CR Crawford Construction 401(k)

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of CR Crawford Construction 401(k) (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 8, 2021, and the related statement of changes in net assets available for benefits for the period then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the period then ended December 8, 2021, stating that the certified investment information, as described in Note 6) to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of CR Crawford Construction 401(k) and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

As discussed in Note 1) to the financial statements, the Plan was terminated on December 8, 2021, and the participants' accounts were transferred out of the Plan and into the Securian Pooled Employer Plan and Trust.

We were engaged to audit the accompanying statement of net assets available for benefits of CR Crawford Construction 401(k) (Plan), as of December 31, 2020, and the related notes to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement based on conducting the audit in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the 2020 financial statement based on conducting the audit in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Minnesota Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statement. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2020, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2020 financial statement. Accordingly, we do not express an opinion on the 2020 financial statement.

Report on Form and Content in Compliance With DOL's Rules and Regulations for 2020 Financial Statement

The form and content of the information included in the 2020 financial statement, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

CR CRAWFORD CONSTRUCTION 401(K)
NOTES TO FINANCIAL STATEMENTS
DECEMBER 8, 2021 AND DECEMBER 31, 2020

Note 1) Description of plan:

A general description of the CR Crawford Construction 401(k) (Plan), is provided in the following paragraphs. Participants should refer to the Plan agreement and summary plan description for a more complete description of the Plan's provisions.

General -

The Plan was a defined contribution plan covering substantially all employees of CR Crawford Construction, LLC and Com-Crete, LLC (Participating Companies) with the exception of union employees. Employees who completed six consecutive months of service were eligible to participate in the Plan. If employees did not satisfy the six consecutive months of service requirements, one year of service must be obtained. Employees satisfying the eligibility requirements were eligible to participate on the 1st of January, April, July, and October of each year. Former participants in the Plan who were reemployed within one year by the Participating Companies were immediately eligible to participate in the Plan if they had previously met the eligibility requirements. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments.

Plan termination -

Effective December 8, 2021, the Plan was terminated subject to the provisions of ERISA and the participants' accounts were transferred out of the Plan and into the Securian Pooled Employer Plan and Trust (a newly created plan under the provisions set forth under the SECURE Act and ERISA). The total assets of the Plan transferred to the Securian Pooled Employer Plan and Trust, including notes receivables from participants, was $4,362,870. Participants of the Plan should refer to the Securian Pooled Employer Plan and Trust official plan documents for complete plan information.

Contributions -

Participants could contribute through payroll deductions and eligible rollover contributions. Subject to certain limitations under the Internal Revenue Code (IRC), participants could contribute an amount not in excess of 100% of the participant's eligible compensation, as defined by the Plan. Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants directed the investment of their contributions into various investment options offered under the Plan.

The Participating Companies made safe harbor matching contributions equal to 100% of a participant's contribution up to 3% of plan year compensation, plus 50% of additional contributions up to an additional 1% of plan year compensation.

Participants directed the investment of their contributions and those of the Participating Companies into various investment options offered under the Plan. The Plan offered several mutual funds, a pooled separate account and a fully benefit responsive insurance contract as investment options for participants. Participants could change their elected investment options at any time. Salary deferral contribution changes could be changed on the first day of each plan quarter.

Participant accounts -

Each participant's account was credited with the participant's contribution plus an allocation of (a) the Participating Companies' safe harbor matching contribution, and qualified non-elective contributions, and (b) plan earnings less administrative expenses. Allocations of plan earnings were based on each participant's account balance. Allocation of the Participating Companies' contributions were based on each participant's compensation. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting -

Participants were immediately vested in their salary deferral and rollover contributions, any qualified non-elective contributions and the Participating Companies' safe harbor matching contributions, plus actual earnings thereon.

Note 1) Description of plan: (continued)

Notes receivable from participants -

Participants could borrow against their account balances a minimum of $1,000 up to their entire vested balance in the Plan. Related fees were recorded as administrative expenses and were recorded when they were incurred. Loans were collateralized by the balance in the participant's account. Loan terms ranged from one to five years, unless used for the purchase of a principal residence. Interest rates were determined by the plan administrator at prevailing market rates. Interest rates ranged from 4.25% to 6.50%, during the period ended December 8, 2021. Principal and interest were paid ratably directly from the participant's personal bank account.

