Trustee Committee
Southwire Company Hourly Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Southwire Company Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) Audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the year then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) Audit opinion on the 2021 Financial Statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) Audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) Audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplementals Schedule H, Line 4(j) - Schedule of Reportable Transactions as of December 31, 2021 and Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the

financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2021 Financial Statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2021 Financial Statements or to the 2021 Financial Statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified to by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the statement of net assets available for benefits of the Plan as of December 31, 2020 and the statement of changes in net assets available for benefits for the year then ended (2020 Financial Statements). As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified to by a qualified institution. In our report dated October 1, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, we did not express an opinion on the 2020 Financial Statements, and (b) the form and content of the information included in the 2020 Financial Statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2021 AND 2020

1. DESCRIPTION OF PLAN

The following description of the Southwire Company Hourly Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General

The Plan, established January 1, 2002, is a defined benefit pension plan covering substantially all hourly and non-exempt employees of Southwire Company, LLC (the Plan Sponsor or the Company) who have attained age 21, have completed 1,000 hours of service, and are not a member of a collective bargaining unit except for the Watkinsville, Georgia and Kingman, Arizona bargaining units. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

B. Pension Benefits

Benefit service is defined as the number of plan years of service the participant has been an eligible employee and accrued 1,000 or more service hours. Employees with five or more years of benefit service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the Plan's pre-determined formula. This formula uses both years of benefit service and a pension benefit factor, ranging from \$21.50 to \$37.00 per month, determined by year of hire. The Plan permits early retirement at ages 50-64. Early retirement benefits are reduced by a percentage up to 66%. If employees terminate before rendering five years of service, they forfeit the right to receive their accumulated Plan benefits. Employees that terminate after five years of service, but before they are eligible for retirement benefits are entitled to receive a deferred vested benefit from the Plan starting at age 65. Employees will receive their pension benefits in the form of a joint and survivor annuity or as a lifetime annuity payable monthly from retirement unless they elect a different payment option. Employees with total pension benefits between \$5,000 and \$25,000 may elect to receive lump-sum distributions, with spousal consent, as applicable. Employees with total pension benefits of less than \$5,000 will receive lump-sum distributions.

C. Death and Disability Benefits

If an active vested employee dies before early retirement age, a death benefit equal to the survivor's portion of the benefit will be paid to the surviving spouse beginning at the employee's earliest retirement date. If an active vested employee dies before retirement but after early retirement age, the surviving spouse will immediately receive a death benefit equal to the survivor's portion of the benefit. Employees will receive disability benefits if they become totally and permanently disabled at any age before turning 65, have 10 or more years of vesting service and their total lump-sum pension benefits are greater than \$5,000. Disability benefits are paid until normal retirement age, at which

time, disabled participants begin receiving normal retirement benefits. A disabled employee with a total lump sum pension benefit of less than \$5,000 will receive a single lump sum cash payment at disability.

D. Vesting

A participant becomes fully vested in the Plan after completing 5 years of vesting service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

B. Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of any contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results may differ from those estimates.

C. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and development of assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

SOUTHWIRE COMPANY HOURLY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
YEARS ENDED DECEMBER 31, 2021 AND 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Investments, Investment Valuation, and Income Recognition

Investments are reported at fair value (see Note 5). Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments in the statements of changes in net assets available for benefits represents net realized and unrealized gains and losses.

E. Collective Trust Funds

Investments in the collective trust funds are required to be reported at fair value. The collective trust funds are composed primarily of fully benefit-responsive investment contracts held by the funds' trustees. Because these contracts are held indirectly through the collective trust funds, the collective trust funds are not valued at contract value as a direct investment in a fully benefit responsive asset would be. The Plan has elected to value the collective trust funds using net asset value (NAV) as the practical expedient to determine fair value.

F. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are calculated using a factor (based on year of hire) times the number of years of benefit service. For eligible employees not covered by a collective bargaining agreement, the factors range from \$25.00 to \$37.00 per month depending on year of hire. The pension factor for the Watkinsville, Georgia bargaining unit ranges from \$21.50 to \$23.50 per month depending on year of hire. The pension factor for the Kingman, Arizona bargaining unit ranges from \$25.00 to \$27.00 per month depending on year of hire. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2021 and 2020, were (a) life expectancy of participants (the Pri-2012 Blue Collar Mortality Table, with generational projection using Scale MP-2020 was used for the valuation as of January 1, 2021 and the

the Pri-2012 Blue Collar Mortality Table, with generational projection using Scale MP-2019 was used for the valuation as of January 1, 2020), (b) retirement age assumptions (assumed gradual retirement age starting at age 60 and ending at age 65), and (c) investment return (discount rate). The January 1, 2021 and 2020 valuations assumed a discount rate of 6.5%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and 2020. Had the valuations been performed as of December 31, 2020 and 2019, there would be no material differences. The Plan Sponsor has selected the Projected Unit Credit Cost Method for determining the Plan's normal cost and the actuarial accrued liability.

