INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Quick Technologies Inc. Retirement Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Quick Technologies Inc. Retirement Trust (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year ended 2020 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Quick Technologies Inc. Retirement Trust (the "Plan") as of December 31, 2020, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter – Change in Audit Scope

In our report dated August 18, 2021, we did not express an opinion on the statement of net assets available for benefits as of December 31, 2020 and the related statement of changes in net assets available for benefits for the year ended 2020 because as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the participant-directed investments and net investment income(loss) certified by Charles Schwab & Company, the registered-broker dealer of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. The plan's management had obtained a certification from Charles Schwab & Company, the registered-broker dealer of the Plan as of and for the year ended December 31, 2020, that the information provided to the plan administrator was complete and accurate. As described in Note 1, Plan's management subsequently discovered information during 2022, indicating that the certification provided to the plan was not a valid certification, because it was not made by a qualified institution. As such, the limited scope of audit procedures was inappropriate and additional procedures have been performed. Accordingly, our present opinion on the 2020 financial statements, as presented herein, is different from that expressed in our previous report.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year), together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter – Auditor's Report on the 2019 Financial Statements

The 2019 financial statements of Quick Technologies Inc. Retirement Trust were audited by predecessor auditors whose report dated September 8, 2020 expressed a disclaimer of opinion because of a limited scope audit. As described in the other matter paragraph above, the audit report wasn't appropriate because of an invalid certification. Accordingly, additional audit procedures were performed and the reissued report expressed an unmodified opinion on those financial statements.

Note 1 – Description of the Plan

The following description of the Quick Technologies Inc. Retirement Trust ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a safe harbor defined contribution plan covering all employees of Quick Technologies Inc. ("the Employer"), who are not covered by a collective bargaining agreement which includes retirement benefits, who are not Non Resident Aliens (NRI), leased employees or independent contractors and are 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In January 2020, Congress passed the "Setting Every Community Up for Retirement Enhancement Act of 2019" that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective on January 1, 2020 and require significant changes to plan administration and recordkeeping.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses in numerous industries. As of March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") that included numerous employee benefit plan provisions to assist plan sponsors and participants.

During 2020, the Plan allowed for CARES Act distributions which allowed participants to take up to $100,000 of distributions from their retirement account from January 1, 2020 to December 31, 2020. Qualified individuals could spread the income evenly over a three-year period for income tax purposes unless they elect otherwise. Also, the CARES Act distributions would not have the 10% early penalty for pre-59.5 distributions.

Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan and up to the maximum limit prescribed by the law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Plan provides that each year the Employer may make discretionary matching, Qualified Non-Elective Contributions (QNEC), discretionary profit sharing contributions and safe harbor matching contributions (enhanced matching contributions) at the option of the Employers' board of directors. Contributions are subject to certain limitations.

Investment Options
Upon enrollment in the Plan, a participant may direct contributions in any of the available investment options. These investment options are comprised of a variety of mutual funds. Each of these investment vehicles has a distinct investment strategy, allowing adequate selection for participants wishing to thoroughly diversify their portfolios. Participants may change their investment options and their contribution percentages at any time.

Participant Accounts
Each participant's account is credited with the participant's contribution, the Employers' contribution and allocations of the Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of the Plan, continued

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employers' contribution portion of their accounts is based on years of continuous service, a participant is 100% vested after six years of credited service. Participants are fully vested in the safe harbor matching contributions (enhanced matching contributions) at the time of contribution.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum or direct rollover distributions.

Forfeited Accounts
Forfeitures are retained in the Plan and used to reduce future employer contributions and administrative expenses. At December 31, 2020 and 2019, there was no balance in the forfeiture account. In 2020 and 2019, the Plan applied $0 in forfeited accounts to reduce employer contributions and/or pay for administrative expenses.

Notes Receivable from Participants
Participant loans are not allowed by the Plan.

Administrative Expenses
All Plan administrative expenses are paid by the Plan with the exception of participant-initiated charges which include withdrawal activity charges, charges to set up an annuity or installment payments, and any other specific activity charges for withdrawals.

Change in Audit Scope
In 2022, management of the Plan discovered that the certification provided by Charles Schwab & Company, the broker-dealer, relating to the participant-directed investments and investment income(loss) was not appropriate. A broker-dealer was not a qualified institution in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The participant-directed investments and investment income have since been subjected to the required auditing procedures. There are no changes to the accompanying financial statements as originally presented.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review
Subsequent events were evaluated through August 18, 2021, which is the date the financial statements were available to be issued.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Note 2 – Summary of Significant Accounting Policies, continued

Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Investment earnings are recorded on the accrual basis. Benefits are recorded when paid. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value.

Note 3 – Fair Value Measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

The fair value of mutual funds is valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

		Fair Value Measurements at Reporting Date Using		
December 31, 2020	Fair Value	Quoted Prices in Active Markets for Identical Assets Level 1	Other Observable Inputs Level 2	Unobservable Inputs Level 3
Interest-bearing cash	$ 1,188	$ 1,188	-	-
Mutual funds	8,932,866	8,932,866	-	-
Total	$ 8,934,054	$ 8,934,054	$ -	$ -

Mutual funds	$ 7,064,976	$ 7,064,976	-	-
Total	$ 7,064,976	$ 7,064,976	$ -	$ -

Note 4 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for the any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 6 – Party-in-Interest Transactions

Certain plan investments are funds managed by the registered broker-dealer or custodian, Charles Schwab & Company. Therefore, these transactions are qualified as party-in-interest.

Fees paid by the Plan to Ubiquity/Decimal Inc. for administrative and record keeping services amounted to $7,405 in 2020 and $17,653 in 2019.

Note 7 – Reconciliation of Plan Financial Statements to the Form 5500