Deemed distributions -

The Plan treated participant loans that were in default, due to two missed payments and outstanding loan balances when a terminated employee took a distribution, as deemed distributions. In accordance with Internal Revenue Service (IRS) regulations, a participant who repaid a loan after a deemed distribution received credits pursuant to IRS requirements.

Payment of benefits -

On termination of service due to death, disability, retirement, or other reasons, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum payment, substantially equal installments, or a partial cash distribution. If a terminated participant's account balance was equal to or less than $1,000, the account would be automatically distributed in a lump sum payment. In-service withdrawals were available to participants who attained age 59½. Benefits were paid as soon as administratively feasible following the date on which a distribution was requested or was otherwise payable.

Forfeited accounts -

Forfeitures could be used to offset administrative expenses or reduced the Participating Companies' contributions to the Plan. Because the participants were immediately vested in the Plan, there were no forfeitures used or available for future use.

Administrative expenses -

Administrative expenses of the Plan were paid by the Plan unless the Participating Companies determined to pay them. Administrative expenses consisted primarily of fees charged by third-party service providers as well as loan processing fees. Investment related expenses were included in net appreciation in fair value of investments.

Note 2) Summary of significant accounting policies:

Basis of accounting -

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

Estimates and assumptions -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2) Summary of significant accounting policies: (continued)

Valuation of investments and income recognition -

The Plan's investments were stated at fair value, except for the fully benefit-responsive guaranteed investment contract which was measured at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount that participants would have received if they had initiated transactions under the terms of the plan document. See Note 7) for a discussion of this fully benefit-responsive guaranteed investment contract. Management determined the Plan's valuation policies utilizing information provided by third-party administrators. See Note 5) for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net appreciation includes gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants -

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants was recorded when it was earned. Related fees were recorded as administrative expenses and were recorded when they were incurred. No allowance for credit losses had been recorded as of December 31, 2020. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be a distribution under the terms of the plan document, the participant loan balance was reduced, and a benefit payment was recorded.

Payment of benefits -

Benefit payments to participants were recorded upon distribution.

Risk and uncertainties -

The Plan invested in various mutual funds, a pooled separate account and a guaranteed investment contract. Such investments, in general, were exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in value would occur in the near term and that such changes could have materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

In March 2020, a national emergency was declared in response to the COVID-19 pandemic. The continued effects of the on-going pandemic on the overall economy and near-term functioning of the Plan's operations could be affected by this pandemic.

Recent accounting pronouncements -

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820) - Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement.* ASU 2018-13 eliminates, adds and modifies certain disclosure requirements for fair value measurements. Among the changes, entities will no longer be required to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy but will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. ASU 2018-13 became effective for the Plan on January 1, 2020. As ASU 2018-13 only revises disclosure requirements, the plan administrator believes this ASU did not have a significant impact on the Plan's financial statements.

Reclassifications -

Certain reclassifications have been made to prior periods to conform to current year presentation.

Note 3) Tax status:

The Plan and trust established under the Plan to hold the Plan's assets, obtained an opinion letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

Although the Plan had been amended since receiving the opinion letter, the plan administrator believed that the Plan and trust were designed, and being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified, and the related trust was tax-exempt.

Accounting principles generally accepted in the United States require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more-likely-than-not, would not be sustained upon examination by the IRS. The plan administrator analyzed the tax positions taken by the Plan, and concluded that, as of December 8, 2021, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress. The plan administrator believes it was no longer subject to income tax examinations for years prior to 2018.

Note 4) Related party transactions and party-in-interest transactions:

Minnesota Life Insurance Company (MN Life) was the custodian, as defined by the plan document. In addition, Securian Financial (Securian) provided third-party administrative services to the Plan. MN Life was the holder of the group annuity contract and Securian managed the pooled separate account that was available for participant investment. Since MN Life served as custodian and Securian served as third party administrator, they were by definition parties-in-interest.

