INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants of
Kao America Inc. Pension Plan
Cincinnati, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Kao America Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements including the accumulated plan benefits as of and for the year ended December 31, 2020 (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Kao America Inc. Pension Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Actuarial Methods for Funding**Asset Methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum Funding Methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: November 1, 1961 Restated plan: January 1, 2014 Plan year: January 1 to December 31
Status of the plan	All benefit accruals in the plan were frozen effective December 31, 2020.
Significant events that occurred during the year	All benefit accruals were frozen effective December 31, 2020.
Definitions	
• Covered employees	All employees of the Company (and any participating affiliate), other than leased employees covered by a collective bargaining agreement (unless the terms of the bargaining agreement otherwise provides), temporary employees who are members of the substitute workforce, retired participants, a transferee from Kao Corporation on a temporary assignment in the United States and any other individual who for any period is classified as an independent contractor (regardless of any subsequent reclassification by the Company, a government agency or a court).
• Participation	Each employee becomes a participant on the January 1 or July 1 following the first twelve month period in which he completes 1,000 hours of service. The plan was closed to new entrants effective August 1, 2019.
• Employee contributions	None
• Hour of Service	Each hour for which the participant is paid or entitled to be paid from the Company, including hours paid for vacation, holiday, illness, layoff, jury or military duty or leave of absence. However, no more than 501 Hours of Service will be credited to the participant for any single continuous period during which the participant is not actually working for the Company.
• Vesting service	The participant will be credited a year of vesting service for each Plan Year during which the participant is credited with at least 1,000 hours of service.
• Credited service	Credited Service is received for all years (and fractional portions of a year in completed months) of employment with the Company (and certain affiliates). If you terminate employment and return to work within 12 months, you will be considered to have remained an employee for that period. Credited service was frozen effective December 31, 2020.
• Covered Compensation	This includes the compensation from the Company as reflected on Form W-2, increased by any pre-tax contributions the participant may have made to the Company under 401(k) and/or Section 125 (cafeteria) plan. This also includes amounts paid under the Kao Brands Company Severance Plan. This does not include reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, welfare benefits, bonuses paid after termination and compensation realized from the grant or exercise of stock options. The participant should be aware, however, that the amount of the Pay taken into account under the Plan is limited under the Federal Tax Laws.
• Final average eligible Pay	Average pay based on highest consecutive 5 years within the past 10 years. Final average pay is frozen for all participants.

Schedule SB, Part V — Summary of Plan Provisions

• Defined benefit pension formula	1% of the average annual compensation for the highest paid five consecutive years of the ten years preceding retirement multiplied by years of credited service up to 35 years. In no event, the benefit shall not be less than that accrued through December 31, 1988 under the prior plan formula. The minimum monthly benefit is \$10 for each year of credited service up to 35 years.
• Grandfathered Participants	Any participant employed by the Company or participating affiliate as of December 31, 2000 who was at least 40 years of age as of December 31, 2001 qualifies as a "grandfathered participant" and receives the greater of the cash balance formula and the Plan formula in effect prior to January 1, 2001.
• Grandfathered Frozen Benefit - Grandfathered Participants	In 2001, the Plan transitioned from a Defined Benefit Pension Plan to a Cash Balance Pension Plan. It was determined that employees, who were at least 40 years old as of 12/31/01, would have the option between the cash balance formula or the defined benefit pension formula upon retirement (whichever was greater). This is referred to as the "Grandfathered" benefit. Grandfathered Participants employed after March 31, 2009, will have their accrued benefit as of March 31, 2009 frozen. Years of service and compensation earned after March 31, 2009 will not change any portion of their frozen benefit.
• Cash Balance Benefit	<p>The cash balance is equal to the sum of a), b), c) below:</p> <p>a. Initial Cash Balance Account:</p> <p>i) Grandfathered Participants- Initial cash balance account beginning on 4/1/2009 is zero.</p> <p>ii) Non - Grandfathered Participants- The initial cash balance account was determined for each participant as of January 1, 2001 as the sum of two items. First, the present value of the participant's accrued benefit as of December 31, 2000 determined under the defined benefit pension formula, commencing at age 65. Second, Transition Credit equal to the participant's years of service as of December 31, 2000 multiplied by the participant's December 31, 2000 average annual compensation multiplied by a percentage based on the participant's service as of December 31, 2000. The percentages are as follows:</p> <p>0.5% for service 5-10 years 1.0% for service 11-14 years 1.5% for service 15 years or more</p> <p>b. Contribution Credits: At each December 31, a participant's cash balance account will be credited with an amount equal to 5% of the participant's compensation for the plan year through December 31, 2014 and 4% beginning January 1, 2015 to December 31, 2019 and 3% beginning January 1, 2020 to December 31, 2020 and 0% beginning January 1, 2021.</p> <p>c. Interest Credits: At each December 31, a participant's cash balance account will be credited with the earnings at the annual interest rate on 30-year Treasury securities for the November preceding the plan year.</p>

