ADVISORY TAX AUDIT

INDEPENDENT AUDITORS' REPORT

To the Participants and Trustees of
Stationary Engineers Local 39 Annuity Trust Fund

OPINION

We have audited the accompanying financial statements of Stationary Engineers Local 39 Annuity Trust Fund (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial status of the Plan as of December 31, 2021, and the changes in its financial status for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINION

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OTHER MATTER - DECEMBER 31, 2020, FINANCIAL STATEMENTS

The financial statements of the Plan as of and for the year ended December 31, 2020, were audited by Lindquist LLP, who joined WithumSmith+Brown, PC effective January 1, 2022, and they expressed an unmodified opinion on the statements in their report dated July 15, 2021. No auditing procedures have been performed with respect to the December 31, 2020, financial statements since that date.

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The financial statements of Stationary Engineers Local 39 Annuity Trust Fund (the Plan) are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation, Transactions, and Income Recognition -

General - Investments are carried at fair value, which is determined, presented, and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs that market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities' own judgments and estimations, or some other pricing method using unobservable inputs.

Inputs and Valuation Methods - In determining fair value, FASB ASC 820 allows various valuation approaches. The specific methods used for each of the Plan's investment classes are presented below.

Investments with quoted market prices: Where available, quoted market prices are used to value the Plan's investments (Level 1).

Common/collective trusts: The fair value of the investments in this category has been estimated using the net asset value per share of the investments as a practical expedient. These investments are direct filing entities with the Department of Labor; therefore, information regarding the investment strategy is not disclosed. The per-unit net asset value is determined each business day. Redemptions may be made on such days, which are based upon the closing market value on the valuation date of the investments bought or sold and the net asset value per unit. The trustee of the common/collective trusts reserves the right to value any withdrawal as of the next succeeding valuation date or another date as the trustee deems appropriate.

Insurance contract: The insurance contract is a fully benefit-responsive guaranteed interest account provided through a group annuity contract. The contract is a traditional investment contract, which meets the fully benefit-responsive investment contract criteria; therefore, the investment is reported at contract value. Under the terms of the group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Valuation Methods, Consistency - The valuation techniques used in the accompanying financial statements have been consistently applied.

Transactions and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Employer Contributions Receivable - Employer contributions due and not paid prior to year-end are recorded as employer contributions receivable. Contributions due as a result of payroll audits have been recorded net of an allowance equal to the amount due because collectability is uncertain. Therefore, delinquent contributions are recorded when received.

Service Credits Receivable - Service credits due from Massachusetts Mutual Life Insurance Company (MassMutual) (the investment custodian) and not paid prior to year-end are recorded as service credits receivable.

Cash - Cash includes demand-deposit checking and money market accounts.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in mutual funds, common/collective trusts, and an insurance contract. Such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty with respect to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

On March 11, 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID- 19) as a global pandemic. Management continues to evaluate the impact of COVID-19 on the Plan. Impacts of COVID-19 are not fully known at this time, nor can they be projected with any certainty. To the extent that contributing employers are negatively impacted by COVID-19 economic events, the Plan may also experience negative economic events in turn through reduction of participants and related contribution income. A reasonable estimate of the impact or potential impact of COVID-19 on the Plan as of the date of the financial statements cannot be made.

NOTE 2. DESCRIPTION OF THE PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

NOTE 2. DESCRIPTION OF THE PLAN (CONT'D)

General - The Plan is a defined contribution pension plan that was established on October 1, 1981, pursuant to the Agreement and Declaration of Trust between Stationary Engineers Local 39 and employers signatory to certain collective bargaining agreements.

The purpose of the Plan is to provide retirement benefits to eligible participants and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Investment Options - Contributions to the Plan are invested, as directed by the participants, in various mutual funds, common/collective trusts, and an insurance contract. Participants must evaluate their own investment goals and objectives and choose the investments best suited to achieve those goals and objectives. Poor investment performance by the investment funds selected by the participants may cause their balances to be lower than the amounts contributed to the Plan on their behalf. The trustees will establish or change investment funds or cease to accept further investments in previously approved investment funds as they deem appropriate, in their sole discretion. All contributions on behalf of participants who make no election will be invested in the fund designated by the trustees.

The trustees may establish rules and regulations for the administration of investments and the exercise of investment options under the Plan.

Participation and Vesting - The Plan's participants include current and retired employees of employers signatory to collective bargaining agreements that require contributions to be made to the Plan. Participant accounts are credited with the contributions made on their behalf and their allocable share of the Plan's investment income and expenses. A participant's right to the value of their individual account is nonforfeitable from the time that such an individual account is established.

