Notes to Financial Statements

Note 1: Description of Plan

The following description of the Divine Savior Healthcare, Inc. Salary Savings 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all full-time employees of Divine Savior Healthcare, Inc. (the "Hospital"). The Hospital was acquired by Aspirus, Inc. during 2020, and sponsorship of the Plan changed from the Hospital to Aspirus, Inc. (the "Plan Sponsor") effective January 1, 2021. The Plan was frozen to all participants effective December 31, 2020, whereby no new participants would be enrolled in the Plan and no additional contributions would be made to the Plan after December 31, 2020. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger

As a result of the change in the Plan's sponsor, the Plan's assets totaling \$68,075,030 were merged into the Aspirus, Inc. Frozen 401(a) Plan effective February 23, 2021.

Participant Accounts

Each participant's account was credited with allocations of plan earnings (losses) and charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant account balances or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Effective December 31, 2020, the Hospital's board of directors passed a resolution to make all participants 100% vested in their account balances and to allocate unused forfeitures back to participant accounts.

Notes Receivable From Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes were secured by the balance in the participant's account and bore interest at rates ranging from 4.25% to 6.50%, which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions.

Note 1: Description of Plan (Continued)

Payment of Benefits

On separation of service for reasons other than death, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a single lump sum or in cash installments for required minimum distributions. Distributions on account of death were made in accordance with the terms and the options available in the plan document. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Forfeitures

At February 23, 2021 and December 31, 2020, forfeited nonvested accounts totaled \$0 and \$15,895, respectively. These accounts could be used to restore forfeitures, reduce Hospital contributions, or to pay administrative expenses of the Plan in accordance with the plan document. For the period ended February 23, 2021, forfeitures in the amount of \$20,022 were transferred to the Aspirus, Inc. Frozen 401(a) Plan effective with the merger on February 23, 2021, and were allocated back to participants subsequent to the merger date in accordance with the Hospital's board of director resolutions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when incurred. No allowance for credit losses is recorded as of February 23, 2021 and December 31, 2020. Delinquent participant notes receivable were recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Hospital and Plan Sponsor. Expenses that were paid by the Hospital and Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses. Investment-related expenses were allocated proportionately to plan participants based on their respective account balances and were offset against net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 7, 2022, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.

Note 3: Fair Value Measurements (Continued)

- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. Due to the plan merger disclosed in Note 1, there are no assets or liabilities to measured at fair value as of February 23, 2021. There have been no changes in the methodologies used as of December 31, 2020.

Mutual funds held in pooled separate accounts: Fair value of the mutual funds held in pooled separate accounts is estimated using the net asset value (NAV) per unit by the issuer of the pooled separate accounts. The underlying mutual funds held in pooled separate accounts are open-ended mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price.

Fixed Accounts: The fixed accounts are non-benefit-responsive annuities. Units are valued based upon accumulated cash contributions, plus interest credited to the Plan's contracts, and transfers in, less any withdrawals and transfers out. The fixed accounts are credited with an interest rate that is based on a formula agreed upon with the issuer, but may not be less than 3% for the Voya Fixed Account and 1% for the Voya Fixed Account A.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds held in pooled separate accounts	\$ -	\$ 67,124,312	\$ -	\$ 67,124,312
Fixed accounts	-	3,076,388	-	3,076,388
Total investment assets at fair value	\$ -	\$ 70,200,700	\$ -	\$ 70,200,700

Notes to Financial Statements

Note 4: Information Prepared and Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements, including investments and notes receivable from participants held at February 23, 2021 and December 31, 2020, and net appreciation in fair value of investments, interest and dividends, interest income on notes receivable from participants, and transfer of assets due to merger for the period ended February 23, 2021, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company ("Voya"), the Custodian of the Plan.

Note 5: Party-in-Interest Transactions

Certain plan investments are managed by Voya. Voya is the custodian and record keeper, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid directly by the Plan to Voya were \$3,442 for the period ended February 23, 2021. Investment management expenses paid by the Plan to Voya during the period ended February 23, 2021, were offset against earnings. Specific detail for investment management fees is not available from Voya.

In addition, the Plan paid fees to Benetrak, Inc., the Plan's third-party administrator and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to Benetrak, Inc. for the period ended February 23, 2021, were \$8,346.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 6: Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate or partially terminate the Plan subject to the provisions of ERISA. As described in Note 1, the Plan was merged into the Aspirus, Inc. Frozen 401(a) Plan effective February 23, 2021, and was effectively terminated as of that date. Effective December 31, 2020, participants of the Plan became 100% vested in their Hospital contributions.

Note 7: Tax Status

The Hospital adopted a volume submitter profit sharing plan document with an IRS opinion letter, which states the volume submitter plan document is in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the date of the opinion letter; however, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020, to Form 5500:

Net assets available for benefits per the financial statements	\$ 70,470,788
Less: Prior year market value adjustment of fixed accounts investments	(206,057)

Net assets available for benefits per the Form 5500	\$ 70,264,731
---	---------------

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the period ended February 23, 2021, to the net loss per Form 5500:

Net decrease in net assets available for benefits per the financial statements	\$ (2,395,758)