The Plan held notes receivable from participants. As a result, those notes receivable and all related transactions were with parties-in-interest. The transactions above were exempt from being prohibited transactions under ERISA.

Note 5) Fair value measurements:

The Plan's investments were reported at fair value in the statements of net assets available for benefits. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a fair value hierarchy that requires the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value, as follows:

- Level 1 Inputs - Quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Inputs - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The inputs used for valuing assets are not an indication of the risk associated with investing in those assets.

Note 5) Fair value measurements: (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used in either period.

Mutual funds -

The fair value of mutual funds held by the Plan were based on quoted market prices of identical assets in active markets and were categorized within Level 1 of the fair value hierarchy. Investments in mutual funds were generally redeemable daily.

Pooled separate account -

The pooled separate account was valued using the net asset value (NAV) as provided by the custodian of the Plan. The NAV was based on the unit value of the underlying assets, using the practical expedient, owned by the separate account less any liabilities and expenses. NAV was calculated daily. There were no redemption restrictions and no unfunded commitments related to the pooled separate account.

The following table sets forth the Plan's assets by level within the fair value hierarchy that were measured at fair value on a recurring basis:

		Fair Value Measurements Using		
	Balance	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2021				
Mutual funds	$ -	$ -	$ -	$ -
Pooled separate account (a)	-	-	-	-
2020				
Mutual funds	$ 1,661,580	$ 1,661,580	$ -	$ -
Pooled separate account (a)	1,448,017	-	-	-

(a) In accordance with ASU 2015-07, investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following methods and assumptions were used to estimate the fair value of financial instruments that are not disclosed above:

Notes receivable from participants -

The notes receivable from participants were not actively traded and significant other observable inputs were not available. Thus, the fair value of the notes receivable from participants was equal to the unpaid principal balance plus any accrued but unpaid interest because the loans were secured by each respective participant's vested account balance.

Note 6) Investments:

The plan administrator elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by MN Life, except for comparing such information to information included in the Plan's financial statements.

All investment information disclosed in the accompanying financial statements were obtained or derived from investment information provided to the plan administrator and certified as complete and accurate by MN Life.

Note 7) Guaranteed investment contract:

The Plan invested in a single guaranteed investment contract (GIC) with the Plan's custodian, MN Life. The GIC was considered fully benefit-responsive and is included in the statements of net assets available for benefits at contract value at December 31, 2020. Contract value was the amount participants received if they initiated permitted transactions under the terms of the Plan and was based on contributions and earnings less withdrawals and expenses. The GIC's guaranteed interest rates were reset quarterly. Guaranteed interest rates were 1.00% at December 31, 2020. The Plan could terminate this contract at any time with written notice to MN Life. Certain events could limit the ability to transact at contract value; such as, termination of the Plan or loss of qualified plan status. There was a surcharge for terminating the contract. As of December 31, 2020, there were no events that prevented transactions at contract value.

Note 8) Reconciliation of financial statements to IRS Form 5500:

Net assets available for benefits at December 8, 2021 and December 31, 2020, as disclosed in IRS Form 5500 were $0 and $3,634,131, respectively. The December 31, 2020, amounts vary from the statements of net assets available for benefits by $9,116, which relates to contributions receivable.

Increase in net assets available for benefits at December 8, 2021, as disclosed in IRS Form 5500 was $728,739. The amount varies from the statement of changes in net assets available for benefits by $9,116, which relates to contributions receivable.

Contributions for the period ended December 8, 2021, as disclosed in IRS Form 5500 totaled $442,290. The amount varies from the statement of changes in net assets available for benefits by $9,116, which relates to contributions receivable.

Benefits paid to participants for the period ended December 8, 2021, as disclosed in IRS Form 5500 totaled $225,234. The amount is identical to that reported in the statement of changes in net assets available for benefits.

Note 9) Subsequent events:

The plan administrator has evaluated subsequent events through October 3, 2022, the date which the financial statements were available for release. The plan administrator is not aware of any additional subsequent events that would require recognition or disclosure in the financial statements.
