INDEPENDENT AUDITOR'S REPORT

Benefits Administrative Committee and
Investment Committee of the Retirement Plan for Employees of Matson

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Retirement Plan for Employees of Matson (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Retirement Plan for Employees of Matson (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete description of the Plan's provisions.

General: The Plan, sponsored by Matson, Inc. (the Company), is a defined benefit pension plan generally covering salaried non-bargaining unit employees of Matson Navigation Company, Inc.; Matson Navigation Company of Alaska, LLC; Matson Terminals, Inc.; Matson Freight Agencies, Inc.; Matson Services Company, Inc.; Matson Logistics, Inc. (except those first employed after 2005); Matson Leasing Company, Inc.; and Matson Logistics Solutions, Inc. The Plan also covers: (1) regular clerical employees covered by the collective bargaining agreement between Matson Navigation Company, Inc. and ILWU Local 142 Unit 4207, (2) retired Special Officer employees who had been covered by the collective bargaining agreement between Matson Terminals, Inc. and ILWU Local 160 (Special Officers), (3) employees covered by the collective bargaining agreement between Matson Terminals, Inc. and ILWU Local 100 Units 002, 005 and 006, and (4) regular clerical employees covered by the collective bargaining agreement between Matson Terminals, Inc. and ILWU Local 142, Unit 4208. The Benefits Administrative Committee of the Management of the Company controls and manages the operation and administration of the Plan. First Hawaiian Bank (the Trustee) serves as the trustee of the Plan, and together with several investment managers, manages the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendment: The Plan was amended effective June 29, 2021 to update Plan provisions surrounding pay credit eligibility.

Pension benefits: Generally, eligible employees become eligible to participate in the Plan after one year of service. Matson Logistics, Inc. employees first employed after 2005 are not eligible to participate in the Plan. Effective January 1, 1968, the Plan became noncontributory. The Plan's normal retirement age is 65 (62 for Special Officer employees). There are provisions for early and postponed retirement with relative adjustments in benefits. Normal retirement benefits are based on years of service and compensation. Generally, employees become fully vested after five years of service under the traditional defined benefit pension formula (traditional formula) or three years of service for employees covered under the cash balance benefits. If employees terminate before the earlier of normal retirement age or five years of service (or three years for those with cash balance benefits), they forfeit the right to receive their accumulated plan benefits upon retirement.

Retirement benefits under the cash balance formula are based on a fixed percentage of employee eligible compensation, plus interest. The Plan's interest credit rate will vary from year to year based on the 10 year U.S. Treasury rate. Upon termination of employment, the vested account can be paid out in the form of a lump sum or as a monthly annuity.

Retirement benefits for retired Special Officer employees are generally based on a flat dollar amount times years of service.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties: The Plan's investment in the Matson Retirement and Pension Trust (the Master Trust) utilizes various investment securities, including money market funds, equity securities, and fixed-income securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Valuation of interest in Master Trust: The Plan's interest in the Master Trust is stated at fair value, which has been determined based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date of the Master Trust.

The Master Trust holds investments in cash and cash equivalents, registered investment companies, common stocks, fixed income securities, and real estate partnership interests. The fair values of cash and cash equivalents, certain registered investment companies, common stocks and fixed income securities are based on quoted market prices. Other registered investment companies and real estate partnership interests are valued at the net asset value (NAV) as a practical expedient to estimate fair value. See Note 5 for additional information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the registered investment companies (mutual funds) are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Administrative expenses of the Plan are paid by the Master Trust, as provided in the Plan document.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Contribution receivable from employer: Contributions made by the Company that are attributable to the Plan year, but which were not paid as of year-end, have been recorded as a contribution receivable to the Plan.

Reclassification: Certain amounts presented in the December 31, 2020 fair value measurement table in Note 5 have been reclassified, as necessary, to be consistent with the 2021 presentation.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2021) through October 5, 2022, the date the financial statements were available to be issued.

Note 3. Funding Policy

Contributions to the Plan are made solely by the Company. The Company's funding policy is to make contributions to the Plan sufficient to meet the minimum funding requirements of the Internal Revenue Code (IRC) and ERISA as amended, along with any related regulations issued by the Internal Revenue Service (IRS) and Department of Labor (DOL). Matson may, at its sole discretion, make additional contributions to the Plan within the maximum deductible limits imposed by the IRC. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2021 and 2020.