The actuarial present value of accumulated Plan benefits as of January 1, 2021, determined by the actuary, is summarized as follows:

	January 1, 2021
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Other participants	\$ 48,457,277
Participants entitled to deferred benefits	7,491,858

F. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The change in the actuarial present value of accumulated Plan benefits from January 1, 2020 to January 1, 2021, determined by the actuary, is summarized as follows:

Present value of accumulated benefits, as of January 1, 2020	\$ 77,029,343
Increase (decrease) attributable to:	
Benefits accumulated and plan experience	5,397,391
Interest due to decrease in discount period	4,869,223
Assumption change	(48,891)
Benefits paid	<u>(4,304,196)</u>
Net increase	<u>5,913,527</u>
Present value of accumulated benefits, as of January 1, 2021	<u><u>\$ 82,942,870</u></u>

G. Benefit Payments

Benefit payments to participants are recorded when paid.

H. Expenses

Investment management and trustee fees are paid directly from the trust by the Plan to the investment managers and Wells Fargo Bank, N.A. (the Trustee). Investment related expenses are included in net appreciation in fair value of investments in the statements of changes in net assets available for benefits. Other administrative expenses, including Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) premiums, are paid by the Plan to the extent not paid by the Company.

I. Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). ASU 2018-13 changes the fair value measurement disclosure requirements of Accounting Standards Codification 820, *Fair Value Measurement*. Applicability of the provisions in ASU 2018-13 can depend on whether the reporting entity is a non-public entity. New disclosure requirements under ASU 2018-13 are not applicable to non-public entities and, therefore, are not applicable to the Plan. Eliminated and modified disclosure requirements under ASU 2018-13 are applicable to the Plan and impact the reporting of transfers between Level 1 and Level 2 assets (defined in Note 5), Level 3 asset disclosures, and disclosures about investments in certain entities valued at

net asset value. ASU 2018-13 was effective for all entities for fiscal years beginning after December 15, 2019. Early adoption was permitted. The Plan Sponsor adopted ASU 2018-13 effective January 1, 2020. Such adoption did not have a material impact on the Plan's financial statements.

J. Effects of COVID-19

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic and the President of the United States declared it a national emergency. The COVID-19 pandemic remains subject to the development and severity of new variants. The extent of the impact of COVID-19 on the Plan and financial results will depend on future developments, including the duration and spread of the outbreak within the markets in which the Plan Sponsor operates, government actions and programs, and the related impact on consumer confidence and spending, all of which are highly uncertain.

3. FUNDING POLICY

Employees make no contributions to the Plan; it is totally funded by employer contributions. The current sponsor funding policy is to contribute an amount sufficient to meet minimum funding requirements without exceeding the maximum deductible limit. The Company met the minimum funding requirements for the years ended December 31, 2021 and 2020.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

SOUTHWIRE COMPANY HOURLY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
YEARS ENDED DECEMBER 31, 2021 AND 2020

4. PLAN TERMINATION (Continued)

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain Plan benefits are insured by the PBGC if the Plan terminates. Additional information about the PBGC insurance protection and its limitations can be obtained from the summary plan description booklet provided to Plan participants. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at the time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

5. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee. The framework for measuring fair value under U.S. GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SOUTHWIRE COMPANY HOURLY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
YEARS ENDED DECEMBER 31, 2021 AND 2020

5. FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Short-term investment fund: The short-term investment fund is primarily stated at amortized cost, which approximates fair value.

Mutual funds: Mutual funds are valued by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.

Collective trusts: Units of participation in the collective trust funds are valued at the NAV provided by the funds' trustees as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by a fund less its liabilities. This practical expedient would not be used when it is determined to be probable that a fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of a collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5. FAIR VALUE MEASUREMENTS (Continued)

The methodologies described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021

*In accordance with Accounting Standards Codification 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the balances presented in the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

6. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated November 29, 2011 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. While the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan as amended is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no known items that would result in an accrual for uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. RELATED-PARTY TRANSACTIONS

The Trustee performs services for the Plan, sells products to the Plan, and manages and maintains investments for the Plan for which fees are charged to the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. For the years ended December 31, 2021 and 2020, fees paid to the Trustee were \$175,000 and \$276,998, respectively.

8. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE (Unaudited)

Wells Fargo Bank, N.A. is the trustee for the Plan. The Trustee holds the Plan's investment assets and executes investment transactions. Management has determined that the Trustee is a qualified institution and the information prepared and certified by the Trustee meets the requirements of ERISA Section 103(a)(3)(C). Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020, and the net appreciation in fair value of investments, and interest and dividends, for the years then ended was obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by the Trustee.

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 5, 2022, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2021, have been incorporated into these financial statements.

In July 2022, the Company funded contributions into the Plan of \$3,000,000 and in September 2022, the Company funded contributions into the Plan of \$3,000,000 for the 2022 Plan Year.

Summary of Plan Provisions

Death Benefits

A Qualified Joint and Survivor Annuity is payable to the spouse of a Participant who dies after becoming vested in his/her accrued benefit. The benefit is payable to the spouse at the participant's earliest retirement date.

Disability Benefits - Amount and Eligibility

Service: 10 years of vesting service

Accrued benefit as of the anniversary date immediately preceding the later of termination of employment and the date federal Social Security disability benefits begin. Monthly disability income is payable until normal retirement, death, or recovery. A deferred annuity of the full accrued benefit is payable at normal retirement date.

Funding of Plan Benefits

The Plan requires that the Plan Sponsor fund the full cost of all benefits.
