In this case, NAV is used as a practical expedient to estimate fair value. The underlying securities of these investment funds are typically Level 1 securities valued at their closing price on a recognized exchange. The investment objective is to provide capital appreciation while limiting exposure to market rise. There are no unfunded commitments. Other than general language surrounding general redemption restrictions in market crisis type environments (i.e. the closure of a recognized exchange precluding valuation), there are no redemption restrictions or gates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Fair Value Measurements at December 31, 2021				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Investments measured at net asset value ⁽¹⁾				<u>29,379,914</u>
				<u>\$ 156,199,527</u>

⁽¹⁾ In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no transfers in or out of Level 3.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is determined by an actuary from Findley LLC, a Wells Fargo Company, as of January 1, 2021, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, retirement, or withdrawal) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2020 is as follows:

Actuarial Present Value of Accumulated Plan Benefits

Retired participants and beneficiaries	\$ 83,605,403

Eligible participants in the Clopay Plan are generally assumed to retire at the age of 65.

The actuarial assumptions used by the Plan was determined as of the beginning of the plan year based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5 - Information Certified and Provided by Wells Fargo Bank, N.A.

Certain information related to cash, investments, and accrued interest disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including cash, investments, and accrued interest held at December 31, 2021 and 2020, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2021 and 2020, was obtained by management and agreed to or derived from information certified as complete and accurate by Wells Fargo Bank, N.A. (the trustee of the Plan).

Note 6 - Tax Status

The IRS has determined and informed the Company by a letter, dated September 16, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's advisors believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2018.

Note 7 - Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Wells Fargo Bank, N.A., the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custody services amounted to \$288,588 and \$266,679 for the years ended December 31, 2021 and 2020, respectively. All other transactions, which may be considered parties-in-interest transactions, relate to normal plan management, investment and administrative services, and the related payment of fees.

Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 8 - Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. The actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economy, financial markets, and the geographical area in which the Company operates. It is unknown how long these conditions will last and what the complete financial effect will be to the Company and how it will affect the Plan. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions.

Note 9 - Funding Policy

The Company's funding policy is to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Note 10 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC.

In the event that the Company voluntarily takes steps to terminate the Plan in a standard termination, all liabilities under the Plan will be paid by the Plan and the Plan must have assets sufficient to pay all of the benefit liabilities. If assets are not sufficient to satisfy all benefit liabilities, the Company will be required to contribute an amount sufficient to enable the Plan to satisfy all benefit liabilities.

In the event that the Plan is terminated in a distress or involuntary termination and assets are not sufficient to pay all benefit liabilities, Plan assets will be distributed in accordance with the requirements of ERISA in the following order:

1. Accrued benefits attributable to voluntary contributions, if any;
2. Accrued benefits attributable to mandatory contributions, if any;

Note 10 - Plan Termination (continued)

3. Benefits that were being paid or could have been paid (i.e., payable if the participant actually retired or could have retired) as of the beginning of the three-year period ending on the termination date based on the terms of the Plan in effect during the five years before the termination under which the benefit would be the least;
4. All other benefits guaranteed by the PBGC;
5. Benefits that would be provided if ERISA Section 4022(b)(5)(B) didn't apply (i.e., benefits for majority owners as defined in ERISA Section 4022(b)(5)(A));
6. All other vested benefits; and
7. All other benefits under the Plan.

In the event that there are insufficient assets to provide all benefits within one of the above groups, the remaining assets will be allocated pro rata among the participants or beneficiaries within that group on the basis of the present value of such benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability, and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 11 - Subsequent Events

Plan management has evaluated subsequent events through September 12, 2022. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2021 were noted.

Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates	24-month segment rates averaged through the end of August 2020 and published in September 2020 (as prescribed by IRC 430) and adjusted to reflect ARPA: - Segment 1 (0 – 5 years) 4.75% - Segment 2 (5 to 20 years) 5.36% - Segment 3 (more than 20 years) 6.11% - Effective Interest Rate 5.52%
Maximum Deductible Annual Interest Rates	24-month segment rates averaged through the end of August 2020 and published in September 2020 (as prescribed by IRC 430) as follows: - Segment 1 (0 – 5 years) 2.22% - Segment 2 (5 to 20 years) 3.38% - Segment 3 (more than 20 years) 3.92% - Effective Interest Rate 3.50%
Annual Expected Return on Assets	Interest Rate for developing Actuarial Value of Assets; limited to third segment rate 6.27%
	Rationale: as selected by the Plan Sponsor
PBGC Annual Interest Rates	24-month segment rates averaged through the end of August 2020 and published in September 2020 using the Alternative Method (as prescribed by IRC 430) as follows: - Segment 1 (0 – 5 years) 2.22% - Segment 2 (5 to 20 years) 3.38% - Segment 3 (more than 20 years) 3.92% - Effective Interest Rate 3.50%
ASC 960 Discount Rate	Discount Rate 7.00%
	Rationale: as selected by the Plan Sponsor
Salary Scale	Not applicable
Mortality	Funding: Mortality as provided in Notice 2020-85 male and female, with different rate for annuitants and nonannuitants (as prescribed by IRC 430). ASC 960-20: 130% of the RP-2014 Blue Collar Mortality Table adjusted to 2006 with fully generational mortality improvement using the MP-2019 projection scale Rationale: as selected by Plan Sponsor to align with ASC 715 results.

Rates of Retirement

Eligible participants are assumed to retire based on the following:

Age	Clopay	Ames
55 – 60	3%	10%
61	5%	15%
62	20%	25%
63	5%	20%
64	5%	25%
65	33%	25%
66	25%	25%
67	50%	50%
68	50%	50%
69	50%	50%
70	100%	100%

Rationale: - as selected by Plan Sponsor to meet historical experience.

Weighted Average Retirement Age is 64 for Clopay, 61 for Ames and 63 overall. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rates of Turnover

Clopay: Sarason T-4 Table
Ames: Sarason T-10 Table

Rationale: - as selected by Plan Sponsor to meet historical experience.

Rates of Disability

None

Assumptions Made In
Valuing Spouse's Benefit

80% of employees included in the valuation are assumed to be married. This percentage is used as the probability that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be one year younger than the husband.

Optional Form Selection

All employees are assumed to elect the life annuity form of benefit.

Provision for Expenses

Prior year's expenses excluding PBGC premium plus current year PBGC premium were included in the Target Normal Cost for Minimum Required Contribution purposes.

Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets. ASC 960-20: Market Value of Assets plus, any contributions for prior plan years that will be made in this plan year.
Funding Method	Pure Unit Credit
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	The interest rates used for determining the funding target were 4.75%, 5.50% and 6.27%. These rates were updated to the rates required for the current plan year. The mortality table for the funding target was changed as required under PPA '06.
Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Special Joint and Survivor Annuity is a Life Annuity payable until age 65. If both the Participant and beneficiary survive to the Participant's age 65, the benefit is then reduced to a Joint and Survivor Annuity with 50% or 100% continued to the beneficiary. If the beneficiary predeceases the Participant prior to the Participant's age 65, the Life Annuity amount continues unreduced for the remainder of the Participant's lifetime.

Special One-Time Payment:

Participants are eligible for a special one-time payment that replaces the first three monthly retirement benefit payments if they meet one of the following:

(1) Accruing Benefit Service and retire on his early, normal, or late retirement date on or before June 30, 2008 for Union City, PA, Participants or May 31, 2008 for all other Participants

(2) Attained both age 60 and 15 years of Benefit Service as of June 30, 2008 for Union City, PA Participants or May 31, 2008 for all other Participants, or

(3) Attained 30 years of Benefit Service as of June 30, 2008 for Union City, PA Participants or May 31, 2008 for all other Participants.

The amount of the benefit is equal to 13 weeks of vacation pay less any vacation pay that had been received. The amount is calculated as of June 30, 2008 for Union City, PA Participants or May 31, 2008 for all other Participants.