Note 4. Interest in Master Trust

The Plan's investment assets are held in a trust account by the Trustee, and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Company's various pension plans for investment and administrative purposes. Although assets of multiple plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Stocks: Investments in common stock are valued at the closing price reported on the active market on which the securities are traded, on the last business day of the Plan year. Common stock is categorized as Level 1.

Cash and Cash Equivalents: Held primarily in short-term money market commingled funds, which are valued at cost plus accrued interest.

RETIREMENT PLAN FOR EMPLOYEES OF MATSON

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

Fixed-Income Securities: Corporate bonds and U.S. government treasury and agency securities are valued based upon the closing price reported in the active market in which the security is traded. U.S. government agency and corporate asset-backed securities may utilize models, such as a matrix pricing model, that incorporates other observable inputs, such as cash flow, security structure, or market information, when broker-dealer quotes are not available.

Real Estate Partnership Interests: The fair value of real estate funds is determined by the issuer based on the NAV of the funds. NAV is determined by dividing the fund's net assets, as recorded in the fund's audited financial statements, by the number of units outstanding at the valuation date. Fair value for underlying investments in real estate is determined through independent property appraisals.

The following tables set forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2021 and 2020:

Assets at Fair Value as of December 31, 2021

(a) In accordance with the Fair Value Measurement topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5. Fair Value Measurements (Continued)

Fair Value of Investments that Calculate NAV: Below is a summary of the Plan's Master Trust investments at December 31, 2021 and 2020, where fair value is estimated based on the NAV as a practical expedient:

Investment	Fair Value Estimated Using NAV per Share			
	December 31, 2021			
	Fair Value	Unfunded Commitment	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Real estate partnerships (b)	\$ 13,468,364	\$ -	Quarterly	45-90 days
Registered investment companies				
International large cap	19,232,617	-	Immediate	None
International small cap (emerging markets)	11,690,051	-	Immediate	None
Total	\$ 44,391,032	\$ -		

Investment	Fair Value Estimated Using NAV per Share			
	December 31, 2020			
	Fair Value	Unfunded Commitment	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Real estate partnerships (b)	\$ 11,462,781	\$ -	Quarterly	45-90 days
Registered investment companies				
International large cap	17,176,971	-	Immediate	None
International small cap (emerging markets)	13,253,971	-	Immediate	None
Total	\$ 41,893,723	\$ -		

(b) This class includes investments in limited partnership interests that invest in U.S. commercial real estate assets. The fair values of investments in this class are estimated using the NAV of the Plan's limited partnership interest in underlying assets of the investment. Distributions from the investment are received following a withdrawal request by the Plan. The fair value of each individual property is based on independent property appraisals and it is probable that all of the investments in this class will be sold at an amount different from the NAV of the Plan's partnership interest.

RETIREMENT PLAN FOR EMPLOYEES OF MATSON

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 6. Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and service. The accumulated plan benefits for salaried non-bargaining active employees are based on their frozen final pay formula benefit as of December 31, 2011, plus their cash balance benefit. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following table presents the actuarial present value of accumulated plan benefits at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 103,382,495	\$ 101,242,282
Other participants	<u>64,489,579</u>	<u>63,657,843</u>

Note 6. Accumulated Plan Benefits (Continued)

The following table presents the changes in accumulated plan benefits for the year ended December 31, 2021:

	<u>2021</u>
Actuarial present value of accumulated plan benefits - January 1, 2021	\$ 165,748,299
Increase (decrease) during the year attributable to:	
Increase due to the change in the discount period	11,112,537
Benefits payments	(12,918,973)
Present value of benefits accumulated	673,190
Actuarial assumption changes	<u>3,883,046</u>
Actuarial present value of accumulated plan benefits - December 31, 2021	<u><u>\$ 168,498,099</u></u>

Significant actuarial assumptions used in the actuarial present value of accumulated benefits at December 31, 2021 and 2020, are as follows:

- Mortality table used in December 31, 2021 valuation: Pri-2012 white collar mortality table along with modified mortality improvement scale MP-2021
- Mortality table used in December 31, 2020 valuation: Pri-2012 white collar mortality table along with modified mortality improvement scale MP-2019
- Retirement age assumptions (representative annual rates of retirement were used)
- Investment return: 6.75% and 7.00% per annum for 2021 and 2020

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The following is a summary of the unaudited information regarding the Plan as of December 31, 2021 and 2020, and for the year ended December 31, 2021 included in the Plan's financial statements that was prepared by or derived from information prepared by the Trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

Statement of changes in net assets available for benefits - net appreciation from interest in Master Trust		<u>2021</u> <u>\$ 31,355,014</u>

Notes 4 and 5: All investment balances and investment information have been certified by the Trustee, excluding the classification of investments by level in Note 5.