Each participant's account is credited with (a) employer contributions paid on their behalf; (b) dividends or interest received as well as changes in the value of investments, which result in increases or decreases in the value of the account; and (c) expenses of operating the Plan, which are deducted quarterly. During the years ended December 31, 2021 and 2020, the quarterly participant deductions totaled $116,081 and $142,159, respectively.

Payment of Benefits - Participants of the Plan shall be entitled to distribution of their account:

- Regardless of age, if they have had no contributions on their behalf for at least three consecutive months;
- If they are receiving a pension from the Stationary Engineers Local 39 Pension Plan; and

NOTE 2. DESCRIPTION OF THE PLAN (CONT'D)

- In the event of complete and total disability (under the Social Security Act, a participant is entitled to distribution of their account).

In the event of the participant's death, the account balance will be distributed to the designated beneficiary or beneficiaries.

NOTE 3. PRIORITIES UPON TERMINATION

The Board of Trustees may amend or modify the Plan at any time in accordance with the trust agreement, except to reduce benefits approved for payment prior to the amendment or to reduce a participant's account other than for losses in the trust.

In the event of termination of the Plan, the assets remaining, after providing for the expenses of the Plan and for the payment of any account balance previously approved, shall be distributed among the participants. Each participant shall receive that part of the total remaining assets in the same ratio as his or her account balance is a percentage of account balances of all participants.

NOTE 4. TAX STATUS

The Plan obtained its latest determination letter, dated January 21, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Sections 410(b) and 401(a)(4) of the Internal Revenue Code and was, therefore, exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan's administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2021, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's administrator believes that the Plan is no longer subject to income tax examinations for the fiscal years prior to 2018.

NOTE 5. FUNDING POLICY

The participating employers contribute such amounts as are specified in the collective bargaining agreements.

NOTE 6. INVESTMENTS AT FAIR VALUE HIERARCHY

Assets measured at fair value on a recurring basis, based on their fair value hierarchy at December 31, 2021 and 2020, are as follows:

Description	December 31, 2021	Fair Value Measurements at Reporting Date Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
Assets in the fair value hierarchy		
Mutual funds	$ 224,080,674	$ 224,080,674
Investments measured at net asset value		
Common/collective trusts	2,910,541	
Total investments at fair value	$ 226,991,215	

Description	December 31, 2020	Fair Value Measurements at Reporting Date Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
Assets in the fair value hierarchy		
Mutual funds	$ 199,313,448	$ 199,313,448
Investments measured at net asset value		
Common/collective trusts	1,784,842	
Total investments at fair value	$ 201,098,290	

NOTE 7. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 7. INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONT'D)

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3% (based on the contract value). Such interest rates are reviewed every six months for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to, the following: (1) removal from the Plan of one or more groups or classifications of participants; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Plan's sponsor; (3) partial or complete Plan termination; or (4) Plan disqualification. The Plan's administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 8. RELATED ORGANIZATIONS

Members of the Plan's Board of Trustees are also members of the Boards of Trustees of Stationary Engineers Local 39 Health and Welfare and Pension Plans.

Employer contributions to Stationary Engineers Local 39 pension, annuity, and health and welfare plans are paid by employers with a single monthly check. Employer contributions are then allocated to the respective plans based on information received. As of December 31, 2021 and 2020, the amounts due from the Stationary Engineers Local 39 Pension Plan to the Plan totaled approximately $6,600 and $21,900, respectively. The amount due reflects employer contributions received by the pension plan, but not yet transferred to the Plan as of year-end.

NOTE 9. CASH CONCENTRATIONS

The Plan places its cash with financial institutions deemed to be creditworthy. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) for up to $250,000. Cash balances may at times exceed the FDIC-insured deposit limits.

NOTE 10. SUBSEQUENT EVENTS

Subsequent events were evaluated through the date on which the financial statements were available to be issued. This date is approximately the same as the independent auditors' report date.

ADVISORY TAX AUDIT

INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION

To the Participants and Trustees of
Stationary Engineers Local 39 Annuity Trust Fund

We have audited the financial statements of Stationary Engineers Local 39 Annuity Trust Fund as of and for the year ended December 31, 2021, and have issued our report thereon dated July 14, 2022, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying information, which appears on Schedule H - Financial Schedules (IRS Form 5500), is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Schedule H - Financial Schedules (IRS Form 5500) is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