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
• Eligibility	Age 65
• Benefit	Grandfathered Frozen Benefit (If applicable) plus Cash Balance Benefit.
Early retirement	
• Eligibility	The first day of any month coincident with or following the date on which you have both attained age 55 and completed at least 10 years of credited service.
• Benefit	<p>The Grandfathered Frozen Benefit is reduced by 3% per year from age 65 and 5% per year from age 60. An employee who retires with at least 30 years of service will not have his benefit reduced for the first 60 months from age 65.</p> <p>Otherwise, the Life with Ten-year Certain Annuity (or any actuarially equivalent form of benefit available) that is equal to the Actuarial Equivalent of the balance of the Participant's Cash Balance Account as of the end of the month before the Annuity Starting Date.</p>
Deferred vested	
• Eligibility	3 years of service
• Benefit	A normal retirement benefit accrued to the date of termination payable at age 65. Payments may begin at age 55 or later, but will be actuarially reduced from age 65.
Disability	
• Eligibility	5 years of service
• Benefit	A normal retirement benefit payable at age 65 based on actual service to date of disability. Disabled participant's received half year credit for years disabled before January 1, 2004.
Pre-retirement death	
• Eligibility	3 years of service
• With Spouse	A monthly amount payable to survivor equal to 50% of the amount which would have been payable to the employee had he retired the day before death and elected a 50% joint and survivor annuity. Benefit will not be payable before employee would have reached early retirement age.
• Without Spouse	A monthly amount payable to the beneficiary equal to the survivor annuity which would have been payable had the employee retired the day before death and elected a 10 year certain and life annuity. The benefit will not be payable before employee would have reached early retirement age.
Form of benefits	
• Automatic form for unmarried participants	10-year certain and life annuity
• Automatic form for married participants	50% joint and survivor annuity actuarially equivalent to the 10-year certain and life annuity
• Mandatory cash outs of small amounts	If the present value of the participant's vested accrued benefit is less than \$5,000, it will be paid as a lump sum as soon as administratively possible following retirement or termination.

Schedule SB, Part V — Summary of Plan Provisions

• Optional forms	Life annuity, 100%, 75%, 50% joint and survivor annuity and 10-year certain and life annuity.
• Optional form conversion factors	Cash balance to annuity: 1994 Group Annuity Reserving Unisex Mortality table and the 30-year Treasury rate for the November preceding the plan year Annuity to other optional annuity forms: 1971 Group Annuity Mortality Table as applicable to a group of lives, 80% of whom are male and 20% of whom are female and 8.00% per year interest Annuity to lump sum: The 2008 Applicable Mortality Table, provided, however, that upon the IRS's promulgation of any Subsequent Applicable Mortality Table, the Subsequent Applicable Mortality Table shall be used and the applicable interest rate under the rules of Code Section 417(e)(3) as set forth in Revenue Ruling 2007-67.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2021, the limit is \$290,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021, the limit is \$230,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through September 1, 2020, are included in this valuation:

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation
- **Late retirement increases:**
 - *Active participants:* The plan provides suspension of benefit notices to active participants. The retirement decrements in the valuation do not extend beyond age 70 ½, and therefore, no actuarial increases are included. Additionally, there are only a couple active participants that are currently over age 70 ½, so the impact of actuarial increases for actives would be immaterial at this point. We will continue to monitor the number of participants in this situation.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increases from the later of date of termination and normal retirement age. The actuarial increase is applied to the non-cash balance portion of the benefit. Given the relatively few participants over normal retirement age with cash balances, continued interest credits are assumed instead of actuarial increases. We will continue to monitor the number of participants in this situation.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all

Schedule SB, Part V — Summary of Plan Provisions

participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded****• IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum compensation and benefit amounts under IRS rules were updated from 2020 to 2021.
- A lump sum window offering was completed during December 2020.
- All benefit accruals were frozen effective December 31, 2020.