Note 8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

RETIREMENT PLAN FOR EMPLOYEES OF MATSON

NOTES TO FINANCIAL STATEMENTS

Note 9. Exempt Party-In-Interest Transactions

Certain investments in the Master Trust are invested in securities managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

Note 10. Federal Income Tax Status

The IRS has determined and informed the employer, by letter dated July 25, 2017, that the Plan and related trust are designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, the Benefits Administrative Committee and the Investment Committee believe the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax position that more likely than not would not be sustained upon examination by the IRS. No uncertain tax positions were recorded at December 31, 2021 and 2020. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each month/quarter/year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Benefit	If an active participant eligible for benefits is disabled and receiving benefits under the employer's long term disability plan, they will continue to accrue vesting service and credited service.
---------	--

PRE-RETIREMENT DEATH

Eligibility	Married at least 1 year, with a vested benefit or eligible for retirement.
Benefit	<p>The spouse receives 1/2 of the 50% Joint and Survivor benefit that would have been in effect had the participant terminated on the date of death and survived to the date payments commenced, and then died immediately thereafter. The benefit is reduced for early retirement if the requested commencement date is before the participant's normal retirement date.</p> <p>If the participant's death occurs before the normal retirement date, this benefit is deferred until the date the participant would have reached age 65 (or if the participant had at least 5 years of service at death, at the spouse's election, any time after the date the participant would have reached age 55).</p>

Alternative Benefit	If the participant has met the early retirement eligibility, the spouse receives an immediate monthly annuity equal to the following percentage of the normal retirement benefit, but not less than the surviving spouse's benefit described above:
---------------------	---

Surviving Spouse's Age at Participant's Date of Death	Percentage of Normal Retirement Benefit
53 and over	50%
45 through 52	45%
37 through 44	40%
30 through 36	35%
Under 30	30%

Schedule SB, Part V — Summary of Plan Provisions**BENEFITS INCLUDED OR EXCLUDED**

Unless noted below, all benefits provided by the plan, as restated effective June 29, 2012, are included in this valuation:

- **Most recent plan amendments included:** Amendments adopted after the valuation date and effective after the current plan year are included in the valuation.
 - For the Retirement Plan for Employees of Matson, the plan restatement dated April 1, 2018, amended through the third amendment
- **Plan amendments excluded:** Generally, amendments adopted after the valuation date and effective after the current plan year are not included in the valuation.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include any late retirement increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with their accrued benefits actuarially increased for late retirement, using the Unisex Pension 1984 Mortality Table set back two years for participant and seven years for contingent annuitants and an interest rate of 6.5% per year.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

IRC Section 436 benefit restrictions:

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2020 to 2021.
- For the Retirement Plan for Employees of Matson, eligibility includes collective bargained employees under Local 100 Unit 6. The amendment has no impact on the Plan's Funding Target liability since the amendment allowed continued participation for those transferring to this union after the effective date.

Schedule SB, line 24 — Change in Actuarial Assumptions**Actuarial assumption changes since prior valuation**

- Interest discount, mortality rates and cash balance annuity conversion assumptions were updated from 2020 to 2021 in accordance with PPA.
- Cash balance interest credit rate changed from a graded scale of 1.75% for 2020, phasing in to 3.75% for 2024 and later to a graded scale of 0.75% for 2021, phasing in to 3.25% for 2027 and later.
- The expected investment return is updated from 6.69% (limited by the third segment rate of 6.11%) for 2019 plan year to 6.00% (limited by the third segment rate of 5.94%) for 2020 plan year.
- The expense component of normal cost is updated from \$1,330,000 to \$820,000 to reflect expected change in administrative expenses.
