To the Administrative Committee of the
Zero Cater 401(k) Plan
San Francisco, California

We have audited the financial statements of the Zero Cater 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), for the year ended December 31, 2021, and have issued our report thereon dated October 5, 2022. Professional standards require that we provide you with information about responsibilities under generally accepted auditing standards as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated January 10, 2022.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

You are responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Zero Cater 401(k) Plan are described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2021. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Your estimate of the fair value of investments (Mutual Funds valued using Net Asset Value and Money Market Funds valued based on quoted prices in active markets) is based on the fair value of the underlying investments held less any liabilities. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of the Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completed our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. We identified one misstatement during the audit. This misstatement was caused by the Plan Sponsor using the incorrect definition of compensation for different participants during the year. The total amount of the error was \$13,689 which did not require adjustment in the financial statements.

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified the following reportable findings. None of these items were material to the financial statements, however, they do impact the control environment for the Plan and participant accounts and for those reasons, we wanted to bring them to management's attention.

- We noted during deferral testing that some pay types were excluded as eligible compensation. Group term life (GTL) and Gym specifically and was also noted in prior audits. Additional new pay codes were noted this year as well. Per the plan document, eligible compensation is defined as all W-2 wages, so all compensation included in W-2 pay should be considered in the 401(k) calculation. If it is management's intention to exclude selected compensation for withholding purposes, the Plan Document should be revised to reflect this. In either case, management should communicate the policy going forward with all participants. Plan management should discuss this issue with their service provider and ensure the appropriate correction is made for the impacted participants.
- In the prior year 2019 audit, we identified participant contributions which were not remitted timely to the plan custodian. The deferrals on the last pay period in May 2019 were remitted to Ascensus on June 13, 2019, or 13 days after the pay date. Most remittances were made on the third day. The Department of Labor requires funds be remitted on the earliest date they can reasonably be segregated from the company's assets. It is our understanding that plan management is currently working with the plan providers to calculate the lost earnings related to this pay period and deposit them to the accounts of the employees affected. We encourage completion of this activity as soon as possible so the Plan can remain compliant with all regulatory requirements.
- In our testing of hardship distributions, no support for the need for the hardship withdrawals was maintained by the Plan Sponsor. Per Vanguard/Ascensus, the plan sponsor is expected to review and retain this documentation. We recommend plan management review procedures to ensure that for hardship distributions, proof of need is reviewed by plan sponsor prior to approving, and the documentation is kept in the Plan or employee records to support the distribution.
- For the 2021 plan year, as well as prior years, sufficient bond coverage was not maintained. The fidelity bond must be at no less than 10% of plan assets with a minimum of \$1,000 and a maximum of \$500,000. We recommend management review the plan assets annually and increase the coverage as needed.
- We recommend management discuss the loss in the number of total participants with their provider to ensure a partial plan termination did not occur. This could impact the vesting for impacted participants if they elect to move their funds to another plan or take a full distribution.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Other Matters

With respect to the ERISA-required supplemental schedules accompanying the financial statements, we made certain inquiries of you and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the ERISA-required supplemental schedules to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Administrative Committee of the Zero Cater 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.