KAO AMERICA INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Kao America Inc. Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General: The Plan is a noncontributory defined benefit plan and provides for retirement, death, and disability benefits for all eligible employees of Kao America, Inc. and affiliated employers (the “Company”) that have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligible employees generally include all full-time and part-time employees of the Company and certain affiliated companies that have adopted the Plan who are credited with one year of service and who have attained age 21. Affiliated companies that were participating in the Plan on January 1, 2012 included Kao Brands Company (formerly The Andrew Jergens Company), Kao Professional Salon Services, Inc., KMS Global Marketing LLC, Kao Specialties Americas LLC, Oak Brook Enterprises, Inc. and High Point Textile Auxiliaries LLC. Effective as of January 3, 2012, three of the participating affiliated companies (Kao Brands Company, Kao Professional Salon Services, Inc. and KMS Global Marketing LLC) were consolidated into a new entity named Kao USA Inc. Currently, affiliated companies participating in the Plan are Kao USA Inc., Kao Specialties America LLC, Oak Brook Enterprises, Inc., and High Point Textile Auxiliaries LLC. Participants remain eligible as long as they have not experienced a separation from service. Effective January 1, 2019 the Plan was amended to freeze eligibility for employees hired by the Company on or after August 1, 2019. Effective January 1, 2021 the Plan was frozen to new participants.

Contributions: Contributions from Kao America, Inc. (the “plan sponsor”) are subject to Internal Revenue Service (IRS) limitations and are based upon actuarial calculations of normal cost.

Plan Benefits: The Plan includes a cash balance formula whereby vested participants will be entitled to a retirement benefit amount, payable for 10 years, and thereafter, for the participant’s life that is equal to the actuarial equivalent of the balance of the participant’s cash balance account as of the end of the month before the annuity start date.

The cash balance account is equal to the sum of (a) initial cash balance account as calculated as of January 1, 2001, (b) a contribution credit at each subsequent December 31 equal to 4% of the participant’s compensation for the Plan year, and (c) an interest credit at each subsequent December 31 calculated using an annual interest rate on 30-year Treasury securities for the November preceding the Plan year. The annual interest rate is 1.62% and 2.28% as of December 31, 2021 and 2020, respectively. Effective January 1, 2020 the Plan was amended to reduce the contribution credit from 4% to 3%. Effective January 1, 2021 the Plan was frozen and no additional contribution credits will be made for Plan years beginning on or after that date.

However, in order to protect employees enrolled in the Plan prior to January 1, 2001, certain participants will have their accrued benefits calculated under two alternatives. Upon termination or retirement, vested employees who were employed as of December 31, 2000, and were at least 40 years of age on December 31, 2001, may choose between the cash balance benefit and the “Grandfather Benefit” as described below.

The “Grandfather Benefit” calculated under the formula in effect prior to the cash balance amendment is equal to the benefit percentage (1% for each year of credited service up to a maximum of 35) times the final average pay (average of annual pay for the five highest consecutive years in last 10 years).

(Continued)

KAO AMERICA INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Effective March 31, 2009, the Plan was amended to freeze the “Grandfather Benefit” and eliminate the option for grandfathered participants to choose between the cash balance benefit and “Grandfather Benefit”. The amended formula is the greater of the cash balance benefit and “Grandfather Benefit” as of March 31, 2009, plus future accruals under the cash balance formula after March 31, 2009.

The Plan permits early retirement at ages 55 to 64 as long as an employee has 10 years of credited service. If employees terminate before rendering three years of vesting service, they forfeit the right to future retirement income unless they are reemployed and subsequently credited with three years of vesting service. Employees may elect to receive the portion of their accumulated plan benefits under one of the following options: (a) Life with Ten-Year Certain Option, (b) Joint and Survivor Annuity with 50% continuation, with 75% continuation or with 100% continuation, and (c) Life Annuity. Employees may also elect a lump-sum payment under the cash balance formula.

Effective September 1, 2020, the Plan was amended to freeze benefit accruals effective January 1, 2021. The Plan also was amended to allow eligible participants to elect a single lump sum benefit during a limited period beginning October 1, 2020 and ending November 15, 2020. The benefits paid attributable to the lump sum limited period totaled \$13,564,848 for the year ended December 31, 2020.

Death and Disability Benefits: If an active employee credited with at least three years of vesting service dies, a death benefit will be paid to the employee’s spouse or beneficiary. A spouse receives a lifetime monthly benefit equal to 50% of the benefit that would have been received under the Joint and Survivor Annuity with 50% continuation method, unless the employee elected the Life with Ten-Year Certain Option. A beneficiary receives a benefit equal to the amount due under the Life with Ten-Year Certain Option. Under the Qualified Optional Survivor Annuity, a participant can elect an annuity payable monthly during his/her lifetime with a further annuity payable to his/her spouse or other designated beneficiary for the life of such spouse or beneficiary in an amount equal to 75% of the amount payable to the participant. Active employees who become totally disabled and qualify for disability benefits under the Company’s provided disability plan prior to December 31, 2003, and do not return to work prior to their retirement date will be entitled to a pension benefit starting on the normal retirement date. The monthly benefit will be the larger of the normal retirement benefit based on final average pay and disability service or the benefit calculated as if the employee terminated on the last day of active employment. For vested participants who terminate on account of disability on or after January 1, 2004, the participant will be entitled to a normal, early, or vested deferred retirement benefit as provided under the Plan.

Funding: The Company contributes amounts that it considers necessary to provide assets sufficient to meet the benefits to be paid. The Company’s contributions for 2021 and 2020 met the minimum funding requirements of ERISA.

Administration: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid through the Plan. Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits payments to participants are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Unallocated investment contract: Unallocated investment contracts are valued at fair value by the insurance company based on the withdrawal value of the contract based on the terms noted in the contract (level 2 inputs). The withdrawal value of the contract approximates the contract value of the contract.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31 Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>2021</u>			
Mutual Funds	\$ 162,050,207	\$ -	\$ -
Unallocated investment contract	-	-	-
Total	<u>\$ 162,050,207</u>	<u>\$ -</u>	<u>\$ -</u>
<u>2020</u>			
Mutual Funds	\$ 158,629,677	\$ -	\$ -
Unallocated investment contract	-	1,505,936	-
Total	<u>\$ 158,629,677</u>	<u>\$ 1,505,936</u>	<u>\$ -</u>

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Market risks include risks associated with ongoing global events.. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 – INVESTMENTS - CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held as of December 31, 2021 and 2020, net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by John Hancock Trust Company LLC (the Trustee of the Plan) and Aetna Life Insurance Company.

(Continued)

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2020, the Plan held an investment contract with Aetna Life Insurance Company ("Aetna"). Aetna maintained the contributions in a general account, which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at contract value as reported to the Plan by Aetna, which approximates fair value. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract had certain restrictions that impact the ability to collect the full contract value. Plan management believed that the occurrence of events that would cause the Plan to transact at less than contract value was not probable. Aetna may not terminate the contract at any amount less than contract value.

Aetna was contractually obligated to pay the principal and specified interest rate that was guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were established every four years by Aetna. When the interest rate was changed, the new rate only applied to funds deposited from the date of change. For amounts contributed after January 1, 2019, the interest rate was 3.25%. For amounts contributed after January 1, 2015, the interest rate was 2.50%. For amounts contributed before December 31, 2014, the interest rate was 3.00%. During 2021, the investment contract with Aetna was terminated. No liquidation penalties were incurred as a result of the termination.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are estimated future periodic payments attributable under the Plan's provisions to services rendered by participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, (b) beneficiaries of participants who have deceased, and (c) present active employees or their beneficiaries. Benefits payable under all circumstances (i.e. retirement, disability and termination of employment) are included to the extent they are deemed attributable to employee services rendered as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2020 were as follows:

Mortality	Pri-2012 with full projection using the MP-2020 projection scale
Retirement age	A scale of estimated retirements from age 55 to 70
Investment return on assets	6.00%
Cash balance crediting rate	2.28%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits as of December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 46,120,180
Other benefits	<u>50,714,183</u>
	96,834,363
Nonvested benefits	<u>611,217</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 97,445,580</u>

The changes in actuarial present value of accumulated plan benefits for the year ended December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits – December 31, 2019	\$ 105,025,252
Increase (decrease) during the year attributable to:	
Benefits paid	(21,912,485)
Interest due to decrease in discount period	6,148,295
Assumption changes*	2,669,535
Benefits accumulated net of actuarial experience	<u>5,514,983</u>
Actuarial present value of accumulated plan benefits – December 31, 2020	<u>\$ 97,445,580</u>

* The actuarial assumption changes are related to a reduction of the discount rate from 6.60% at December 31, 2019 to 6.00% at December 31, 2020 and the change of the mortality improvement scale from MP-2019 to MP-2020.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 - TAX STATUS

The IRS has determined and informed the Company by a letter dated May 5, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS or Department of Labor; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. As of December 31, 2020, the Plan invested in an unallocated investment contracts managed by Aetna. Aetna was a service provider to the Plan, and therefore, these transactions qualified as party-in-interest transactions. The payment of fees to Aetna and John Hancock also qualify as party-in-interest transactions.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 5, 2022, which is the date the financial statements were available to be issued.
